Pub Date—86

Note—287p.

Available from—W.W. Norton and Company, Inc., 500 Fifth Ave., New York, NY 10110 ($6.00). The accompanying film series is available from Karol Media, 22 Riverside Drive, Wayne, NJ 07470-3191 ($80.00).

Pub Type— Guides - Classroom - Teacher (052)

**EDRS Price - MF01/PC12 Plus Postage.**

Descriptors—Elementary Secondary Education, Humor, *Instructional Films, Instructional Materials, Learning Activities, *Mathematical Applications, Mathematical Enrichment, *Mathematics Education, Motivation, *Problem Solving, Student Attitudes, Teaching Methods

Identifiers—*Challenge of the Unknown (Film)

This teaching guide accompanies the film series "Challenge of the Unknown," which focuses on problem solving in the real world. The guide is designed to bridge the gap between the concepts presented in the films and their classroom applications, by answering teachers' questions and needs and providing a variety of possible activities. Seven chapters, each corresponding to one of the films, concern orienteering, information, restatement, outcomes, management, estimation, and argument. Chapters contain sections, each developing differing aspects of the film. The first part of each chapter is a preview defining and explaining the problem-solving ideas covered. A fact sheet, a classroom discussion situation, a brief rationale, and a group of short exercises for getting started are included in this part. The second section, on problem creating, provides sample student-teacher dialogues, problem ideas from the film, and student problems. In the next section, the focus is on material in the films themselves, with answers to some questions and attention to some areas in which curiosity might be channeled in the classrooms. Each chapter closes with a selection of exercises related to the skill being addressed in the film. A bibliography is included. (MNS)

Descriptors—Biology, Chemistry, *Competition, High Schools, Physics, Science Education, *Science Instruction, *Secondary School Science

Following discussions between Itawamba Junior College (Fulton, Mississippi) and local high school science teachers, a periodic science competition was established for students in high schools located in the college's five-county area. The first competition was held in 1983 during which students took written tests in biology, chemistry, and physics. In addition, a team competition was held between four member teams from each participating school. The purpose of the competition was to provide information to teachers on the performance of their students and also to provide a means for teachers to come together to discuss problems confronting them in teaching their science courses. General comments about the competition and an outline of the 1985 high school competition are presented. The outline includes information about the general and team competitions, instructions, and time schedule. (JN)

Identifiers—Science Education Research

Despite a strong tradition of research and practical applications involving perceptions of psychosocial environment in elementary and secondary science classes, surprisingly little analogous work has been conducted at the tertiary level. Consequently, in order to facilitate such work, a new instrument called the College and University Classroom Environment Inventory (CUCEI) was developed to assess students' or teachers' perceptions of several dimensions of the actual or preferred environment (for example, personalization, involvement, task orientation, individualization) of small university or college classes often referred to as

seminars or tutorials. Validation data collected from a total sample of 499 students and 20 instructors supported each scale's internal consistency, reliability and discriminant validity. Potentially useful applications of the instrument for research purposes and for improving teaching in higher education are considered. (A copy of CUCEI is included in an appendix.) (Author/JN)

Identifiers—Science Education Research, *Work Environment Scale (Moos)

This paper begins with an overview of several instruments for assessing the school environment, focusing on Moos's Work Environment Scale (WES). Although the WES was designed for use in any work milieu, its 10 dimensions of work environment (involvement, peer cohesion, staff support, autonomy, task orientation, work pressure, clarity, control, innovation, and physical comfort) seem well suited to describing salient features of the teacher's school environment. The second part of the paper considers the validity of the WES when used for the first time specifically with school teachers. For example, administration of a slightly reworded version to 114 science teachers in 35 high schools revealed KR-20 reliability coefficients ranging from 0.60 to 0.85. The WES has now been cross-validated with larger samples of elementary and high school teachers responding to both an actual form (N=599) and a preferred form (N=543). Data analyses attest to the internal consistency, reliability and discriminant validity of both WES forms. The third part of the paper considers applications of the WES in science education and, in particular, presents profiles depicting interesting differences in the environments of elementary schools and high schools. For example, high school teachers (compared to elementary teachers) characterized their school environments as involving less work pressure. (Author/JN)

Identifiers—*Indonesia, Science Education Research

A three-phase study, with a different sample for each phase, involved a total of 1125 secondary school students in Indonesia. The first phase involving 373 grade 8 and 9 students was used to develop and validate an Indonesian classroom environment instrument with eight scales based on the Individualized Classroom Environment Questionnaire and the Classroom Environment Scale. In the second phase of the study, 502 Indonesian science students in grades 11 and 12 were involved in a translation, adaptation, and validation of a four-scale Indonesian version of the Test of Science-Related Attitudes. In the third phase, these new Indonesian attitude and environment scales were used with another sample of 250 Indonesian biology students in an investigation of the effects of classroom psychosocial environment on students' science-related attitudes. The finding of statistically significant associations between environment and attitudes replicated much prior work in science classrooms in developed countries. For example, more favorable science-related attitudes on several scales were found in classes perceived as having more personalization, participation, investigation, order, and organization. Pub Type— Reports - Research (143) — Speeches/Meeting Papers (150)

EDRS Price - MF01/PC01 Plus Postage.

Descriptors—*Academic Aspiration, *Achievement Need, Adolescents, *Extracurricular Activities, Junior High Schools, Mathematics Education, Predictor Variables, Science Education, *Secondary School Mathematics, *Sex Differences, Socialization, *Student Attitudes, Student Participation

This study investigated achievement attitudes of young, mathematically able adolescents in order to examine differences between boys and girls equated for ability, and to explore relationships between self-perceptions, aspirations, and extra-curricular activities related to mathematics, science, or computers. The research was guided by the expectancy-value theory of achievement motivation as elaborated in a social-psychological model of academic behavior specific to the domain of mathematics. The study holds performance constant, measures persistence and choice by self-reports of plans for future studies and careers, adopts Eccles' operationalizations of individual cognitions, and adds the variable of extra-curricular mathematics, science, or computer activity as the best available indicator of socialization. Findings (based on data obtained from 242 seventh- and eighth-grade students) show no sex differences in assessments of the difficulty or usefulness of mathematics and lower expectancies for success in current and future mathematics studies reported by girls. These and other results suggest that, compared to girls, boys are obtaining more experience in applying, strengthening, and expanding school learning related to mathematics and are, in turn, bringing different entry competencies and wider perspectives to mathematics and science classrooms. Descriptors—*College Science, *Course Content, Higher Education, High Schools, *Physics, Science Education, *Science History, *Scientific Concepts, *Secondary School Science

The twentieth century has witnessed a burst of discovery in physics unparalleled in human history. Despite the fact that general relativity and quantum mechanics are well over half a century old, introductory physics classes in high schools, colleges, and universities essentially ignore them. These two seminal ideas, the phenomena of superconductivity (teens), holography and nuclear fission (1940s) nuclear fusion and semiconductor physics (1950s), maser and laser physics (1950s and 1960s), explication of phase changes (1960s and 1970s), gauge theories and QCD (1970s), and unification of cosmology and particle physics (1980s) are all but ignored. Mere mention of these, as well as nuclear magnetic resonance (NMR) and radiotherapy used in medicine, would help to give students a feeling for the diversity and vitality of physics and its attendant technology. A few examples integrating vital fields of physics into a normal curriculum are given. (Author/JN)

The capabilities and applications of interactive video in science education are examined in four chapters. Chapter 1 discusses technology in science education, providing a comparative evaluation of interactive videodisc (IVD) systems and the microcomputer. Specific uses of microcomputers in science education are noted. Chapter 2 is a discussion of the current state of science education, considering: the theoretical base/conceptual framework/goals and objectives in science education; teachers; textbooks; curriculum; inadequate resources; declining enrollment; and public and federal support as well as financial and budgetary considerations and attitudes. Chapter 3 offers insights into the role of the laboratory in science education. Chapter 4 focuses on the problem areas in science education and laboratory settings and on how IVD systems may help alleviate some of those problems related to laboratories and to the areas addressed in chapter 2. Specific recommendations are offered when applicable, cautioning that proper in-service training for teachers and users of these systems is needed. Bibliographic citations and a paper by John C. Ittelson titled "Videodisc and Microcomputer Applications and Software" are provided in the appendices. (JN)

Descriptors—*Astronomy, *College Science, *Demonstrations (Educational), Higher Education, Physics, Science Education

Demonstrations in astronomy classes seem to be more necessary than in physics classes for three reasons. First, many of the events are very large scale and impossibly remote from human senses. Secondly, while physics courses use discussions of one- and two-dimensional motion, three-dimensional motion is the normal situation in astronomy; thus, there is greater complexity. Thirdly, students attracted to popular astronomy courses seem less equipped to follow mathematical concepts. For these and other reasons, good astronomy demonstrations must be developed. Four such demonstrations are described: (1) lunar diurnal tides; (2) elliptical orbits of binary stars (in which a set of two or more charts is used to explain details of the motion of binary stars, especially the relationship between theoretical motion and actual appearance from the viewer's vantage point on earth); (3) eclipse motion; and (4) absorption spectra, noting that absorption cells containing solutions of rare earth compounds are better for use with large classes than sodium flames. Identifiers—*Thinking Skills

This book first discusses the need for teaching thinking. Each of its eight chapters is devoted to a

different approach to teaching thinking in our schools. In the discussion of each, key questions are considered and summarized, concerning assumptions, goals, methods and materials, the target audience, teacher qualifications, benefits, and special problems. The chapters focus on: (1) CoRT Thinking Lessons, (2) Productive Thinking Program, (3) Philosophy for Children, (4) Odyssey, (5) Instrumental Enrichment, (6) Problem Solving and Comprehension, (7) Techniques of Learning, and (8) Thoughtful Teaching. A concluding chapter discusses 10 points on which most of the program developers agree, and 10 common hazards. (MNS)

Identifiers—*Helicopters

A fly-only group (N=16) of Navy replacement pilots undergoing fleet readiness training in the SH-3 helicopter was compared with groups pretrained on Device 2F64C with: (1) visual only (N=13); (2) no visual/no motion (N=14); and (3) one visual plus motion group (N=19). Groups were compared for their SH-3 helicopter performance in the transition stage of contact flight training. All criterion measures, such as trials-to-mastery, the number of flights and number of hours in the transition stage of flight training, were generally consistent. Transfer ratios, averaged across the three criterion measures, resulted in the best transfer of training under visual plus motion conditions (TR=.31) and about equal transfer for motion only (TR=.22), visual only (TR=.23), and no visual/no motion groups (TR=.24). While all device features reduced the effort for pilot transition to the SH-3 helicopter, the particular task was more important in determining transfer than the device feature used in training the task. Identifiers—*Environmental Issues

The relationships between earth's resources and the human future and the challenges of maintaining a sustainable environment were probed at an international conference sponsored by the World Resources Institute. A synthesis of the conference's reports, perspectives, and plans for action are presented in this document. The position supported by the conference participants is summarized in a general statement that calls for action and changes in meeting environmental challenges. An agenda for action is outlined. Recommendations for policies and initiatives are stated for specific environmental areas. These include: (i) population, poverty, and development; (2) urban environment; (3) fresh water; (4) biological diversity; (5) tropical forests; (6) agricultural land; (7) living marine resources; (8) energy; (9) non-fuel minerals; (10) atmosphere and climate; (11) international assistance; (12) capabilities assessment; and (13) business, science, and citizens. An episodic and activity oriented approach is employed in this unit that illustrates the theme of interdependence of living things. Concepts related to dependence, competition, community, and ecosystems are developed through a case study of a raccoon problem. Various means of solving the raccoon problem are explored within a societal context. Five episodes comprise the unit. Each episode contains: (1) a suggested time requirement; (2) curriculum summary (describing the content, objectives, behaviorial evaluation examples, and teaching essentials); and (3) a teaching approach (providing instructional suggestions). Teachers and student resource sheets that were designed to accompany the episodes are included in the appendices. (ML)

Identifiers—Asia (Southeast)

This document is the final report of the Regional Training Workshop for the Development of Materials for Mathematics Education in Asia and the Pacific, using a problem-solving approach. The workshop was committed to identifying materials which are readily available at low cost, in sufficient quantities to be used by children in classrooms in any country within the region. In the introductory chapter, the objectives and procedures of the workshop are described. Chapter 2 discusses priorities in teaching and learning. Research and the rationale for using materials, what a problem-solving approach means, key topics, and materials to be used are described. In chapter 3, lesson plans for eight key topics illustrate the development of problem-solving strategies and attitudes through the use of concrete and semi-concrete materials. Four lesson plans are then provided in which the content area is subordinate to the major focus on problem solving. Chapter 4 highlights strategies to encourage the use of instructional materials. Appendices include responses to a questionnaire concerning the mathematics curriculum, background information on manipulative materials, and a summary of their expected role. (MNS)

Identifiers—*Israel, Science Education Research

The study compares the achievement of Jewish and Arab students in the high school biology matriculation examinations in Israel with special reference to differences between boys and girls. While Jewish and Arab students follow the same syllabus and take identical matriculation examinations, significant differences exist in learning and achievement patterns. Major differences reported include: (1) girl:boy ratio of Jewish biology majors is 3:1 compared with 1:1 for the Arab biology majors; (2) Arab and Jewish girls achieve generally as well as boys; (3) Jewish students achieve better especially on tasks which require higher cognitive abilities; (4) Arab student have, on the average, more difficulty in handling multiple choice items; (5) the differences between Jewish and Arab students in paper and pencil tests are substantially larger than those obtained in practical laboratory tests; and (6) the gap between Jewish and Arab students appears to be closing especially in tasks which require either lower cognitive abilities or simple process laboratory skills. Possible reasons for the differences found and trends identified are discussed. (Author/ML)

Descriptors—College Students, *Comprehension, *Concept Formation, Elementary Education, Elementary School Students, *Light, *Misconceptions, Preservice Teacher Education, *Science Education, *Science Instruction, *Vision

This paper examines work in eliciting conceptions of light and vision that are held by naive learners and about some promising instructional strategies that emerge from this work. Naive learners are defined as subjects that have not had formal exposure to the physics of light, particularly elementary school children who were interviewed in the informal setting of an interactive museum and prospective elementary school teachers in a college science class. Sections of the paper discuss: (1) historical aspects of explanations dealing with visual phenomena; (2) children's conceptions which were elicited during their experiences with museum exhibits (focusing on intermittent and extended light sources); (3) research strategies used to identify children's preconceptions; and (4) a four-step prescription for teaching. This prescription (which involves eliciting, confronting, engaging, and extending) is used with portable, easy-to-make versions of exhibits which are taken to children's workshops and to college classes for preservice teachers. Descriptors—Elementary Secondary Education, Material Development, *Reading Instruction, *Research Needs, *Science Education, Science Materials, *Textbooks
Identifiers—*Science Education Research
A survey of the literature on science and reading research supports the identification of six potential foci and numerous interactions for future research related to science and reading. These six areas are: (1) nature of science and science education; (2) nature of the reading process (outlining Holliday's 10 rules for designing effective science texts); (3) nature of science text; (4) nature of the reader; (5) teachers' attitudes toward and knowledge about science reading; and (6) instructional uses and strategies related to science reading. Research needs related to each of these areas are addressed. For example, it is noted that research is needed to more clearly describe the nature of science, its influences on science education, and the role textual materials and print processing play in science and science education. Other research needs to focus on new assessment techniques that more closely reflect the interactive-constructive reading process that critically involves both the text and the reader, on the teacher's personal attitudes toward and knowledge about science reading, and on whether the science textbook is used as the initial source of data or if it is used as an instructional supplement to reinforce and enrich concepts initiated by concrete experience, demonstration, or lecture. Identifiers—California, *Mathematics Education Research
This study investigated the rates of successful mathematical performance and errors of information processing in third-grade children in California and continued an investigation of these factors in sixth-grade children. The objectives were to: (1) identify areas of mathematics in which the children had recognizable strengths and weaknesses, (2) classify characteristic areas according to information-processing theory, and (3) relate the errors made by third graders in 1980 with errors made by the same children as sixth graders in 1983. Approximately 25,000 children in each grade were tested for each year using data from the Survey of Basic Skills in the California Assessment Program. The tests and population are first briefly discussed, followed by the results of the analyses. For each grade level, discussion focuses on: correct performance by categories –computation, counting/number property, word problems (using operations), visual problems, geometry/measurement problems, and nontraditional story problems; the most difficult items; scores on matched items (computation and applications); and errors. Then the longitudinal analysis is dicussed. Girls appear stronger than boys in grade 3 and boys were stronger than girls in grade 6. References and sample items are included in the appendix. (MNS)

Descriptors—*Chemistry, Computer Software, High Schools, *Physics, Science Education, *Science Experiments, *Secondary School Science
This document contains the listings for 46 computer programs which are designed to teach various concepts in chemistry and physics. Significant time was spent in writing programs in which students would input chemical and physical data from their laboratory experiments. No significant time was spent writing drill and practice programs other than assistance programs in unit conversions. The programs were written in BASIC language on an Apple II+ microcomputer with a language card, but they will rerun on Apple IIe and IIc microcomputers as well. Topic areas of the programs include: clock; cloud chamber; coefficient of friction; Coulomb's law; density; E field; enthalpy; gas; half life; ideal gas law; inclined plane; molar relationships; two-dimensional collisions; metric conversion; Ohm's law; pendulums; projectile motion; refraction; relativity; vector addition; velocity; waves; and others. These programs are offered as a beginning upon which users can build and modify. Several programs call for B-files (particularly those involving graphics). Since these files are written in machine code, they are not listed in this document. Users can create their own graphics or can send blank disks to obtain copies of the B files. (JN)

Report No.—ISBN-0-87353-230-9
Pub Date—86
Note—143p.
Available from—National Council of Teachers of Mathematics, 1906 Association Drive, Reston, VA 22091 ($6.50, 10 or more discount of 20%).
Pub Type— Guides - Classroom - Learner (051) — Guides - Classroom - Teacher (052)
**Document Not Available from EDRS.**
Descriptors—Computation, Elementary Education, *Elementary School Mathematics, Geometric Concepts, Instructional Materials, Intermediate Grades, *Learning Activities, *Mathematics Instruction, Measurement, Number Concepts, Problem Solving, Teaching Methods, Worksheets
Activities from the "IDEAS" department which appeared in the "Arithmetic Teacher" between 1980 and 1985 were selected for this publication, designed for students in grades 4 through 6. The activities were reprinted just as they originally appeared in the journals. The selections are arranged according to the major topical areas of the curriculum: numeration, whole number computation, rational numbers, geometry, measurement, and problem solving. Pages are perforated so they can be removed and duplicated for classroom use. Each activity sheet has directions for the teacher, answers, and suggested grade levels. (MNS)

Identifiers—*North Carolina
After the passage of the North Carolina Elementary and Secondary School Reform Act of 1984, curriculum revision began. This handbook provides a detailed and integrated basic course of study for the revised curriculum in mathematics for grades K-12. The philosophy and rationale for the entire curriculum are first discussed, followed by sections on thinking skills and on programs for exceptional children. How to use the handbook is described. Mathematics is then considered including course of study and learning outcomes. The bulk of the document expands on the goals for each grade level, with objectives and suggested measures listed by mathematical skill. Numeration, whole numbers, fractions, measurement, geometry, probability and statistics are outlined for kindergarten. Decimals are added in grade 2; ratio, proportion, and percent and integers are added in grade 7; and real numbers and algebra are added in grade 8. For the secondary school, both non-college preparatory courses (General Mathematics, Consumer Mathematics, Technical Mathematics, and Introductory Algebra Parts I and II) and college preparatory courses (Algebra I, Geometry, Algebra II, Advanced Mathematics and Calculus) are outlined. Appendices present background information and requirements. (MNS)

Identifiers—Effective Schools Project, *North Carolina
An integrated competency-based course of study in the sciences is provided in the handbook for North Carolina teachers of grades K-12. Recommended goals, objectives, and suggested measures for each subject and skill area related to the sciences are outlined. This guide contains: (1) an introduction (defining North Carolina's basic educational program); (2) philosophy and rationale (highlighting the characteristics of effective teachers and schools); (3) thinking skills (providing explanations and examples for each specified category of thinking and questioning skills); (4) programs for exceptional children (explaining the purposes and curricular goals for special needs learners); (5) notes for handbook users (including directives and suggestions in the use of this guide). The science competency-based curriculum is explained by grade level and subject area. Topic outlines are provided. Appendices contain course requirements and standards, testing and textbook information and state guidelines and services. (ML)

Identifiers—*California
To assist school districts in selecting science instructional materials, the California State Department of Education has developed detailed descriptions of state-adopted elementary programs and texts. This guide includes an annotated index of all adopted materials and separate descriptions for each program or series. The index contains a listing of the program's title, copyright year, grade levels and readability levels. Each program description includes sections on: (1) contents coverage (addressing the areas of science, technology, and society and the biological, earth, and physical sciences); (2) teaching and learning activities; (3) organization of topics and activities; (4) ancillary materials; (5) teacher materials; (6) assessment and evaluation techniques; (7) implementation requirements; and (8) areas needing supplementation. Identifiers—*California

This framework gives direction for the development of mathematics programs in California schools. The introductory chapter discusses expectations and responsibilities: problem solving, calculator technology, computational skills, estimation and mental arithmetic, and computers in mathematics education; implementation of the recommended program, with the need for major changes in testing procedures, textbook development, and teacher preservice and in-service education are described. In chapter 2, the content and structure of the mathematics program are discussed, with sections on number, measurement, geometry, patterns and functions, statistics and probability, logic, and algebra. The third chapter focuses on the delivery of instruction in mathematics, considering teaching for understanding, reinforcement of concepts and skills, problem solving, situational lessons, use of concrete materials, flexibility of instruction, corrective instruction/remediation, cooperative learning groups, mathematical language, and questioning and responding. Standards for mathematics textbooks are presented in chapter 4. Chapters 5 through 8 discuss mathematics programs for kindergarten through grade 3, grade 3 through 6, grades 6 through 8, and grades 9 through 12, with suggested contents for each. An appendix describes two courses for preservice education. (MNS)

**EDRS Price - MF01/PC03 Plus Postage.**
Descriptors—Calculators, Educational Research, Foreign Countries, Junior High Schools, *Junior High School Students, *Mathematics Instruction, *Secondary School Mathematics, Teacher Attitudes, *Teacher Characteristics, *Teacher Effectiveness, *Teaching Methods, Time Factors (Learning)
Identifiers—Hawaii, Japan, *Mathematics Education Research

Mathematics instruction in junior high schools in Tokyo and Hawaii was compared in order to gain knowledge of how mathematics teachers' effectiveness in the classroom may be improved. Because they were likely to influence teachers' behavior, these factors were considered: teachers' background and teaching load, allocation of time, views on effective teaching, relative emphasis of instructional objectives, instructional behavior, and use of calculators. The 89-item questionnaire is included in the appendix, with two items about Juki institutions in Japan. In Tokyo, 100 schools were randomly selected and each was sent two questionnaires; 67 replies were received. In Hawaii, all 90 schools were invited to participate; 71 questionnaires were returned. Among the results are: (1) in Hawaii, the percent of female teachers is about twice that in Japan; (2) teachers in Hawaii take fewer mathematics methods courses; (3) the class period is shorter but the number of school days greater in Tokyo; (4) teachers in Hawaii spend twice as much time grading papers and tests; (5) teachers in Hawaii spend more time explaining new homework, while Tokyo teachers spend more time lecturing or explaining to the whole class; and (6) calculators are used more in Hawaii than in Tokyo. (MNS)

Descriptors—Elementary Secondary Education, Higher Education, *Mathematics Education, Performance Factors, *Research Needs, *Science Education, *Teacher Education, *Teacher Effectiveness, *Teacher Recruitment

Thirty-five experts from several fields of research participated in a discussion to explore whether future research is needed on issues related to teacher quality, what kinds of research are needed, and in particular, what issues could best be addressed by a National Research Council study of teacher quality in elementary/secondary science and mathematics. Findings and recommendations that define needed research on teacher quality (which has direct relevance to policies concerning teacher training, development, and selection) are grouped into the following six categories: (1) studies to assist recruitment and selection of teachers; (2) studies on education of teachers: subject matter proficiency; (3) studies on evaluation of teachers development of teaching skills; (4) studies on effects of teaching practices; (5) studies on conditions fostering quality teaching; and (6) studies on societal issues related to teacher quality in science and mathematics. Two recommendations (related to the first category) include investigating effects of state and local policies which set new standards for entry into the teaching profession and analyses of the relationship between teacher supply and demand issues and quality issues, such as the effect of non-certified and "out-of-field" teachers on quality, and implications of differing criteria of "qualified." Identifiers—*Indicators

This commitee of the National Research Council was established to develop improved indicators of mathematics and science education. In its first report, the committee used a model of education consisting of inputs, processes, and outcomes. Indicators recommended in these areas include teacher quantity and quality, quality of the curriculum content, instructional time and course enrollment in science and mathematics, and student achievement. Data and information currently available on these indicators are summarized and their adequacy assessed. Conclusions on how to improve the database are provided. The committee's current work is also summarized. Areas currently under consideration for development of indicators include resource investments in mathematics and science education, assessing teaching effectiveness, further consideraton of curriculum quality indicators, improving the assessment of learning, assessing attitudes and motivation, and indicators of science literacy in the general population. Pretests and posttests on the topic of evolution through natural selection were administered to students in a college nonmajors' biology course. Analysis of test responses revealed that most students understood evolution as a process in which species respond to environmental conditions by changing gradually over time. Student thinking differed from accepted biological theory in that: (1) changes in traits were attributed to a need-driven adaptative process rather than a random genetic mutation and sexual recombination; (2) no role was assigned to variation within a population or differences in reproductive success; and (3) traits were seen as gradually changing in all members of population. Although students had taken an average of 1.9 years of previous biology courses, performance on the pretest was uniformly low; there was no relationship between the amount of previous biology taken and either pretest or posttest performance. Belief in the truthfulness of evolutionary theory was also unrelated to pretest or posttest performance. Course instruction using specially designed materials was moderately successfully in improving students' understanding of the evolutionary process. (Author)

Identifiers—*California

Needs pertaining to changes in standards for California higher education facilities for the disciplines of engineering and the biological and physical sciences are reviewed in this publication. Aspects related to the study include: (1) a history of how space and utilization standards have been developed in California; (2) an overview of the mechanics for standards development; (3) a summary of space and utilization standards used in other states; (4) selected views of university officials on current standards for engineering and the natural sciences; (5) an analysis of changes over recent decades that have affected space needs; and (6) findings, conclusions, and recommendations of the study commission. It is proposed that implementation of the recommendations cover a two year interim period and that a more comprehensive plan be developed for the future. (ML)

neering, Equal Opportunities (Jobs), Females, Higher Education, Promotion (Occupational), *Researchers, *Science Careers, Science Education, *Scientists, *Sex Fairness
Identifiers—*National Science Foundation
Conditions and elements that affect women's participation in the sciences and career advancement opportunities are examined in this report. A review of the status of women scientists as well as descriptions of strategies for increasing participation in the sciences are presented. In the status reports, gender-stereotyped career expectations and the differential treatment of women in the work force were identified as major impediments to participation in science and technology related fields. The differential treatment of women was believed to be the most serious violation of the principle of equality of opportunity. Two major intervention programs have been designed and are being monitored by the National Science Foundation (NSF). These are: (1) the "Research Opportunities for Women Scientists and Engineers" (ROW) program which awards grants to women who have not previously been principal investigators on NSF grants, or who are reentering the research community after a period of absence; and (2) the "Visiting Professorships for Women" (VPW) program which enables the scientist to conduct advanced research at a host institution and also undertake lecturing, counseling and other activities to increase visibility and to provide encouragement for other women. Eligibility requirements and status reviews for each of the programs are discussed. (ML)

Identifiers—Science Education Research
The characteristics and components of scientific literacy are reviewed and analyzed in this report. Perspectives are given on textbook use, content, emphases and applications of the dimensions of scientific literacy. The distinctive features of the curriculum reform projects of the 1960's and 1970's are also discussed and their impacts are assessed. A report follows of an investigation that assessed the extent to which recently published textbooks (1984 to 1986) appeared to promote scientific literacy. Nine elementary science (K-6) textbook series and one non-textbook program were analyzed. Areas reviewed include: (1) science topic coverage; (2) the nature and methods of science; (3) science, technology, and society; (4) content organization; and (5) teaching and learning activities. An examination of the programs indicates that although the programs cover science content, they do not promote or encourage the development of scientific thinking or attitudes nor do they engage students in applying the cognitive processes that are basic to understanding the content covered. Identifiers—Gulf of Mexico, *Parasitology, *Symbiosis
Parasites and related symbionts of marine and estuarine hosts of the northern Gulf of Mexico are described in this guidebook. It is meant primarily to serve as a teaching aid for the novice student, but it also contains more technical aspects for the experienced parasitologist. Forms and examples of symbiosis are explained in an introductory statement. Information, diagrams, and illustrations on the various hosts of parasites are then presented in separate sections. These include: (1) invertebrates as hosts (highlighting symbionts of the American oyster; blue crab, penaeid and grass shrimp); (2) vertebrates as hosts (concentrating on parasites of fishes, the alligator, birds, and marine mammals); (3) miscellaneous symbionts (explaining the infestations by selected nematodes, flatworms, barnacles, and gnats); (4) fish-kills and miscellaneous diseases (identifying causal factors contributing to the kills); and (5) technical aspects (citing research findings related to the specific organisms covered in preceding sections). A listing is provided of all the referenced literature and a glossary is also included of the common terms related to symbionts. (ML)

Identifiers—Gulf of Mexico, *Invertebrates, *Tidal Marshes
The major groups of marine and estuarine macroinvertebrates of the tidal marshes of the northern Gulf of Mexico are described in this guide for students, taxonomists and generalists. Information on the recognition characteristics, distribution, habitat, and biology of salt marsh species from the coelenterate, annelid, mollusk and arthropod phyla is given. The taxonomy of some species is clarified. Most of the species discussed are illustrated. Binomial scientific names are used in the guide, but common names are provided when known. The authorities who originally named and described the species and the year in which it was described are credited. A bibliography of related publications is given. Taxonomic keys and schematic drawings of some polychaete worms, mollusks, and crustaceans associated with tidal marshes are also provided. A glossary contains frequently used terms associated with organisms of the tidal marsh. (ML)

Identifiers—*Mathematics Education Research
A case study of a seventh-grade mathematics classroom was conducted for almost three months in 1985-86. The purpose was to investigate factors related to mathematics achievement. The 16 students consisted of 4 black females, 3 black males, 5 white females, and 4 white males; the teacher was a black male. The data came from field notes and audio recordings of 45 class sessions, systematic coding of teacher-student interactions, artifacts gathered during the classroom observations, student permanent school records, student attitude questionnaires, and interviews conducted with the teacher and with each student. Two tentative conclusions based on the data are: (1) teacher intentionality must be considered in order to understand teacher-student interactions and (2) differential student outcomes result not only from intended and unintended differential teacher treatment of students but also from equal teacher treatment of students. (Author/MNS)

Identifiers—*Mathematics Education Research
Results of a study designed to gather evidence about the effect of student's overt verbalization on performance and retention after instruction on a set of geometric concepts are reported. The independent variable, overt verbalization, was manipulated following the procedure used by Pereira (1973) which involved an experimenter questioning subjects during and after instruction. Instruction was carried out using semi-programmed materials developed by Frayer (1970) concerning terms and concepts related to geometric figures. The sample was 40 sixth-grade girls drawn randomly from 76 volunteers in three Wisconsin parochial schools. The results on both a terminal test and a retention test failed to indicate a significant main effect for either type of verbalization (during or after instruction). In retrospect, a different study with a more adequate instructional program is warranted to test the hypotheses under investigation. Appendices contain the instructional materials. (Author/MNS)

Reported are data from the first individual interview conducted in 1978 as part of a 3-year study on addition and subtraction using verbal problem solving. The research program is attempting to relate pupil performance on selected arithmetic skills to pupil cognitive processes, instructional materials, and teachers' classroom behaviors. From three schools in Wisconsin that used the Developing Mathematical Processes program, 150 first-grade children were individually administered six problem types (two solvable by addition and four solvable by subtraction) given under four conditions involving size of number and presence or absence of manipulative materials. Answers were coded by model, correctness, and strategy. Discussed first are individual student profiles, followed by a summary of behaviors by task and level. Difficulty levels, response patterns, strategies, and errors are each discussed next. Finally, secondary analyses of data are presented, considering the relationship of strategy to correctness, model to correctness, and consistency of response. Appendices contain sample problem tasks and individual student profiles. (MNS)

Reported are data from the second individual interview conducted in 1979 as part of a 3-year study on addition and subtraction using verbal problem solving. From three schools in Wisconsin that used the Developing Mathematical Processes program, 150 first-grade children were individually administered six problem types (two solvable by addition and four solvable by subtraction) given under four conditions involving size of number and presence or absence of manipulative materials. Answers were coded by model, correctness, and strategy. Discussed first are individual student profiles, followed by a summary of behaviors by task and level. Levels of difficulty, the comparative difficulty of addition and subtraction, the similarity of response patterns for the two addition tasks, subtraction strategies and problem structure, mental strategies, less frequently occurring strategies, and errors are each discussed. Finally, secondary analyses of data are presented. Appendices contain sample problem tasks and individual student profiles. (MNS)

This paper describes the various procedures associated with the individual interviews that are part of the data gathering processes of the Coordinated Study being carried out by the Mathematics Work Group of the Wisconsin Research and Development Center for Individualized Schooling. The first major section describes the six basic verbal addition and subtraction problem types used in the study, how they were selected and how they are varied by substitution of verbal and numerical terms. The second section briefly characterizes the general interview procedures and verbal protocols. The final section gives definitions of the various student behaviors that can be expected in response to the presentation of the verbal problems. The behaviors are classified by models, correctness, strategies, and errors. (Author)

Data are reported from the fourth individual interview conducted in 1979 as part of a 3-year study on addition and subtraction using verbal problem solving. Ninety-nine second-grade children in two schools in Wisconsin that used the Developing Mathematical Processes program were individually administered six problem types (two solvable by addition and four solvable by subtraction) given under four conditions involving size of numbers and presence or absence of manipulative materials. Answers were coded by model, correctness, and strategy. Individual student profiles are discussed first, followed by a summary of pupil response data. Data are reported from the first and second individual interviews conducted in 1980 in the second phase of a 3-year study on addition and subtraction using verbal problem solving. The second phase is concerned with children's performance on verbal addition and subtraction problems which contain two-digit numbers, half of which require regrouping for correct computational solutions. Ninety-six second-grade children in two schools in Wisconsin that used the Developing Mathematical Processes program were individually administered 12 verbal problems that could be solved using addition or subtraction. Responses were coded in terms of appropriateness of strategy, correct or incorrect answer, type of error, mode of representation, and solution strategy. Group data on the problems as well as information on individual subjects are reported. Appendices contain sample problem tasks and individual student profiles. (Author/MNS)

Data are reported from the eighth individual interview conducted in 1981 with students participating in a 3-year study on addition and subtraction using verbal problem solving. Ninety-two third-grade children in two schools in Wisconsin that used the Developing Mathematical Processes program were individually administered 18 verbal problems that could be solved using addition or subtraction. Responses were coded in terms of appropriateness of strategy, correct or incorrect answer, type of error, mode of representation, and solution strategy. For every problem, over 90 percent of the students chose a correct strategy. Group data on the problems as well as information on individual students are included. Appendices contain sample problem tasks and individual student profiles. (Author/MNS)

Identifiers—Australia, *Mathematics Education Research

Data are reported for the classroom observational portion of a cross-sectional study conducted in Tasmania, Australia to examine the acquisition and development of addition and subtraction skills in young children. During the study, a group of students in grades 1, 2, and 3 who differed in cognitive processing skills were observed during mathematics instruction. Frequencies of teacher and pupil behaviors observed in each of five classrooms during a period of three months in 1980 are reported, as well as a brief discussion of results. From these data, it can be concluded that variations in allocated time are due not to differences in cognitive level of children but to difference in the actions of teachers, school policy and procedures, or grade level of instruction. The papers in this monograph are grouped by the five session topics of the Using Research Group meetings. Perspectives on Using Research was first, with papers on research and the teaching job (Romberg), utility (Wheeler), review and dissemination (Dessart), preparing materials (Jurdak), and the teacher's view (Williams). The second session was on Means of Dissemination of Research Results, with papers on that title (Clarkson), communicating research results (Firth; Akers and Silver), developing teachers' styles (Swan), and who interprets research (Clegg). Effects of Research on Teachers formed the third category, considering Logo (Kieren), teacher education (Comiti), beginning teachers (Blane), history (Abe), and concept analysis (Bergeron and Herscovics). In the fourth session, Teachers as Researchers, papers concerned teachers' role (Cooney), carryover from college to school (Stewart), rational numbers (Owens), student teachers (Mitchelmore), and implications of the International Study (Gilmer). The final session was on Effects of Research on School Practice, with papers on cognitive psychology (Becker), problem solving (Nagasaki and Hashimoto; DeCorte and others), novel activities (Hershkovitz and Zehavi), and mathematical games (Bright and Harvey). An epilog, with open discussion, followed. (MNS)

Identifiers—*Bermuda

Designed for students in grades 2 through 4, this self-teaching, interdisciplinary reading and activity program approaches the environmental conditions, the state of natural resources, and the problems of pollution in Bermuda. A caring little animal named Jelly Jam is used to help children understand how air, water, and land pollution affect their own lives and what they can do to help clean up the environment. Children read about ecological problems and through experiments, field trips, plays, songs, coloring activities, crossword puzzles, mazes, and a host of school and family anti-pollution activities learn how to be involved in solving the problems. The guide also presents self-corrective activities, a word list for vocabulary improvement, and answer pages for student self-teaching. (ML)

**Early Developments in Children's Use of Counting to Solve Quantitative Problems.**
Pub Date—12 Mar 86
Note—19p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Reports - Research (143) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Cognitive Processes, *Computation, Educational Research, Elementary Education, Elementary School Mathematics, *Mathematics Instruction, *Number Concepts, *Preschool Children
Identifiers—*Mathematics Education Research

This study systematically examined developmental changes in the flexibility of preschool children's counting skills by assessing their use of counting to solve different kinds of quantitative problems at several preschool age levels. Three principal kinds of quantitative problems were considered: (1) quantifying a given set; (2) generating a set of a specified numerosity; and (3) comparing two numerical quantities. In the first experiment 18 three-year-olds and 18 three-and-one-half-year-olds were tested on a relative numerosity task and on counting sets of objects. The second experiment included 17 three-and-one-half-year-olds, 19 four-year-olds, and 18 four-and-one-half-year-olds; they were tested on numerosity and on counting a wider variety of quantitative problems. Recurrent limitations on young children's use of counting were found that cannot be wholly explained either by lack of knowledge about how to count or by performance factors. Young children's limited use of counting may stem from important restrictions on what they understand about when or why they should count. Educational implications are then discussed. (MNS)

Identifiers—Science Education Research

The relationship between classroom work and student understanding of genetics content is examined in this descriptive study of an introductory high school biology class. Classroom observations and examnations of student assignments related to a genetics unit were made. Factors affecting the teacher's management of the work system and the apparent consequences for student learning were explored. Particular attention was given to elements of the system that focused on higher order cognitive skills, that is, work that required application of knowledge to novel situations. Specific questions explored included: (1) how was the genetics content translated into student assignments; (2) how were assignments organized into a classroom work system and how was this system managed; and (3) what were the consequences in terms of learning opportunities for students. A summary is provided of the work systems including consideration of the number and nature of assigned tasks, how time was allocated among classroom activities, and how tasks related to the grading system. A description of the genetics content strands is included. It was found that students experienced difficulties with the genetics content and that explicit instructions along with sufficient novel problem-solving applications appear to be essential for an accurate understanding of genetics. A topic list, task list, and task analysis are appended. (ML)

An assessment of the impact that funding mechanisms had on the productivity and performance of university research is presented in this report. The General Accounting Office (GAO) study focused on five universities that had reputed improvement in program quality. The GAO study concentrated primarily on what funding and other strategies these universities used to improve selected departments and how these departments were able to finance their improvement initiatives. Specific questions examined were whether particular funding mechanisms played a role in helping universities improve program quality and whether two funding mechanisms, i.e., individual project grants and center grants had different effects on the performance of research. It was found that at the five universities GAO visited, the common element in improvement was an explicit commitment from the university to improve quality through increases in internal and/or external funding and personnel changes. Initial funding was necessary for building quality, although it came from a variety of sources. An appendix contains a summary of scientists' responses to selected questions on research funding. Identifiers—*New Jersey, Science Education Research

Results of the 1986 survey of science teaching in the secondary schools of New Jersey are presented in this report. Data from 187 public and non-public secondary schools are organized into the categories of: (1) student enrollment in science courses; (2) professional staffing; (3) program offerings; (4) teaching assignments; (5) science supervisor/chairperson information; (6) curriculum revision; (7) textbooks; and (8) course organization. Highlights of this survey, which is the fifth in a series by the state since 1968 are reviewed. It was found that a slight increase occurred in the percentage of students taking science and that instructional time has increased in biology, chemistry, and physics. Pertaining to staffing, respondents revealed that only seven percent of current science teachers plan to retire within the next four years and that recruitment of new science teachers is less difficult than it was four years ago. It was reported that more schools are developing safety programs and that an increase in the science requirement for graduation is planned. (ML)

**Science Competencies for Exit Level and Checkpoint Competencies for Levels 3, 5, & 8.**
New Mexico State Dept. of Education, Santa Fe.
Pub Date—85
Note—35p.
Pub Type— Reports - Descriptive (141)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—Academic Standards, Basic Skills, *Elementary School Science, Elementary Secondary Education, Grade 3, Grade 5, Grade 8, *Minimum Competencies, Science Education, Science Instruction, *Secondary School Science, *Skill Development, *State Standards
Identifiers—*New Mexico

Restatements of the educational standards and the science competencies established by the New Mexico State Board of Education are provided in this document. Identified as basic and process skills, these checkpoint competencies are tied directly to the exit competencies for science. It is suggested that the checkpoint competencies be used as a framework in developing a written and delivered curriculum and be aimed at the ultimate mastery of the exit competencies. The exit level competencies as well as the third, fifth, and eighth grade competency checkpoints are listed and classified into 13 major skill areas. These include the processes of: (1) observing; (2) classifying; (3) inferring; (4) predicting; (5) measuring; (6) communicating; (7) interpreting data; (8) making operational definitions; (9) formulating questions and hypotheses; (10) experimenting; (11) modeling; (12) using quantitative applications; and (13) recognizing impact. **Critical Thinking throughout the Undergraduate Psychology Curriculum.**
Pub Date—Oct 85
Note—27p.; Paper presented at the Mid-America Conference for Teachers of Psychology (2nd, Indiana, October 1985). Document contains light type.
Pub Type— Opinion Papers (120) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—*Cognitive Development, *Critical Thinking, Curriculum Development, *Developmental Stages, Educational Theories, Higher Education, Learning Processes, *Models, Problem Solving, *Psychology, Undergraduate Study

This paper outlines seven assumptions about teaching conditions that best facilitate critical thinking in the undergraduate psychology curriculum; the main ideas proposed in a model of critical thinking developed by a network of psychologists across the nation; and the application of this critical thinking model to the undergraduate curriculum. Beginning with students' "knowledge bases" (facts, beliefs, assumptions, and values), the model is based on tension-reduction theories in which the restoration of a sense of balance is the core idea. Once critical thinking is engaged, a student is likely to go through the following identifiable stages in the resolution of discrepancy: (1) motivating factors, involving whether or not the student is alert, engaged, and willing to take risks; (2) information-seeking skills, involving ways in which the student organizes information; (3) information-relating skills, in which students make connections between original discrepancies and other ideas, culminating in the construction of a revised, tentative, personal theory; (4) an evaluation phase, in which students purposefully examine their personal theories to determine the adequacy or sufficiency of their resolution; (5) an expressing phase in which students put forth their new position for external feedback; and (6) the integrating phase, resulting when external feedback is supportive and students both revise their personal theories and expand their knowledge bases. Following the evaluation of the implementation of this model at Alverno College in Milwaukee, Wisconsin, insights about the various components of the model, including remaining discrepancies are presented. A sample assignment is appended. (LH)

Descriptors—Directories, *Disarmament, Foreign Policy, *Futures (of Society), International Relations, *Nuclear Warfare, Organizations (Groups), Parent Responsibility, *Peace, Resource Materials, Social Action, *Social Responsibility, Social Support Groups, Violence, War

This guidebook to a positive future provides (1) articles and essays covering all aspects of peace by leading experts on peace and nuclear war education, (2) a directory and detailed information on over 1,000 peace organizations, (3) a guide to socially responsible investing, and (4) a list of related reference books, publications, and films. The first of 14 sections focuses on nuclear winter, the evolution and effects of nuclear weaponry, the arms race, and space-based missile defense. Section 2, "Empowerment," contains poetry, a personal account of a despair and empowerment workshop, a description of a network called "Interhelp," and articles about relating nuclear war to children and "Despair and Personal Power in the Nuclear Age." The next two sections contain articles on "How You Personally Can Prevent Nuclear War" and "How the United States Can Prevent Nuclear War." Sections 5 and 6 examine alternatives to war and parenting for peace and justice. Sections 7, 8, and 9 deal with education in a nuclear age, mediation, and the need for educated awareness about the Soviet Union, citizen diplomacy, and east-west relations. Section 10, dealing with the effects of military spending is followed by sections on converting to a peacetime economy, socially responsible investing, and nonviolent action. The final section, which focuses on working toward a positive future, concludes with a directory of peace groups and print and nonprint materials. (LH)

**Computer Simulation in Social Science.**
Pub Date—15 Oct 85
Note—46p.; Some pages may be marginally legible due to light, broken type.
Pub Type— Reports - Descriptive (141)

**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—*Computer Simulation, *Educational History, Educational Needs, *Educational Trends, Elementary Secondary Education, Microcomputers, Postsecondary Education, Resource Materials, *Social Sciences, Social Studies, Teaching Methods, Trend Analysis

From a base in military models, computer simulation has evolved to provide a wide variety of applications in social science. General purpose simulation packages and languages such as FIRM, DYNAMO, and others have made significant contributions toward policy discussion in the social sciences and have well-documented efficacy in instructional settings compared to traditional settings. With the microcomputer revolution has come a revival of computer simulation, first in pre-collegiate education, then in a variety of other areas including urban policy, social processes, and research methodology. In spite of the significant body of research and software in social science it is striking that (1) this research and teaching tradition exists almost entirely outside the "mainstream" of social science journals and textbooks, and (2) the impact of computer simulation has had a relatively greater impact on teaching than research. These findings reflect the state of the social sciences. Attempts at simulation in research-poor environments inevitably lead to models characterized by low reliability, oversimplification, and neglect of causal factors. These three obstacles are the reason why computer simulation has remained a specialized area within social science and is removed from the mainstream practice of social scientists. It is concluded that computer simulation in social science, though a positive way of accumulating knowledge, is apt to remain the step-child it has always been. Over 90 related references conclude the publication. (LH)

**USA/USSR Textbook Distortions.**
Pub Date—86
Note—10p.
Pub Type— Opinion Papers (120)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Comparative Analysis, Content Analysis, Cross Cultural Studies, Geography Instruction, *History Instruction, Secondary Education, *Social Studies, *Textbook Bias, *Textbook Content, Textbook Evaluation
Identifiers—*United States, *USSR

This review of a 1981 interim report on the United States' and the Soviet Union's distortion of events in history and geography textbooks is intended to encourage educators in both countries to depict the other side more honestly, less aggressively, and more appreciative of each other's virtues and flaws. Organized into two major sections, "Alleged Soviet Distortions" and "Alleged USA Distortions," examples of major distortions and factual errors presented in U.S. and Soviet textbooks are given. For example, Soviet textbooks focus on American poverty, unemployment, inflation, crime, social inequality, racism, hedonism, and militarism; Soviet textbook reviewers hold that U.S. textbooks discredit the political system in the Soviet Union and the role of the Marxist-Leninist ideology, and undercut the achievements of the first socialist state in the world. It is concluded that if nuclear holocaust is to be avoided and peace be maintained, textbooks in the United States and the Soviet Union need to depict each other more honestly, less aggressively, and with fewer distortions. Moreover, the U.S./USSR Textbook Study Project, a step in the right direction, needs to be revived, enlarged, and ultimately to involve and affect more teachers and students in both countries. (LH)

**Building Bridges between Schools & Communities: Using the Arts in Education. Participant Planning Packet.**
Indiana State Dept. of Education, Indianapolis. Div. of Reading Effectiveness.
Pub Date—84
Note—16p.
Pub Type— Guides - Classroom - Teacher (052)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Art Education, Check Lists, *Community Cooperation, *Cooperative Planning, Cooperative Programs, Elementary Secondary Education, Instructional Materials, Rating Scales, Relationship, School Community Programs, *School Community Relationship, Worksheets, Workshops

Intended for those interested in promoting increased cooperation between schools and communities, this participant planning package contains a series of worksheets, written agreements, and planning forms for a symposium designed to promote the arts in education. A worksheet for planning arts resources is followed by an assessment form in which participants assess individual school's provisions for arts education. The next form enables participants to make a commitment to an arts in education orientation meeting for staff and community representatives. An arts in education planning sheet is followed by a checklist showing necessary elements of a successful arts in education program. Next, samples of possible barriers and solutions one might encounter when implementing such a program are followed by a worksheet for participants to similarly assist perceived needs, barriers, and solutions. Two activity grids in which participants consider resources needed, responsible persons in charge, how activities can be accomplished, schedules, costs, assistance needed, ways of involving the community, pre-planning activities, and follow-up activities are provided. A symposium evaluation form concludes the packet. (LH)

**Consumer Education in Illinois Schools, 1986.**
Illinois State Board of Education, Springfield.
Pub Date—86
Note—70p.
Pub Type— Guides - Classroom - Teacher (052)
**EDRS Price - MF01/PC03 Plus Postage.**
Descriptors—Clothing, *Consumer Education, *Consumer Protection, Course Content, Course Objectives, Credit (Finance), *Economics Education, Financial Services, Food, Home Economics, Housing, Insurance, Labor Economics, Learning Activities, Resource Materials, Secondary Education, *State Standards, Taxes, Transportation

Intended to assist Illinois teachers in planning an instructional program in consumer education that meets state requirements, this consumer education curriculum is designed to help students in grades 9 through 12: (1) become informed consumers; (2) understand the rights and responsibilities of consumers in society; (3) develop responsible attitudes toward the use of resources; (4) develop a sound decision-making process based on individual goals and values; (5) use sources of information to help make consumer decisions; (6) understand the independent roles of the consumer, the worker, and the citizen in our economy; and (7) participate more fully in the consumer aspects of family life. Following an introduction, the second of six sections focuses on the consumer in the marketplace. Topics in the third section, "The Consumer in Our Economy," include the economy; the consumer; interaction of the consumer with agriculture, business, government, and labor and trade unions; economic principles of the marketplace; important economic measurements; and economic issues for consumers. Topics related to financial planning such as budgeting, savings, investing, and financial services; consumer credit; taxes; and insurance are outlined in the fourth section. The fifth section on goods and services focuses on consumer services, housing, food, transportation, clothing, health care, recreation, and home furnishings and equipment. The final section, which lists consumer education resources, concludes the publication. For each section and subsection, course objectives, content, suggested activities, and related resources are outlined. (LH)

**Towards Economics in an Entitlement Curriculum.**
Pub Date—Mar 85
Note—13p.; In: Economics Education: Research and Development Issues. Steve Hodkinson and David J. Whitehead, eds. Paper presented at the International Research Seminar held at the University of London (London, England, July 30-August 1, 1985). Published by Longman Group, Ltd. Essex, England.
Pub Type— Guides - Non-Classroom (055) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Academic Achievement, Basic Skills, Course Descriptions, Curriculum Development, *Economics Education, Educational Needs, *Educational Trends, Secondary Education, *Teacher Education
Identifiers—United Kingdom

Three aspects of problems, issues, and questions facing curriculum development teams, local authority advisors, and teacher trainers interested in helping teachers in the United Kingdom (UK) construct and shape an effective economics curriculum are examined. First, in an investigation of the curriculum context dimension, the paper predicts that the 1990's will see all young people in the UK receiving an economics education as part of their general education. Although what form(s) it will take and in what stages it will occur remain far from clear, it will be the decision of schools themselves that will frame the research questions and responses of curriculum developers and economics educators to the curriculum context problem. Second, in an examination of economic literacy, the paper considers how existing work in the UK on the nature of economic literacy will assist teachers in judging whether their 16-year old students are economically literate and whether or not their economics curriculum is 'of a worthwhile scale.' Third, the teacher training dimension of economics education is considered including implications for teacher training, the extent to which the needs of existing and future teachers are being met, and the relevancy of current initiatives. (LH)

**Developing Thinking Skills within the Context of the Existing Secondary Curriculum: The Case of Economics.**
Pub Date—21 May 84
Note—29p.; Paper presented at the Conference on Thinking (Harvard University, Cambridge, MA, August 20-23, 1984).
Pub Type— Reports - Descriptive (141) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—Case Studies, *Critical Thinking, Curriculum Development, Economics, *Economics Education, Educational Needs, *Logical Thinking, *Problem Solving, Secondary Education

Topics and issues which are central features of current secondary school economics curricula can be used to develop two aspects of students' thinking skills: (1) the development of problem-solving skills, and (2) the recognition of logical fallacies. The efficacy of economics instruction as a vehicle for developing student problem-solving skills arises because the subjects' major concern is that of analyzing how scarce resources are allocated between competing needs. The core concept of the subject is therefore that of choice, which parallels the central problem confronting all decision makers, namely the choice of competing alternatives to achieve a given purpose. The second area, the development of students' understanding of logical fallacies inherent in economic dilemmas, results when students' initial attempts at an explanation of the causes of inflation, unemployment, and underdevelopment are met with explanations about the limitations of reasoning by analogy and generalizations from small samples. Case studies and readings which can be used to stimulate questions about logical thinking and problem-solving skills are provided in appendices entitled "Even Rationing is Better Than Nothing," "Air Bags May be Motorists Best Bargain Ever," and "Price Controls on Food." A bibliography of over 20 related resources concludes the publication. (LH)

**The Take-Up and Use of the Channel Four Television Series "A Question of Economics" by Schools and Further Education Colleges.**
London Univ. (England). Inst. of Education.
Pub Date—Feb 86
Note—24p.; For related document, see ED 237 381 and ED 242 635.
Pub Type— Reports - Research (143) — Tests/Questionnaires (160)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Attitude Measures, Audiovisual Aids, *Economics Education, *Educational Research, Postsecondary Education, Secondary Education, Student Attitudes, *Surveys, Teaching Methods, *Television
Identifiers—Question of Economics (A)

Using the series, "A Question of Economics," as the basis for a study carried out between January and May of 1985, three surveys were conducted: (1) 180 questionnaires were sent to a random sample of members of the Economics Association to determine how extensively television is used in economics instruction and how teachers used the programs; (2) questionnaires were sent to 29 first- and 19 second-year "A" level students to discover their atti-

tudes toward the use of television in their economics courses; and (3) 25 follow-up questionnaires were sent to a random selection of teachers to examine facilities available to teachers to record and show programs. Findings show that 60 percent of the teachers surveyed were taping the series and 71 percent would make use of the programs in the future. The fact that 85.4 percent of the students sampled found the series either interesting or very interesting lends support to the use of these techniques in the classroom, although only 27.1 percent of the students reported watching the series on their own time. Although the majority of teachers used the VHS format for taping, there was great diversity in the facilities available to record and watch programs. Data tables showing composition of respondents, numbers watching the series in and out of school, student responses, assessment of the series' difficulty, analysis of attitude responses, facilities available, and time spent on classroom techniques are followed by questionnaires used in the survey. **EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—*Academic Achievement, *Basic Skills, Core Curriculum, *Curriculum Development, Definitions, Economics Education, Educational Change, Educational Needs, Interdisciplinary Approach, Minimum Competencies, Postsecondary Education, Problem Solving, Secondary Education

Identifiers—United Kingdom

Intended to introduce educators in secondary schools and colleges to discussion promoting economic literacy for all students, this paper offers a critique of the typical economics curriculum, a rationale for economics education, and a working definition of economic literacy. The first section reviews and critiques current curriculum planning in the United Kingdom's secondary schools, questioning the basis on which some writers have justified the inclusion of economics in the curriculum. In the second section, it is argued that inclusion of economics understanding in "core" curriculum would be too overwhelming, based on the rationale that it is only through an economics perspective that students can achieve sufficient objectivity to ensure realistic scrutiny and evaluation of economic issues, problem experiences, and policies that confront individuals and nations. The third section translates themes from this argument into a working definition of economic literacy. Appendices containing examples of economics reasoning conclude the publication. (LH)

**Education for Peace: What It Entails.**

Pub Date—85

Note—20p.

Pub Type— Opinion Papers (120)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Adult Education, Community Involvement, Conflict Resolution, Course Content, Definitions, Educational Change, *Educational Needs, *Educational Objectives, *Educational Strategies, Elementary Secondary Education, Higher Education, International Relations, *Peace, Problem Solving, Public Agencies, Seminars, Socialization, Student Participation, Teaching Methods

How peace can be "enforced" on an entire generation through education is discussed. The goals of education for peace are several. For example, it would enable people to cope with issues of modern society, help them develop an understanding of different cultures, and prepare them to actively participate in the governmental policy-making process. To become peace loving, a person must go through a series of socialization steps, e.g., reduction of aggression, elimination of general tension, courage to deal with conflicts. Education for peace has many general characteristics. For example, it must be pluralistic and involve every sector of the community. There should be various educational experiments apart from the traditional school. The classroom environment needs to undergo radical changes. Teaching methods need to encourage student participation and interaction as well as the use of a variety of teaching media. The shortest way to the achievement of the full objectives of peace education is to have community agencies participate in a seminar on the promotion of international understanding. The content of such a seminar is described. (RM)

**Communication within the American Counterculture.**

Pub Date—82

Note—28p.

Pub Type— Opinion Papers (120) — Reports - Research (143)

**EDRS Price - MF01/PC02 Plus Postage.**

Descriptors—Burnout, *Conflict Resolution, Democratic Values, Group Discussion, *Groups, *Interpersonal Communication, *Morale, Organizational Communication, *Power Structure, Social Theories

Identifiers—*Consensus, Consensus Models, Counter Culture, *Organizational Behavior

The nature of communication in the counterculture was investigated. The counterculture is distinguished from subculture and contraculture by its attempts to modify, change, and alter the dominant culture. A food co-op, which presented itself as being based on counterculture philosophy was studied as a representative organization within the counterculture. Field research (participant observation, interviews, and surveys) and a review of the literature were employed to study the conflict resolution attempts within the co-op. Results of the study indicated the co-op conflict resolution communication attempts exemplify dominant culture attempts. The co-op presented itself as using a consensus process (formal situations) and practicing egalitarian ideals (informal situations), but analysis found it did not consistently practice either. Identifiers—Council of Europe (France)

Education for international understanding is the theme of this conference report. The introduction (by Maitland Stobart) discusses the first phase of the Council of Europe's work on education for international understanding devoted to improving communication and understanding among Europeans. The second, present phase, includes teaching about problems of global development and the way in which other parts of the world are taught in secondary schools in Western Europe. Section two, "The Conference in a Nutshell" (by Fay Metcalf) summarizes the conference proceedings of this five day event. Section three elaborates on the need for learning about Europe in the U.S.A. through the development of a rationale, a definition of Europe, and the development of empathy. Also included is a list of goals, justifications, and content suggestions. Section four presents six European approaches for teaching about the U.S.A. in Europe through four strategies, (1) a pupil-centered and cooperative approach, (2) history, geography, and English as a foreign language, (3) a multi-disciplinary approach, and (4) a topic approach. Five countries, the United Kingdom, Denmark, Scotland, Norway, and Portugal contributed in the development of the six approaches. Section five concludes the conference report by listing (1) the general principles, (2) the goals of teaching about the U.S.A. in Europe, (3) the goals of teaching about Europe in the U.S.A., and (4) the directions for future activities. Appendices present the conference program and list the participants in attendance. (RSL)

**Western Africa to c/1860 A.D.: A Provisional Historical Schema Based on Climate Periods. Indiana University African Studies Program Working Papers Series, No. 1.**

Indiana Univ., Bloomington. African Studies Program.

Pub Date—Aug 85

Note—256p.

Pub Type— Historical Materials (060)

**EDRS Price - MF01 Plus Postage. PC Not Available from EDRS.**

Descriptors—*African Culture, *African History, African Languages, African Literature, Anthropology, *Climate, *Environmental Influences, Geographic Location, Geography, Social Science Research

An examination of historical developments in western Africa during six climate periods extending over two millennia, this study demonstrates that numerous historical developments correlate with climate periods and/or were influenced by changes in rainfall patterns and ecological conditions. These include such diverse topics as the diffusion of cultigens and domestic animals; movements of language groups; the development of trade routes and the exploitation of mineral, agricultural, and sylvan resources; techniques of warfare and state-building; and numerous other economic, social, and cultural patterns associated with the peoples of western Africa. Data and analyses presented in this study derive from scholarship in many disciplines, including anthropology, art history, folklore, geography, history, and linguistics. Collections of oral traditions and scholarship are also included. Part 1 covers western Africa from c300 B.C.-c300 A.D. in "The Era of Smiths and Riverine Traders," and from c300 A.D.-700 A.D. describing a period of expanding commercial networks. Part 2, "The Era of Savanna Zone," discusses western Africa from c700-1100 A.D. Part 3, "The Era of Power Associations and Mandekalu Horse Warriors," examines western Africa from c1100-1500 A.D. Part 4, "A Brief, But Eventful Wet Period," covers western Africa from c1500-1630 and Part 5, "An Era of Droughts, Famines, Warfare, and Slaving," discusses western Africa from c1630-1860. The document also includes 4 figures and 15 maps. (RSI)

Lessons and resources for Social Studies and French courses are included in this document. The major goals of these materials are to help students (1) explore the history and geography of Francophone Africa, (2) examine French influences in contemporary Africa, (3) recognize and appreciate cultural differences and similarities in values and perspectives, (4) develop positive attitudes toward the study of Africa, and (5) place French colonization and African culture in a global context. Materials in part one, "Background on the History and Geography of French-speaking African Nations," consist of a board game on history and map skills, a lesson on cross-cultural misunderstanding, and viewpoints on French Colonialism from African politicians and writers. Part two, "French influence in Africa," discusses French influence on African culture, stereotypes West Africans have about the French, and the reaction of villagers to the return of their first college-educated son. Part three, "Cross-Cultural Understanding," emphasizes understanding African beliefs and customs, while including U.S. and Malian perceptions, Senegalese

dress and cuisine, and bargaining in an African market. Part four, "Resource Materials in French," presents teaching French in an African context, bargaining in Mali, Griots (oral historians), travel through Benin, and Francophone African literature. The document concludes with a list of additional resources. (RSL)

New York City's public high school was born in the City of Brooklyn and carried to the merged City of Greater New York in 1898 by William H. Maxwell, first City Superintendent of Schools in New York City and former head of Brooklyn's schools. Under his direction, high school enrollments grew ten-fold between 1898 and 1914 to nearly 63,000 students. The Brooklyn high school model had the following characteristics: (1) Democratic admission; (2) open enrollment to all elementary graduates; (3) a common core curriculum for all students but with high schools that specialized in college preparatory, commercial, manual or vocational programs; and (4) building designs that reflected the instructional needs of the curriculum. The Brooklyn model of elementary, secondary and collegiate levels with a one-year bridge of preparatory school. The Brooklyn model reflected the American educational mainstream at that time. Sixty related reference notes are appended. (CFR)

Identifiers—*Genocide, *Holocaust, World War II

Approximately 500 titles about the Holocaust are presented from many fields: history, philosophy, religion, political science, psychiatry, fiction, and the arts. The bibliography encompasses all aspects of Holocaust scholarship, from the rise of Nazism to studies of survivors' offspring. Both primary and secondary sources, including oral histories and photo collections and films, are presented. The book is designed as a tool for upper-level high school students, college students, and the general public. The first fourteen chapters are: Anti-Semitism and the Rise of Nazism, Histories of the Third Reich and the Holocaust, Biographies and Memoirs of Hitler and Other Nazis, Ghetto and Regional Histories, The Camps, Memoirs of the Victims, Jewish Resistance, Assistance and Betrayal in the Nazi-Occupied Territories, International Indifference, Justice, Reflections on the Holocaust, Survivors and the Second Generation, The Arts, and Collections. The final chapter is an essay by Dan Sharon providing guidance for students researching the holocaust. It is followed by lists of reference works, periodicals, and resource centers, and geographic and author/title/subject indexes. (RSL)

Identifiers—*China, Cultural Revolution (China), Intellectuals
This annotated bibliography of 72 books, journal articles, government reports, and newspaper feature stories focuses on the changing role of intellectuals in China, primarily since the 1949 Chinese Revolution. Particular attention is given to the Hundred Flowers Movement of 1957 and the Cultural Revolution. Most of the cited works are in English, but sources in Chinese, Japanese, Italian and Russian are also included. The annotations, all in English, are relatively brief and are descriptive, not evaluative. (CFR)

Identifiers—*China, Cultural Revolution (China), Mao Zedong
A comprehensive annotated bibliography contains 108 items including books, journal articles, children's books illustrative of educational materials in China, government reports, research reports, newspaper stories, ERIC documents, and articles from the popular press. The listed items have been published over a broad span of time ranging from the 1920's to the present. While most of the materials are in English, the bibliography contains items written in Swedish, Chinese, French, Russian, Chinese, Czech, Japanese, German, and Danish. All abstracts are in English. Two extensively covered topics are the major changes in educational public policy that took place after the Communist victory in 1949 and the policy changes during and after the Cultural Revolution. The annotations tend to be brief and are primarily descriptive, not evaluative. (CFR)

Identifiers—*China, Cultural Revolution (China), Great Leap Forward, *Mao Zedong
Citing as a central focus of the Chinese government since the People's Republic of China was established in 1949, this paper presents a brief sociopolitical and historical description of China in the twentieth century and suggests reasons for its lack of modern development and low educational attainment as of 1949. The importance of education as a major factor in national policy is described with special attention to Communist ideological differences between the "red" or Maoist form and the "expert" or meritocratic model. Recent developments and the impact of economic and political reforms are having a continuing impact on Chinese educational policy. (CFR)

Identifiers—*China, Cultural Revolution (China)
A total of 78 books and journal articles examining the writing and teaching of history in China are annotated. While some of the cited works review the importance of history and historical analysis throughout Chinese history, the primary focus is on historiography in the People's Republic since the 1949 Revolution. Major emphasis is placed on the impact of Marxian and Maoist thought on historical research, analysis and writing. The specific influence of the Cultural Revolution is described. The bibliography includes publications written in Chinese, French, German, Italian, Korean, and Russian; but all abstracts are in English. (CFR)

Community and educational organizations are provided with guidelines for complying with the National Endowment for the Arts 504 Regulations for incorporating the needs of the disabled into programming efforts. Information is presented in three chapters. Chapter 1 focuses on the 504 regulations. Following an introduction, subsections describe the background of the regulations, highlight major features of the regulations, outline steps for complying with the regulations, and provide answers to commonly asked questions. Chapter 2 contains separate sections on 504 provisions such as parking; entrances; water fountains; rest rooms; telephones; warning signals; special communication measures; as well as a section which looks at how these provisions apply to each of the arts areas. Chapter 3 consists of sections on audience development, staff training, and information about disabilities. A conclusion encourages organizations to comply with the 504 regulations. (LP)

Identifiers—Education Consolidation Improvement Act Chapter 2
A multicultural enrichment program involving fifth- and sixth-grade classrooms from forty-four District of Columbia public schools encourages students to learn about foreign countries by studying a foreign embassy. Chapter one presents background information and a description of the project. Chapters two and three concern evaluation. A description of the Planning, Monitoring, and Implementing Model (PMI) used for evaluation is followed by evaluation results for each of the four stated objectives. Chapter four (Appendices) which makes up over half of the report, includes an evaluation model schema; a memorandum to librarians requesting materials; the teacher's role in the embassy; a list of embassies involved in the 1984-85 project; statistics on student demonstration of knowledge from the adopted country; results of the student questionnaire; the table contents for an information booklet for the preparation of a mini United Nations; background information, implementing instructions, teacher response forms for ambassador and delegates, and the agenda and an invitation to the Mini United Nations; an evaluation of the teacher workshop; the program purposes met by students and other questionnaire results for both the teacher evaluation and the women's committee; invitations to the "Holiday Family Brunch" and the "Kick-Off-Tea"; the Washington Performing Arts Society Embassy Adoption Holiday Luncheon financial report; and a newspaper article announcing a trip to the Czechoslovakian Embassy. Education Consolidation Improvement Act Chapter 2

The District of Columbia's Multi-Arts Service Program, in its third year of implementation (1984-85), is a multi-disciplinary program in music, dance, theater, and visual arts. The program's primary objectives are to (1) increase student awareness of the arts through assemblies, (2) increase student interest in the arts through lecture-demonstrations, and (3) increase student interest in pursuing the study of the arts through workshops. The assemblies, lecture-demonstrations, and workshops are developed and presented by teachers and students from Duke Ellington School of the Arts. The findings show that all objectives were reached, demonstrating the goal of providing students with increased awareness of and interest in the arts as a vital force in their lives through performance and participation. Appendices, which make up the bulk of the document, contains the evaluation model schema; student awareness and interest questionnaires; a sample press release and programs for assemblies; a summary of arts awareness survey data; a survey of interest letter and questionnaire; student interest rating scales; a performer questionnaire; workshop request form; lecture-demonstration rating scales; questionnaire responses for dance, music, visual arts, and drama participants; and a summary of the workshop. This conference report addresses education on national security and international relations in secondary school courses in the social studies. Main conclusions of the conference are: (1) Topics on national security should be added to the secondary school curriculum. (2) Current institutional and instructional settings are open to inclusion of national security topics into the curriculum. (3) State social studies coordinators are key actors in efforts to include national security in the secondary school curriculum. (4) Materials available for use in secondary school courses tend to be biased, doctrinaire, or overly technical and thereby unsuitable for the general education of citizens. (5) New instructional materials should be developed that are concept-based, clear, and balanced with respect to presentation of various points of view and avoidance of special pleading or promotion of causes. (6) Enduring curriculum improvement requires in-service education of teachers. (7) The subject matter of national security provides a common frame of reference for curriculum improvement, which might take various forms suitable to different regions or school districts. (8) Selection of development. (9) Appropriate points of entry exist for introduction of national security topics in the social studies curriculum. (10) Effective programs for curriculum change must address the role of the teacher. (11) There must be close collaboration between academic specialists in national security and specialists in curriculum and teaching to bring about enduring and effective reform of education about national security in secondary schools. **Ecopolitical Issues and the Secondary Curriculum.**

Pub Date—84

Note—31p.; Paper presented at the Annual Convention of the International Studies Association (25th, Atlanta, GA, March 31, 1984).

Pub Type— Speeches/Meeting Papers (150) — Opinion Papers (120)

**EDRS Price - MF01/PC02 Plus Postage.**

Descriptors—Citizenship Education, Curriculum Development, Curriculum Evaluation, Decision Making, *Developed Nations, *Developing Nations, Ecology, Economics, *Global Approach, Living Standards, Natural Resources, Political Issues, Population Growth, Population Trends, *Quality of Life, Secondary Education, Technology

Guidelines are discussed for developing and selecting instructional materials about ecopolitical issues for secondary schools. Ecopolitical issues arise from human manipulation of the natural environment and include problems resulting from the limited capacity of the environment to satisfy human needs. High school courses that treat ecopolitical issues should emphasize a basic conceptual framework for understanding, interpreting, and making and judging decisions about these issues. This framework should help students to organize, interpret, and appraise information and ideas about the limits to growth debate. In addition, it should help students understand the sociopolitical context of these issues and develop a global perspective on them. Finally, students should have opportunities to develop skills in making and evaluating decisions about ecopolitical issues. Ten propositions are clarified and justified as guides to selection and emphasis of subject matter in secondary school courses in the social studies that include ecopolitical issues. These propositions can also be used as criteria for evaluating treatment of ecopolitical issues in curriculum materials. (JP)

**The Changing Image of World Affairs and the Role of Citizen: Local Communities and Global Education.**

Pub Date—May 83

Note—32p.; Paper presented at the Working conference on Using the Local Community in Global Education (Columbus, OH, May, 1983).

Pub Type— Speeches/Meeting Papers (150)

**EDRS Price - MF01/PC02 Plus Postage.**

Descriptors—*Citizenship, *Citizenship Education, Elementary Secondary Education, *Global Approach, *International Relations, Social Systems

Two assumptions of efforts to use the community in global studies are: (1) Local communities are significant points of origin and points of impact for much of what we mean by world affairs, and (2) the linkage between the community and world affairs creates for local people a legitimate citizenship interest and role with respect to world affairs. These assumptions hold whether we see the community primarily as an audience, as a support system, or as a curriculum resource for education on world affairs. The concept of international system should be used to help students organize and interpret phenomena that connect local communities and world affairs. This concept can help students to understand and appraise the consequences of their actions on others, near and far, and the effects of others' actions on them. Finally, students can learn how citizenship may be exercised similarly and differently with respect to individual and community interests that pertain to local, national, and international levels of activity. By forging local linkages with the global community, social studies educators can teach students that they are involved in the world, that the world affects their lives, and that interdependence is a fact of life. This perspective is critical if students are to understand the relationship between global interdependence and systems and their personal exercise of citizenship. If global education is to have a meaningful citizenship dimension, then the use of community based curriculum materials is essential. (JP)

**Global Economics in the Secondary Curriculum.**

Foundation for Teaching Economics, San Francisco, Calif.

Pub Date—Jun 85

Note—53p.

Pub Type— Opinion Papers (120)

**EDRS Price - MF01/PC03 Plus Postage.**

Descriptors—Conservation (Environment), Curriculum Development, Economics, *Economics Education, Educational Change, *Global Approach, International Relations, International Studies, Secondary Education, Secondary School Curriculum, Teaching Methods, *World Affairs, World Problems

Global education emphasizes interconnectedness and interdependence of various peoples and cultures around the world. Global economics, a subset of global education, involves international trade, international progress, international finance and financial organizations, development, progress, comparative economic systems, multinational corporations, and the place of trade in a nation's economy and the economy of the world. In general, global education, has had slight influence on secondary school curricula and teaching practices, because it does not reflect dominant viewpoints, does not respond to perceived needs, and does not appear to be balanced in treatment of controversial topics or issues. Global economics can be treated in ways that overcome these general objections and thereby gain acceptance in secondary schools. There should be an emphasis on teaching basic concepts of economics in a global context. In particular, democratic capitalism should be compared to other types of economic systems and highlighted as a progressive global force. Teaching strategies should focus on case studies that emphasize basic economic principles at work in the lives of people involved in economic changes of a particular country or in global communities. The goal is to help students more fully understand global economic forces so that they can deal more effectively with challenges of the modern world. A four-page bibliography concludes the report. (JP)

Report No.—DS-Manual-2110-8
Pub Date—Aug 84
Note—200p.; For related documents, see SO 017 113-125.
Pub Type— Guides - Classroom - Teacher (052)
**EDRS Price - MF01/PC08 Plus Postage.**
Descriptors—Behavioral Objectives, Concept Formation, Curriculum Guides, Grade 8, Junior High Schools, Learning Activities, Outcomes of Education, Sequential Approach, Skill Development, *Social Studies, *United States History, Units of Study
Identifiers—Dependents Schools
An outline of the knowledge and skills to be taught at grade eight in order to meet the Department of Defense Dependents Schools (DoDDS) social studies objectives is provided. Material is divided into three parts. Following an introduction, a one page description overviews the curriculum topic for grade eight, United States history, and specifies the major subject areas to be covered within the topic, time allotment, and other classroom specifics. A list of acknowledgments contains names and addresses of all educators contributing to the curriculum guide. The bulk of the document consists of a detailed outline of content and objectives to be covered. The information, provided in matrix form, is divided by marking period and includes suggested time frame and a list of areas of study, each tagged to learning objectives, suggested activities, and page correlations with several widely used social studies textbooks. For grade eight, U.S. history is covered in chronological periods from pre-Columbian civilizations to World War II. (LP)

Five simulations for addressing science-related social issues in either the secondary science or social studies classroom are presented. Following a foreword, introduction, and description of the conceptual basis for the activities, each of the activities is presented in its entirety. Complete teacher and student materials for conducting each of the following simulations is presented: storage of spent nuclear fuel, control of recombinant DNA, the acid rain controversy, toxic waste controls, and the controversy over seabed mining. Each simulation follows a standard format emphasizing student skills of information processing, problem solving and group decision making. Students are divided into groups representing a decision-making body and pro, con, and compromise positions on a given issue. Students research their position using provided data and library resources, ultimately using their findings to support their group's position in a simulated public or agency hearing on the subject. Each activity contains step-by-step instructions and student handouts. Each simulation takes approximately two weeks. (LP)

**Diplomacy as National Power: United States Policy on South Africa.**
Spons Agency—Ohio State Univ., Columbus. Mershon Center.
Pub Date—86
Note—33p.; Paper presented at the Annual Meeting of the International Studies Association (Anaheim, CA, March 25-29, 1986). Also sponsored by the Ohio Humanities Council.
Pub Type— Opinion Papers (120) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—Foreign Countries, *Foreign Policy, *International Relations, Political Science, Racial Relations, Racial Segregation
Identifiers—Apartheid, Carter (Jimmy), Reagan (Ronald), *South Africa
Power in general theory is defined as having three forms: coercive, utilitarian, and normative. In international relations, emphasis is placed on the first two to the neglect of the third. In this paper, the term "diplomacy" is used for normative power in international relations. Diplomacy is related to three policy making stages and to five dimensions of power. The purpose is not empirical research or theory building but a better public understanding of foreign policy. Southern Africa in the administrations of Jimmy Carter and Ronald Reagan is used as the principal case study. The document concludes with an 84-item bibliography. (Author/CFR)

**An Analysis of the Foundations of Art Criticism Instruction: Sociopolitical Consequences of Theoretical and Research Deficits.**
Pub Date—86
Note—20p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Opinion Papers (120) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Aesthetic Values, *Art, *Art Education, *Art Teachers, Curriculum Development, *Curriculum Problems, Educational Change, Elementary Secondary Education, Intellectual Disciplines, Social Values
Art criticism has not been incorporated into the curriculum despite support of this proposal by major art educators. The traditional art program consists only of studio instruction to the exclusion of art criticism and art history. The studio background of most art educators coupled with the limited availability of art criticism curriculum options has perpetuated the status quo. The curriculum is a sociopolitical document which provides a lens to the subject, tempered by the dominant culture. The lack of curriculum options is a result of many factors including the weak or non-existent theoretical and research foundations of art criticism and the lack of consensus in any of the areas of art study. Art criticism formats cited include: Feldman's method consisting of analysis, interpretation, and evaluation, and Brandy's aesthetic scanning method. Fourteen other approaches exist but have not been collected in a comprehensive compilation of formats. Theoretical and research foundations of art criticism curricula include format-model parallels and format validity. Areas requiring further investigation and research include individual differences in cognitive style, social content, and the very foundations of art criticism. Four pages of references conclude the report. (BZ)

Descriptors—Conservation Education, *Curriculum Design, *Curriculum Development, Educational Methods, Elementary Secondary Education, *Environmental Education, *Holistic Approach, Social Studies
Identifiers—Environmental Education Research
Environmental education ideally involves a holistic integration of all school subjects, but in reality the curriculum structure is very segmented. Traditional approaches to the study of environmental degradation have not recognized the interrelatedness of the system: problems in the biosphere have been addressed from the perspective of the sciences; reasons for these problems have been dealt with from the perspective of the humanities. These specialized perspectives are too isolated. They need to be integrated into a holistic system that fosters an intuitive sense of the behavior of the whole system. The set of environmental education guidelines for pedagogy, content and structure offered in this paper emphasizes awareness, knowledge, and skills, and provides a procedural framework that can help students move from the initial stages of awareness to action based on sound environemtnal attitudes. Descriptors—*American Indian Culture, American Indian Education, *American Indian History, *American Indian Studies, Bibliographies, Federal Indian Relationship, Higher Education, Resource Materials, Secondary Education
A research guide citing over 100 annotations presents a variety of research material on Chautauqua County (New York) available in the Reed Library (Fredonia, New York). The guide consists of three major parts. Part 1 addresses the novice with an examination of the basic steps of research. Special attention is given to the card catalog. This part also gives examples of subject headings and explains how to find them in the subject catalog. Twelve topics about Chautauqua County and its people are presented in part 2: general history; archaeology; town, village, and city histories; agriculture; culture; architecture; education; ethnic groups; geography; industry; local government, state, and municipal laws; natural resources; reform movements; and religion. The suggested titles are from the Western New York Collection in Reed Library. Part 3 provides supplementary reference sources that can be used independently or in conjunction with a research paper. Resource materials which include lists of bibliographies, biographies, census records, directories, maps, and newspapers conclude the document. (RSL)

**Performance Expectancy, Success, Satisfaction and Attributions as Variables in Band Challenges.**
Pub Date—86
Note—22p.; Paper presented at the American Educational Research Association Annual Meeting (70th, San Fracisco, CA, April 16-20, 1986).
Pub Type— Reports - Research (143) — Speeches/-Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Applied Music, *Bands (Music), Competition, *Motivation, Music Activities, Music Education, *Performance Factors, Research, Secondary Education, Surveys
Perceived success and satisfaction with one's level of performance encourages efforts to challenge other band members for higher chairs within high school bands. Motivation of band members was tested by asking them if they had ever challenged and how frequently. Additionally, they were asked if they felt that they were correctly placed in their instrument category, what they believed their performance expectancy would be in three months, their degree of satisfaction and feeling of success with their current performance level, and to what degree they enjoyed playing their instrument. Members (N=234) of three comparable size bands representing urban, suburban, and rural areas filled out an anonymous questionnaire. The results supported the hypothesis that perceived success and satisfaction with current level of performance were related to increased numbers of challenges for higher levels and attribution for that success to internal factors. Failure and lack of satisfaction with one's current level of performance resulted in fewer challenges and external attributions. (CFR)

The 100th anniversary of Ulysses S. Grant's death was observed on July 23, 1985. The Smithsonian National Portrait Gallery featured an exhibit of Grant portraiture, which covered his life, from its humble beginnings to military and political triumphs and to failures and disappointment. The exhibit included pictures, artifacts, and momentos from various times in Grant's life. His military service and two terms as President were emphasized. Grant's changing features were portrayed in photographs, paintings, and engravings from different times in his life span. These portraits seem to show an impassive and lackluster man, a rather ordinary person with little hint of greatness. Yet Grant's seeming ordinariness was a mask for keen intelligence and uncommon military leadership ability. His common ways appealed to masses of common men and enabled General Ulysses S. Grant to lead them to victory in the Civil War. A chronology of main events in Grant's life appears at the end of this essay. (JP)

Identifiers—*Grant (Ulysses S)
General Ulysses S. Grant reflected the prevailing views of his community and times concerning social attitudes. Although opposed to slavery, he was not a strong advocate of liberties and rights for black people. Like President Lincoln, Grant at first opposed use of black troops in the Civil War. On July 17, 1862 black recruitment was approved and black military units, led by white officers, were organized. The black soldiers performed admirably in several battles. General Grant enthusiastically endorsed participation by blacks in the wartime Army, but expressed reservations about encouraging their continuation as regulars in the full-time Army. When military necessity faded, Grant's enthusiasm for black military units declined. At the end of the war, General Grant advised against using black troops in the occupation of the defeated southland. He did support strongly passage of the Fifteenth Amendment, which gave black males the right to vote. As President, Grant wavered in support of Reconstruction laws that protected the rights of black people in the former Confederate states. In this, President Grant believed he was following the will of the majority. In racial matters, Ulysses S. Grant was primarily a reflector of public opinion, not a leader of it. A chronology of main events in Grant's life is appended. (JP)

Identifiers—*Grant (Ulysses S), *Twain (Mark)
In the summer of 1884, Ulysses S. Grant wrote his

"Memoirs," which were published and promoted by the great American writer, Mark Twain, who encouraged and aided Grant in his literary work. Grant was fatally ill with cancer of the throat and raced against time to complete his manuscript. He was motivated by the desire to provide financial support for his family, which had been impoverished by his business failures. The book that emerged from Grant's courageous efforts is a masterpiece, which literary experts and historians have compared to Caesar's "Commentaries." "The Personal Memoirs of U. S. Grant" treats his childhood slightly, expands to detail his Mexican War experiences, skims over his inter-war activities, and concludes with a major emphasis on his participation in the Civil War. Grant's clear, concise, treatment of Civil War experiences have made his book a classic of military history, which is studied in military academies throughout the world. Mark Twain's relationship to Grant is highlighted in two "Sidebars" that are appended to this essay. "Sidebar Number One" is a brief excerpt from "The Private History of a Campaign That Failed" by Mark Twain, in which Twain describes his fleeting encounter with Grant during the Civil War. "Sidebar Number Two" discusses a pamphlet titled, "How to Introduce the Personal Memoirs of U. S. Grant," which is addressed to salesmen of Grant's "Memoirs" and may have been written by Mark Twain. A chronology of main events in Grant's life is also appended. (JP)

Identifiers—*Grant (Ulysses S), *Lincoln (Abraham)

In 1864, President Lincoln was frustrated by the inability of Union Generals to defeat Robert E. Lee's forces. Lincoln looked to the western theater of the Civil War to find a winning leader, General Ulysses S. Grant. In March 1864, Grant took command of the entire Union army and began to wage a war of attrition to destroy Lee's army, its civilian system of support, and morale in the Confederacy. In May, Grant moved south and engaged the enemy continuously in a series of bloody battles. Regardless of casualties, Grant refused to back away from the action. On April 2, 1865 Grant began a twenty-mile assault that finally broke the Confederate forces. Heavy casualties, disease, desertions, hunger, and the relentless pursuit of Grant's army combined to sap the strength of General Lee's once formidable army. On April 9, Grant met Lee at Wilmer McCleans's farmhouse in Appomattox and arranged terms of surrender. In slightly more than one year, General Ulysses S. Grant had led Union forces to victory in the Civil War and began to carry out President Lincoln's compassionate treatment of the defeated South. From these efforts, a reunited nation would emerge. A chronology of main events in the life of Ulysses S. Grant is appended. (JP)

This report explicates conceptual models of schools outcomes and related research methodologies in order to increase an understanding of the diversity and structure of desired outcomes. The complex interrelationship among models of education, desired outcomes, methods of achieving those outcomes, and methods of studying the results is approached from socio-historical, theoretical and empirical viewpoints. An historical overview of education in Ontario documents the interrelationship between societal change and educational reform as well as the cyclic nature of educational philosophies. Student outcomes are defined through a typology and a discussion of current educational policy goals in light of that typology. Three major sociological models of education-structural functionalism, conflict theory, and the interpretive paradigm-are reviewed with respect to the kinds of outcomes and determinants stressed and characteristic research methodologies. The substantive areas of transition to work, academic achievement, and multiculturalism are examined to further the investigation of the utility of larger models for studying specific outcomes. The definition and measurement of models and outcomes by Canadian researchers in the past is examined through an inventory of Canadian data sets identified in the literature, through the Ontario Educational Research Information System (ONTERIS), through all major Canadian data archives, and through Ontario school boards. The results of a survey of education practitioners include perceptions of desirable outcomes and speak to the needs of future research. Two major conclusions and six specific recommendations are posited. The inventory of data sets and the interview schedule for the study are appended. A reference list is provided. (Author/BZ)

Descriptors—*Comparative Education, *Developing Nations, Educational Change, Educational Demand, *Educational Policy, *Equal Education

Identifiers—*Nigeria, West Africans

A free and pluralistic society is maintained by constitutional guarantees and an educated populace. Nigeria, like other nations in West Africa, spent billions of dollars and embarked on a program of mass educational improvement in the 1960's and 1970's. While secondary school enrollment increased eleven times between 1962 and 1975, over half the candidates on the West African Examinations Council secondary test failed. This indicates a failure of the Nigerian educational policy of "developmentalism," which states that centralized educational reform is the quickest and surest way to bring about modernization and an improved standard of living. While Nigerian school facilities and teacher training methods are often poor, they must not bear the full blame. Early mission schools and traditional Islamic schools had poor facilities and ill-trained teachers, yet they succeeded in providing effective basic education. Reasons for these more recent failures include the application of factory or industrial plant improvement strategies to education and the use of utilitarian (or purely quantitative) measures of success. **Panel on the Preparation of Beginning Teachers Report.**

Spons Agency—New Jersey State Dept. of Education, Trenton.

Pub Date—Mar 84

Note—19p.

Pub Type— Opinion Papers (120) — Reports - General (140)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—*Beginning Teachers, Higher Education, *Knowledge Level, Preservice Teacher Education, *State Standards, *Teacher Effectiveness, *Teaching Skills

Identifiers—New Jersey

The Panel on the Preparation of Beginning Teachers was convened by the New Jersey Department of Education to help define two critical elements of teacher preparation: (1) What is essential for beginning teachers to know professionally? and (2) What teaching skills and abilities are most effective? This document is the report of that panel. Recommendations are presented for essential knowledge for beginning teachers in terms of: (1) the curriculum: what is taught and how it is assessed; (2) the students: their characteristics as individuals and the ways in which they learn; and (3) the setting: the classroom and the school. Recommendations are also presented for effective teaching skills, with emphasis on those skills that research suggests are most effective. Consideration is given to two additional suggestions: (1) What are the differences in essential knowledge and skills among elementary, secondary, and special education teachers? and (2) What areas of knowledge for beginning teachers are best taught in a collegiate setting? (CB)

**Research on Effective Schools/Classroom Processes. Research Resources Dealing with the "Effective School" Literature. Classroom Processes.**

Utah State Office of Education, Salt Lake City.
Pub Date—Jan 84
Note—224p.
Pub Type— Information Analyses (070) — Guides - Non-Classroom (055)
**EDRS Price - MF01/PC09 Plus Postage.**
Descriptors—Academic Achievement, *Classroom Techniques, Elementary Secondary Education, *Literature Reviews, *School Effectiveness, Teaching Methods

This report is intended as a resource for educators on the subject of effective schools literature as it pertains specifically to classroom processes. The first chapter presents some basic notions which underlie the effective schools literature and the classroom process aspects of that literature. A detailed analysis is offered in the second chapter of 11 classroom processes frequently cited in effective schools literature: (1) academic expectations; (2) academic learning time; (3) classroom management; (4) curricular congruence; (5) direct teaching/instruction; (6) monitoring and evaluative feedback; (7) homework; (8) parents' academic involvement with their children; (9) reinforcement of self-concept; (10) rewards for achievement; and (11) teacher questioning practices. Chatper 3 presents abstracts of useful publications pertaining to the effective schools-classroom process literature. In chapter 4, an article by Donald E. Mackenzie, "Research for School Improvement: An Appraisal of Some Recent Trends" is reprinted. Chapter 5 is a comprehensive collection of effective schooling practices materials produced by the Northwest Regional Laboratory. The final chapter offers a list of materials currently available at the Utah State Office of Education pertinent to the effecitve schools literature. An appendix includes a report "Indicators of Quality Schools," produced by the Colorado State Department of Education. (JD)

Descriptors—*Affective Behavior, *Beliefs, Classroom Environment, Classroom Techniques, Elementary Education, *Student Participation, *Teacher Attitudes, *Teacher Behavior, Teacher Effectiveness, *Teacher Response, *Teaching Styles

Data analyses and interpretations presented in this report were obtained from a national data set collected for "A Study of Schooling." Elementary teachers (N=286) responded to a questionnaire asking them to indicate the extent to which they agreed or disagreed with 12 statements of educational beliefs concerning teacher control and student participation. A typology of educational beliefs was developed. Teacher groups were described as "autocrats," "strategists," "laissez-faires," and "democrats." Classroom process variables were selected for comparison with the four teacher belief types from perspectives representing three domains of the classroom curriculum –the instructional (teacher perspective), operational (observer perspective), and experiential (student perspective). The investigation focused on how teacher belief types differed in the preactive behaviors (i.e., goals, intentions, decisions) and their interactive behaviors (i.e., instructional methods, grouping arrangements, use of time, classroom leadership, and affective behavior). Student perceptions were used to assess the classroom learning environment. The findings support the notion that teachers' educational beliefs have a distinct bearing on their teaching behaviors and thereby on their teaching effectiveness. Questions are raised concerning teacher beliefs and their relationship to methods of teacher selection, education, and evaluation. Implications are discussed. Ten pages of references conclude the report. (Author/JD)

**Averting a Teacher Crisis in Oregon.**
Oregon Teacher Standards and Practices Commission, Salem.
Pub Date—[85]
Note—54p.
Pub Type— Reports - Descriptive (141) — Information Analyses (070)
**EDRS Price - MF01/PC03 Plus Postage.**
Descriptors—*Academic Standards, Educational Improvement, *Program Improvement, *Teacher Education Programs, Teacher Orientation, *Teacher Recruitment, *Teacher Shortage, Teaching Conditions
Identifiers—*Oregon

This paper reviews the various recommendations for improving teacher education in the United States and compares them to educational conditions in Oregon. Recommendations are made to the Oregon Teacher Standards and Practices Commission in four areas: supply of new teachers, assurance of quality of teacher candidates, induction of new teachers into the public schools, and continued competence of employed educators. Other changes may be needed in the way public schools in Oregon are financed and teachers are compensated, but no recommendations are made on reforms such as raising teachers' salaries, creating career ladders in teaching, offering merit pay, or providing loans for college students planning careers in education. Changes in these areas are outside the jurisdiction of the Commission. (Author)

Descriptors—Administrator Attitudes, *Educational Change, *Educational Environment, *Educational Improvement, Elementary Secondary Education, *Institutional Characteristics, Job Satisfaction, *Teacher Administrator Relationship, *Teacher Attitudes, *Teaching Conditions

Data collected on teacher, classroom, and school characteristics from 38 schools participating in "A Study of Schooling" were analyzed to determine some of the cultural variables that separate schools that are more renewing from those which are less renewing. The following constructs emerged: (1) authority and decision making structures; (2) informal organizations; (3) professionalism; (4) climate; (5) support and resources; (6) communication; (7) leadership; (8) goals; (9) roles and status; (10) rewards; (11) participation; (12) problem-solving orientation; and (13) values and beliefs. A subsample of 18 schools was selected for defining a school as "more" or "less" renewing. A cluster analyses produced three sets of variables: personal/demographic focused; school focused; and class/curriculum focused. Discriminant analysis was used to assess the extent to which the sets of contextual variables thought to be the most important in effecting school renewal differentiated among teachers in "more" as compared to those in "less" renewing schools. Findings indicated that school-level variables, more than individual teacher characteristics, are more critical for school change. Seven pages of references conclude the report. (Author/JD)

**Are Methods of Enhancing Creativity Being Taught in Teacher Education Programs as Perceived by Teacher Educators and Student Teachers?**
Pub Date—[85]
Note—22p.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Creative Development, *Creative Teaching, Education Majors, Higher Education, Preservice Teacher Education, *Student Teacher Attitudes, *Teacher Attitudes, *Teacher Education Programs, *Teacher Educators

A study tested the general proposition that, although professors of education courses possess knowledge concerning the concepts of creativity, little of that knowledge is passed on to undergraduate students. Ten colleges and universities in Washington and Idaho with teacher education programs were selected for the study. A total of 62 teacher educators and 388 student teachers were polled by questionnaires. Results indicated that both teacher educators and student teachers thought that enhancing creativity in children was an important topic to include in teacher education programs. However, both groups felt that it was not being taught to any great extent in the programs. Although many of the teacher educators rated their own teaching styles as being more divergent than convergent in nature, many of the student teachers indicated that no classes they had taken had been taught in a creative manner. **Differences in Teachers' Responsiveness to Students: A Case Study.**
Pub Date—11 Oct 85
Note—17p.; Papers presented at the Conference of the Northern Rocky Mountain Educational Research Association (Jackson Hole, WY, October 11, 1985).
Pub Type— Speeches/Meeting Papers (150) — Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Classroom Communication, Elementary Secondary Education, Research Methodology, Teacher Attitudes, *Teacher Behavior, *Teacher Response, *Teacher Student Relationship

The purpose of this study was to develop scoring categories to assess differences in how teachers describe their communication patterns with students, focusing on teachers' understandings rather than on their behavior. Case study data was used to look at differences in teachers' responsiveness to students in their classrooms. Data came from three interviews, two structured and one open-ended, in which teachers discussed their teaching and their interactions with students. Findings indicated that reliable scoring categories related to the topic of interpersonal communication could be constructed from the data. The two case study teachers, who had very different scores on a cognitive-developmental measure, had contrasting understandings about students and described their interactions with them in ways that were consistent for each teacher across the three interviews. Details of the interviews held with teachers are presented along with extracts from the interviews. (CB)

Identifiers—*England

This paper presents a comparative analysis of teacher education in England and the United States. The fundamental focus is on the location of teacher education in the educational system, and what effect this has on teacher education programs. First considered is the organizational setting in which secondary school teachers are trained, and in what sorts of institutions the training takes place. In this area, the following questions are asked: (1) does training take place in research universities, comprehensive state colleges and universities, polytechnics, monotechnic teachers colleges, or in school-based institutions? and (2) in what sorts of units within these institutions are teachers trained-separate professional schools, departments of education within colleges of letters, or mainstream disciplinary departments? The second dimension of location considered is the normative setting in which secondary school teachers are trained, to what extent a traditional academic ideology prevails in the institutions, and the basic units in which they are trained. Reference is made to the values and beliefs typical of academics in the mainstream college of letters and science departments: beliefs about what type of educational content and

work has value, what should be taught, how students should be trained, and what students should be encouraged to do. Eight pages of references are appended. (JD)

This directory lists the institutions that provide full-time postgraduate courses in public health lasting at least one academic year. Other institutions, such as schools of medicine, that have a department of public health or community health offering postgraduate programs in public health are also included. A total of 216 institutions in 54 countries are represented. This directory is intended primarily for administrators and educators in the health field and for health personnel interested in building upon their background of knowledge in public health by undergoing further graduate and postgraduate training. The basic postgraduate public health courses offered in each country are described, as well as other related courses, and particulars are given of the institutions where they are available. Information is included on: admission requirements, curriculum, student assessment, and qualification requirements. (CB)

Descriptors—*Educational Cooperation, *Educational Research, Higher Education, *Preservice Teacher Education, *Program Effectiveness, *Program Evaluation, Teacher Characteristics, Teacher Workshops
Evaluation in a collaborative teacher education program presents challenges which can lead to institutional and programmatic changes. During 1984-85, formative and summative evaluation designs were developed by a committee of school/university participants. This paper summarizes the findings of formative data collected in four studies on: (1) collaborative organizational processes; (2) assessment of a workshop/seminar series; (3) characteristics of preservice teachers; and (4) generic objectives for the Collaborative Preservice Teacher Education Program. The summative design to be implemented in 1986-87 is also described, and the implications of these studies for continuing program development, accreditation, state department approval, teacher certification, and the model of a collaborative teacher education program are suggested. This study sought to determine what courses of study related to multicultural education were being offered by Canadian universities and what teacher competencies related to multicultural skills were considered important by professionals in Canada. Two questionnaires were responded to by 25 persons involved or interested in multicultural education. The first questionnaire resulted in a list of courses available at 14 universities: the five major topics discussed in these courses were: (1) minority groups, racism, prejudice, and discrimination; (2) study of cultures; (3) language and culture; (4) cross-cultural communication; and (5) curriculum development. In the second questionnaire, respondents ranked the importance of 18 multiculturally related areas of teacher competence. The five areas perceived as most important were: (1) developing cultural sensitivity; (2) integrating multiculturalism in various subject areas; (3) knowledge of the Canadian multicultural society; (4) dealing with racial differences in the classroom; and (5) recognizing bias in assessment instruments. Identifiers—*University of Regina SK
The major purpose of this study was to determine the employment status of education graduates from the 1985 class at the University of Regina (Saskatchewan, Canada). Responses were received from 124 graudates. Information is reported on the following questions: (1) What was the employment success rate of education graduates? (2) To what locales did the graduates make their applications and what was the average number of applications made? (3) In what locales were teaching positions accepted? (4) In what division(s) of the school program did the graduates have their major teaching responsibility: (5) What subjects were graduates teaching in which they had eight or less than eight credit hours as part of their training? (6) What types of jobs, other than teaching, did the graduates accept and why? and (7) Were the unemployed graduates pursuing further study and if so, for what degrees or qualifications? (JD)

In the last fifteen years, the concept of field-based experiences has changed from a Schools, College, and Department of Education (SCDE) focus toward a consumer-oriented model. This paper briefly reviews the early goals and describes the definitions which differentiate clinical experiences from field experiences which may help clarify research results on field-based education. Using the literature from current studies of teacher education, the paper identifies the parameters of field experiences and describes how these are being applied to a field-based elementary teacher education program in the Southwest. This report presents the highlights of a conference held to critically examine the state of education in America and to set goals for the future of education in America. Those participating in the conference included public and private school teachers and administrators, college teachers and administrators, college students, parents, state representatives, and representatives of the Montana State Department of Education. Keynote speakers for the six general sessions were: Ernest L. Boyer, Emeral A. Crosby, Francis N. Hamblin, Lyn Gubser, Lee Noel, and Roxanne Bradshaw. The six general sessions encompassed: (1) a critical examination of American education; (2) future directions for American education; (3) "A Nation at Risk"; (4) the global stakes; (5) increasing student competence–an emerging indicator of educational excellence; and (6) the education reports and future directions. **Teacher Education: A Comparative Study of Programs in England, France, USSR and Germany.**
Pub Date—[??]
Note—21p.
Pub Type— Reports - Descriptive (141)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Comparative Analysis, *Foreign Countries, *Secondary School Teachers, *Teacher Education Programs
Identifiers—England, France, USSR, West Germany
This paper outlines the teacher education process in the USSR, England, France, and West Germany. While the content is mainly limited to the secondary school teacher, the study encompasses the entire educational system of the country and, therefore, occasionally mention is made of various other educational levels. The structure of the teacher education system is examined within the framework of the function it serves. Included in the discussion of the programs are considerations of cultural needs and philosophies governing the education of teachers. Briefly addressed are questions of prospects, problems, and changes in teacher training. (JD)

Descriptors—*Aesthetic Education, *Cultural Awareness, *Dance Education, Elementary Secondary Education, Grade 3, Grade 5, Grade 8,

*Movement Education, Physical Education, *State Standards
Identifiers—*New Mexico
The dance education competencies presented in this guide are intended to be statements of ability that can be expected at certain stages of a child's development which can be observed and are sequential in nature. The competencies may be used as tools by which curriculum decisions can be made; however, they may be revised and adjusted to reflect the changing abilities of students. Competency statements are made for the following areas of dance education: (1) body awareness; (2) rhythm; (3) spatial awareness; (4) locomotor patterns; (5) self exploration/improvisation; (6) choreography; (7) social interaction; (8) fitness; (9) knowledge; (10) aesthetic appreciation; and (11) cultural awareness. Descriptors—*Catholic Educators, *Catholic Schools, *Interpersonal Relationship, Teacher Behavior, *Teacher Responsibility, *Teacher Role
The primary emphasis of this monograph is upon the importance of spritual strength and commitment on the part of teachers in Catholic schools. It is within this context that the daily tasks, problems, and responsibilities of the teacher are discussed. The personal relationships of all individuals involved with teaching children are considered in the light of shared goals and aspirations. A discussion of the professional qualities and competencies of the teacher leads to a delineation of personnel practices and policies in Catholic schools. A bibliography and an annotated list of suggested readings are included. (JD)

Recruiting and retaining good teachers has recently reemerged as an important policy concern on the national agenda, as shortages of qualified teachers have appeared in a number of regions around the country. This four-section report addresses the recruitment and retention of teachers. The first section considers the shortage of high quality teachers, proposed explanations, and how teacher personnel policies are a strategic area for addressing the problmem. The second section describes the samples and data drawn upon to provide insights into a broad array of teacher personnel policies and practices. Section three examines important features shaped by teacher personnel policies, factors which may mediate these policies in important ways, and possible consequences of those policies. The final section offers hypotheses about how various teacher personnel policies may have significant educational consequences. (CB)

Descriptors—Communicable Diseases, Curriculum Development, *Curriculum Evaluation, *Disease Control, *Health Education, Secondary Education, Sex Education, *Student Attitudes, *Textbook Content, *Venereal Diseases
This project sought to determine the efficacy of the recently published Centers for Disease Control (CDC) sponsored sexually transmitted diseases (STD) curriculum, "STD: A Guide for Today's Young Adults." Six school districts (rural, suburban and urban) with a participating population of 1,114 students, cooperated with the study. One group of students received the CDC curriculum, one control group received the school's present STD unit, another control group received no STD instruction. Attitudes and knowledge were chosen to be the dependent variables assessed in the project. The treatment length was five class sessions or about 250 minutes. Findings, based on pre- and post-tests and delayed tests, indicated: (1) in general, the CDC sponsored STD curriculum was effective in changing students' STD-related attitudes; (2) the CDC curriculum increased most students' STD-related knowledge; (3) the CDC curriculum was more effective in changing belief and attitude than "intention to act"; (4) the CDC curriculum had less impact on the rural school than the urban and suburban schools; (5) the CDC curriculum was effective with both males and females; (6) the CDC curriculum was more effective than the schools' present STD education; and (7) participants viewed the CDC curriculum positively. The report recommends that the curriculum should be adopted by secondary schools, that it should be taught more than once in the early, middle, and upper secondary school grades, and that the STD scales, particularly the attitude scale (appended to this report), should be used for future research. **The Influence of Student Characteristics on Their Reasons for Entering Teacher Education.**
Pub Date—[86]
Note—25p.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Career Choice, Decision Making, *Education Majors, *Family Influence, Higher Education, *Preservice Teacher Education, *Student Characteristics
This study was designed to investigate the characteristics and motivations of students entering teacher training by examining the relationship between selected student characteristics and the influences or reasons given for choosing to become a teacher. The sample of 266 students beginning an introduction to education course was found to be predominantly female (80 percent) and white, from larger families (70 percent with two or more siblings), first generation college graduates (60 percent), from smaller communities (87 percent) and families of educators (50 percent), and as being influenced in their decision to teach by liking children (85 percent), by former teachers (63 percent), and by experiences with children (59 percent). Reasons given for choosing to teach were found to be related to: gender, teaching specialty, mother's education and occupation, birth order, and the earliness of and level of assurance about their decision to teach; but the reasons given were not related to students' level of aptitude or basic academic skills, number of siblings, type of high school attended, amount of teaching-like experience, or anticipated success as a teacher. Conclusions with implications for prospective teacher recruiting, selection, and retention are enumerated. (Author)

Descriptors—*Cardiovascular System, *College Faculty, *Heart Disorders, Physical Activities, Physical Activity Level, *Physical Fitness, *Sex Differences
Identifiers—Plasma Lipoproteins
The purpose of this investigation was to compare physical activity, aerobic fitness, and selected coronary heart disease risk factors in 27 male and 21 female university faculty members. Results of t-tests indicate that the males had significantly greater values for physical activity index, systolic blood pressure, aerobic fitness (V02 max), and LDL-C/HDL-C. The females had significantly higher percent body fat and higher resting heart rates. No significant differences were found between males and females on the following variables: age, smoking, drinks per day, T-CHO, LDL-C, VLDL-C/HDL-C, HDL-C, and Tg. HDL-C was significantly related to less body fat, lower resting heart rates, and higher aerobic fitness in both males and females. While females tend to possess plasma lipoprotein profiles that suggest less risk of coronary heart disease, the more active males exhibited plasma lipoprotein profiles that resembled those of less active females. The articles in this publication were contributed by memebers of the faculty of education and students in the Master of Arts in Education graduate program at Baldwin-Wallace college in Berea, Ohio. The lead article presents a brief history of the conception and development of the Master of Arts in Education program which was begun in 1974. The articles range from light to scholarly. Included are writings on the topics of: (1) the pupil teacher relationship; (2) the role of the modern day high school principal; (3) multicultural education; (4) predicaments of ethnic and racial minorities in American society in the 1980s; (5) learning theories based on brain research; (6) teacher expectations; (7) reading in silence; (8) a critique of Kohlberg's theory of moral development; and (9) how teacher attitude affects student motivation. **The Role of Teacher Education in Teacher Socialization: A Case Study.**
Pub Date—Apr 86
Note—38p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-19, 1986).
Pub Type— Speeches/Meeting Papers (150) — Information Analyses (070) — Reports - Research (143)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—Preservice Teacher Education, *Research Methodology, *Role Perception, *Socialization, *Student Teacher Attitudes, *Teacher Orientation
Identifiers—*Teacher Socialization
Most research on teacher education has taken a functionist approach to socialization, emphasizing the importance of moulding individuals to the norms of the profession. Weaknesses have been noted in this approach, and recommendations have been made which call for a theoretical and empirical reorientation to the study of teacher socialization which considers the process of socialization and the relationship of variables within the particular context of socialization. This paper offers a critique of the functionist approach to the study of teacher socialization. An alternative theoretical and empirical orientation to teacher socialization is presented. A brief review of teacher socialization literature provides supportive documentation for a reorientation of theory and research with an emphasis on the role and contribution of the preservice teacher in the socialization process. The design of an ethnographic study of a teacher education program is outlined and preliminary findings on this ethnographic investigation are reported. Implications of the study are discussed along with possible considerations for future teacher education programs. (JD)

**The Observational Learning of a Timing Skill.**
Pub Date—[83]
Note—23p.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Feedback, Modeling (Psychology), *Observational Learning, *Psychomotor Skills, Retention (Psychology), *Skill Analysis, *Skill Development
Current social learning theory proposes that motor skill information which is acquired by means of observational strategies is stored cognitively in the form of a conceptual representation. The latter is then said to be used as a basis for response production and as a standard for response corrections which occur as a function of performance feedback. What is not known is how much of skill practice time should be spent in observation of a model as opposed to receiving response-contingent feedback. To answer this question, seven experiemental conditions, which varied in regard to amount of practice time spent either in observing a model or receiving response-contingent feedback, were used with 84 subjects. The subjects were given 60 practice trials on a barrier task prior to performing 20 no-feedback retention trials and 20 no-feedback delayed retention trials. The results of the analysis of the immediate retention effects were somewhat equivocal in terms of providing any definitive answers. Most pronounced in the delayed retention analysis were the results which indicated that four out of five conditions, which included some combination of observational learning and performance feedback, were superior to performance feedback alone. A brief list of references is included. (Author/CB)

Descriptors—*Codes of Ethics, *Educational Research, Research Needs, *Research Problems, Social Science Research
This paper explores the ethics of educational connoisseurship and educational criticism. Three ethical criteria commonly used in social research–informed consent, avoidance of harm to participants, and confidentiality–are identified and applied to a particular case of eductional criticism in a study conducted on teacher coping strategies. The paper argues that the conventional ethics of social research fail to provide an adequate ethical basis for the practice of educational criticism. Alternative ethical guidelines for criticism and for qualitative research in general are suggested. (CB)

Descriptors—Computer Assisted Instruction, *Computer Software, Educational Media, Educational Technology, Elementary Secondary Education, *Microcomputers, *School Districts, *State Norms
Identifiers—*Texas
This study determined the prominent brands of microcomputers presently in use in Southeast Texas schools, the reasons for their selection, and computer use and brands in relation to grade level. Questionnaires related to microcomputer use were sent to 115 school districts in southeast Texas in 1985. The return rate was 83 percent. A total of 8,258 computers were reported by 96 school districts, with an average of 86 computers per district. Of the 8,258 computers, 68 percent were Apple, 20 percent were Commodore, 11 percent were Radio Shack, 1 percent IBM, and 1 percent other brands. When comparing by grade levels, 36 percent of the computers were at the elementary schools, 32 percent were at the junior high school level, and 32 percent were in high schools. (Author/CB)

**Moonlighting, Salary, and Morale: The Texas Teachers' Story.**
Pub Date—May 86
Note—15p.
Pub Type— Reports - Research (143) — Tests/Questionnaires (160)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Career Ladders, *Multiple Employment, Teacher Attitudes, *Teacher Morale, *Teacher Salaries, Teacher Shortage, *Teaching (Occupation), *Teaching Conditions
A random sample of teachers (N=329) responded to a survey on how economic conditions were affecting teachers in Texas. Responses indicated that four out of ten teachers are seriously considering leaving the profession; three-fourths balk at recommending teaching as a career at a time of severe teacher shortages; and almost one-fourth of the teachers moonlight to supplement their salaries. Males are scarce at all levels, especially in the elementary schools. An analysis of the data shows that males and single teachers moonlight at twice the rate of females and married teachers. Teachers are dissatisfied with the career ladder, and the most common reason for leaving is now working conditions rather than salary as found in three previous studies. Two-thirds of the teachers support mandated negotiations with the local school board. The one bright spot in the study is the increase in teacher salaries. A sample questionnaire is included. Descriptors—*Career Choice, *Cooperative Education, High Schools, *High School Students, *Sex Bias, *Sex Stereotypes
Scholars have long acknowledged the role schools have in reproducing a sexual division of labor. Despite the reemergence of a feminist movement and anti-sex-discrimination legislation, schools are still places where boys and girls tend to study different curricula and where traditional sex roles are perpetuated. Physics, calculus, and shop classes are still filled with boys, and home economics and office education classes have mostly girls. An analysis is presented of the cooperative education program at Woodrow Wilson High School (Washington, D.C.). Its preparation of young women for future jobs is described, and the particular types of jobs these students go into are discussed. The reasons for job choice are analyzed, and problems with the program are cited with suggestions for improvement. (CB)

Descriptors—Elementary Secondary Education, *Organizational Objectives, *Research and Development Centers, *Teacher Effectiveness, *Teacher Improvement, Teacher Motivation, Teacher Recruitment, *Teaching Conditions
Identifiers—National Institute of Education, *Research and Develop Ctr Teacher Quality Effective
This report presents a conceptual framework for the mission of the National Institute of Education (NIE) Research and Development Center for Teacher Quality and Effectiveness. Several important issues that should be the focus of the Center are identified, and the theoretical foundations to guide the research and development activities to study these issues are discussed. Also outlined is the role that the Center should have in assuming national leadership in the study of teacher quality and effectiveness, and the importance of developing new knowledge and perspectives that can inform the development and implementation of policy and can be taken and used by practitioners to improve their life, work, and productivity as teachers. The developers of this conceptual framework examined a broad range of popular, professional, and scholarly publications; consulted widely with policymakers and practitioners; and undertook a survey of representatives of various education interest groups. The central issues that the Center should be engaged in are listed and discussed, including: (1) to attract and retain teachers; (2) to continuously enhance the competence of teachers who are recruited and who are currently in the profession in ways that increase their effectiveness; (3) to establish conditions in the workplace that facilitate the effective use of that competence; and (4) to motivate teachers to do their best and improve their practice. **A Qualitative Study of How One Teacher Selects Instructional Materials.**
Pub Date—[86]
Note—15p.; Some pages have light, broken type.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Educational Research, Foreign Countries, *Instructional Material Evaluation, *Media Selection, Primary Education, *Teacher Attitudes
A case study explored the ways in which a primary grade teacher selected instructional materials. The teacher had nearly 25 years of experience in the field. Data were gathered through 10 weekly interviews of about a half hour each, during which videotapes of the teacher's classroom practices were reviewed. Areas covered under the study included: the text as a set curriculum; reflections on the teacher's choices of instructional materials; the source of the teacher's instructional ideas; the teacher as "scrounger"; instructional materials and parent involvement; and instructional materials as outside experiences. Specific detail is presented on the teacher's views on these areas, and a description is given of the teacher's decision-making processes in selecting instructional materials. (CB)

**Tracking: Can It Benefit Low Achieving Students?**
Pub Date—Apr 86
Note—56p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Speeches/Meeting Papers (150) — Reports - Research (143)
**EDRS Price - MF01/PC03 Plus Postage.**
Descriptors—Ability Grouping, Academic Achievement, *Catholic Schools, *School Effectiveness, Secondary Education, Socioeconomic Status, Student Attitudes, *Track System (Education)
This study explored the effectiveness with which Catholic secondary schools served students from low-income families, with particular emphasis on the usefulness and results of tracking. Teams of researchers spent one full week in each of three Catholic secondary schools on the east coast gathering data through interviews with students, teachers, administrators, and parents; observing classrooms; and examining materials submitted by school administrators. The portrait of the tracking programs at the Catholic schools was not too different from that observed in public schools. Catholic schools had as many subject areas and ability grouped courses and were just as constrained in placement decisions. Catholic schools did not seem to avoid the racial differentiation endemic in tracking. Where the organizational differences emerged was in the curriculum and quality of instruction, and a challenging learning environment was prevalent in all levels of the Catholic school tracking programs. A two-page list of references and 14 tables summarizing research data conclude the document. (CB)

The Ways to Improve Schools and Education (WISE) Project seeks to enhance school productivity by more effective use of community resources to meet school needs. Models and guidelines have been developed to promote collaboration among schools, businesses/chambers of commerce, other community organizations, state education agencies, and higher education agencies. Initiated in 1982, Project WISE has pilot-tested school and business/community partnerships throughout the six-state region of the Southwest Educational Development Laboratory. WISE worked with three sites–Albuquerque, New Mexico; Austin, Texas; and Oklahoma City, in 1983-84. For 1985, three more sites were added: Little Rock, Arkansas; Jackson, Mississippi; and New Orleans, Louisiana. This final report provides a detailed account of the activities conducted by the Project in 1985. Included in the report are: (1) a description of the background of WISE; (2) WISE goals, objectives and related activities; (3) major activities and accomplishments; (4) major conclusions and recommendations; and (5) a discussion on the significance of the major accomplishments. Appendixes include correspondence, a listing of national organizations interested in education-community partnerships, and an annotated bibliography. (JD)

Descriptors—*Classroom Techniques, Cognitive Processes, Elementary Secondary Education, *Learning Strategies, *Socialization, *Student Motivation, *Teaching Methods
This paper describes conceptual development and empirical research on student motivation to learn. It defines student motivation to learn as both a generalized trait and a situation specific state, and distinguishes it from related but different motivational conceptions that have less direct bearing on issues surrounding motivating student learning in class-

room situations. It then reviews research indicating that little evidence of motivation to learn is observed in most classrooms and that this may be because teachers have not been made aware of the need to stimulate such motivation to learn through systematic socializing of their students, nor have they been armed with strategies for doing so. Finally, it describes the rationale and design of an ongoing experiment on this topic and presents the 13 strategies for stimulating student motivation to learn and 11 strategies for capitalizing on students' existing intrinsic motivation that are being recommended to teachers and that form the treatment in this experiment. Descriptors—Family Characteristics, Interpersonal Relationship, *Personality Traits, *Social Status, *Student Characteristics, *Student Problems, *Teacher Attitudes, *Teacher Student Relationship
This paper serves as a prologue to three case studies exemplifying instances in which the status of a student in the classroom was socially constructed by the teacher and the attitudes of other students. In each case the student was considered as a "problem" in the classroom. It is noted that teachers appear to include in their judgements of children not only such attributes of student status as academic ability socially constructed, but also such attributes as social class, race, gender, and family normality. The main aim of this research was to discover how different teachers in the primary grades learn to observe and make practical sense of what happens in their classroom from day to day. The first case study focuses on interaction between a teacher and a second grade student, and of the subsequent shaping of that student's social and personal identities in the class. The second study is of a boy who became a social pariah in the course of his second grade experience. In the final study, the process is traced of a teacher making a decision to identify a student as in need of special education. Brief analytic discussions accompany each case study. (JD)

**Teacher's Autonomy in a Centrally Developed and Controlled Curriculum.**
Pub Date—[86]
Note—21p.
Pub Type— Reports - Descriptive (141)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Curriculum Development, Elementary Secondary Education, Foreign Countries, *Instructional Materials, *Media Selection, *Personal Autonomy, Teacher Responsibility, *Teacher Role, *Teachers
Identifiers—*Israel
One response to the disappointment from the curriculum reform of the 1960's has been an increased tendency towards more teacher autonomy in determining the curriculum. Seven modes of curriculum development in terms of the role of teachers have been identified. Listed from Center to Periphery these are: Centrally Based, Locally Centrally Based, Locally Based, School Based, Teacher Based, Pupil and Teacher Based, and Pupil Based. The main thesis of this article is that teacher's autonomy is possible in any one of the modes mentioned above. Moreover, teachers who have the benefit of centrally developed materials, and perhaps centrally offered support, as well as the freedom to choose from available options, may be more powerful and more effective than teachers who are left alone to exercise full responsibility and design the whole curriculum on their own. The different modes and their operation are illustrated, using the Israeli educational system in general and the Israel High School Biology Program in particular. (Author)

Descriptors—Family Influence, Grade 10, *Health Education, High Schools, *Knowledge Level, *Nutrition Instruction, Student Attitudes, *Student Behavior
Two studies examined the impact of a five-session behaviorally oriented nutrition curriculum on health knowledge, behavioral intentions, attitudes, and self-reported behavior of tenth grade students. The first study examined the impact of a nutrition curriculum when combined with materials for the family and the impact of the curriculum when administered by a health educator or the classroom teacher. The second study examined the impact of the type of classroom instructor on student knowledge and behavior when administering the behaviorally oriented nutrition curriculum and the standard, or regular, nutrition curriculum. In both studies, outcome measures included pre- and post-assessments of nutrition knowledge, self-reported dietary behavior, self-efficacy, behavioral intentions, and attitudes. Significant changes were observed in student knowledge and behavioral intentions, and significant differences were seen for attitude change. Significantly greater changes in attitudes were seen when the curriculum was taught by the classroom teacher, and significantly greater improvements in knowledge were seen when the health educator administered the curriculum. The special behaviorally oriented curriculum brought about greater changes in knowledge, behavioral intentions, and self-reported behavior than did the more standard curriculum. (CB)

WISE worked with three sites: Albuquerque, New Mexico; Austin, Texas; and Oklahoma City, in 1983-84. In 1985, three more sites were added: Little Rock, Arkansas; Jackson, Mississippi; and New Orleans, Louisiana. At each site a Liaison Team (LT) was organized consisting of representatives from the school district, a collaborating business or chamber of commerce, an institution of higher education; the state education agency, and the Southwest Educational Laboratory. Project WISE accomplished the following: (1) assisted with the establishment and implementation of collaborative activities at the six sites; (2) interacted with other partnerships in the United States; (3) reviewed pertinent literature; (4) shared information among its sites; and (5) conducted working conferences of its LTs. Project WISE and its LTs produced Models and Guidelines for Partnerships in Education. These operational Models and Guidelines are experience-based, research-based, and operational in translating research into practice. (JD)

**Estimates of Teacher Demand and Supply and Related Policy Issues.**
Pub Date—Apr 86
Note—18p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Speeches/Meeting Papers (150) — Information Analyses (070) — Reports - Descriptive (141)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Educational Demand, Educational Policy, *Educational Trends, Elementary Secondary Education, *Teacher Employment, Teacher Recruitment, *Teacher Supply and Demand, *Trend Analysis
Problems with teacher demand/supply estimates are reviewed, and comments are made on current policies intended to increase both the supply and the quality of teachers. Some experiences and reactions to recent changes in credentialing and educational requirements are also noted, including revisions in state certification statutes, requirements for competency testing, and reforms in teacher education programs. The effects of various economic incentives to attract more able people into the profession and maintain them as teachers are discussed, including scholarship and loan programs, raising teacher salaries, and performance-based pay. Projections of future demand, in addition to using enrollment forecasts, must make estimates of teacher attrition and possible educational improvements that may call for additional teachers. Problems concerning estimates of supply have to do with uncertainties regarding the makeup and quality of the current teaching pool, the number of individuals expected to enter teaching in the future, and the number that can be expected to return to teaching from the large pool of trained, but presently inactive teachers. A three-page reference list is provided. (Author/CB)

**A Description of Teacher Decision-Making While Tutoring Fifth Grade Students Engaged in Problem Solving Using a Computer Simulation.**
Pub Date—Apr 86
Note—16p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Reports - Research (143) — Speeches/-Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Decision Making, Educational Research, Elementary Education, Grade 5, *Intervention, *Teacher Attitudes, *Teacher Behavior, *Teacher Student Relationship
This study investigated teacher decision-making within a tutorial setting. The purpose of the study was to contribute to research about teacher thinking and to provide insight into the courseware design process. The teacher task was to tutor individual students (three fifth grade students per teacher) in a problem solving activity involving a computer simulation. The study examined the instructional actions taken by five experienced teachers, including when, why, and how they chose to intervene. Information sought included the student cues that were the basis for interventions, and factors which influenced decisions. Analysis strongly suggested that differences in intervention frequency among sessions for each teacher were attributable to perceptions of students' individual cognitive and affective characteristics. (CB)

**Preservice Students' Attitudes toward Pupil Control as They Develop throughout the Field Experiences.**
Pub Date—20 Apr 86
Note—23p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).
Pub Type— Speeches/Meeting Papers (150) — Reports - Descriptive (141)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Educational Research, Elementary School Teachers, *Field Experience Programs, Higher Education, *Preservice Teacher Education, Secondary School Teachers, *Student Behavior, *Student Teacher Attitudes, *Teacher Student Relationship
Identifiers—*Pupil Control Ideology

This study used repeated measures of the Pupil Control Ideology (PCI) instrument to examine the change in student teacher orientation toward pupil control ideology occurring during a three semester field experience. The instrument was given to elementary and secondary education majors at Southern Illinois University at Carbondale five different times during the field experience, and attempted to address two research questions regarding: (1) the effect of participation at the different levels of the field experience on the student teachers' PCI scores; and (2) differences in PCI scores between the elementary and secondary education majors. Although the elementary education majors showed a significant decline in PCI scores during the first stage of the field experience, PCI scores for this group rose significantly by the end of the field experience. At any time during the field experience, secondary education majors had higher PCI scores than the elementary education majors. The document concludes that preservice teachers shift from a relatively humanistic ideology toward a more custodial view of children as they gain experience in the schools. Two pages of references are included. (CB)

**Humanism in the Classroom.**

Pub Date—[86]

Note—22p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).

Pub Type— Reports - Research (143) — Speeches/-Meeting Papers (150)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Educational Philosophy, Elementary Secondary Education, *Humanism, Role Conflict, *Teacher Attitudes, *Teacher Behavior, *Teaching Styles

This study sought to describe, at the level of practice, one teacher's use of humanism in the classroom. Methods of participant observation were used to capture reflective contrasts between the subject's intended behavior (by formal and informal interviews), actual behavior (by direct observation), and ideal behavior (by readings from humanist authors). The constant-comparative method was used for data analysis. Results confirmed findings of inconsistencies between teachers' reported philosophies and their actual practices. It appeared that humanist teachers are not often distinguishable from other teachers in their methods. (Author/CB)

Descriptors—*Educational Research, Faculty Mobility, *Labor Market, *Policy Formation, Teacher Effectiveness, *Teacher Employment, Teacher Recruitment, Teacher Salaries, *Teacher Supply and Demand

This monograph on teacher labor market research is divided into six major sections. The first, a survey of related literature, describes the general context of teacher labor market research derived from the educational reform movement and then focuses on the particular issues of supply adequacy, teacher quality, career choice, attrition, and compensation. Following the literature survey, four sections summarize the results of research under four major topic areas: (1) supply and demand monitoring and forecasting; (2) career choice and recruiting; (3) attrition; and (4) compensation. Individual research project components are discussed as subheadings under each major topic. The final section is a synthesis of the findings of the various research components which includes a discussion of policy implications and a summary of future research needs. Fourteen pages of references conclude the report. (JD)

Descriptors—*Fringe Benefits, *Leisure Time, Teacher Recruitment, *Teacher Salaries, *Teaching (Occupation), Teaching Experience

This project measured and evaluated the fringe benefit element of the teacher compensation package available in the 12 Southeastern Regional Council member states: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virgina. Data were collected by contacting members of the Council representing each state, and by questionnaires submitted to section heads in the state departments of education. Section one of this report presents an overview of the project. The second section contains a specific discussion of the major fringe benefits available. Benefits are described by state, and a tabular summary is given. Section three contains a discussion of the theoretical basis for determining the value to teachers of summertime leisure. The question of whether summertime leisure is a benefit or a constraint to teachers is considered. Section four presents tables of classroom teacher compensation by experience and level. The final section contains a summary of available fringe benefits and policy recommendations, as well as suggestions for future research. A list of references is included. (JD)

Descriptors—Comparative Analysis, *Compensation (Remuneration), *Fringe Benefits, *Leisure Time, Teacher Recruitment, *Teacher Salaries, *Teaching (Occupation)

This research focused primarily on the fringe benefit element of total compensation for teachers in 12 states: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. The specific objectives of the research were to: (1) identify the fringe benefits provided school teachers in the 12 Southeastern Regional Council member States; (2) calculate the approximate dollar value of each of the major fringe benefits and present as individual and total annual wage equivalents; (3) identify the extent to which fringe benefits vary by type and amount within the region; (4) examine carefully, theoretically and empirically, the question of whether free time in the summers is a benefit or detriment to teachers, and attempt to place a value on this leisure time; (5) compare teacher fringe benefits and total compensation in the Southeast with other occupations in industries and nationwide; and (6) make policy recommendations concerning fringe benefits as a part of teacher compensation packages in the Southeast. A short list of references is included. (JD)

Descriptors—Educational Research, Higher Education, Inservice Teacher Education, Preservice Teacher Education, *Research Utilization, Seminars, *Student Teacher Supervisors, *Teacher Education Programs, *Teacher Supervision

Identifiers—Indiana University of Pennsylvania

A process for infusing clinical supervision research findings into teacher education programs was implemented at Indiana University of Pennsylvania. The major goal of the program was to improve the clinical practice of supervision from both the public school faculty perspective and the university supervisor role. A planned seminar series assisted teachers, administrators, and university faculty in developing clinical supervision skills based on national models. During the initial implementation of the program, 30 teachers, administrators, and university faculty examined issues and problems related to initiating research-based supervisory practices within the university and school settings. Although minimal change occurred in the teacher education and public school participant programs, greater change is expected as the program is better understood and implemented for all participants. **Defining the Critical Elements of a Mastery Learning Program.**

Pub Date—Apr 86

Note—16p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).

Pub Type— Speeches/Meeting Papers (150) — Reports - Descriptive (141)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Academic Achievement, Elementary Secondary Education, Feedback, *Learning Strategies, *Mastery Learning, *Teacher Effectiveness, *Teaching Methods

This paper describes the elements that most clearly identify and are most critical to a mastery learning program. Ways in which teachers can easily and efficiently implement these elements in their teaching and practices are outlined, along with procedures for evaluating their effectiveness in improving student learning. A discussion is presented on the elements most basic and crucial to the mastery learning process. These elements consist of feedback, correctives and enrichment activities, coupled with congruence with specific learning criteria and the procedures used to evaluate learning. Implications for the implementation of mastery learning are discussed: (1) mastery learning can be very broadly applied; (2) teachers need not dramatically change what they are doing in their classrooms or the way they teach to use mastery learning; (3) mastery learning has a positive effect on most student achievement; and (4) more students can experience learning success. A brief list of references is included. (JD)

**Context Variables That Affect Measures of Teacher Efficacy.**

Pub Date—Apr 86

Note—28p.; Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).

Pub Type— Speeches/Meeting Papers (150) — Reports - Research (143)

**EDRS Price - MF01/PC02 Plus Postage.**

Descriptors—Academic Achievement, *Outcomes of Education, *Self Evaluation (Individuals), *Teacher Attitudes, *Teacher Effectiveness

This paper presents a model describing three context variables hypothesized to affect measures of teacher efficacy. These variables include the nature of the student performance outcome (positive or negative), the ability of the students involved (high or low), and the scope of influence (single student or group of students). The results from studies investigating the influence of performance outcomes and student ability on teachers' perceptions of efficacy are summarized. The present study explored the extent of the effect of influence on the teachers' perceptions. It was discovered that teachers do distinguish in their perceptions of efficacy between results with a single student and those with a group of students. When poor performance was involved, teachers expressed less personal responsibility and efficacy for single students than for results from a group of students. A four-page list of references is included. (Author/CB)

Descriptors—Anxiety, *Attitude Change, *Education Majors, Preservice Teacher Education, *Self Esteem, *Student Attitudes, *Student Characteristics, Student Teacher Attitudes, Student Teachers
The purpose of this study was to investigate changes during teacher training in students' anxiety, attitude, concerns, and confidence about becoming a teacher and the relationships between these changes and selected student characteristics. The subjects were comprised of three groups of students (N-581) at three stages of their teacher preparation: beginning their first required education course, just prior to student teaching, and at the end of student teaching. There were significant changes in anxiety, concern, attitude, and confidence about teaching; however, these changes did not follow a consistent pattern for each measure or for all sample subgroups. Changes in anxiety and confidence about teaching moved in a consistently positive direction; attitude towards teaching showed no overall change; and concerns about teaching increased prior to student teaching but decreased following student teaching. The student characteristics of anticipated grade level of teaching, gender, teaching field, time of decision to become a teacher, and father's educational level were found to be related to one or more of the criterion measures. Four pages of references and data tables are included. (Author)

Descriptors—*Beginning Teachers, *Foreign Countries, Higher Education, Inservice Teacher Education, Preservice Teacher Education, *Teacher Orientation
Identifiers—*Beginning Teacher Induction
This study investigated various components of teacher induction programs in five countries: the United States, Canada, Great Britain, Australia, and New Zealand. The purpose of the study was to illuminate the academic programs and organizational structures that should prevail so as to encourage the confluence of preservice and inservice teacher education programs. Academic, governance, and organizational factors in programs in the countries were studied through visits, observations, and literature and research reviews. Five paradigms of teacher induction were observed: (1) "laissez-faire"; (2) collegial; (3) formalized mentor-protege; (4) mandated competency-based; and (5) self-directing professional. The five paradigms and their implications for teacher education are discussed. (CB)

Descriptors—*Career Choice, Faculty Mobility, *Labor Market, Policy Formation, Quality of Working Life, *Teacher Recruitment, *Teacher Supply and Demand, *Teaching (Occupation), *Teaching Conditions
A report is given of a series of qualitative studies conducted to clarify the market patterns of career choice and expectation, recruitment and selection, turnover and mobility, and working conditions and career alternatives of public school teachers. A study of the career expectations of noneducation college students was also made. These studies sought to delineate the dynamics undergirding the market forces so that policy makers may have a more effective framework for analyzing and remedying the problems confronting the occupation of teaching. Focus was upon: (1) labor market variables affecting present education students and teachers; (2) the mobility patterns of resigning teachers; and (3) the variables affecting the career choices of noneducation college students in high-demand fields. Over 525 teachers, former teachers, and administrators in school systems and education students, noneducation students, professors, and administrators in universities representing 22 institutions in rural and urban sites in three different southeastern states were interviewed or surveyed. Policy strategies for attracting and retaining effective teachers are suggested. (JD)

Descriptors—*Comparative Analysis, *Public School Teachers, *Salary Wage Differentials, *Teacher Salaries, *Teaching (Occupation), *White Collar Occupations
Based on earning data from the U.S. Census Bureau's 1984 Survey of Income and Employment, this study estimates annual salaries of persons in teaching and nonteaching occupations. Data was analyzed using the variables of education, work experience, sex, race, marital status, weeks worked annually, hours worked weekly, urban or nonurban residence, and college degree holder status. Bases of comparison through a range of earning alternatives included: characteristics of the existing teacher work force, characteristics of the general nonteacher work force, and characteristics of the white male college-educated work force. Findings indicated that current teacher salaries are below alternative earning opportunities in other occupations by $6,718 for persons with the same sociodemographic characteristics as present teachers. When compared with nonteaching college-educated workers with the same sociodemographic characteristics, the figure was $10,268 less. In comparison to estimated alternative earning opportunity of white male college-educated workers in nonteaching jobs, the amount was $16,563 less. (JD)

This directory lists more than 150 organizations, agencies institutions, and volunteer groups involved in developing teacher education curriculum, providing training, promoting professional advancement, instigating programs of innovative instruction and implementing educational policy for preservice and inservice training of teachers for educational, instructional and managerial applications. The organizations are listed alphabetically by their acronyms; the Acronym Index contains the acronyms used and the full name of each organization. Each entry is coded for the activity interests of the organization. Directory entries contain the organization's address; contact persons; telephone numbers; a brief description of membership and purpose; activities involving teachers, teaching and teacher education; and types of publications. Centers and laboratories funded by the U.S. Department of Education, Office of Educational Research and Improvement are in Appendix I and II. Appendix III contains a list of state departments of education, with the names and telephone numbers of the individuals responsible for teacher education and certification in that state. The information is correct effective November, 1985, and the directory will be updated periodically. (JD)

Descriptors—Educational Research, *Evaluation Methods, Higher Education, Preservice Teacher Education, *Program Evaluation, *Research Methodology, *Teacher Education Programs
This paper presents a model for qualitative and quantitative evaluation research that has been used in a preliminary way in evaluating a teacher education program. The model is based on three underlying constructs which are hierarchical in nature: (1) the assumption that the question of interest always must dictate the structure of the research design; (2) accessibility of data; and (3) that data are operationally defined as qualitative or quantitative according to their use. Graduates of teacher education programs in 1980 through 1983 responded to two open-ended questions regarding the most important topic to be added to the teacher education program and the most important topic to be deleted from the program. Quantitative and qualitative analyses revealed: (1) where first-year teachers felt ill-equipped; (2) where the teachers reported themselves to be well prepared and satisfied; (3) how these findings relate to new standards on teacher certification; (4) implications for what college students and new teachers expect teaching to be like; and (5) methodological implications for using qualitative and quantitative methods to enhance a study. Identifiers—*Beginnsng Teacher Induction, ERIC Digests
This monograph focuses upon how teacher induction programs affect the professional maturation of the beginning teacher. In a discussion on the elements that make a good induction program, a checklist of eight program characteristics is presented. Four of these show the influence of other professions, and the remaining four apply directly to the needs of beginning teachers. The areas induction programs should cover are discussed. In considering how induction programs work, brief descriptions are presented of some of the most prevalent induction program components, e.g., internships, mentor teachers, induction committees, and orientation seminars. A bibliography is included. (JD)

Descriptors—*Employment Patterns, *Enrollment Projections, *Information Needs, Teacher Certification, Teacher Recruitment, *Teacher Shortage, *Teacher Supply and Demand
This digest focuses upon what is known about current and impending needs for teachers, data on which this knowledge is based, and what needs to be done to create a solid foundation for projections on future needs. It is pointed out that the data needed to describe the market for teachers vary according to how and by whom the information is used. A description is given of seven users of information on the supply and demand of teachers. Four national agencies that provide the basic information for research in the area of teacher supply and demand are listed. A brief discussion is presented of some professional organizations that are engaged in examining the data requirements for the prediction of teacher demands in their fields of concern. A bibliography is included. (JD)

Identifiers—Pennsylvania, *Pennsylvania Department of Education
A survey to gather information concerning school district testing programs in Pennsylvania is reviewed. The information concerns the commercially produced norm referenced and criterion referenced achievement tests, as well as locally produced achievement tests used in the state's school districts. The Pennsylvania Division of Educational Testing and Evaluation records of demographic data were merged with the results of the survey administered to all state school districts. The results of the data analysis are reported in several ways, including a breakdown by socioeconomic status, population density, and school district enrollment. The analysis indicates limited use of criterion referenced tests in Pennsylvania schools. A summary of information on district developed tests is also included. The testing survey and directions for completion are reproduced in their entirety. (DWH)

Identifiers—American College Testing Program, California Achievement Tests, Comprehensive Tests of Basic Skills, Scholastic Aptitude Test
To compile information on state and school district standardized testing programs, a survey instrument was designed and sent to 135 members of the National Association of Test Directors (NATD). Seventy responses (52%) were received in time to be included in the compilation. Most participating school districts (n=61, 87%) had a program mandated by their own policies. Grade levels most typically tested were grades five (n=45) and eight (n=45), followed by grades three (n=42) and grade six (n=42). Of the 61 districts administering a mandated testing program, 28% used more than one publisher's test. The California Achievement Tests (CAT) was most often the test of choice, followed by the Comprehensive Tests of Basic Skills (CTBS). Fewer participating districts (n=54, 77%) had a state mandated testing program. In a majority of cases (66%) the test used for state mandated testing programs was either locally or state developed. Grade levels that state programs concentrated on were grade three (n=32) and grade eight (n=31), followed by grades five and ten (both with n=23). Appendices include: (1) participating districts listed alphabetically, by number of students, and by grade unit structures; (2) scores from the CAT, the CTBS, Science Research Associates, and Iowa Tests of Basic Skills/Tests of Achievement and Proficiency; and (3) the survey instrument. **A Comparison of Alternate-Choice and True-False Item Forms Used in Classroom Examinations.**
Pub Date—85
Note—49p.; Paper presented at the Annual Researchers Meeting of the National Council on Measurement in Evaluation (Chicago, IL, April 1-3, 1985).
Pub Type— Speeches/Meeting Papers (150) — Reports - Research (143) — Tests/Questionnaires (160)
EDRS Price - MF01/PC02 Plus Postage.
Descriptors—Classroom Environment, College Freshmen, Comparative Analysis, *Comparative Testing, Correlation, *Difficulty Level, Higher Education, Item Banks, *Multiple Choice Tests, *Objective Tests, Research Methodology, Science Education, Tables (Data), Test Construction, *Test Format, *Test Items, Validity
Identifiers—*Alternate Choice Questions, Latin Squares, Repeated Measures Design
A comparison is presented of alternate-choice and true-false item forms used in an undergraduate natural science course. The alternate-choice item is a modified two-choice multiple-choice item in which the two responses are included within the question stem. This study (1) compared the difficulty level, discrimination level, reliability, and criterion related validity of the alternate-choice item form and content equivalent true-false item form; (2) investigated if it is practical to judge whether the alternate-choice item version with the correct answer listed first or the version with the incorrect answer first is the better form of the item, and whether the true form of a true-false item or the false form is the better type of this item version; and (3) examined the effects of placing the correct answer first or the incorrect answer first on item difficulty, item discrimination, reliability, and criterion related validity of the item. The correct answer and best distractor of a multiple-choice item (from a 400 question item pool) were converted to an alternate choice format to produce two tests, a mid-term and a final exam. The alternate-choice item was found less difficult than the true-false item, replicating previous findings for this item type. However, findings concerning greater discrimination and higher reliability of the alternate-choice item were not replicated. (PN)

**On the ERS Standards.**
Pub Date—11 Oct 84
Note—8p.; Paper presented at the Joint Meeting of the Evaluation Network and the Evaluation Research Society (San Francisco, CA, October 11, 1984).
Pub Type— Opinion Papers (120) — Speeches/Meeting Papers (150)
EDRS Price - MF01/PC01 Plus Postage.
Descriptors—Evaluation Methods, *Evaluation Problems, *Evaluators, Financial Problems, Information Utilization, Job Skills, *Program Evaluation, *Standards
Identifiers—*Evaluation Research Society, *Evaluation Standards
It has been two years since the Evaluation Research Society (ERS) published its Standards for Program Evaluation. The standards have influenced professional activities, such as panel discussions, and have been useful in training evaluators. However, the question arises as to whether the standards have been consulted by practicing evaluators or persons hiring evaluators. The ERS standards were sponsored by wealthy organizations with large staffs, and reflect that bias. Careful adherence to the standards requires more resources than are often available. Moreover, the standards suggest that evaluators should be extraordinarily capable, and possess many skills: (1) scientist/researcher/clinician; (2) administrator/manager; (3) contractor/business partner; (4) humanist; and (5) communicator/action agent. The standards need to be made more widely applicable for institutions with a small budget as well as for wealthy organizations. Principles are needed which address the following issues: choices faced by evaluators; ethical considerations betwen the evaluator and the client; and context, costs, and control. Considerations of these principles could result in a set of standards which is even better than a merger of the ERS standards and the Joint Committee standards. The standards stimulate reexamination of the practice of evaluation. (GDC)

Identifiers—Campbell River School District BC, Canada
Grade retention data were collected from the Campbell River, British Columbia schools to determine the prevalence of retention and its effect on school completion. An extensive survey was administered to 52 parents and 204 educators to assess attitudes towards grade retention. Individual interviews were conducted with eight teachers from various grade levels. The results indicated that: (1) of 50 students recommended for retention, 21 were in fact retained, most at the kindergarten and first grade level; (2) retention was a significant predictor of dropping out of high school; (3) retention was most common in the first grade and other primary grades; (4) the ratio of boys versus girls retained was 8 to 5; (5) 48% of boys and 37% of girls who were retained were chronologically younger, having birthdays in October, November, or December; (6) parents felt that the difficult retention and promotion decisions should be made by the teacher, parents, and principal. Parents also suggested, among other comments, that staggered entrance into kindergarten and first grade in September and January might be helpful. Teachers expressed concern about the effects of retention on self-esteem; the school readiness of boys, especially those with late birthdays; and the support of parents in making the retention decision work. (Suggestions for policy and the survey instruments are included.) (Author/GDC)

Descriptors—*Enrollment, Error of Measurement, Higher Education, *Mathematical Models, Predictor Variables, *Ratios (Mathematics), Sampling, School Statistics, Statistical Studies, *Transformations (Mathematics)
Identifiers—Logits, *Nonlinear Transformations, Probits, Residuals (Statistics), *Transition Rates, Variables (Mathematics)
This report is about the problem of making transition or enrollment rate gains comparable. It is shown that measures based on the proportions themselves, i.e. the difference between proportions, the proportion ratio and the residual gain ratio do not make the gains comparable. Instead a non-linear transformation has to be done. Two such transformations are discussed: probits and logits. As shown in the report they both make the transition gains comparable. However, it is important not to base the conclusions on the transformed values directly, since they are very difficult to interpret. Instead the transformed values should be used to predict transition rates on the assumption of comparable gains. After that the observed gains are compared with the predicted ones. A problem, more important than the choice of transformation, is that of sampling error. Comparing transition rate gains means a comparison between differences and in this case the sampling error is greater than when studying mere differences. Therefore, a statistical test is appropriate when studying transition rate gains, since it provides a measure of the effect of the independent variable at the same time as it provides a statistical test of whether this effect has been changed or not. Descriptors—Academic Achievement, *Achievement Gains, Elementary School Mathematics, Grade 5, Hispanic Americans, *Information Utilization, Inservice Teacher Education, *Instructional Innovation, Intermediate Grades, Language Arts, Mathematics Achievement, Predictor Variables, *Program Effectiveness, *Program Evaluation, Racial Differences, Reading Achievement, Sex Differences, Spelling, *Teacher Influence, White Students
Identifiers—California Achievement Tests, *Essentials of Instruction (Program), Levels of Use of the Innovation
The effectiveness of an instructional improvement project in the Greeley-Evans Schools, Colorado, was studied. Teachers were provided inservice education in a class called the Essentials of Instruction. Recognizing that receiving training was not the same as being an implementer of the innovation, the Levels of Use instrument identified teachers who were or were not users of the innovation. California Achievement Test scores were obtained for 598 fifth grade students in reading, language arts, spelling, and mathematics. Achievement gain scores were used to examine differences between males and females, Hispanics and Whites, and students taught by user versus non-user teachers. Results confirmed the achievement gains expected in one years' time. Males had much higher gains in reading, and females in spelling. Caucasians had significantly higher gains in mathematics and reading achievement than Hispanics did. In all subjects, Hispanics started with lower test scores and posted smaller gains than Caucasians. Results suggested that the benefits of use of the innovation were not fully accrued during the first year. Non-users showed slightly above average gains in language arts and mathematics, while users showed slightly above average gains in reading and spelling. (GDC)

Identifiers—*California State Universities and Colleges, *Entry Level Mathematics Examination
In May 1983 the California State University (CSU) introduced the Entry-Level Mathematics (ELM) examination as part of its basic skills assessment process for first-time freshmen and undergraduate transfers. The exam is intended to provide students and counselors with information on the levels of mathematical competency possessed by entering students. For any student who is not exempt from the testing program, a satisfactory score on the exam is a prerequisite for enrollment in any course which satisfies the quantitative reasoning requirement of the CSU General Education-Breadth program. The ELM exam is a multiple-choice test with 65 questions, of which 60 items are scored. There are approximately 12 questions covering arithmetic, 36 questions in elementary algebra skills, and 12 questions in geometric measurements. This report offers an overview of the first year of the testing program. It provides background on the history, nature, and purpose of the ELM exam generally; reviews procedures and data related to test development, administration, performance, and evaluation; and discusses some of the broader implications of the testing program. Extensive appendices offer more detailed information on issues or data mentioned in the text. (LMO)

**Use of APM for Assessing Language Arts Placement Skills.**
Pub Date—85
Note—22p.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Confidence Testing, Criterion Referenced Tests, Educational Testing, Equivalency Tests, Guessing (Tests), Inner City, Item Analysis, Junior High Schools, *Knowledge Level, Language Arts, *Language Tests, Microcomputers, Multiple Choice Tests, Scoring, *Scoring Formulas, *Student Placement, *Test Use
Identifiers—*Admissable Probability Measurement
The admissable probability measurement (APM) format was used to score a criterion referenced language arts test administered in an inner city junior high school. Its 30 items covered capitalization, punctuation, parts of speech, and sentence analysis. With APM, students indicate their confidence in their answer choice, and guessing is heavily penalized. An appropriate classroom strategy may be chosen for the student's indicated knowledge level: re-education for the misinformed student; advancing to the next level when the student is informed; instruction for the uninformed; and review for the partially informed. A 20-minute session was presented to explain the APM format to the students before the test was administered. Responses were analyzed with the school's microcomputer using the Nova Assessment APM software package. The analysis generated four major outputs: (1) individual knowledge assessment to generate learning prescriptions; (2) item analysis for curriculum design and articulation to feeder schools and programs; (3) clustering of students for effective grade placement; and (4) information to better prepare students to take standardized tests scored in the traditional (right versus wrong) manner. (A detailed case study for one student is presented). (GDC)

Descriptors—*Aptitude Tests, *College Entrance Examinations, *Disabilities, Hearing Impairments, Item Analysis, Learning Disabilities, Physical Disabilities, *Psychometrics, Scores, Secondary Education, Special Programs, Standardized Tests, Testing, Testing Programs, *Test Norms, *Test Reliability, Visual Impairments
Identifiers—*Scholastic Aptitude Test, Speededness (Tests)
This study examined the psychometric characteristics of the Scholastic Aptitude Test (SAT) administered under special conditions for nine handicapped groups. Four psychometric characteristics were studied: level of test performance, test reliability, speededness, and extent of unexpected differential item performance. Psychometric comparisons were made between a non-handicapped sample and each of nine different handicapped classifications. These contrasts were replicated across two forms of the same test, serving to increase confidence in the stability of results and their applicability to other SAT forms. With the exception of performance level, the psychometric characteristics of the SAT were generally comparable for the handicapped and nondisabled groups studied. It is concluded that this result should extend to other forms of the SAT and other disabled students to the extent that these groups and forms, and the conditions un-

der which they are administered, are similar to those employed in this study. That the psychometric characteristics of the test are similar across populations provides evidence necessary to support SAT scores as accurate and fair indicators of the developed scholastic abilities of disabled students. Identifiers—*Effective Schools Research, *Knoxville City Schools Proficiency Test Project

This report evaluates an "effective schools" intervention project, the purpose of which was to improve achievement on proficiency tests in selected Knoxville City Schools (KCS). Six target schools, predominantly serving Knoxville's impoverished areas as identified by Chapter I and census data, were selected to work toward improving proficiency test scores of grade nine pupils. Effective school literature provided the framework for the intervention; school personnel implemented the correlates of effective schools. Students, staff/teachers, and parent/guardians received various "treatments" in keeping with effective schooling elements. The Bureau of Educational Research and Services was called upon to: (1) develop an interim evaluation report covering the first year of operation of this pilot project; and (2) develop and design an evaluation format to be used throughout the rest of the project to guide evaluation efforts. Data were collected, including scores on the State Proficiency Test, anecdotal reports, logs and timetables of activities, and teacher questionnaire data. Based on several analyses of varying degrees of sophistication, the Knoxville City School Proficiency Project was successful in achieving its major purpose of improving the test scores of ninth-graders. As with many effective schools projects, this evaluation was not able to identify which treatments had greatest impact. (LMO)

Identifiers—Guttman Scales, *National Assessment of Educational Progress, Phi Coefficient, Tetrachoric Correlation, *Unidimensionality (Tests)

Reading test data from the National Assessment of Educational Progress (NAEP) were scaled using the unidimensional item response theory model. Data were collected for students aged 9, 13, and 17. To determine whether the responses to the reading items were consistent with unidimensionality, four different methods were applied: (1) principal component analysis of phi and tetrachoric correlation matrices; (2) principal component analysis of the image correlation matrix, a method based on the work of Guttman; (3) R. D. Bock's full-information factor analysis; and (4) P. R. Rosenbaum's test of unidimensionality, monotonicity, and conditional independence. Balanced incomplete block (BIB) spiralling was used with this year's NAEP to assign test items to booklets. This permitted the estimation of inter-item correlations, but resulted in an unusual pattern of missing data. Results from the analyses conducted for each age group were different from the analysis of the 25 items administered in all three samples. It was concluded that it was not unreasonable to regard the reading items as measures of a single dimension of reading proficiency. (Author/GDC)

Identifiers—Box World (Computer Game)

The content of textbooks teaching the use of a computer was studied. An important component of skill learning, choosing the right procedure at the right time, is difficult in computer education because the connection between real-world goals and the generic procedures described in a manual is often obscure. Furthermore, it is difficult to tell which of several similar procedures is best for a particular situation. Various types of advice about choosing the correct procedure were investigated. College students and staff members read one of four versions of a manual for a computer game called "Box World." A Dandylion computer was used. Three versions contained advice about when to use particular game procedures. The advice was either stated as a simple verbal rule or elaborated with a concept example or a task example. The fourth version contained no advice. Subjects then performed three tasks: recall; recognition of correct versus incorrect applications of the advice; and decision making and problem solving. Subjects who received advice followed it to select a procedure; however, so did subjects receiving no advice. The examples helped subjects identify correct applications of the advice, but did not increase adherence to the advice during problem solving. (Author/GDC)

Identifiers—Gallaudet College DC, *Test of English as a Foreign Language

The Test of English as a Foreign Language (TOEFL) was administered to 26 hearing impaired college students, in order to test the assumption that the English-language deficiencies of hearing impaired students are similar to those of foreign students. The students were attending Gallaudet College's School of Preparatory Studies and were identified as needing one year of remedial academic skills in preparation for college. Most of the sample (18 of 26) were deaf at birth; 24 of 26 were deaf by the age of 15. Most (21 of 26) were equally fluent in manual communication and spoken English. TOEFL contains sections on listening comprehension, written grammar, and vocabulary and reading comprehension. The normal test administration time for the listening comprehension test presented additional difficulty for this sample of students. All instructions were spoken, and test items were played on a tape recorder. The interpreter signed the same words. Results indicated that the students generally scored in the second quartile, above chance level but considerably lower than foreign students' scores. It was concluded that TOEFL appeared to have potential for measuring the English language proficiency of deaf students. (Sample test items and a reproduction of a brochure about Gallaudet College are appended.) (Author/GDC)

Identifiers—*Mellon Junior High School PA, Mount Lebanon School District PA, Pennsylvania (Pittsburgh)

The Gifted and Talented Program (GAT) of the Mellon Junior High School, Mt. Lebanon School District, Pittsburgh, Pennsylvania, was evaluated in 1985. Questionnaires were sent to 139 parents and 50 academic teachers. In addition, 9 teachers, 4 administrators, and 12 parents were interviewed. Responses were summarized in detail regarding 14 topics, including: meeting gifted students' needs, motivation, staff knowledge of student needs and the GAT plan, usefulness of the individual educational programs, student progress reports, mainstreaming, curriculum objectives, parents' satisfaction, provision of enrichment, use of Coordinator's and Librarian's services, and providing for underachievers. It was concluded that parents desired more visible evidence of the GAT program's implementation. They also suggested increased individualized projects, parent-teacher communication, and extracurricular activities. Teachers generally felt the program was being implemented, and welcomed inservice sessions on daily concerns. Both groups felt that improved individualized educational programs would be valuable. (Extensive appendices include the interview and questionnaire instruments, program descriptions, and program plans.) (GDC)

**A Cognitive Developmental Approach to Question Asking: A Learning Cycle-Distancing Model.**

Pub Date—28 Feb 86

Note—61p.

Pub Type— Reports - Research (143)

**EDRS Price - MF01/PC03 Plus Postage.**

Descriptors—*Cognitive Development, Conflict Resolution, Developmental Stages, Dialogs (Language), Difficulty Level, Elementary Secondary Education, *Emotional Response, *Learning Theories, Models, *Questioning Techniques, *Student Reaction, Teacher Student Relationship

Identifiers—Discrepancy Model, *Distancing Model (Sigel)

The role of questioning techniques in the classroom is discussed, with particular emphasis on the cyclical nature of teacher-student dialogues. Excerpts from transcripts of actual dialogues are also analyzed. According to the model, based on Piaget's theory of cognitive development, the questioning strategies are designed to enhance the student's cognitive development. The model also suggests that

development is a response to a discrepancy between exogenous experiences and endogenous wishes, desires, interests, or states. By generating discrepancies in children, parents or teachers contribute to their cognitive growth. Discrepancies, either cognitive or affective, are generated by distancing behaviors, which require the child to attend to or react in terms of the future, the past, or abstract language. The characteristics of inquiries which instigate such thinking in children are described. The affective states which may result from various questioning techniques are also addressed. Examples of distancing are presented from taped transcripts involving teaching the numbers one to ten and measures to kindergarten children, as well as three classroom discussions with older students. These examples illustrate that the teacher's distancing strategy determines the direction of the discussion, and hence, the learning cycle. (GDC)

Identifiers—Interagency Language Roundtable, Language Proficiency Interview, National Language Teachers Survey, *Self Assessment Oral Language Proficiency Survey

A self-administering test of oral language fluency was developed for use with high school teachers of French and Spanish. Interviews were also conducted, and biographical data were collected. The original instrument was based on the Foreign Language Questionnaire Pretest developed for the Survey of Global Understanding Project. The focus of the new test was entirely on listening and speaking. It was pilot tested with 24 high school language teachers from five New Jersey schools, who taught French, Spanish, or both. The field study was conducted nationally, using 200 teachers. The questionnaire, which included questions asking for biographical information about foreign language experience, and the Language Proficiency Interview were completed. Correlations between interviews and questionnaire items supported the reliability and validity of the questionnaire. Based on this finding, it was revised and used in the national survey without the more costly interview. Questionnaires were mailed to a national sample of teachers. Over 92 percent, or 878 teachers, responded. The self-ratings were accurate and highly correlated with native language, travel experience, and opportunity to speak the language at home. Extensive appendices include the Language Proficiency Interview, the Self Assessment of Oral Language Proficiency Survey, National Language Teachers' Survey, interviewers' instructions, and a printout showing intercorrelations of ratings and personal characteristics. Identifiers—Acquisition Behavior, Analogy, Examples, Stimulus Response Psychology

This paper outlines the components of initial cognitive skill acquisition and analyses features of elaborations in the instructional materials that can facilitate each component. Three basic components of skill learning are identified: (1) learning novel concepts and the functionality of novel concepts and procedures; (2) learning how to execute the procedures; and (3) learning the conditions under which the procedures can and should be applied. Three types of elaborations are analyzed in terms of the requirements of these components: analogies, simple instantiations, and situation examples. Situation examples are held to be the most useful type of elaboration for skill learning because each example can contribute to learning in all three components. On the other hand, while analogies can be constructed to illustrate each component, they are more likely to help people learn the functionality of a procedure than how to execute it or when to select it. However, since learners tend to rely on examples as models, it is important to choose examples with care and to provide enough examples to illustrate the range of application of a rule or procedure. Otherwise, learners, may interpret a rule incorrectly or make spurious assumptions about the conditions under which it applies. (Author/PN)

Descriptors—Analysis of Variance, *Cognitive Processes, College Faculty, Content Analysis, Geographic Concepts, Geography, Higher Education, Interrater Reliability, *Locational Skills (Social Studies), *Map Skills, *Recall (Psychology), *Spatial Ability, Undergraduate Students

This report presents two experiments that compared the performance of map experts to that of novices. Subjects (from the areas of geography, educational psychology, and sociology) were 13 university faculty members in experiment one and 12 undergraduate students in experiment two. Following a practice trial, the learning of a logical map and a non-logical map was compared. Cognitive processes used in learning the maps were also examined. Procedure was identical for both experiments with the exception that experiment two subjects were asked to recall the two maps after a 24-hour period. Subjects' maps were scored by two raters for correct labels and for correct spatial placement of features. A content analysis of the sessions determined the cognitive strategies used to learn the maps. A three-way analysis of variance for map recall was conducted, with discipline as a between-subjects variable, and map and trial as within-subjects variables. In both experiments, the logic or non-logic of the maps affected only the experts. It is concluded that knowledge of principles of spatial organization must be considered as an integral factor in the map learning process. (PN)

**Cross-National Study of the Structure and Level of Multidimensional Self-Concepts: An Application of Confirmatory Factor Analysis.**

Pub Date—10 Mar 86

Note—22p.

Pub Type— Reports - Research (143)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—*Cross Cultural Studies, *Factor Analysis, *Factor Structure, Foreign Countries, Foreign Students, Intermediate Grades, Preadolescents, Questionnaires, *Self Concept Measures, *Sex Differences

Identifiers—Australia, *Confirmatory Factor Analyses, England, LISREL Computer Program, *Self Description Questionnaire

The purposes of the present investigation are to compare the structure and level of multidimensional self-concepts for boys and girls from England and Australia, and to demonstrate the use of confirmatory factor analysis (CFA) in making such comparisons. Subjects were random samples of 303 English preadolescents and 303 Australians that were matched in terms of age and sex. In the first set of analyses, CFA demonstrated that an a priori factor structure of self-concept fitted responses by English and by Australian students, and that the factor structure was reasonably invariant across the two groups. In the second set of analyses CFA demonstrated that English and Australian students differed significantly on only one of eight self-concept factors, and that all sex differences in the multidimensional self-concepts were similar for English and Australian students. The results of the study provide further evidence of the generality of multidimensional self-concepts as inferred by the Self Description Questionnaire, and demonstrate recent advances in the application of CFA. Descriptors—*Course Content, Elementary School Teachers, Elementary Secondary Education, *Instructional Program Divisions, *Measurement Techniques, Multivariate Analysis, Secondary School Teachers, *Teacher Education, Test Construction, *Test Format, *Test Items, Test Use

Identifiers—Wyoming

Teachers' use of classroom tests and test items was examined by level of teacher training in tests and measurement, grade taught and subject area taught. A survey form was developed that contained questions about training in tests and measurement, subject areas and grades taught, from what source test items were taken, hours spent in testing-related activities, the percent of students' grades based on test scores, use of six types of test items, and use of five types of tests. A random sample of 555 practicing elementary and secondary Wyoming teachers participated (81 percent response rate)-a sample size adequate for analyses by grade level. Mean frequency of test and item use was calculated by amount of training, by grade level, and by content area. The significance of differences in usage were assessed using multivariate analysis of variance followed by univariate tests. The results of significance tests indicate that there are clear differences in testing techniques used by teachers at different grade levels in different subjects. Differences in test use

were found between teachers with two or more tests and measurement courses and teachers with no coursework or one course. (PN)

Identifiers—Chi Square, *Cincinnati Public Schools OH, Design for School Excellence, *Retesting, T Test
This is a descriptive study of the activities, statistics, and decisions made regarding the re-testing of six inner-city elementary schools, based on results of a norm-referenced achievement test given in the Cincinnati Public School district in April, 1985. Three statistical operations were performed on test data from the Design for School Excellence, a school improvement plan, for each of the six schools. They were chi square, a "t" test using Normal Curve Equivalents (NCE) based on the school's average and a "t" test using NCE by grade in each school. Findings reveal that the obtained scores from the second testing either improved or were statistically the same as the first testing in 60 percent of the re-test situations. Therefore, results of the first testing were used and reported for the particular school/grade result in 1985. Schools where the re-test did not support the results of the first test had the initial scores invalidated and substituted for the re-test scores. In the remaining test situations substantial achievement differences were observed. Based on absolute differences, 10 of the 46 testing situations (20 percent) actually improved. Additionally both the positive and negative aspects of re-testing schools are presented. (PN)

Identifiers—*Achievement Goals Program, California Assessment Program, Comprehensive Tests of Basic Skills, San Diego Unified School District CA, *Time Series Design
The purposes of this study are to document the success of the Achievement Goals Program (AGP) in raising student achievement in San Diego Unified School District's minority-isolated schools and to provide recommendations for curriculum development and teacher training based on that success. Reports on the results of the Comprehensive Tests of Basic Skills (CTBS) were reviewed from 1975 through 1985 for fifth grades, the only elementary grade level tested districtwide. Mean percentiles for Total Reading, Total Language and Total Mathematics for each school were determined, transformed into scaled scores, and used to calculate weighted means. Time series designs using unit replications were used to determine the effect of the intervention of AGP in each content area. California Assessment Program data were used to examine AGP effects on achievement. Data from the district's Pupil Ethnic Census Reports addressed the possibility of a "history effect" in the time series design. School effectiveness factors were compared to the AGP instructional model; 11 of the 16 factors were found to be systematically incorporated. This finding shows that school effectiveness factors can be systematically written into curricula and materials used in schools. (PN)

Identifiers—*Japan, *Joint First Stage Achievement Test (Japan)
The Joint First-Stage Achievement Test (JFAT) is a new unified college entrance examination developed in Japan. This report presents the statistical results of the JFAT and the applicants' behavior change which appeared through the first six years of administration from 1979 to 1984. Three major features of the JFAT are described: (1) jointly made achievement test; (2) comprehensive examination; and (3) open scoring system. The expected and unexpected outcomes of these three major features are presented. The jointly made achievement test has improved the quality of test items. Psychometrically, there is difficulty in controlling test statistics: (1) test items are discarded and created yearly; and (2) neither equating operations nor scale transformation procedures are currently in use. The comprehensive examination was designed to encourage high school students to study a broad curriculum, but the opposite occurred. Many students elected to enroll in private universities that require examinations in few subjects, thus avoiding the more difficult study that a broad curriculum implies. An open scoring system guaranteed fair and objective scoring and was thought to be helpful in making students' career plans. However, pre-admission rankings based on disclosed JFAT scores caused homogeneous self-selection to and rank ordering of universities. (Author/PN)

Identifiers—*Arabic Picture Vocabulary Test, *Jordan, Peabody Picture Vocabulary Test (Revised)
This paper presents the development of the Arabic Picture Vocabulary Test (APVT), derived from the Peabody Picture Vocabulary Test-Revised, for use in assessing the aural-vocabulary of newly arrived limited English proficiency children, from kindergarten through grade three, whose first language is Arabic. The APVT, an individually administered norm-referenced power test was designed for students who have normal sight and hearing, and who understand Modern Standard Arabic to some degree. The 150 item test, arranged in order of increasing difficulty, consists of a page of pictures which together with a spoken word constitutes a test item. The task is to identify a picture that best illustrates the stimulus word meaning. Testing requires 20 to 30 minutes and is scored during administration. The APVT, translated and adapted to Arabic, was validated and standardized in Jordan on a representative sample of 2,900 students (1,450 girls, 1,450 boys). Raw scores were converted to age-referenced norms. Test-retest reliabilities were considered to be an unbiased estimate of reliabilities of the corresponding standard score equivalents. Field testing of the APVT is currently underway in the Dearborn Public Schools (Michigan), in an attempt to cross validate the APVT. (Author/PN)

Descriptors—Adoption (Ideas), *Change Strategies, Evaluation Criteria, *Evaluation Methods, *Evaluation Needs, *Evaluation Problems, *Models, Needs Assessment, Planning
Identifiers—*Evaluation Research, *Implementation Analysis, Model Characteristics
The purpose of this paper is to discuss the reasons for resistance to evaluation and the factors that affect adoption of new procedures, while focusing on a model for guiding the planning of evaluation implementation strategies. The process of adoption of an innovation occurs in three stages: orientation, where the user identifies benefits; initiation, where the user gives an innovation a trial; and integration, where it becomes part of routine practice. At each stage in the adoption, different strategies can be directed to gain the cooperation of either the user of the evaluation or the organization: (1) power; (2) communication; (3) consultation; (4) reinforcement; (5) training ; and (6) direct measures. The strategies differ depending upon the time frame in which they are applied. That is, different operations are required prior to commencement, during the initiation of the evaluation, and when evaluation procedures are to be integrated into routine organizational activities. It is concluded that: (1) in planning the implementation of evaluation, the implications are that implementation strategies should persuade rather than enforce cooperation; (2) cognitive and perceptual changes must be accompanied by behavioral changes; and (3) different management practices will be applicable at different time intervals in the evaluation procedure. Identifiers—*Iterative Methods, *Modified Caution Index, North Carolina High School Competency Tests
This study explores the use of the modified caution index (MCI) for identifying judges whose patterns of recommendations suggest that their judgments might be based on incomplete information, flawed reasoning, or inattention to their standard-setting tasks. It also examines the effect on test standards and passing rates when the test standards of judges whose recommendations appear aberrant are eliminated. Data for this study were collected in a project to establish standards on the North Carolina High School Competency Tests. In that study, judges provided recommendations on an appropriate standard for a 120-item reading test (n=83) and for a 120-item math test (n=84). Matrices of

item-by-item recommendations provided by judges were ordered by total recommended test standard, and by number of item endorsements. Once MCI had been computed for each judge, distributions of MCI were constructed for each subtest, and the effects of eliminating judges with MCI greater than selected threshold values were determined. Results indicate that screening judges on the basis of their MCI values can make a substantial difference in the resulting test standard and in the resulting failure rate on a high school competency test. Identifiers—*Ability Estimates, Item Parameters, *Three Parameter Model, T Test

A computerized flexilevel test was implemented and its ability estimates were compared with those of a Bayesian estimation based computerized adaptive test (CAT) as well as with known true ability estimates. Results showed that when the flexilevel test was terminated according to Lord's criterion, its ability estimates were highly and significantly correlated with those of the Bayesian based CAT and with the known true thetas. Matched t-tests between the flexilevel and the Bayesian CAT and with the known true thetas were not significantly different from one another. The primary implication of this study is that it is feasible to implement a computerized adaptive test without having to create a calibrated item pool containing 200 or more items, as is the case with Item Response Theory (IRT) based CAT systems. Neither the software nor the hardware needed for flexilevel CAT methods present the rather serious obstacles that they often do for IRT-based CAT. This fact and the result that flexilevel CAT ability estimates compare favorably with the IRT-based CAT ability estimates indicate that, for the first time, CAT procedures can be made practical and feasible for ordinary classroom testing. Identifiers—Canada, Cooperative Eval and Develop of School Systems, Evaluation Research, *Model Characteristics

This paper describes an evaluation model developed by the Ontario Ministry of Education and illustrates how it was adapted to meet local and provincial needs of the Scarborough School System for accountability data and direction for change. The basic Cooperative Evaluation and Development of School Systems (CEDSS) model includes five stages of evaluation (initiation, internal evaluation, external evaluation, cooperative review, and final evaluation report) and three stages of development (analysis and response, implementation and incorporation). Three features of the school system prompted modification of the basic CEDSS model: (1) its large size; (2) its self-contained Research Centre; and (3) its desire to reflect the wishes of board employees and the public regarding evaluated topics. A provision was made for a Board Advisory Committee to provide input to decision making at various stages, and for an Initiation Team to assist in effecting system and community awareness and in eliciting a willingness to participate in CEDSS. The customary one-year timeline for a CEDSS project was extended to two years in Scarborough. A list of concerns for the evaluation phase of future CEDSS projects is presented. The benefits of this project both to the Ministry of Education and to the local school system are briefly described. (PN)

Identifiers—*Palm Beach County Schools FL, Pearson Product Moment Correlation, Spearman Rank Correlation Coefficient, *Stanford Achievement Tests, T Test

The study reported in this paper examined whether a disproportionate number of boys and girls in a given grade level at various schools might have an inequitable effect on the mean achievement test scores of those schools. The student population of the Palm Beach County Schools, Florida, reflecting a cross-section of socio-economic backgrounds, had approximately 6,000 students at each grade level with the proportion of boys and girls in the system virtually identical. The data base included the third grade Stanford Achievement Test, Seventh Edition (SAT/7), Reading Comprehension, Concepts of Number, Mathematics Computaton, and Mathematics subtest scores for 1983 and 1984. The results of a 1984 preliminary study indicated grade three had the greatest number of statistically significant differences in mean Normal Curve Equivalent (NCE) reading and mathematics scores between boys and girls. Total-group and sex-dependent norms were generated for each of the four subtests and were used to develop total-group and sex-dependent district/school NCE scores. Analysis of variance, Spearman's correlation coefficient and t-tests indicated that the differences in third grade school NCE reading and mathematics means, rank orderings, and change scores were not sufficient to justify the use of sex-dependent norms. Identifiers—*Education Consolidation Improvement Act Chapter 1, *Elementary Secondary Education Act Title I, Title I Evaluation and Reporting System

This paper traces the evaluation requirements of the Title I/Chapter 1 Program since 1966 to the present, discusses the implications of the evaluations, and reports on the evolution of evaluation during this 20 year period. The evaluations are described in four phases: (1) from a nadir of low quality, utility and precision (1966-1974); (2) to a transition point (1974-1978); (3) to a point of high quality, utility and technical rigor with the implementation of the Title I Evaluation and Reporting System (1978-1981); (4) to a relaxation of standards and quality given the revised requirements of the Education Consolidation and Improvement Act (1981 to the present). Informal agreement among evaluators and program managers indicates that the quality of Chapter I evaluations is on the decline. Evaluation systems must be applied uniformly across the states if comparable data are to be collected and analyzed. At present, Federal agencies are not requiring that uniform data be collected on the 1981 block grants. The availability of an authoritative future source of national information about: (1) the nature of program operations; (2) the levels and types of service available; and (3) the effect of programs on the problems they are intended to address remains in doubt. Identifiers—Coding, Curriculum Research and Development Group, *Generic Evaluation, *Scriven (R C), University of Hawaii

This paper reports on several generic evaluation methods used by the evaluation office of the Curriculum Research and Development Group of the University of Hawaii (EO-CRDG). Scrivens's (generic) checklist approach was taken one step further by developing generic data collection instruments to be used with any evaluation method: (1) a formative evaluation feedback questionnaire; (2) an observation coding sheet; and (3) a teacher instructional behavior record. The student questionnaire is based on an evaluation form from an American Educational Research Association workshop, Scriven's checklist and EO-CRDG experiences. The one page form includes Likert-type items on course (or class) organization, pace, difficulty, and opportunities to interact or ask questions. Three open-ended questions cover strengths, weaknesses, and other comments. Students assign a letter grade (A-F) to the course. The observation form used is a modified version of the Far West Laboratory for Educational Research and Development. It includes engagement time, active teaching behaviors, student and teacher field notes, and teacher time allocation. Using the State's performance expectations for major subject matter areas, cognitive tests were constructed. For greater efficiency, final reports would include writings that had proven to be successful in communicating in the past. The three generic instruments developed in this study are appended. (PN)

Identifiers—Sampling Error

The sampling of teachers for nationwide surveys offers a challenging endeavor in obtaining a representative and adequate sample to truly represent opinions of the teachers. Ten national surveys of public school teachers conducted between 1980 and 1985 are presented with respect to their sampling design and procedures. Concepts and theoretical considerations provide the background of the critical review. This paper discusses adequacy and representativeness as criteria of a good sample, sample design, bias, sampling error, sampling frame and unit, multistage and stratified sampling, and sample size allocation. Problems associated with prevailing sampling practices include: (1) lack of sampling frame or list of all public school teachers from which a sample may be drawn; (2) the question of assurance that the sample drawn is representative of the target population of public school teachers; (3) the theoretical connection between a sample design and the computation of estimates from the results; (4) the recognition and knowledge of the quantitative relationship between the sample design and the precision of estimates; and (5) reporting results that demonstrate validity, and willingness and ability to sort out the strengths and weaknesses of the survey. Solutions to these interrelated problems are discussed. (PN)

Descriptors—Academic Achievement, Curriculum Development, Elementary Secondary Education, Evaluation Criteria, Grade 3, Grade 5, Grade 8, Grade 12, Instructional Program Divisions, *Mathematics Skills, *Science Education, *Social Sciences, State Boards of Education, *State Standards, *Writing Skills

Identifiers—*Excellence in Education, *Florida

The student performance standards of excellence in mathematics, science, social studies, and writing for Florida schools were developed cooperatively by the Florida Department of Education, local school district personnel and representatives of institutions of higher education. These standards and skills were reviewed by teachers and supervisors throughout the state. A second revision was sent to superintendents in each district for review by appropriate persons with subject area expertise. Input from reviews was used to prepare the final document for State Board of Education approval. The standards represent general and higher-level competencies at grades 3, 5, 8, and 12. Written in broad general terms, the standards are intended to communicate with the general public. The skill statements provide teachers and curriculum specialists with more specific information concerning the performance expected of high-achieving students at specific grade levels. These skills will form the basis for a state assessment program in each of the areas of mathematics, science, social studies and writing. Tables summarize the number of applicable standards and skills for each grade level. A listing by subject area of standards and skills and the grade levels to which they apply, comprises the balance of the document. Upon the authority of the Educational Reform Act of 1983 the Florida State Board of Education approved these standards of excellence on September 20, 1983 and required each district school board to adopt by July 1, 1984, rules which provide for appropriate instruction based upon these standards. Descriptors—Basic Skills, Compensatory Education, Elementary Education, Elementary School Students, Evaluation Criteria, *Grade Repetition, Longitudinal Studies, *Minimum Competency Testing, Performance Factors, *Program Effectiveness, Program Evaluation, *Remedial Programs, Scores, *State Programs, *Student Promotion, Summer Schools, Testing Programs

Identifiers—*Louisiana, Louisiana Basic Skills Test

As part of Louisiana's minimum competency program, the Basic Skills Test (BST) was administered in grades 2 through 5. Student promotion rates in these grades between 1980 and 1985 were examined. Results showed that, in all four grades, the percentage of students retained to repeat the grade increased slightly. The BST was the main, but not the only criterion for retaining students. Student attendance in remedial summer programs did not appear to affect promotion decisions. In fact, among students who qualified for the compensatory program, promotion rates were higher among those who did not attend summer school than among those who did. It was also found that the BST was able to identify a small group of students who had continuing difficulties in meeting the minimum standards. The percentage of students who failed to meet the minimum standards and who had previously received remedial services increased each year. In grade 2 in 1985, it was 6 percent; in grade 3, 17 percent; and grade 4 or 5, 27 percent. Accordingly, it was suggested that alternative programs were needed to meet these students' needs. Detailed data tables are included in the text. (Author/GDC)

Descriptors—Analysis of Covariance, *Basic Skills, Compensatory Education, Elementary Education, Elementary School Students, *Grade Repetition, Language Arts, Longitudinal Studies, *Minimum Competency Testing, Performance Factors, *Program Effectiveness, Program Evaluation, Remedial Mathematics, *Remedial Programs, Scores, *State Programs, Student Promotion, Testing Programs

Identifiers—*Louisiana, Louisiana Basic Skills Test

The longitudinal effects of Louisiana's Compensatory/Remedial Program upon student performance were assessed using data from four administrations of the Basic Skills Test (BST) between 1982 and 1985. Language arts and mathematics tests were administered in grades 2 through 5. Scores increased slightly between 1982 and 1984, and declined in 1985; therefore the number of students qualifying for the Compensatory/Remedial Program also changed. The BST played a limited role in decisions to promote or retain students. Of students who failed the grade 2 BST, 25 percent were never retained during the next four years, 66 percent were retained once, and 9 percent were retained twice. About half failed the BST two or more times in four years. It was concluded that the combination of retention and remediation did more to alleviate basic skills deficiencies than did either retention or remediation alone. This combination was most effective early in the student's educational career. Recommendations concerning the provision of remedial services are included. (GDC)

Descriptors—Adults, *Case Studies, Classroom Observation Techniques, College Curriculum, *Elementary School Teachers, Evaluation Needs, *Field Studies, Grade 3, Interviews, *Naturalistic Observation, Primary Education, Qualitative Research, Questionnaires, *Research Methodology, *Student Behavior, Videotape Recordings

Identifiers—Naturalistic Evaluation, Naturalistic Research

A case study of a teacher as a naturalistic inquirer is presented. A class in naturalistic inquiry methods was offered to practicing teachers and other graduate students during a 15-week semester. During the first two or three weeks, students read extensively about qualitative methods and identified a possible site to conduct a study. The remainder of the course included conducting the studies, discussing the experiences in weekly class meetings and writing a final report. The teacher/researcher observed one student's work/study habits and interactions with teacher/researcher and peers daily for over three months. A videotape camera recorded the student's behavior during ten hours of classroom activities. Field notes were made based on the tapes and recalled details. Repeated interviews, formal and informal, were conducted with the student, his peers, principal, parents and school guidance counselor. The teacher/researcher maintained a detailed set of field notes, a log of observations, a record of interview results and teacher attitudes, and evolving analyses of the data. Two questionnaires provided sociograms and information on the student's life, family and attitudes. The paper then describes the study process, identifies difficulties and benefits encountered, summarizes activities taking place since the study, and suggests implications for other teachers and settings. Legislation, State Standards, Testing Problems, *Validity
Identifiers—California High Schools Accountability Program, *California High Schools Performance Reports, *California High Schools Quality Indicator Program
The purpose of the California High School Performance Reports is to provide a means for the public to judge a school's progress towards: (1) implementing the educational reforms outlined in California State Legislature Senate Bill 813; (2) upgrading the quality of its instructional program; and (3) improving student achievement. This paper discusses the technical inadequacy of the reports. The most serious defects of the performance reports are that they do not measure what they purport to measure and the data provide no information for judging school quality. The quality indicators are uninterpretable, can be misleading, and are useless for determining how well schools are meeting the mandates of the reform legislation. Although the reports offer two standards against which the public is supposed to measure school quality (the state targets and comparison band percentile ranks) these standards have no relationship to the stated aims of the High School Accountability Program (HSAP). A review of these two indicators leads to the conclusion that each is an inappropriate measure of schooling. The need for HSAP to publish data related to worthwhile educational goals based upon a consensual definition of school excellence is emphasized. (PN)

Descriptors—Academically Gifted, Correlation, *Cross Cultural Studies, Cultural Differences, Foreign Students, Identification, *Learning Disabilities, Predictive Validity, Preschool Education, *Preschool Tests, *Sampling, Scoring, *Screening Tests, *Test Norms
Identifiers—*Developmental Indicators for Assess Learning Rev
This study investigated whether the Developmental Indicators for the Assessment of Learning-Revised (DIAL-R) norms, established with American children, are applicable to a Canadian population. Based on an early childhood model which incorporates ecological validity as well as predictive validity, the DIAL-R assesses three areas: motor, concepts and language. The pre-school screening instrument was administered to 320 Montreal children ranging in age from two to six years. Data analyses by age (3-month intervals) revealed significant differences from the American population, with the present population scoring significantly higher at each age range. No significant trends were found between males and females. Intercorrelation coefficients between the three assessed areas ranged from .75 to .79. Quantitative differences may be reflective of: (1) the sampling techniques employed in the present study; (2) different degrees of acculturation between populations; (3) different testing settings; and (4) enthusiasm of volunteer testers in the present study. Based upon the data new cutoff points (norms) are suggested to identify children who may have potential problems and children who may be potentially gifted. Predictive validity studies need to be demonstrated for the Canadian population and special attention should be given both false positives and false negatives. (Author/PN)

Descriptors—*Data Collection, Elementary Education, Factor Analysis, Foreign Countries, Foreign Students, Goodness of Fit, Latent Trait Theory, Mathematical Models, *Models, Questionnaires, *Reading Attitudes, Scoring, *Statistical Analysis, Statistical Studies, Testing
Identifiers—Denmark, *Rasch Model
Approximately 1200 Danish school children aged 8, 11, and 14 participated in a questionnaire study under the caption, "Why I like to read." Data from Denmark formed part of an international study, in which 12 other countries used the same questionnaire to explore various functions of reading and to compare them over different countries. This study concentrated on gathering information by questionnaires, using the "why I like to read" data as examples. The 50 questions are described as dividing points for reducing differentiated information, given in a whole series of questions, down to score information. Such information is calculated based on components resulting from factor analyses indicating a group of questions which belongs to one conceptual unity related to reading. These components are grouped into seven dimensions: enjoyment-stimulation, enjoyment-fiction, future, diversion, my country, professional skill, and improvement of reading. A class of statistical models, especially designed to deal with categorical data, is used for these analytic purposes. The "why I like to read" data is analyzed from the viewpoint of Rasch models and is carried through testing procedures, resulting in homogeneous items. Misfits to the model are considered to be useful conflicts on which to base a new analysis. The appendix contains the questionnaire. (LMO)

Descriptors—*Ability Grouping, Academic Ability, *Academic Achievement, Affective Measures, Cognitive Tests, Effect Size, Elementary Secondary Education, Instructional Program Divisions, *Meta Analysis, Racial Factors, *Scores, *Self Concept, Sex Differences, Socioeconomic Status, Statistical Data, Tables (Data), Time on Task
The study reported in this paper quantitatively integrated the recent research findings on ability grouping in order to generalize about these effects on student achievement and student self-concept. Meta-analysis was used to statistically integrate the empirical data. The relationships among various experimental variables including grade level, sex, race/ethnicity, ability level of students, the subject matter being taught, the length of time students were grouped, and the effects of ability grouping were investigated. The relationships among various study characteristics including publication data, school size data, school socio-economic status, school geographic location, school curriculum information, the number of ability levels, measurement information, experimenter information, internal validity and the effects of ability grouping were investigated. The major findings of this study, based on 720 measurements derived from experimental data in 50 studies reported between 1967 and 1983, were that students who were ability grouped had the same cognitive outcome scores as students who were not ability grouped, and had lower affective outcome scores than students who were not ability grouped. The findings indicated not only that the practice of ability grouping does not increase student achievement, but also that ability grouping has adverse effects on students' self-concept. A bibliography containing nine citations from 1971 to 1985 is included. (Author/PN)

Identifiers—Descriptive Research, *Nightingale (Florence)
This paper presents an overview of Florence Nightingale's statistical background and accomplishments; discusses Victorian statistics, Nightingale's education and statistical contributions; and concludes with implications for professors and students of educational research. Florence Nightingale (1820-1910), the first woman elected as a fellow of the Royal Statistical Society, was a well-trained statistician. In common with many of her contemporaries in the social sciences, Nightingale believed that there were laws governing (or describing) human behavior and that statistical data analysis would reveal these laws. Her accomplishments in the field of statistics included calculating mortality statistics in the Crimean War, inventing "coxcombe" or polar area charts, developing statistical records for hospitals, writing an impact study in relation to the possible removal of St. Thomas' Hospital, collecting census data from hospital statistics, developing a questionnaire for the Colonial Office to collect data from the colonies, and collecting data about the effects of incarceration upon future criminal behavior. Nightingale also worked in the areas of qualitative research and descriptive statistics, and she used her research and data behind the scenes to effect legislative changes. Since the majority of students in introductory educational research and statistics courses are women, the inclusion of Florence Nightingale in the history of statistics would provide a female role model. References and a bibliography are appended. (PN)

Identifiers—Hillsborough County Public Schools FL, *Multiple Data Gathering Methods, *Utilization Framework (Alkin)
This paper presents a discussion of several factors which influence evaluation utilization. Its purpose is to propose to Alkin's utilization framework the addition of one factor: multiplexity of data gathering methods. Two distinct discussions comprise this paper. First, supportive arguments for the assumption that this factor substantially contributes to utilization are presented. Then, to provide preliminary evidence of the factor's legitimacy, an exploratory study of four highly-utilized educational program evaluations is described. County Public Schools (Florida) sponsored the four programs: (1) the Summer Inservice Institutes; (2) the Chapter 1 Reading Microcomputer Component; (3) the Elementary Academic Gifted Program; and (4) the Laboratory for Individual Foundation Teaching. Preliminary research supports the soundness of the additional factor and also indicates revision and/or thinking of two framework categories: evaluation factors and human factors. In addition to timeliness and substance, Alkin's framework contains other factors which survey respondents in this study considered as major influences in their evaluation utilization. The results indicate that a variety of data gathering methods not only affects uniquely the use of evaluation information, but also contributes to related uti-

lization factors, such as evaluator's willingness to involve users, evaluator's rapport with users, evaluator's credibility, user's commitment to use, substance of evaluation information, and evaluation reporting. (Author/PN)

Identifiers—*Texas Educational Assessment of Minimum Skills

Students failing to master minimum competency tests are categorized as dropouts in this description of the results of and remediation efforts for the statewide Texas Educational Assessment of Minimum Skills (TEAMS) Testing Program. TEAMS assesses minimum competency in basic skills at grades 1, 3, 5, 7, 9 and 11-12 exit level. The first administration tested all eleventh graders (n=191,556) in October 1985. Based on mastery of 70 percent of curricula objectives the required mastery level was to correctly answer 36 of 72 math items and 45 of 72 English language items. While 88 percent and 91 percent of students mastered the math and English portions respectively, 22,485 individuals failed in mathematics and 16,921 failed in English. Among students at risk, 11,751 eligible eleventh graders did not take the October tests. Prevention programs generally focused on basic skills remediation. Tenth graders, identified by previous test scores, were given individual achievement profiles and encouraged to attend a six-week summer program. Community programs, media coverage and tutorial classes prepared students for the TEAMS. Districtwide efforts helped to keep a low failure rate. Future studies will identify remediation effects. Descriptors—Academic Achievement, Cues, Elementary Secondary Education, *Error of Measurement, *Essay Tests, Interrater Reliability, Language Proficiency, *Scores, Standardized Tests, Tables (Data), Test Construction, *Test Reliability, *Test Validity, *Writing Evaluation

Identifiers—Cognitive Abilities Test, Iowa Tests of Basic Skills, *Iowa Tests of Basic Skills Writing Supplement

This paper isolates and examines separately three distinct sources of error in essay scores: lack of agreement between raters; inconsistencies in performance within mode of discourse, and inconsistencies in performance between modes of discourse. Essay prompts in the Iowa Tests of Basic Skills (ITBS) Writing Supplement were designed to assess students' skills in five modes of discourse: the narrative, the explanation, the description, the informative report, and the persuasive essay. A subsample of 46,000 students participated in the spring, 1985, standardization of the ITBS. One quarter of these 46,000 were assigned to the standardization of the ITBS Writing Supplement, and this report considers data from 10 of 20 subsamples from this quarter. Estimates of reader reliability range from .83 to .95, those for within-mode score reliability range from .37 to .69, and those for between-mode score reliability are generally in the .30s. This study reports several indicators of test validity: (1) measures of prompt appropriateness and scoring protocol usefulness; (2) evidence that the essays collected measure both small increments of growth and significant increases in writing proficiency; and (3) evidence for the discriminant validity of the essays. Descriptors—Administrative Problems, *Administrator Evaluation, Administrator Qualifications, Adults, *Assessment Centers (Personnel), *Educational Change, *Educational Quality, Evaluation Methods, Evaluation Utilization, State Programs, State School District Relationship

Many of the educational reform measures proposed during the last several years focus primarily on assessing students and teachers and increasing student and teacher standards. This paper offers a summary of the role of assessment in enhancing the quality of administrators. A well thought out, coordinated system of administrator assessments is suggested as a powerful force in improving the quality of school and district administrators. When developing a coordinated system of assessments to improve the quality of administrators, an analysis of the uses of various assessments should be made. The uses agreed to for inclusion in the system can then serve as building blocks for constructing the system. Various uses that assessment can play in improving administrator quality are outlined, and examples of states using new assessment procedures to improve administrator quality are cited; they include: Arkansas, California, Florida, Michigan, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, and Wisconsin. A variety of issues and problems, some technical and some political, can easily hinder attempts to develop assessment systems to improve administrator quality. A number of questions that highlight issues which may need to be resolved for success in developing new assessment systems are listed. (Author/PN)

Descriptors—Algorithms, *Comparative Analysis, *Computer Software, *Estimation (Mathematics), Item Analysis, Item Banks, *Latent Trait Theory, *Maximum Likelihood Statistics, Programing, Test Construction

Identifiers—*ASCAL Computer Program, Item Parameters, *LOGIST Computer Program, Three Parameter Model

This study assesses the accuracy of ASCAL, a microcomputer-based program for estimating item parameters for the three-parameter logistic model in item response theory. Item responses are generated from a three-parameter model, and item parameter estimates from ASCAL are compared to the generating item parameters and to estimates produced by LOGIST. ASCAL, part of an item banking/test construction software package known as MicroCAT, is described as a pseudo-Bayesian estimation process. The program, like LOGIST, is based on a pseudo-maximum likelihood algorithm. Unlike LOGIST, convergence is achieved by postulating prior distributions for examinee ability, item discrimination, and item lower asymptotes. Data are generated for sample sizes of 2,000 and 500, test lengths of 35 and 15, narrow and wide ranges of discrimination, and for centered and decentered ability distributions. The results show that the outputs from the two programs are usually more closely related to each other than either is to the original item parameters. Overall, both programs produce reasonable results for the larger data sets, but both have problems for small sets of data. It is concluded that if both programs are available, LOGIST would still probably be the program of choice due to its greater variety of usage options. (Author/PN)

Identifiers—*Ecological Paradigm, *Pennsylvania Educational Quality Assessment

A study of the correlates of cognitive achievement in Pennsylvania's Educational Quality Assessment Program was conducted by examining both individual (student level) and ecological (building level) correlations. Analyses were completed for grade levels 5, 8 and 11 for the 1985 state assessment. Twenty-four student derived condition variables or education indicators, classified as home environment, school environment and perception of instructional processes served as correlates. The education indicators classified as school environment were significantly associated with building achievement at nearly each grade level. Partialling out the effect of socioeconomic status (SES0 reduced the relationship between achievement and student perception of study habits to non-significance; however, perception of classroom discipline, interest in school and self-concept exhibited reductions of just 1 to 7 percent of the variance, thereby retaining modest relationships with building achievement. Generally weak relationships were observed between building achievement and perceptions of instructional process. A major exception occurred for timely return of teacher tests at grade 8, which exhibited a strong relationship with building achievement essentially unaffected by partialling on SES. A summary of instruments for measuring student achievement outcomes and a chart describing condition variables or education indicators are appended. (Author/PN)

Descriptors—Abbreviations, Analysis of Variance, Drug Education, Graduate Medical Students, Higher Education, *Item Analysis, *Language Skills, Multiple Choice Tests, Multivariate Analysis, Pharmaceutical Education, Symbols (Literary), Test Construction, *Test Format, *Testing Problems, *Test Items

Identifiers—*Bonferroni Procedure, *Confounding Variables

When test questions are not intended to measure language skills, it is important to know if language is an extraneous characteristic that affects item performance. This study investigates whether certain stylistic changes in the way items are presented affect item performance on examinations for a health profession. The subjects were medical residents taking a multiple-choice in-training examination. Twenty items were selected from the pretest section of the examination to cover three stylistic manipulations: (1) abbreviations; (2) symbols; and (3) generic and proprietary drug names. Every item was tested in two versions (unedited, edited) and these item pairs involved the same stylistic change for each pair. A Bonferroni test of significance was applied to the differences across forms for each item pair. A two-way multivariate analysis of variance yielded

essentially the same results as the two-way analysis of variance. No significant differences in performance were noted for individual item pairs or for type of stylistic manipulation. However, a test form effect was noted on one of the two replications. Test developers need to be aware that even if there is no difference in statistics on an item level, differences might exist on a test form level. (Author/PN)

**The Ethics of Quantification and Why It Doesn't Work; or Life among the Numerologists, Innumerates, and Qualitatives.**

Pub Date—Apr 86

Note—9p.; This paper is an excerpt from a paper written by Gilbert Sax and Claudia Krenz that will be published in a forthcoming book edited by Frank Besag. Paper presented at the Annual Meeting of the American Educational Research Association (70th, San Francisco, CA, April 16-20, 1986).

Pub Type— Speeches/Meeting Papers (150) — Opinion Papers (120)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Adults, *Educational Researchers, *Ethics, Evaluation Problems, Experimenter Characteristics, Qualitative Research, *Research Methodology, *Research Needs, *Research Problems, Statistical Studies, Testing Problems

Identifiers—*Quantification Processes, Rationalization (Decision Making)

The paper states that quantification is neither ethical nor unethical, but is ethically neutral. It is the behavior or intent of the human being that is clearly a matter of ethical concern. Like numerology and the sects of innumerates and qualitatives, there is not so much an unethical practice that is supported as there is a lack of vision and concern for other points of view. The qualitative and quantitative researchers have made it difficult to live in both their worlds even though there are no necessary contradictions between them. The quantifiers at the very least could have provided data to determine if students were attaining, or were even aware of, aesthetic values and ethical norms. If quantifiers detract students from a love of beauty or from a knowledge of ethical and unethical behavior, then quantifiers are failing their responsibilities, and their behaviors are examples of ethics gone wrong. Examples are given of scientism, a pseudoscientific belief that accepts the appearance and apparent successes of science without its essence, including a willingness to reexamine data, hypotheses, and theories when the evidence so suggests. Selected examples are presented regarding educational rationalizations that hinder understanding and free inquiry. (PN)

Descriptors—Certification, Comparative Analysis, *Equated Scores, Higher Education, *Mathematical Models, Occupational Tests, Professional Occupations, Raw Scores, Simulation, *Statistical Bias, Statistical Studies, *Test Theory

Identifiers—*Angoff Methods, Levine Equating Method, *Linear Equating Method, Tucker Common Item Equating Method

Comparisons were made of three Angoff Design V linear equating methods (two forms equated to a common test, two forms predicted by a common test, or two forms used to predict a common test) and Tucker's and R. Levine's linear methods, under common item linear equating with non-equivalent populations. Forms of a professional certification test administered to over 78,000 applicants were equated under the five different methods, using single-link equating of selected pairs of forms and cyclical equating of selected forms to themselves via equating chains. In addition, the five methods were tried on a set of hypothetical situations involving parallel or congeneric forms and anchor tests. In the single-link equatings, raw score equivalents by the Angoff methods tended to fall between those obtained with the Tucker and Levine methods. The chain equatings produced similar estimated bias and estimated root-mean-squared error of score equivalents for the five different methods. Results of equating in the hypothetical situations appeared consistent with the manner in which they were constructed and with the assumptions underlying the five different equating methods. (GDC)

Descriptors—Achievement Tests, *Adaptive Testing, Classification, Comparative Analysis, *Computer Assisted Testing, Computer Science Education, Criterion Referenced Tests, Cutting Scores, *Decision Making, Higher Education, Hypothesis Testing, Item Banks, Latent Trait Theory, *Mastery Tests, Mathematical Models, *Predictive Validity, Ratios (Mathematics), Statistical Studies, Test Length

Identifiers—*Adaptive Mastery Testing, Neyman Pearson Hypothesis Testing, *Sequential Probability Ratio Test (Wald)

The sequential probability ratio test (SPRT), developed by Abraham Wald, is one statistical model available for making mastery decisions during computer-based criterion referenced tests. The predictive validity of the SPRT was empirically investigated with two different and relatively large item pools with heterogeneous item parameters. Graduate students in a course on computer assisted instruction were administered tests on the Dimension Authoring Language and the COM Test, which measured knowledge of how computers functionally work. It was contended that, if the SPRT were used conservatively, it would remain robust as a decision model. Overall agreement coefficients ranged from .84 to .98, depending on the method of determining mastery status on the total test. The Neyman-Pearson classical approach to hypothesis testing was also included. The expected agreement was .95. An average of about 20 test items were required to reach SPRT mastery decisions, reducing testing time by 75 to 80 percent. (GDC)

Descriptors—*Adaptive Testing, Adults, *Aptitude Tests, *Computer Assisted Testing, *Item Banks, Latent Trait Theory, Microcomputers, Military Personnel, Occupational Tests, Postsecondary Education, *Test Construction, Test Items, *Vocational Aptitude

Identifiers—*Armed Services Vocational Aptitude Battery, Test Specifications

A computerized adaptive testing version of the Armed Services Vocational Aptitude Battery (CAT-ASVAB) is being developed to test ten areas of vocational aptitude. Development of the CAT-ASVAB is based upon the use of item banks, testing and scoring procedures, assessment of test reliability and test validity, a technical manual, and the development of equated scores for the paper-and-pencil and the CAT-ASVAB. There are three main considerations in the development of item pools: (1) content specifications–careful analysis of the content, skills, and knowledge comprising the aptitude area, and review of items; (2) item preparation, including consideration of the capabilities of the computer and its display, and psychometric standards as judged by experts; and (3) item calibration. The data collected for more than 2,000 test items on a military applicant sample provided item responses for over 2,000 examinees per item, for calibration purposes. The CAT-ASVAB battery uses the three parameter model, which assumes the concept of unidimensionality of each item. Future plans include the use of microcomputers for test administration, further work on the comparability of paper-and-pencil and computerized batteries, and the creation of a central testing facility. Descriptors—Achievement Tests, Basic Skills, *Content Analysis, Correlation, Elementary Secondary Education, Field Studies, Grade 6, Item Analysis, Latent Trait Theory, Mathematics Tests, Norm Referenced Tests, *Research Methodology, Scaling, *Testing Problems, *Testing Programs, *Test Use, Test Validity

Identifiers—*California Assessment Program, *Stanford Achievement Tests, Test Redundancy

This research, conducted for California State Department of Education, is one component of a feasibility study focusing on ways to make the testing process more efficient by application of multi-purpose tests (MPT). MPT are designed, administered and scored to serve more than one purpose and to consolidate and unify testing programs as a partial solution to test proliferation. A content review identifies common skills measured by the California Assessment Program (CAP) and the Stanford Achievement Test. Empirical information was collected about matched CAP and Stanford item performance from a mathematics field test. A core set of multi-purpose items was identified. A validation study of over 1,000 grade 6 students examined the accuracy of the estimates of norm-referenced test information from the multi-purpose item set identified. The general strategy was to estimate Stanford total test and subtest scores in mathematics by applying item response theory techniques to the identified multi-purpose item set. Estimated scores were then compared with total test and subtest scores actually earned by students. The correlations between pairs of estimated and actual scaled scores were large, and scaled root mean square differences were small. Results indicate: (1) some testing programs evaluate common skills, supporting the concept of a consolidated testing system; (2) there is a need for statewide content domains; and (3) using multi-purpose testing methodology is feasible. Descriptors—Adults, Data Collection, *Evaluation Methods, *Field Tests, Followup Studies, *Graduate Surveys, High Schools, Item Analysis, *Longitudinal Studies, National Surveys, *Questionnaires, Research Methodology, Responses, Statistical Distributions

Identifiers—*High School and Beyond (NCES), *National Longitudinal Study High School Class 1972, Response Rates (Questionnaires)

The combined field tests for the third follow-up survey of High School and Beyond (HSB) and the fifth follow-up survey of the National Longitudinal Study of the High School Class of 1972 (NLS-72) were conducted during the spring of 1985. The overall purposes of the field tests were to evaluate questionnaires and procedures to be used for the full-scale surveys scheduled for 1986. Both the NLS-72 and the HSB questionnaires were reviewed for item nonresponse for all items with four percent or more missing data. Both questionnaires included a large number of skip patterns. Empirical results concerning response rates to skip patterns were discussed and special problems requiring revision were

analyzed. A calendar format was tested to offer an effective way of capturing periods of interrupted schooling and employment, reducing the size of the main survey data file without compromising data quality. The effectiveness of new and revised HSB and NLS-72 items were evaluated by frequency distributions and evaluators' observations. The current follow-up surveys of HSB and NLS-72 were conducted primarily by mail. However, locating for the NLS-72 field test was done by telephone. In addition, a separate questionnaire, the Teaching Supplement was developed for a subset of the NLS-72 sample. (PN)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Basic Skills, Course Content, *Curriculum, *Educational Trends, *Futures (of Society), *Interaction, Latent Trait Theory, *Standardized Tests, Test Construction, Test Format, *Testing, Test Use

Identifiers—*Test Content

This paper presents future interactions between curriculum and test content, particularly standardized achievement test content. Three topics are discussed in question-answer form. (1) Will standardized testing dictate the curriculum in the future? An analysis of major curriculum change indicates two changes in the past 25 years: a revolution within particular content areas (e.g., mathematics and linguistics) and a narrowing of the curriculum to basic skills. Standardized tests seem to exercise little influence upon these types of major curricula change. Inferences from historical patterns indicate that testing will exercise little influence on the curriculum in the future. (2) Will test coverage provide a better match for the curriculum in the future? While the present curriculum-test content match is believed to be quite good, it is hoped that conclusions drawn from present studies will lead to developments in the theory of content validity for multi-level achievement batteries. (3) Will recent developments in testing methodology influence the test-curriculum match? Developments in Item Response Theory and Latent Trait Methodology have been shifting interest from curriculum-test content match to trait methodology. The inevitable result of tipping the balance in favor of a trait methodology will be to attenuate the strict fit between curriculum content and test content. (PN)

Descriptors—Basic Skills, Coherence, Cohesion (Written Composition), Elementary Education, Evaluation Methods, Examiners, Grade 6, Grade 8, *Holistic Evaluation, Interrater Reliability, *Scoring, *State Programs, *Student Evaluation, Tables (Data), *Testing Programs, Writing (Composition), *Writing Evaluation

Identifiers—*North Carolina Annual Testing Program

This report describes the North Carolina Annual Testing Programs writing task which was administered in 1985-86. Grade six students were tested on their ability to write a clarification composition; while grade 8 students were evaluated on their skills in writing a persuasive composition. The timed composition (50 minutes) was scored by two experienced, trained readers who assigned either a score of 1, 2, 3, 4, or Non-Scorable; this was a focused holistic score based on: (1) main idea; (2) supportive details; (3) organization; and (4) coherence. A second, independent score was obtained from each reader regarding usage of standard English conventions (grammar, spelling, usage, etc.). At the sixth-grade level, the 81,155 papers were read with a perfect agreement rate of 73.4 percent. At the eighth-grade level, 86,873 papers had an absolute agreement rate of 72.8 percent. An evaluative comparison of writing scores across years cannot be made without caution because writing prompts change each year. Other factors influencing performance include change in grade level, time of year of the assessment, and emphasis within the classroom. At both grade levels there appears to be a general movement into the upper score points suggesting a positive change in writing performance since 1983-84. (PN)

Identifiers—*American Psychological Association

This paper reviews eight major problem areas concerning testing practices of interest to professionals practicing psychology in the schools. These areas, identified by the Task Force on Psychology in the Schools of the American Psychological Association, include: (1) test use; (2) diagnostic versus placement tests; (3) informed parental consent for special education placement; (4) inappropriate placement of minority children in special education; (5) decision-making data regarding individual differences for educational placement and procedures; (6) population test validity issues; (7) quality and appropriate use of tests; and (8) the development of assessment procedures to determine children's educational needs. Attention is also given to seven action areas identified by the Task Force which would address these problems. The remaining portions of this paper discuss challenges faced by professional psychologists in converting research knowledge into improved school testing practices, specifically, improving the assessment and analysis of student's learning abilities and language skills through dynamic assessment of cognitive skills and assessment of communicative competence. Attention is called to improving and updating the scientific knowledge-base of professional psychologists, improving schools' capabilities to monitor and manage implementation of innovative testing practices, and to fostering collaborative relationships between school psychologists and academic researchers on testing innovations. Identifiers—*Conversational Paradigm, *Reflection Methodology, Reflection Process, Self Reference (Psychology)

A new framework for designing qualitative studies is described to optimize the emergence, representation and presentation of insights. The framework, called Reflection Methodology, is presented as a "Conversational Paradigm" that includes four components–interviewer (researcher as participant); child, task situation, and observing technology (including a second researcher as external observer)–in three phases–reflection/performance, judgmental reflection question, and reflection simulation. The involvement of the researcher team embodies the "complementarity" of the wholistic perspective with the separation perspective. The core subsystem within the paradigm is the child as an autonomous living system interacting with a task. The task, traditionally seen as input from the environment, is in contrast a perturbation and also a perturbation within the interviewer system. Accordingly, the conversational system evolves around the common perturbation–the task. It is through the joint participation of the child-task system and the interviewer-task system in the larger conversational system that the task gains any living meaning as an aspect of a larger social system. Descriptions of the task are representations of order which emerges from Reflection Methodology as a conversational system to provide a framework for clinical studies that are becoming central in mathematics education. Methods of a 1985 study in partitioning by children using Reflection Methodology are described to exemplify the Conversational Paradigm. (PN)

Descriptors—Analysis of Variance, *Content Analysis, *Evaluation, Evaluation Methods, Evaluators, Higher Education, *Microcomputers, Models, Questionnaires, *Reliability, Research Design, Research Methodology, Responses, Simulation, Standards, *Surveys, *Validity

This paper provides an understanding of the conceptual and operational relationships between evaluation, content analysis, and microcomputers so that evaluation practitioners can better address applied content analysis problems used in their work. The first section presents a general model for conducting an evaluation effort that focuses on information, actions, and standards of quality. This framework: (1) highlights key components of evaluation and content analysis information in terms of their underlying relationships; (2) identifies basic actions used to develop evaluation and content analysis information; (3) discusses different standards of quality that have emerged for judging the information and related processes; (4) presents working definitions of evaluation and content analysis; (5) consolidates these concepts into the presented model; and (6) discusses content analysis tasks related to the model's basic actions that can be implemented with the use of microcomputers. The second section describes an experimental study in which microcomputers were used to help pre-service and practicing educators perform a content analysis of responses to an open-ended survey question used in a simulated evaluation effort. This two-part experimental study focuses on the reliability and validity of developing a new content analysis category system, and coding responses based on an established category system. (PN)

Identifiers—Appalachia Educational Laboratory WV, Profile of a School, *Profile of School Excel-

lence
This paper reports the status of the Profile of School Excellence (PRO-S/E) after three years use and the results of a second validation study. The PRO-S/E, used in over 20 school districts in six states, is a diagnostic system school districts use to determine strengths and weaknesses based on 11 characteristics of effective schools. Data is collected by PRO-S/E administrators using: (1) district data forms; (2) superintendent interviews; (3) school data forms; (4) principal interviews; (5) school rating forms; (6) teacher questionnaires; (7) student questionnaires; and (8) optional forms to study schools' achievement test scores and students' socioeconomic status. Data from the school rating form and the teacher and student questionnaires develop graphic comparison profiles for the 11 characteristics. Analyzed results are used in addition to the interview and descriptive information to develop a written comprehensive profile of the school district. The validation study resulted in the broadening of the definition of one variable category, "Roles and Responsibilities"; the reassignment to other variable categories of three items for both the student and teacher survey; and the rewarding of five items in the student survey and five items in the teacher survey. (PN)

Identifiers—*Comprehensive Examinations, *Exit Examinations, *University of Tennessee Knoxville
This paper briefly presents a history of comprehensive examinations in higher education in the United States, characteristics of comprehensive exams, and the use of such exams in assessing program quality. This paper then focuses on the experience of 11 program faculties at the University of Tennessee (Knoxville), that developed and used exit exams for majors as one component of a comprehensive program evaluation process. The purpose for test development is discussed, as well as test development procedures: (1) faculty involvement; (2) initial steps; (3) item types; (4) test length; (5) consultants; and (6) test revisions. The preparation of students, test administration and scoring are described, as is the post-administration evaluation of the tests through student reaction, faculty reaction, item analysis, test revision, and test security. The use of test results, future test use, and faculty reaction to the test development process are presented. Faculty involvement in the test development and a review of students' performance stimulated a variety of improvements, including increases in curricular structure, more consistency among faculty teaching core courses, stronger linkages between lower- and upper-division coursework, and more opportunities for students to apply knowledge learned in classes. Identifiers—*Christopher Newport College VA, *Uniform Student Evaluation Survey
This report presents an analysis of a student evaluation survey, the Uniform Student Evaluation Survey (USES), used to provide a systematic, campus-wide basis for meaningful feedback on the instructional effectiveness of college teaching at Christopher Newport College (Virginia). This study addressed three issues as to the reliability, validity, and consistency of the survey measures. Secondarily, this report provided a device for guiding interested, but statistically non-sophisticated persons (primarily faculty), through the analyses of the three issues. A rationale for the current USES survey was presented and considerations for revision were offered. This report is limited to the analysis of 13 items (included in appendix) whereby a student evaluates an instructor's effectiveness. Principal components analysis of previous USES results revealed that "perceived classroom effectiveness" is consistently what is measured by the survey, with "overall instructor performance" the best single item measure. Items which shared the most variance with overall classroom effectiveness were similar from one department to another. USES results (1) show a high degree of internal consistency; (2) suggest that scores are fairly stable over time, with stability dropping sharply after two years; and (3) are generally related to more or less independent assessments of excellence as a classroom teacher. (PN)

Identifiers—*Pennsylvania Educational Quality Assessment
This study investigated the use of teacher perceptions of school effectiveness variables as part of the Pennsylvania state assessment program and briefly reviewed the teacher survey instrument development. Data were available for 155 of the 500 school districts from the 1985 Educational Quality Assessment administration. A norm sample included 111 high schools, 138 junior high schools and 361 elementary schools. Students were tested in grades 5, 8, and 11. Pearson correlation coefficients were calculated between teacher perceptions of school effectiveness variables and student achievement as well as student attitudes. Teacher perceptions of school effectiveness variables were found to have a statistically significant link with most of the student achievement measures. Rather low correlations, which in many cases were not statistically significant, were found between teacher perceptions of school effectiveness variables and student attitudes. Teacher perceptions of school effectiveness variables (when used with other school and student variables) were not the best predictors of student achievement in multiple regression. Appendix A lists 44 school climate variables with their measure weighting and description. Appendix B contains the teacher perceptions of school effectiveness variables with percentages by response option. (PN)

Identifiers—Maryland Functional Mathematics Test, Maryland Functional Reading Test, *Maryland Functional Testing Program, *Maryland State Department of Education
In 1983 the Maryland State Department of Public Education (MSDE) issued a request for proposals for "The Development of the Score Reporting System for the Maryland Functional Testing Program." The MSDE called for a literature review, a national survey, a statewide survey of user needs and capabilities, an assessment of the state's report producing capability, and a final design for reports and a user's manual. Following a literature search, national and statewide surveys of reporting practices and information needs were conducted by Measurement Incorporated. Common and unique needs of district and building administrators, teachers and counselors, and parents and students were found. Using the nationwide search results, the information needs of students, parents, teachers, guidance counselors, principals, and district administrators in Maryland were surveyed. Score report design was based upon these studies emphasizing the accountability function of the tests. Four levels of reporting and seven content areas necessitated 28 separate score reports. Examples of four levels of reports (student, class, school, and local education agency) are presented. Each report is oriented to a specific audience, visual clutter is reduced, and diagnostic information is briefly presented. A user's guide provides thorough background on score interpretation at multiple levels. This score reporting system appears to meet the responsibilities and information needs of all its audiences. Identifiers—Ability Estimates, Ability Parameters, *BILOG Computer Program, *Item Parameters, One Parameter Model, Robustness, Three Parameter Model, Two Parameter Model
The focus of this study is on the estimation procedures implemented in BILOG, a computer program. One purpose is to compare the item parameter estimates produced by various procedures available in BILOG. Four different models are used: the one, two, and three parameter model and a three parameter model with common guessing parameters. The results generally indicate that the various item parameter estimation procedures tend to yield similar results. The major exception concerned the Bayesian and maximum likelihood procedures (MLP) applied to the three parameter model. The MLP has a tendency to produce more extreme estimates than the Bayesian procedure. A second purpose is to compare the ability estimates produced by the available procedures: maximum likelihood, expected a'-posteriori, and maximum a'posteriori. The results indicated that: (1) robustification is not a strong effect on the mean or standard deviation of the ability estimates; (2) the mean and variance of the ability estimates are not strongly effected by the type of item parameter estimates used in calculating ability estimates; and (3) the effect of ability estimation procedure is fairly strong on the ability estimates. The Charleston County School District (CCSD) has recently begun development of criterion-referenced tests (CRT) in different subject areas and for different grade levels. This paper outlines the process that CCSD followed in the development of math and language arts tests for grades one through eight and area exams for required high school courses. The test development process begins with a statement of instruction or an objective. Methods for making objectives testable include revision, creation of new objectives, or grouping objectives into domains. The test purpose and feedback desired should be a guide in making objectives testable. Blueprinting refers to outlining the content to be tested and requires the developer to decide which objectives to test and the number of items needed to test each objective. Test and item specifications provide guidelines for writing items for a given objective. Objectives identification and specifications development provide the foundation for item construction. The pilot test tries out items and administration procedures, obtains empirical data for item evaluation and test form composition, and obtains performance data from students. Decisions to eliminate or retain items for future test forms depend upon the analysis of test data and the preference of the instructional staff. (PN)

Descriptors—Change Agents, Change Strategies, Consultants, Consultation Programs, Educational Change, Educational Improvement, Elementary Secondary Education, Federal Programs, Models, Professional Services, *Program Implementation, *Program Improvement, *School Districts, *State Departments of Education, *Technical Assistance, Workshops
Identifiers—*Education Consolidation Improvement Act Chapter 1, Elementary Secondary Education Act Title I, *Technical Assistance Centers
Program improvement activities can be classified into four categories based on the source of the impetus and the locus of the change agent: systematic, symbolic, opportunistic, and pragmatic. This paper (1) describes the various approaches to implementing Chapter 1 program improvement activities at the state and local district levels in 13 western states through the provision of technical assistance by an outside agency; (2) categorizes these approaches in terms of essential ingredients for fostering change in education; and (3) discusses implications of the findings for future work in program improvement. During 1982-85, the Region 4 Technical Assistance Center (TAC) provided over 300 workshops and consultations on program improvement topics alone. A majority of the program improvement activities are found in the opportunistic or pragmatic category. This implies that understanding of and expectations for program improvement in Chapter 1 should be moderated in the face of reality constraints, that many of the school improvement models currently in use may need to be adapted or tailored to accommodate assumptions inherent in the improvement package, and that TAC staff should take advantage of the diversity of approaches being initiated to afford flexibility in promoting incremental improvements in Chapter 1 projects. Descriptors—*Criterion Referenced Tests, Curriculum Development, Educational Objectives, Educational Testing, Elementary Secondary Education, *Mathematics Tests, Measurement Objectives, Pilot Projects, *Reading Comprehension, Reading Tests, School Districts, Task Analysis, *Test Construction, Test Items
Identifiers—*Charleston County School District SC, *Test Specifications
This paper details the development of the high school general mathematics examination and reading comprehension tests for grades one through eight for the curriculum referenced testing program in Charleston County School District, South Carolina. While the basic developmental approach was similar, problems encountered in developing the two types of tests were unique and inspired different strategies to accommodate the differences in the curricula. Begun in 1983 development of the ninth grade mathematics examination involved identifying objectives and writing item specifications, followed by four cycles of item writing, test production, and pilot-testing. Curriculum changes by the North Office in 1983 necessitated recalibrating 468 items. After pilot testing a second set of test forms in 1984, a consulting firm recalibrated the item bank, created four test forms and projected student performance. The first official examination administration was postponed until 1986 and the 1985 administration became a field test. The examination will account for 50 percent of the final course grade. The test development process goal for reading comprehension was to generate formative and summative tests to assess curricular objectives for grades one through eight. Outside consultants assisted in identifying reading comprehension objectives due to the different organization of existing elementary and middle school objectives. Outside contractors were also used to develop test specifications and to train district teachers in writing the test items. Item review and revision by district staff took longer than anticipated, so a language arts content expert completed the item review and prepared the 60 pilot test forms. Pilot testing was postponed until the spring of 1986. (BS)

Descriptors—*Analysis of Variance, *Comparative Analysis, Correlation, Differences, Effect Size, Error of Measurement, Hypothesis Testing, Mathematical Models, Measurement Techniques, *Monte Carlo Methods, *Multivariate Analysis, Research Methodology, *Sample Size, Statistical Studies
Identifiers—Bonferroni Procedure, *Empirical Analysis, Error Analysis (Statistics), *Power (Statistics), Type 1 Errors, Univariate Analysis
This study investigated seven methods for analyzing multivariate group differences. Bonferroni t statistics, multivariate analysis of variance (MANOVA) followed by analysis of variance (ANOVA), and five other methods were studied using Monte Carlo methods. Methods were compared with respect to (1) experimentwise error rate; (2) power; (3) number of Type 1 errors in experiments with at least one error; and (4) for experiments with at least one false univariate hypothesis, the probability of rejecting at least one of the true hypotheses. One method emerged as having the best all around performance. This method used repeated T-squared statistics and removed the variable with maximum significant F statistic, providing a good balance between power and Type 1 errors. It consisted of the following steps: (1) MANOVA on p variables followed by ANOVAs; (2) reject the hypothesis for the variable with the largest significant F statistic and remove that variable; (3) MANOVA on p-1 variables; (4) repeat Step 2 with p-1 variables; (5) MANOVA on p-2 variables...and so on until no MANOVAs are significant, no ANOVAs are significant, or there are no variables left. Descriptors—*American Indian Education, Cognitive Processes, Comparative Testing, Correlation, Cutting Scores, Diagnostic Tests, Elementary Education, *Intelligence Tests, Low Achievement, Minority Groups, Multivariate Analysis, Placement, *Psychological Testing, *Test Bias
Identifiers—*Kaufman Assessment Battery for Children, *Wechsler Intelligence Scale for Children (Revised)
The Kaufman Assessment Battery for Children (K-ABC) is purported to be less culturally biased than other, traditional measures of intellectual ability. The present study was designed to investigate three specific research questions: (1) Are there overall performance differences between Native American and non-Native American children on the WISC-R and K-ABC? (2) Do the relationships among K-ABC and WISC-R subtests differ between Native American and non-Native American children? (3) Using the standard criteria for special education placement, do the WISC-R and K-ABC scores lead to significantly different classifications? Assessment differences between the Wechsler Intelligence Scale for Children-Revised (WISC-R) and the K-ABC were investigated with samples of 47 Native American and 45 non-Native American children between 6 and 12 years of age. All of the children had been referred for assessment, based on low achievement in reading or all academic areas. Overall differences between the two groups were minor, in terms of the global scores for both tests. When the cutting scores for placement decisions were examined, significant differnces between the two tests were found only for the Native American group. It was concluded that the findings warrant judicious use of either test by itself when making placement decisions regarding Native American children. (Author/LMO)

**Historical Perspectives on Black Families.**
Pub Date—84
Note—20p.; Presented at the National Urban League/National Association for the Advancement of Colored People Summit Conference on the Black Family (Nashville, TN., 1984).
Pub Type— Opinion Papers (120) — Historical Materials (060) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Acculturation, African History, *Black Family, *Black History, Black Studies, *Cultural Awareness, Cultural Background, Cultural Education, *Family Life, *Mass Media Effects, Nonwestern Civilization
Identifiers—National Urban League
This transcription of the keynote speech delivered at a conference on the black family is a discussion

of the black family from an historical perspective. The presentation begins with quotations from an ancient African literature and a discussion of the archaeological history of the African continent with references to authors who have used this historical information in their work on the modern black family. Parallels are drawn between the "healthy" black family and a common memory of historical and cultural values. Current problems confronting the black family are described including a change in the roles and potency of black social institutions, reduced control of black families over the socialization process of black children, and effects of popular media on the socialization of blacks. A greater institutional role is advocated to enhance black awareness and understanding of black culture and history: social institutions must combine resources and provide vehicles to communicate values, beliefs, ideas and history to blacks, and institutions must be developed to promote black economic development. Identifiers—*Elementary Secondary Education Act Title I

This handbook, funded by the Veatch Foundation of Plandome, New York, is a resource guide for parents who want to become involved in and advocate for their children's education. The first section gives background on Title I/Chapter I and the opportunity this program gave parents to get involved in education. The importance of parental involvement is emphasized and suggestions on how parents can participate are given. This is followed by a section on the basic legal rights of students and parents: rights of free expression, access to public information, and access to student records. Next, a list of organizations that work on behalf of disadvantaged students and/or promote the rights of parents is given, divided into primary and secondary resources. Finally, an extensive annotated list of publications of help to parents is provided. (CG)

Identifiers—Australia, Canada, Sweden, United States

This paper examines the socio-cultural problems affecting new immigrants. The first part presents a person-centered ecological theoretical framework with two points of departure: the individual in his/her biological cognitive and socio-cultural sphere, and the person's communicative behavior. The data is drawn largely from a 1967-1979 project in the United States, Australia, Canada, and Sweden. Parts 2 and 3 focus on information derived from answers to the questions: Do you feel at home in the country you live in at present? and What do you need in order to feel at home in this country? Part 2 deals with the socio-cultural situation of the new minorities and part 3 discusses language and culture as a source of confidence and security. Among conclusions were that host countries should help adults and children keep and develop their mother tongues and that cultural identity and mainstream integration should be fostered by educating both migrants and host peoples in ways that promote mutual understanding. All children should be taught a functional view of language and culture. A pluralistic approach based on the various needs of minority children is needed to solve educational problems. Finally, the critical use of principles of human linguistics, together with those of humanistic sociology, will provide a useful frame for future research. (CG)

Descriptors—Academic Achievement, Asian Americans, Black Students, Elementary Secondary Education, Females, Hispanic Americans, Males, *Minority Groups, *Racial Differences, *Reading Tests, *Sex Differences

Identifiers—*Ohio (Cleveland)

This study analyzes the 1984-1985 Cleveland, Ohio, School District student reading data. The average Cleveland student maintained but did not significantly improve his/her reading achievement position relative to comparable students in a national sample. Average reading comprehension scores of the adversely affected students remained below the 33rd percentile, with the remaining students averaging at about the 50th percentile. Asian and Pacific Islanders scored the highest average test scores of any racial group, with Hispanics and Blacks scoring the lowest. In each racial group, the students with the highest reading scores had the best daily attendance rates. Girls scored higher in reading than boys; however, boys progressed or regressed more dramatically than girls, who tended to maintain their relative positions. The bulk of negative achievement results was attributed primarily to twenty schools. There continues to be a significant drop in average reading scores in the articulation grades, particularly grades 4 and 7. Schools using Project Perform had slightly greater vocabulary and reading comprehension gains than comparison schools. Extensive recommendations are discussed at the end of the study. Appendices making up about half the document compare various groups of students and their reading comprehension. (CG)

Descriptors—*Asian Americans, *Community Health Services, Health Insurance, *Health Services, Immigrants, *Refugees

Identifiers—Health Maintenance Organizations, *Rhode Island, *Southeast Asians

This study examines the patterns of health service use among Rhode Island's Southeast Asian refugees, using Medicaid/Refugee Medical Assistance data. It was found that this group has a lower rate of health service utilization than the general Rhode Island population. Following the 3-month initial resettlement period during which mandatory health screening occurs, the use of health services begins to decrease. The types of services most used by refugees are outpatient services, and the most used ambulatory care facilities are the community health centers; hospital admissions and emergency room visits are not common. These findings suggest that the health care needs of Southeast Asian refugees are compatible with the health care principles of HMOs. However, the group's high usage of community health centers and the successful and long-standing experience these centers have had with the refugees indicate that they are a very appropriate means of health care delivery for Southeast Asian refugees. Based on this evidence, it is suggested that a Community Health Center-Primary Care Network model would be the best option for improving refugee medical assistance/service delivery. Low health service use rates also imply a low demand for health services, which indicates that the refugees' need for third-party coverage stems chiefly from the fear of catastrophic medical expenses rather than from actual use of services as a result of on-going illnesses. Extensive tables and charts are included at the end of the report. (CG)

Pub Date—Aug 84

Note—100p.

Pub Type— Reports - Research (143)

**EDRS Price - MF01/PC04 Plus Postage.**

Descriptors—*Asian Americans, *Employment Opportunities, Employment Patterns, *Employment Problems, English (Second Language), Ethnic Groups, Immigrants, Labor Market, *Refugees, *Welfare Recipients, Welfare Services, Work Attitudes, Work Environment

Identifiers—*Southeast Asians

This report reviews existing research on the labor force participation and employment of Southeast Asian refugees, in the context of an apparent paradox between reports of positive labor force participation and high rates of public assistance usage by refugees. Following an introduction, Part II reviews

the available evidence on general labor force activities of Southeast Asian refugees as compared with the general U.S. population. Part III focuses on factors which seem most influential in predicting who enters the labor force, including age, sex, foreign education, knowledge of English upon arrival, and timing of arrival in the United States. Parts IV and V consider whether the type of sponsorship which a refugee is assisted influences labor force activity, and analyse refugee ethnic differences and how they affect labor force participation. Section VI examines the methods used by refugees to search for and secure jobs. Section VII describes what kinds of jobs they find and what job conditions are like for them, and also comments on their involvement in the "underground economy." It is concluded that the high rate of welfare participation does not appear to be a result of lack of motivation to work, but rather of the refugees' difficulty in obtaining adequately remunerative work. **Testimony to the State of New York Legislative Hearing on Dropouts.**

Pub Date—20 Mar 86

Note—12p.

Pub Type— Legal/Legislative/Regulatory Materials (090)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Blacks, *Black Students, Cultural Education, Dropout Rate, *Dropouts, *Educational Environment, *Hispanic Americans, *Social Problems, Youth Problems

This paper, which was presented as testimony at the State of New York hearing on dropouts, presents three causes for the high dropout rates of Black and Hispanic students and offers some solutions. It is noted that in large cities dropout rates range from as high as 50% to 70% among Blacks and Hispanics. The reasons cited for these high rates are: (1) personal and cultural dehumanization in the schools; (2) academic humiliation; and (3) drug addiction. These three problems are examined in some detail. Suggested solutions to the problem are given: (1) early childhood education; (2) implementation of effective schools programs; (3) curricula that are based on the cultural heritage of the affected ethnic groups; (4) academic vocational, interpersonal, and cultural counseling; (5) providing employment to students after graduation as an inducement to finish school; (6) education of the parents and community in order to provide a support network for the students; (7) assertion of political power in minority neighborhoods; (8) major financial commitment; and (9) prevention of drug abuse through education, and cutting off the availability of drugs. (CG)

**EDRS Price - MF01/PC04 Plus Postage.**

Descriptors—*Blacks, Black Youth, Census Figures, *Child Welfare, Educational Opportunities, *Employed Women, Employment Opportunities, *Females, Heads of Households, One Parent Family, *Poverty, Unemployment, *Welfare Services

Identifiers—*District of Columbia

This paper examines the extent and nature of poverty in Metropolitan Washington, D.C., how it compares to poverty in other similar metropolitan areas, and what can be done to reduce the numbers of persons suffering from persistent poverty in Washington. According to 1970 and 1980 U.S. Census Bureau data, poverty in the Washington, D.C., metropolitan area was concentrated among blacks, particularly among black female-headed families. The black male employment picture became significantly worse during the 1970s, and poverty among black children was high and may increase. Poor, uneducated black female heads of families in the District can be expected to have difficulty earning their way out of poverty. Over the long term, programs that increase educational attainment, decrease teenage pregnancy, and increase employment appear likely to reduce poverty; but in the near term some form of income support is needed. Note—91p.

Pub Type— Reports - Descriptive (141)

**EDRS Price - MF01/PC04 Plus Postage.**

Descriptors—Community Involvement, *Educational Change, *Information Dissemination, Information Networks, *Professional Associations, Research and Development, *Research Utilization, *School Effectiveness, Secondary Education, Technical Assistance, *Urban Education

Identifiers—Delaware, *Effective Schools Research, New Jersey, Pennsylvania

The Urban Development Component at Research for Better Schools, Inc., attempted to attack problems facing urban secondary schools in Delaware, New Jersey, and Pennsylvania by using the "natural channels" of educational and civic associations to disseminate research and development information and to work collaboratively toward improving schools. The first section of this final report presents the project rationale and discusses the status of the region's "small cities" and research on educational change and school effectiveness. The next section describes the project goals. The role played by professional and civic associations as collaborators in school improvement is discussed next, and the effects and impact of the project on the associations, school districts and participating schools are then described. The final section concludes that associations make important contributions to school improvement by: increasing participation activities; improving the utilization quality of R & D information and products; identifying opportunities for successful implementation of projects; providing training, technical assistance, and follow-up support; and contributing to a climate of acceptance and cooperation. Critical characteristics of associations and their relationship to involvement in improvement activities are explored. Finally, implications of the "natural channels" approach for State and local policymakers are examined. Appendix A lists the cooperating organizations. Appendix B lists Urban Development products and publications. (CG)

Identifiers—Operation Success, *TRIO Programs, Wichita State University KS

This handbook for tutors participating in the federally funded Operation Success Special Services Program, one of the college level TRIO programs designed to aid students from disadvantaged backgrounds, was compiled with the cooperation of tutors at the Wichita State University. The first section describes the needs of the students being tutored and discusses student centered learning and time allotment; it includes flow charts designed to help the tutor understand the overall learning process. Section II presents the tutor's responsibilities, necessary skills, and general information about how to conduct the tutoring sessions. Section III considers stress and stress management. Section IV describes the concept of peer counseling and gives tips on how to be most effective in this role. Section V discusses learning theories and styles, and section VI presents a variety of studying techniques: note taking, preparing for taking exams, time management, and strategies for motivating the students. The booklet includes many checklists and flow charts to aid the tutor in preparing for and accomplishing the task of assisting disadvantaged fellow students. (CG)

**Cultural Mistrust and Black Nationalism: Evidence of Positive Relationship.**

Pub Date—Jun 84

Grant—NIH-2506RR8016-13

Note—16p.; Paper presented at the Annual Meeting of the American Psychological Association (Toronto, Ontario, Canada, August 24-28, 1984).

Pub Type— Reports - Research (143)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—Black Attitudes, *Black Power, *Blacks, Cultural Images, *Cultural Interrelationships, Racial Bias, *Racial Discrimination, *Racial Identification

This paper examines cultural mistrust of whites and its resulting manifestations, particularly Black nationalism. First, working definitions of racism and stress are given, to place cultural mistrust in the context of a coping style used to respond to racism. As one coping style, Black nationalism involved a rejection of White political and social institutions and a concern with developing Black institutions. Next, conceptual and empirical work on the measurement of the Black nationalistic coping style is outlined, and a table is given showing a positive relationship among four identified components of Black nationalism. The final section describes the relationship between measures of Black nationalism and cultural mistrust. Differences and similarities between Afro-American and Black Caribbean students are presented. The paper concludes that cultural mistrust may lead to a new development of self by Black people. (CG)

**The Role of the African American Male: An Analysis of Literature in the 1980s.**

Pub Date—25 Feb 86

Note—18p.

Pub Type— Information Analyses (070)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—*Blacks, *Family Life, Family Relationship, Family Structure, *Males, Marriage

This analysis of literature in the 1980s in which African American males are the primary subject challenges characteristics traditionally associated with this group. Most of the literature used in this study addresses the issue of the African American male in the history of the contemporary family. Literature is classified as Statistical, Theoretical–Opinion, or Theoretical–Research. Findings in statistical literature show more males entering marriages than is generally recognized. Statistics need to reveal more specific information about the African American family, especially the adult male. Theoretical–Opinion literature gives only token attention to the issue. Theoretical–Research literature focuses on characteristic reasons for father absence, projective attitudes toward male-female relationships, effect of father absence, and effect of father presence. Research should include longitudinal studies that focus on the long-term evolution of father involvement in the African American family. Although negligent research supports the racist assumptions and stereotypes, literature is surfacing to show that the African American male is healthier and less pathogenic than the Anglo culture proposes. More sound research is needed, and African American men must speak out and dispel rumors that they are the cause of social and family problems. A bibliography is appended; an additional five pages of references cite items from 1960 to 1984. (CG)

Descriptors—Disadvantaged, *Disadvantaged Schools, *Equal Education, Foreign Countries, *Literacy, *Parent School Relationship, Parent

Student Relationship, *Remedial Programs, Teacher Role, Volunteers
Identifiers—*Australia

This paper examines government policies in Australia which encourage parent participation in disadvantaged schools in order to improve student literacy, and studies that have found that this policy may, in fact, increase inequality in education. The argument presented is that there are two types of parents–enthusiastic parents and those described as the silent majority. The first group will participate readily in a volunteer effort to assist their children by supportive activities at home and visits to the school to receive information and advice as well as participating in the school as volunteers. The second group may need more encouragement to visit the schools to receive the advice and assistance that would be helpful to their children and, as they do not receive this encouragement, are percieved negatively by the teachers. The following are some of the empirical findings supporting this theory: (1) Home visit programs were found more successful in involving parents than were programs where parents had to go to school; (2) parents having a high level of contact with the school were rated more positively by teachers with regard to their interest in furthering their children's education but independent ratings by interviewers found less disparity; (3) high contact parents were more likely to be Anglo-Australian, and more likely to apply advice obtained from the schools; (4) the contact level of the parents correlated positively with predictions about the children's reading competence scores; and (5) the differences found did not correspond to social class but rather to differences in family environment. Four pages of references are provided. (CG)

**The Status of Hunger in Cities, April 1985. Task Force on Joblessness and Hunger.**
United States Conference of Mayors, Washington, D. C.
Pub Date—85
Note—9p.
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Emergency Programs, *Hunger, Poverty, Unemployment, Urban Areas, *Urban Problems

A survey by the U.S. Conference of Mayors of its 22 member Task Force on Joblessness on Hunger to determine the current status of hunger in cities revealed the following facts among others: (1) Despite 15 months of economic recovery, the problem of hunger has grown and is expected to increase over the next year; (2) Two-thirds of the cities reported an increase in emergency food facilities; (3) In 70% of the cities, emergency food facilities are unable to meet the demand; (4) The main problem appears to be inadequate supplies of food; (5) The number of families and children requesting emergency food during the last year has increased, on average 35%; (6) Several cities report special problems with elderly or disabled citizens who are unable to come to emergency food centers; and (7) Several cities expressed particular concern over long-term nutrition problems for children. The Conference of Mayors recommends continuation and increase in Federal programs such as food stamps, child nutrition, and WIC (women, infants and children nutrition program) in order to combat this increasing problem of hunger in the city. Included is a chart showing responses from the 21 cities surveyed. (CG)

Pub Type— Guides - General (050) — Reports - Evaluative (142)
**EDRS Price - MF01/PC04 Plus Postage.**
Descriptors—*Community Services, Employment Opportunities, *Hispanic Americans, Public Agencies, *Technical Assistance, *Unemployment, *Youth
Identifiers—Public Private Relationship

This guidebook was developed as an aid to communities seeking to create partnerships between public and private sector sources to reduce the youth unemployment among Hispanics. The International City Management Association (ICMA), as part of a project sponsored by the Department of Health and Human Services, identifies six model ventures using the partnership approach and this guidebook is, in part, a report on these projects. The communities that participated were in New Mexico, California, and Florida. One section discusses characteristics of the Hispanic youth unemployment problems, with a history of Hispanics in the United States, demographics on the group, and the various barriers to employment. Another covers the general concept of public and private partnerships with specific reference to the Jobs Training Partnership Act (JTPA). Each of the six successful communities' programs are described, including information on funding, innovative approaches, problems, and points which were especially successful and which could be transferred to other communities. Finally, the peer matching component of the program in which two successful programs were matched with two communities wanting to initiate similar projects is described. Appended are an annotated list of national organizations dealing with youth unemployment and a list of local Hispanic employment organizations arranged by state. A bibliography of four pages is provided. (CG)

Identifiers—*City University of New York Bernard Baruch College, *SEEK Program NY

This report evaluates the 1984 Search for Elevation, Education & Knowledge (SEEK) prefreshman summer program at Baruch College, City University of New York (CUNY), and describes its curriculum, staffing, recruitment of students, and objectives. Ninety-four students were enrolled: 73.4% were 18 or 19 years old; 73.0% were women; 90.4% were single; 47.9% also spoke a language other than English. Prospective students took the CUNY skills assessment tests in reading, writing, and mathematics in the spring. Seven students were enrolled in reading, 26 in writing, and 65 in mathematics. Student performance was assessed by skills assessment posttests and teacher's observation. Findings showed that 98.9% of the students completed the program. Reading and mathematics students showed improved performance on CUNY skills assessment tests. Class performance did not necessarily predict test performance. Improvement in writing was not apparent in test scores. Most students remained at the same course level. Attendance across classes was inconsistent. Lower attendance in the morning classes and writing classes may have affected learning outcomes. The program was generally well implemented but additional pre-planning and administrative and clerical support before start of classes might alleviate specific problems. Recommendations for future research are given. Tables and appendices provide student and curricular data. (CG)

Identifiers—City University of New York Bernard Baruch College, SEEK Program NY

In 1984, 94 college freshmen attended the SEEK Prefreshman Summer Program at Baruch College in the city of New York. This program, held for six weeks during the summer prior to college, provided skills remediation, counseling, and financial aid to freshmen from educationally and economically disadvantaged backgrounds. Its goal was to improve students' academic and coping skills in order to increase their chances of success in college. A study was conducted to compare the first-year enrollment and academic outcomes of incoming SEEK freshmen who participated in the program with incoming freshmen who did not participate. The investigator found that: (1) SEEK freshmen were demographically distinct: the program served proportionately more females and blacks, and fewer Asians. (2) The program participants, most of whom came from vocational high schools, required assistance in mathematics. Otherwise, their academic preparation was similar to non-participants. (3) Program participants who advanced after completing a summer remedial course continued to show adequate overall academic performance during their first semester. (4) Participants' academic performance in their first two semesters did not differ greatly from that of non-participants. Prior academic preparation was more important than program participation in determining first-year outcomes. (5) Proportionately fewer program participants than non-participants re-enrolled in the second semester. (6) Participants who did not re-enroll were more likely to leave on an official basis, such as transferring to another institution. (Author/KH)

Most of the chapters in this book grew out of the Conference on the Academic Performance of Minority Children held at Cornell University in 1982. Six hypotheses about minority school achievement are presented. After a general introduction by Ulric Neisser, John Ogbu describes the effects of caste and argues that black school children are preparing themselves for the roles they expect to play later on. A. Wade Boykin discusses black culture and argues that schools are structured to maintain the hegemony of the white middle class. Ron Edmonds documents the principal differences between effective and ineffective schools. Brown, Palincsar, and Purcell examine the differential treatment effect in reading instruction and describe new participatory teaching techniques that may reduce achievement gaps between successful and unsuccessful students. Reginald Gougis argues that black students suffer stress from racial prejudice that has negative effects on learning. In the final two chapters, Richard Darlington presents findings on the effectiveness of Head Start programs and Herbert Ginsburg reviews cross-cultural and subcultural research, concluding that basic abilities for school subjects are equally present in every cultural group. (CG)

**Educational Strategies to Increase Racial Tolerance.**
Pub Date—[85]
Note—24p.
Pub Type— Opinion Papers (120)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Educational Strategies, Elementary Secondary Education, Foreign Countries, *Racial Attitudes, Racial Bias, Racial Differences, *Racial Relations, *School Role, *Student Attitudes,

*Teacher Attitudes
Identifiers—*Canada
This paper reviews the effectiveness and practicality of various educational approaches for increasing racial tolerance and calls for developing strategies that have been formally evaluated to avoid the waste of time and limited resources. The first section discusses the racial inadequacies of most programs which purport to affect racial tolerance. Most programs are short-term, isolated interventions that do not address changes in general value orientations and social responsibility. Next, short-term intervention strategies and their effects are presented: inter-racial contact; direct, "neutral" teaching about race; reverse role-playing and other dramatic techniques; direct modification of behavior; and behavior modification and classical conditioning. The final section covers efforts to change the overall school milieu, including making concentrated efforts to develop non-racist teaching materials, pressing for greater discussion of human variation, and developing absolute codes for race relations behavior. In the long term, rigorous training of teachers and counselors and development of curriculum materials that portray a multiracial and multicultural Canada are needed. More minority individuals should also be encouraged to become teachers. Four pages of references conclude the paper. (CG)

Identifiers—*Atlanta Public Schools GA, *Project ALERT
Project ALERT was conducted by the Atlanta Public School system for the third consecutive year during the summer of 1985. An education for employment component of the Summer Youth Employment Program, Project ALERT represents a concentrated effort to address problems that have contributed to the high unemployment rate among economically disadvantaged youth. The primary goal of the project is to increase the future employability potential of the participants by increasing their reading and mathematics competencies, helping them clarify their careers, and providing employment experiences. Participants were assigned to various public and private nonprofit organizations for a total of 16 hours of work experience per week. Additionally, each participant was enrolled in educational activities, which focused on computation, communication, and job finding career skills, for 18 hours per week. In 1985, Project ALERT served 167 students, 157 of whom earned between 7.5 and 22.5 hours of credit by earning a passing grade in from 1 to 3 of their academic subjects. After the program ended, over 60 percent of the participants felt that they possessed those behaviors necessary for employment, and 87 percent attained an improved awareness of career objectives. Because gains were seen in all areas except computation, in the future additional opportunities should be provided for practical application of computation skills. (KH)

Identifiers—*Aguilar v Felton, Education Consolidation Improvement Act Chapter 1
This report presents guidelines for complying with the Supreme Court's "Aguilar v. Felton" decision, which held that the method most commonly employed by local educational agencies to serve private school children under the Chapter 1 program—public school teachers providing instructional services on the premises of non-public sectarian schools—was unconstitutional. The report is divided into two parts. The first provides: (1) legal analysis of constitutional guidelines for providing Chapter 1 services and (2) analysis of permissable uses of funds under Chapter 1 and how these fit into constitutional guidelines (both prepared by the Congressional Research Service in the Library of Congress); (3) comments on these legal analyses by the Departments of Justice and Education; and (4) the Department of Education's "Felton" guidance document. Part 2 describes what some school districts are doing to effectively comply with Felton. Case studies of a number of school districts are presented. (KH)

Identifiers—Bureau of the Census, Immigration and Naturalization Service
This document provides a transcript of a hearing of the House Subcommittee on Census and Population which focused on immigration statistics and ways of improving the methods of accounting for all immigrants. Prepared statements were presented by four witnesses: (1) Daniel B. Levine, the director of the Panel on Immigrations Statistics, who discussed the type of data needed for developing immigration policies; (2) John E. Nahan, the director of the Office of Plans and Analysis, Immigration and Naturalization Service (INS), commenting on the INS's efforts to reform its statistics collection; (3) Jeffrey S. Passel, of the Demographic Research Population Division, Bureau of the Census, who described the role of the Census Bureau in immigration statistics and presented some of its findings on the numbers and characteristics of undocumented aliens; and (4) Alejandro Portes, a sociologist, who presented a report on the adaptation process of 1980 Cuban and Haitian refugees in South Florida. In general, it was observed that current statistical reporting practices do not provide sufficient information to analyze the impact of immigration or to make policy decisions. (KH)

Descriptors—*Educational Attainment, Educationally Disadvantaged, Employment Opportunities, Foreign Policy, Health Insurance, *Health Services, *Hispanic Americans, *Housing, Outcomes of Education, Population Trends, *Religion, Telecommunications
Identifiers—Central America
The fifth volume of The State of Hispanic America is divided into four sections: Education, Health and Welfare, Business and Technology, and Beyond our Borders. In the first article Steven Arvizu pres-

ents Hispanic demographic growth data, describes the overall severity of undereducation among Hispanics, analyzes areas of controversy, and offers recommendations and strategies for educational empowerment. Next, James Reuaswig reports on a study concerning Hispanic achievement and participation in one California school district. Both chapters in the Education section endorse the National Hispanic University model. Jane Delgado and Fernando Trevino examine national data on Hispanic health and the financing of health care, concluding that data on Hispanics is inadequate and access to health insurance programs needs to be increased. Susan Vanhorenbeck uses census information collected in the Annual Housing Surveys to examine the housing conditions of Hispanic American Households and compares them with other U.S. hot seholds. In "Hispanics and the Communications Industry," Henry Rivera outlines federal policies designed to encourage minority ownership, discusses opportunities for the Hispanic entrepreneur, examines the Minority Telecommunications Ownership Tax Act, and lists additional information sources. "Beyond our Borders" contains an examination of U.S. policy toward Central America by Tom Diaz and a discussion of religion and Hispanics by Frank Ponce. (CG)

Descriptors—*Curriculum Development, Elementary Secondary Education, Foreign Countries, Inservice Education, *Instructional Materials, *Material Development, *Multicultural Education, Parent Participation, Teacher Certification, *Teacher Education Curriculum

Identifiers—*Manitoba

The final report of the Manitoba (Canada) Conference on Multiculturalism in the School Curriculum, held in 1984, recommends that the Department of Education and the school boards develop clear policies on multicultural education that reflect the needs of the province and the local communities. The department and the school boards should work together in developing and implementing these programs and in insuring that parents and ethnocultural organizations are active participants. Staffing should reflect the ethnocultural diversity of the Province, and research is needed to identify directions for effective planning and programs. Regular multicultural/intercultural inservice programs for educators should be provided and such courses should be compulsory in university teacher education programs, with sufficient funding provided by the department. Special certification of heritage language teachers certified abroad is needed. The department should set guidelines for including a multicultural component in all curriculum subject areas and levels and school board programs should reflect these guidelines. The department should also evaluate all educational materials for bias and stereotyping, develop guidelines for publishers, and commission materials when necessary. The establishment of a Multiculture Educational Resource Centre was endorsed. The report contains recommendations based on workshop reports, followed by comments from the reporting committee. Workshop reports are appended. (CG)

Descriptors—Access to Education, *Catholic Schools, *Educational Environment, *Educational Quality, Family Income, High Schools, High School Students, *Low Income Groups, Outcomes of Education, Racial Factors, *Student Attitudes, *Teacher Attitudes

This study, the second of a two-part effort, examines how well staff and program resources are distributed to Catholic high schools that serve low income students. The study involved 106 schools. Nearly two-thirds of the students came from families earning less than $20,000. The first section gives background on Catholic education and describes the scope and purpose, methodology and sources of data for the study. It includes a profile of five low-income serving schools (LIS). The section on schools discusses low-income students' access to educational resources, compared with other students, and compares LIS with non-LIS Catholic high schools. Teachers, students and principals give perceptions on school climate in LIS schools. The section on students provides information on 9th and 12th graders' values, religious beliefs and practices, life skills, and behaviors, with emphasis on differences that may be a function of race and family income. The next section discusses the motivations, attitudes, and perspectives of teacher in LIS schools. The section on student outcomes examines the impact of four years of Catholic education on student learning and school characteristics, such as family background, student characteristics, school programs, and climate, that promote growth. Finally, a summary of the study and recommendations to strengthen LIS schools are provided. Numerous tables are presented throughout the text. The student survey, teacher survey, administrative manual, and technical materials are appended. (CG)

Descriptors—*Blacks, *Educational Environment, Females, *Junior High School Students, Low Income Groups, Males, *Middle Schools, Negative Reinforcement, Positive Reinforcement, Private Schools, Public Schools, Sex Differences, Social Influences, *Stress Variables, *Urban Schools, Whites

Identifiers—*Academic Environment Inventory

The Academic Environment Inventory (AEI), developed to measure students' experience of stressor events and support events in middle or junior high school, was used to study 107 students in a mostly black, low-income urban public school and a comparison group of 49 students in a mostly white, high-income private school. Project students and comparison students reacted similarly to stressor events. However, project students reported a significantly higher frequency of stressor events and a somewhat lower frequency of support events. The private school students reacted much more positively to support events. When mid-year grade point average was considered for a subsample of 80 project students (39 boys and 41 girls), the AEI was found to account for as much variance as the California Achievement Test of Reading. Different patterns were found for boys and girls. Stressor reaction appears to be connected to the decision to deal with potentially stressful events and support reaction with the decision to respond positively to support opportunities. Variance in students' reactions to stress seems to relate to existing social and academic agendas for boys and girls. (CG)

This document is a transcript of an oversight hearing on the Job Training Partnership Act (JTPA). It is the first in a series designed by the House Subcommittee on Employment Opportunities, Committee on Education and Labor, to evaluate the program. In his introduction, the subcommittee chairman voiced his concern about proposed budget cuts in national employment and training programs, citing the fact that only 2% to 3% of those eligible for JTPA are currently being served by the program. Testimony was heard in support of the program from a congressional representative from Connecticut. Extensive testimony was also given by representatives of the General Accounting Office dealing with the day to day management of the program, both fiscally and operationally. This was followed by a report of a 2-year study (the Grinker-Walker report) focusing on the alteration in institutional relationship implicit in the act, the coordination among public agencies, and the people served and the way these services are delivered. Appended are extensive supporting documents including a response to the Grinker-Walker report by the Hispanic Community, and prepared statements of all those testifying. (CG)

**Multiculturalism and Teacher Education: The Rhetoric and a Reality.**

Pub Date—Mar 86

Note—23p.

Pub Type— Opinion Papers (120) — Reports - Descriptive (141) — Reports - Research (143)

**EDRS Price - MF01/PC01 Plus Postage.**

Descriptors—*Cross Cultural Training, Ethnic Studies, *Multicultural Education, Preservice Teacher Education, *Teacher Education Curriculum, *Teacher Education Programs, Teacher Student Relationship

Identifiers—*Wisconsin

This paper considers the problems of multiculturaliam and teacher education with specific reference to the situation in Wisconsin. The first section deals with the historical interest in multicultural education in America and what the concept means. The second section describes the Human Relations Code in Wisconsin which requires preparation in this area for preservice teachers, and outlines its precepts. The next section presents the findings of a survey of the 30 teacher training institutions in Wisconsin in which respondents were asked to describe the way in which multicultural education components were made available in their curricula and to what extent they were considered important. Multicultural fieldwork and comparative education were ranked high in importance by respondents but were found to be underrepresented in the curricula of the teacher training institutions. It was further found that commitments to providing multicultural education experiences were not met. It is concluded

that little is being done in teacher education programs in Wisconsin to address ethnocentric attitudes or to prepare teachers for work in the multicultural classroom. (CG)

**The Extrinsic Cultural Traits of Chinese Immigrants as Compared with Chinese in Taiwan and Other Non-Chinese in the U.S.A.**
Pub Date—17 Feb 84
Note—16p.; Paper presented at the Annual Meeting of the Society for Cross Cultural Research (Boulder, CO, February 17, 1986).
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Acculturation, *Chinese Americans, Cultural Differences, *Cultural Traits, English (Second Language), *Immigrants, Social Attitudes
This paper reports on a study whose purpose was to examine the speed of changing extrinsic cultural traits of Chinese immigrants in the United States and to determine cultural commonality among the groups. Three groups were selected for the study: 150 recent Chinese immigrants, 209 non-Chinese Americans, and 95 prospective Chinese immigrants from Taiwan. An attitude inventory scale was used to measure the sample's extrinsic cultural traits in four major areas: social interaction, English proficiency, American life-style, and future prospectives. It was found that extrinsic cultural traits of Chinese immigrants are significantly different from those of the other two groups. Statistical analysis indicated that Chinese immigrants are not significantly different from prospective Chinese immigrants in the way they assess their social interaction with the core society and lifestyle in the United States. It was also found that prospective Chinese immigrants were very enthusiastic about the prospect of living in the United States. The only cultural commonality found to be shared by all three groups was an interest in the availability to desirable clothing styles. (CG)

**Family Environment for Children's Bilingual Development--A Case of Middle-Class Chinese Americans.**
Pub Date—Feb 83
Note—15p.; Paper presented at the Annual International Bilingual/Bicultural Education Conference (12th, Washington, DC., February 15-18, 1983).
Pub Type— Reports - Research (143)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Acculturation, *Bilingualism, Children, *Chinese Americans, Family Environment, *Language Acquisition, Middle Class, *Parent Influence, Social Influences
Identifiers—Texas (Houston)
This paper reports on a study of the effect of the family environment on a child's bilingual development, specifically the middle-class Chinese American. The sample consisted of 86 parents attending a show celebrating the Chinese New Year in Houston, Texas. They were asked to fill out a questionnaire consisting of 24 items dealing with parent's and children's demographic data, children's early language experience, parent's expectations, and the degree of bilingualism in the home. It was found that the majority of the parents spoke Chinese with their children in the home; more than half taught their children the English alphabet prior to kindergarten; and a majority claimed that their children had no learning or social problems in kindergarten. Furthermore, three-quarters of the parents said that their children's reading ability in school was good. It is concluded that the role of the family environment in children's bilingualism cannot be completely separated from external language influences such as TV, reading materials, and social contacts. Unless these factors can be completely controlled or excluded, the role of the family cannot be determined. Imitation and reinforcement are found to play an important part in English acquisition even though 87% of the sample's first language was Chinese. It is possible, however, that parental education and economic conditions provide a favorable environment for the children's English acquisition. (CG)

Descriptors—Armed Forces, *Demography, *Hispanic Americans, *Limited English Speaking, *Military Personnel, *Population Trends, Sex Differences
Identifiers—*Army, *Demographic Projections
This report presents background, methodology, findings, and implications regarding the generation of demographic projections to the year 2000 of limited-English-proficient (LEP) Hispanic accessions in the U.S. Army who are eligible for English-as-a-Second-Language (ESL) instruction. Results show that the U.S. Hispanic population is projected to grow substantially between 1980 and the end of the century. The growth rate for Hispanics in the accession age range of 17.35 is projected to be over three times the rate for Blacks. In 1961, Hispanic accession rates were higher for males than females and were highest of all for insular Puerto Ricans. These accession rates were patterned differently from projections, with non-Puerto Rican Hispanics projected to have higher accession rates than Puerto Ricans in the period 1980-2000. ESL eligibility rates in 1981 were found to be much higher for Hispanic males than females and Puerto Ricans had higher ESL eligibility rates than other Hispanics, consistent with projections. The proportion of Hispanic accessions eligible for ESL instruction was not projected to change dramatically between 1980 and the end of the century. Results point to the need for continued, high quality English instruction, suitable selection and classification procedures, awareness of cultural differences, and improved data collection methods. Descriptors—Academic Aspiration, *Adolescents, Blacks, Desegregation Effects, *Early Parenthood, *Educational Benefits, Elementary Secondary Education, Emotional Disturbances, Job Training, *Pregnancy, Preschool Education, Unemployment, Youth Problems
This brief digest discusses teenage pregnancy and various educational strategies that appear to affect pregnancy rates. While pregnancy among white teenagers has increased since the 1970s, the birth-rate among black teenagers is still five to eight times higher. Teenage mothers and fathers have lower educational attainment and income than their peers who delay childbearing. Early parenthood has short- and long-term consequences for the children as well. Babies of teenage mothers are at risk for low birth weight and high infant mortality; moreover, children of adolescent parents tend to become teenage parents themselves. Some studies show that teenage parents risk alienation from school, unemployment, or underemployment. In contrast, positive school experiences and steady progress toward employment reduce the changes of teenage pregnancy. Preschool education has been found to correlate positively with later lower delinquency and pregnancy rates in teenagers. Desegregation was also found to correlate positively with a reduction in pregnancy before the age of 18. High educational goals appear to be related to a lower incidence of adolescent pregnancy. Finally, several studies of job training programs show that for those students who do not have aspirations towards higher education, appropriate preparation for employment may serve the same positive purpose in reducing teenage pregnancy. Descriptors—Ability Grouping, Blacks, *Desegregation Methods, *Magnet Schools, *Racial Differences, Racial Integration, *Racially Balanced Schools, Racial Relations, *School Desegregation, *School Resegregation, Suspension, Urban Schools
Identifiers—*Cooperative Learning, ERIC Digests
This brief digest reviews research findings on achieving racial integration in desegregated magnet schools. Studies show that resegregation tends to occur in most schools after desegregation as a result of tracking and ability grouping; furthermore, as the numbers of blacks rise in a school, the resegregation in classrooms tends to rise. A number of cooperative learning techniques have recently been developed which seem to work well in the integrated, heterogeneous classroom and are found to have a positive effect on race relations and achievement. Newly desegregated schools are found to expel a disproportionately high number of black students and, in general, discipline of these students is found to be more severe than with white students. Here again, cooperative learning techniques are found to build a more positive climate and reduce suspensions. Blacks and other minorities are heavily represented in compensatory education classes which, because they are pull-out programs, tend to increase resegregation. In planning desegregated magnet schools, it appears useful to: (1) maintain a mixed stable student body, (2) include children of different abilities in each classroom, (3) avoid tracking, (4) encourage interracial contact in academic and extracurricular activities, (5) recruit teachers and principals who are concerned with racial equality, (6) initiate staff development programs dealing with desegregation, and (7) involve parents in classroom instruction. **Does Bilingual Education Improve Hispanics' Achievement? A Large-Sample Path Analysis.**
Pub Date—21 Apr 84
Note—8p.; Paper presented at the National Association of School Psychologists Convention (Philadelphia, PA, April 21, 1984).
Pub Type— Reports - Research (143) — Speeches/-Meeting Papers (150)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—*Academic Achievement, *Bilingual Education Programs, Elementary Secondary Education, Followup Studies, *Hispanic Americans, Language Maintenance, *Native Language Instruction, *Outcomes of Education, Path Analysis
This study concerns the influence of native language instruction in grades one through six on bilingual Hispanics' high school achievement. A nationally representative sample of 58,000 high school sophomores and seniors (the High School and Beyond data set) was used as the data source. Path analytic techniques were used to determine the magnitude of the effect of early native language instruction, while controlling for other relevant influences which included ethnic origin, mother's years in the United States, family background, intellectual ability, Hispanicity, English proficiency, and extent of native language instruction. Results suggest that the extent of native language instruction a bilingual Hispanic student receives has a negative influence on his or her later achievement. Other direct influences were ability, English proficiency, family background, mother's years in the United States (negative) and Hispanicity (negative). Results were consistent across different measures of extent of native language instruction. These preliminary and tentative results suggest that a transitional approach to bilingual education may be more fruitful than a maintenance approach. (CG)

Descriptors—*Classification, Crime Prevention, *Delinquency Causes, *Delinquency Prevention, Policy Formation, Program Design
This paper presents a cause-focused typology of 12 delinquency prevention strategies to serve as a system for organizing and conceptualizing delinquency prevention efforts. These strategies are conceptually distinct and have been designed to facilitate systematic planning and evaluation of prevention efforts and to allow for comparative assessments of the relative effects of different prevention approaches. Each strategy is based on an assumption regarding the cause of delinquency and presumes a goal of intervention aimed at modifying or eleminating the cause. The 12 strategies are: (1) biological/physiological, (2) psychological/mental health, (3) social network development, (4) criminal influence reduction, (5) power enhancement, (6) role development/role enhancement, (7) activities/recreation, (8) education/skill development, (9) clear and consistent social expectations, (10) economic resource, (11) deterrence, and (12) abandonment of legal control/social tolerance. The paper defines delinquency and prevention, discusses the need for a typology of prevention strategies, reviews prior efforts to conceptualize delinquency prevention, and describes in detail the 12 strategies. Six pages of references conclude the report. (CG)

Identifiers—*New York City Board of Education, Project BECA NY
Project BECA, in its first year of funding, provided instruction in English as a second language and native language development, and bilingual instruction in mathematics, science, history, economics, industrial arts, recording keeping, typing, and bookkeeping to approximately 290 Spanish-speaking students in grades 9 through 12 at a high school in Bronx, New York. Supportive services to program students included a counseling/career awareness workshop series and individual counseling session as needed. Quantitative analysis of student achievement data indicated that: (1) overall, students met program objectives for English language achievement; (2) students demonstrated statistically significant gains in native language skills; (3) students' overall passing rates in business and industrial arts courses were over 75% in both semesters; (4) attendance rates of program students were significantly higher than the schoolwide rate; and (5) there was no correlation between attendance rate and improvement in English proficiency. Recommendations to improve the overall effectiveness of the program include programming students to avoid schedule conflicts, making staff members aware of program objectives and collectively determining the activities that each will undertake to achieve the objectives, and developing a systematic data collection plan for the program. Identifiers—*New York City Board of Education, Russian Americans
Project BABS, in its final year of funding, provided career exploration and advisement, after-school summer job internships with business enterprises, and a computerized reading program to approximately 690 students of limited English proficiency of Asian, Greek, Russian, and Hispanic descent in four New York City high schools. Project staff, centrally located, included two resource teachers and a job developer. The project supported development of curriculum materials in the areas of career awareness and word processing for bilingual students, and staff training. An assessment of student achievement produced the following findings: (1) overall, program students tested in English language skills met the proposed objective in both the fall and spring terms; and (2) ninth, tenth, and eleventh grade students made statistically significant gains in reading. In the event of further funding, recommendations to improve the program include selecting sites on the basis of ability to accommodate internship schedules, locating internship sites near participating schools, early production of curriculum manuals, increased parental involvement, and dissemination of program procedures for establishing successful links with businesses. Descriptors—Academic Achievement, *Bilingual Education Programs, *English (Second Language), High Schools, Hispanic Americans, Parent Participation, Program Effectiveness, *Spanish Speaking, Staff Development, Student Improvement, Urban Schools
Identifiers—*Biliteracy Skills Development Program NY, New York City Board of Education
The 1983-84 academic year marked the first year of the Biliteracy Skills Development Program at New York City's George Washington High School. Program students were all Hispanic and spoke Spanish exclusively at home. The major program goal was to facilitate the acquisition of English through the development of literacy in the native language, with mainstreaming as the eventual goal. The project transition into the mainstream was to be accomplished by providing concentrated dosages of language, some content-area instruction through the native language, and opportunity to participate in non-academic subject classes taught in English. Parents were encouraged to become involved in their children's education and to take adult education classes in academic and vocational subjects. Achievement data of first year participants indicates that: (1) Overall, students surpassed objectives in English language development. (2) Score gains in Spanish reading for the total population were statistically significant; (3) The objective that 65 percent of the students would achieve a passing grade was achieved only in typing classes and fall science classes, not math or social studies. (4) The attendance rate of students was significantly higher than the schoolwide rate, but the objective of 25 percent improvement was not met. It is recommended that: (1) students' use of English should be increased through classroom and extracurricular activities; (2) classes for accommodating students to their new environment should be offered; and (3) staff development opportunites should be increased for teachers and paraprofessionals. Appendices provide data in tabular form. (KH)

Identifiers—New York City Board of Education, *Project BITEC NY
Project BITEC offers instructional, resource, and supportive services to four different populations of limited English proficient (LEP) students from China, Vietnam, Latin America, and Italy at New Utrecht High School in Brooklyn, New York. The project provides a technological/computer, secretarial, and industrial arts program intended to complement the regular program of academic studies. The project's overall goal is to facilitate students' completion of high school and the acquisition of one or more vocational skills at an age comparable to that of their English-speaking peers. Development activities for staff and parent involvement activities are important components of the project. In 1983-84, the first year of funding, Project BITEC reached 415 students, Grades 9-12. Forty-one percent were native speakers of Spanish, and 32 percent were Italian-speaking. An assessment of first year data found that project objectives were achieved in English reading and comprehension, as well as native language arts courses. In comparable content-area courses, project students generally achieved significantly higher scores than students in mainstream classes. The attendance rate of project students was statistically significantly higher than the school-wide rate. Parental involvement was not as successful as hoped, due to parents' work schedules and to the fact that many students live far from school. In the future, to reach more Asian-language students, the program should continue its efforts to hire additional staff fluent in Chinese or Vietnamese. (KH)

Descriptors—*Academic Achievement, *Bilingual Education Programs, English (Second Language), *Haitian Creole, *Haitians, High Schools, *Hispanic Americans, Limited English Speaking, *Native Language Instruction, Urban Schools
Identifiers—New York City Board of Education, *Project BEAM UP
Project BEAM UP provides instructional and supportive services to 233 Hispanic and Haitian students (Grandes 9-12) of limited English proficiency (LEP) at Sarah J. Hale High School in Brooklyn, New York. The project's main objective is to enable LEP students to participate in mainstream content-area classes by as early as the middle of their junior year. Electing to take courses in either an academic or vocational track, all students receive instruction in English as a Second Language, English and native arts, bilingual content-area classes, and mainstream content-area classes. Quantitative analysis of student achievement data during the project's first year indicates that most students showed significant gains in language skills, both English and native, and they achieved high passing rates in vocational subjects. Program students' passing rates in mathematics were not significantly higher than those from mainstream students, but they surpassed mainstream students' performance

in social studies courses. The following recommendations are suggested for program improvement: (1) formulate a policy for teaching Haitian Creole and French that considers both the students' level of proficiency and state foreign language requirements; (2) supplement the teaching of Haitian Creole with intensive instruction in Creole writing; (3) attempt to acquire materials in Haitian Creole for classroom use; (4) provide staff development activities to improve teachers' skills in Creole writing; and (5) increase paraprofessional's contributions to individualizing instruction. (KH)

Identifiers—*Multilingual Survival Skills Program NY, New York City Board of Education

In 1983-1984, the Multilingual Survival Skills Program provided support services and instruction in English as a Second Language (ESL) and native language skills to approximately 360 students of limited English proficiency (LEP) in Grades 9-12 at Wingate High School (Brooklyn, New York). Bilingual instruction in mathematics, science, and social studies was also provided. Eighty-one percent of the students spoke Haitian Creole as their native language. The remaining 19% were Hispanic, mainly from the Dominican Republic and Panama. Among the major goals of the project were to help students pass courses required for graduation; to develop and implement a pilot program in native language arts for Haitian students; and to develop curriculum materials to reinforce skills for illiterate or semi-literate Haitian and Hispanic students in required content-area courses. An assessment of first-year student achievement found that program students were able to achieve proposed instructional achievements in ESL, Spanish language arts, and social studies. Performance in mathematics, biology, and French was lower and program objectives were not met. Specific areas of improvement for consideration by the bilingual project include: recruitment of bilingual content-area teachers (Spanish/English), emphasis on the parental component, and in-service training for personnel working with the program's LEP students. (KH)

**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Behavioral Objectives, *Classroom Communication, *Classroom Techniques, *Discipline, Elementary Education, *Elementary School Teachers, Public Schools, *Student Behavior, *Teacher Effectiveness, Teacher Student Relationship, Urban Schools

A brief questionnaire examining how teachers' rules of conduct facilitate learning was answered by 20 teachers in a Northeastern urban elementary school. Only two of these, from the upper levels, posted written rules. Verbal rules regarding inappropriate talking and seat leaving behavior were most frequently issued across all grades. Also issued but at a lesser frequency were rules emphasizing courteousness in the hope it would generalize to other situations. Specific techniques for dealing with problem behaviors were offered by half the teachers. A literature search of this area found that most psychological work focused on behavior modification, while much educational material examined teacher characteristics plus teaching styles. Both the literature and responses to the questionnaire indicate that behavior modification is of little value in dealing with discipline problems. It is more effective to state rules of conduct clearly at the outset and enforce them consistently. (KH)

This report presents the findings on the long-term economic progress of American blacks. The report consists of seven sections. The first is a general introduction. Section 2 describes major changes in the racial wage gap for males from 1940 to 1980 and identifies the distribution of wage gains among important subgroups in the black population. Section 3 describes differential racial trends in schooling and the income benefits associated with education. Section 4 deals with the influence of two dimensions of geographic location: black migration to the North and the increasing urbanization of the black population. The extent to which education and place of residence "explain" trends in black-white wage ratios are summarized in Section 5. Section 6 discusses the implications of three historical developments in recent black economic history: the invention of the mechanical cotton picker, the declining workforce participation rates of low-income blacks during the 1970s, and affirmative action. The final section speculates about likely future trends in the racial wage gap. The 40-year record clearly points to a large improvement in the relative economic status of black men. Although black poverty persists, a large black middle class has emerged. The largest wage improvements were found among younger blacks and college-educated blacks. Education has helped significantly to close the income gap, particularly through the narrowing of education disparities between the races and the improved economic return to black schooling. (KH)

Identifiers—*Case Management, Refugee Assistance

This report presents findings of a study of case management in the United States refugee program. "Case management" is defined as a coordinated activity designed to improve use of services and assistance programs by providing for formal linkages between multiple service providers and by designating a single individual or agency to be responsible for each client. The report is divided into four chapters. Chapter 1 presents background information and describes the purpose and methodology of the study. Chapter 2 outlines a generic model of case management. Chapter 3 describes variations in case management design and implementation, divided into sections dealing with the goals of and impetus for case management, client service delivery issues, institutional relationships, state administration of case management programs, and financing and cost issues. Chapter 4 presents a summary of findings and conclusions. For the most part case management can have beneficial effects on refugee prospects for self-sufficiency. However, current programs are often marked by confusion about the roles to be played by providers, duplication of effort, and a lack of linkages between the case manager and service providers. Thus, refugee case management appears to be an approach with unrealized potential. Appendices contain an explanation of refugee case management practices in selected states and a short bibliography. Descriptors—Acculturation, Cultural Background, *Cultural Traits, *Educational Experience, Elementary Secondary Education, Family Role, Foreign Countries, *Haitian Creole, *Haitians, Immigrants, Religion, Student Needs, *Values
Identifiers—*Haiti

A value orientations approach is used in this report to construct an overview of Haitian culture and its relation to education. The paper consists of five major sections. The first introduces cultural value orientations as a conceptual scheme. Culture is defined as the learned patterns of thinking, feeling and behaving that make life meaningful for a particular group of human beings. All cultures contain values that can be organized into six "clusters": nature, the self, society, the supernatural, human nature, and the family. Section 2 provides axiological definitions of the basic value orientations, outlining them as a range of choices toward solving life's problems

and evaluating the solutions. Section 3 describes Haitian culture in general terms. It focuses on the history of colonization, the political situation, education, United States influence, and population trends. Section 4 follows the previously presented outline of value orientations to present details on Haitian values. Finally, Section 4 discusses the influence of culture on the Haitian education system. General features of Haitian education are described, and emphasis is placed on cultural aspects of schooling, such as language use and behavior expectations, which are of interest to North American teachers of Haitian immigrants. It is concluded that American teachers should look beyond the classroom experience to cultural factors in order to understand Haitian students' academic behavior and performance. A general outline of U.S. value orientations, references, and a supplementary bibliography are appended. (KH)

Descriptors—*Cultural Background, *Cultural Influences, Family (Sociological Unit), Human Relations, Mythology, Self Concept, Social Systems, *Teacher Education, *Values, *Vietnamese People

Identifiers—*Value Orientations, *Vietnam

This teacher training monograph deals with value orientations of cultures in general with specific reference to Vietnamese culture. The first two sections discuss the conceptual issues of value orientation and give axiological definitions of the six clusters used to describe cultural orientation. The third section introduces the section on Vietnamese culture by giving a brief history of Vietnam. Section IV takes each of the six value orientations defined in the first sections (nature, self, society, the supernatural, human nature, and the family) as well as some axiological sub-sections and defines them in the context of Vietnamese culture. Included are some folk tales and poems to illustrate certain Vietnamese cultural beliefs. The appendix consists of a very brief outline of U.S. value orientations in the same six categories. This is followed by an annotated bibliography, largely on Vietnamese cultural issues. (CG)

Identifiers—*Florida, *United States, United States (South), *Value Orientations

This teacher training monograph deals with value orientations of cultures in general and with specific reference to United States Culture. The first two sections discuss the conceptual issues of value orientation and give axiological definitions of the six clusters used to describe cultural orientation: self, the family, society, human nature, nature, and the supernatural. The third section introduces the section on U.S. culture. The fourth and fifth sections demonstrate, with examples, how values have progressed over time from an outward to an inward orientation. Section VI presents value orientations considered to be illustrative of the dominant cultural values in the United States which are commonly associated with white middle-class Americans. Values are presented separately and each is followed by an anecdote or quotation. Reproductions of advertisements reinforcing these values are included. Some of these examples reflect more than one value and these are cross-referenced. There is an extensive appendix on the cultural group called the Florida Cracker with application of the same six cultural value groups. This is followed by a brief bibliography for this group and two other brief appendices on American value structures. (CG)

This teacher training monograph examines education and policy issues as they relate to the education of limited English proficient (LEP) students. Federal involvement in educational policy on behalf of both handicapped and linguistically different children is traced from the 1960s to the present. Litigation influencing legislation on behalf of these students and issues of educational services is examined, and four cases involving the rights of LEP students are discussed. Major legislation covering LEP, minority, and handicapped students is described. The responsibilities of school districts with LEP students are outlined. These include: (1) taking steps to locate the students; (2) testing for special education placement in students' native language; (3) using placement teams with persons coversant in the students' native language; (4) meeting the language needs of LEP parents; (5) altering programs to meet LEP student needs. Descriptors—Basic Skills, Cultural Enrichment, *English (Second Language), *Language Proficiency, *Limited English Speaking, Second Language Learning, *Teacher Education

This teacher training monograph considers the development of functional proficiency for limited English proficient (LEP) students. The topics dealt with include: (1) second language learning in the school context, including requirements for successful student participation in the classroom; (2) specific strategies for developing functional proficiency for all students including organization and delivery techniques; (3) strategies specific to LEP students including use of two languages, integration of English language development with basic skills instruction, and use of cultural information during instruction; and (4) analyzing and monitoring instruction regularly to ensure student learning. Positive and negative aspects of alternative learning strategies, such as whether to mix LEP students with students proficient in English, are discussed. There are suggestions for how non-bilingual teachers can work effectively with LEP students, including drawing on bilingual persons for even limited instruction. Each chapter concludes with questions to stimulate teacher trainees' further work on the subject, and notes and references. Some tables and charts are used to illustrate the material. (CG)

This paper presents an overview of recent psychological research relevant to the assessment and instruction of culturally and linguistically different students. First, general research by cross-cultural psychologists is described, focusing on the observation that types of thinking and learning behavior are influenced by social organization and environment. Analytical thinking and field independent behavior, for example, are said to be associated with industrial societies, while relational thinking and field dependence are associated with rural and minority cultures. Next, the paper surveys different types of assessment instruments. Many of these testing devices have fallen out of favor, and factors to be considered in choosing and administering assessment tests are outlined. These include: (1) purpose of test; (2) results of test; (3) norming population; (4) language dominance and language proficiency; and (5) previous instruction. Different tests and research related to each of these factors are discussed. The paper describes various teaching techniques that can be adapted for multicultural classrooms. These include: mathemagenics for directing learner attention to broad generalizations or specific culturally relevant details; learning through observation; the use of the kinesthetic modality in combination with visual and auditory modalities; and developing heuristic methods for problem solving. Descriptors—Dropout Rate, *Dropout Research, *Dropouts, *Equal Education, High Schools, Inner City, Racial Factors, *School Holding Power, *Urban Schools

Identifiers—*Illinois (Chicago)

This paper traces the inordinately high dropout rate in the Chicago public school system to a policy of educational triage in which the better prepared students are sent to more selective high schools while less prepared students are congregated into schools with a more than 50% dropout rate. Also examined are the effects of pre-high school grade retention. All newly enrolled ninth graders from the classes of 1982, 1983, 1984 were tracked by computer through a total of over 100,000 student records. These records were tracked longitudinally from the students' entrance to school to their leaving and students were placed in various leaving categories. Since the Chicago Public schools have used nearly 30 different "leave codes," the study included a reorganization of files to standardize leaving categories. It was found that the schools with the lowest dropout rates are never inner city, general purpose schools, while those with high rates have less challenging programs, few successful peer role models, and function as holding pens until students reach an age when they can legally drop out. The body of the report includes extensive charts showing dropout rates and rank order by school. (CG)

This book-length report, prepared for the Subcommittee on Employment Opportunities of the House Committee on Education and Labor, describes the first comprehensive state-wide assessment of training programs-specifically the Job Training Partnership Act (JTPA)-in Illinois. The introduction assesses the JTPA in Illinois, a State with high unemployment. Chapter 2 reviews research on causes of unemployment and how these relate to training and employment programs. Chapter 3 examines the evolution of Federal job training policy since the early 1970s and analyzes the goals that were the basis of JTPA. Chapter 4 describes the nature of shifts in funding for employment and training programs from the enactment of the Comprehensive Employment and Training Act (CETA) in 1975 to the proposed Federal budget for fiscal year 1986. Chapter 5 deals with specific problems of unemployment and reduced job training in Illinois. Chapter 6 discusses the changes occurring between CETA and JTPA. Chapter 7 discusses the role of the States in shaping the JTPA programs. Chapter 8 concerns the absence of data on program impact. Chapter 9 deals with nonenforcement of civil rights. Chapter 10 presents views of JTPA field program operators. Chapters 11 and 12 deal with training and program access. Chapter 13 considers the absence of supportive services. Chapters 14 and 15 consider services to youth and the dislocated worker. In Chapter 16, findings and recommendations are summarized. (CG)

Descriptors—Abortions, *Adolescents, *Blacks, Contraception, *Early Parenthood, Goal Orientation, *Job Training, Marriage, *Occupational Aspiration, Pregnancy, Pregnant Students, Sex Education, Youth Problems
This book examines the differences between blacks and whites in their early childbearing patterns. In particular it examines the causes of teenage pregnancy and parenting in blacks and its negative effects on parents and children. Fertility data, available information and attitudes about contraception and abortion, education, employment goals, and marriage and family are considered. In the summary and conclusion section, it is suggested that more extensive sex education both from parents and outside sources would be helpful in reducing black teenage pregnancy. Further it is noted that dropping out of school is associated with a high risk for pregnancy, and that therefore programs that make education more economically rewarding would be helpful in controlling the problem. Job training is also found to have a positive effect in reducing teenage pregnancy and is recommended. Although some evidence would suggest that blacks value marriage highly, their attitudes about marriage sometimes differ significantly from those of whites. Black teenagers perceive greater tolerance for out of wedlock childbearing than white youth. Recommendations include better sex education, greater availability of contraception, and clarification of the connection between education, occupational aspirations, and early childbearing. (CG)

Descriptors—*Program Administration, *Program Design, Program Development, *Program Implementation, Urban Environment, *Urban Improvement, *Urban Programs, *Youth Programs
This report is part of a series of resource publications designed to provide planners with explicit information for planning, funding, and operating programs. It identifies early start-up considerations and presents alternatives for program design and administration of urban conservation and service corps programs. Many of the principles and practices are also broadly applicable to service corps in rural settings and under government or nonprofit sponsorship. The suggestions contained in the report are the result of studying the most successful urban service corps programs of the past few years. Part 1 discusses what the elements are of a successful program. Part 2 talks about developing a mission statement and program goals. Part 3 discusses initial program design issues, and part 4 considers how an administrative structure should be determined and offers some suggestions. The final section deals with elements of program implementation including work project development, staff selection, youth development, and budgeting. The report includes extensive appendices which consist of examples of contracts, agreements, work project solicitation and selection criteria, organizational charts, resources for corps planning and implementation, and New York City Volunteer Corps recruitment strategy. Also included are profiles of several service corps programs. (CG)

**Parental Choice of Catholic Schools as a Function of Religion, Race, and Family Income.**
Pub Date—Apr 86
Note—30p.; Paper presented at the Annual Meeting of the American Educational Research Association (San Francisco, CA, April 16-20, 1986).
Pub Type— Reports - Research (143) — Speeches/Meeting Papers (150)
**EDRS Price - MF01/PC02 Plus Postage.**
Descriptors—*Catholic Schools, Elementary Secondary Education, *Family Income, Private Schools, *Race, *Religion, *School Choice, School Effectiveness, Socioeconomic Status
Over 11,000 parents of pre-high-school-age children from the Archdiocese of Washington (D.C.) rated the importance of eight factors which influenced their decisions to send their children to Catholic schools. The sample included about 2,000 non-Catholic parents with children in Catholic schools and about 1,700 Catholic parents with children not in Catholic schools. Academic program, a religious factor, and discipline in that order were the three most important factors for parents who selected Catholic schools. The importance of these factors varied by the religion, race, and family income of the respondents. A higher percentage of non-Catholics than Catholics selected academic program as most important. Religious factors were selected as most important more by white Catholics than by black Catholics. Parents with higher incomes were more likely to select academic program and less likely to select a religious factor as most important. The majority of parents who did not send their children to Catholic schools listed finances as the most important reason while a significant number selected academic program as most important. In general in making the choice whether to send a child to a Catholic school, parents with higher incomes, especially black parents, were more likely to choose academic program as the most important reason. Identifiers—New York City Board of Education
Project CABES (Career Advancement through Bilingual Education) was established in 1983 at Seward Park High School in New York, New York. Its major goal is to serve a population of 250 Hispanic students of limited English proficiency (LEP) interested in pursuing a career advancement sequence rather than a regular academic sequence. Project CABES encompasses five major career areas: health care, import/export, travel industry, bilingual banking, and translating and interpreting. Project CABES supplements the school's instructional program with such Title VII services as paraprofessional assistance in bilingual content-area classes, staff development activities, counseling services for Hispanic LEP students, and administrative personnel. In 1983-84, project personnel developed curriculum in economics and American history, job skills, and typing through English. Furthermore, CABES students participated in cultural activities inside and outside school, and parents were involved through advisory committees, participation in all school cultural events, and on-going visits to the program. Evaluation of Project CABES for 1983-84 showed that students achieved proposed objectives in English as a Second Language, fall mathematics courses, social studies, and career advancement classes in both semesters. Program students exceeded the proposed objective for attendance. Recommendations are offered for improvement of in-service training, meeting special student needs, and collecting student achievement data. (KH)

Descriptors—Age Discrimination, *Civil Rights Legislation, Compliance (Legal), *Court Litigation, *Educational Discrimination, *Equal Opportunities (Jobs), *Federal Aid, Handicap Discrimination, Higher Education, Racial Discrimination, Sex Discrimination
Identifiers—*Grove City College v Bell
The impact of the Supreme Court's 1984 Grove City College v. Bell decision on the interpretation of civil rights laws is discussed in this report. The Grove decision, it is argued, has made it possible for institutions to discriminate in programs which do not receive direct Federal aid. As a result, civil rights and affirmative action laws have become very difficult to enforce. First, the report outlines the following effects of the decision: (1) Federal audits or compliance reviews of institutions receiving tax dollars have been reduced or sharply limited; (2) civil rights agencies now investigate discrimination complaints only when Federal money is tied directly to the specific program or department of the institution in which the alleged discrimination took place; (3) compliance plans to end discrimination which were already in place before the Supreme Court ruling are now being revoked; (4) administration law judges are dismissing cases in which institutions refuse to voluntarily observe compliance plans to remedy violations that had been found before the Grove decision; and (5) Federal judges are throwing out private law suits where no Federal money is found in the program or activity where discrimination has been alleged. Next, the paper highlights court cases that involve four major civil rights laws that have been affected by the Grove decision. These laws are: Section 504 of the Rehabilitation

Act of 1973 (affecting the disabled); Title VI of the Civil Rights Act of 1964 (concerning racial discrimination); the Age Discrimination Act of 1975; and Title IX of the Education Amendments of 1972. (KH)

Identifiers—New York City Board of Education, *Refugee Assistance

In 1984-85, the third year of its operation, New York City's Transition Program for Refugee Children (T.P.R.C.) provided funds to 42 public and four non-public schools (each having five or more refugee students). T.P.R.C. provides classes in English as a second language (E.S.L.) and/or content-area instruction with the E.S.L. approach specifically designed to improve English language skills. The program also attempted to acclimate students to American life and culture. Student achievement test results based on Criterion Referenced English Syntax Test (CREST) scores for 1984-85 found that T.P.R.C. students are generally progressing in their knowledge of reading and in mathematics at the same rate as the national norms and exceeded the city-wide criteria of one CREST objective per month of instruction. Students are doing well despite the fact that, while funding for the 1984-85 academic year was decreased by 40 percent compared to the 1983-84 year, the number of participants nearly doubled. (KH)

Identifiers—Elementary Secondary Education Act Title VII, New York City Board of Education

In 1984-85, the final year of a two-year funding cycle, Project CHASP (Cambodian and Hispanic Achievement for Students and Parents) at Theodore Roosevelt High School in the Bronx, New York, served 75 Hispanic and 71 Cambodian students in Grades 9 and 10. Instruction was provided in English as a second language (E.S.L.) and native language development, in addition to bilingual instruction in mathematics, science, and social studies. For the most part, both the Hispanic and Cambodian student groups came from rural settings and demonstrated low educational skills. Native language arts classes were offered only to Hispanic students because the program did not have a Khmer-speaking teacher. Cambodian students were taught content-area courses by monolingual English-speaking teachers using an E.S.L. approach with the assistance of bilingual Cambodian paraprofessionals. Title VII funds supported administrative and support service positions, guidance services, home visits, extracurricular activities, curriculum development, and staff development and parent participation activities. Program students met the proposed objective for acquisition of English syntax. Cambodian students met proposed objectives for achievement in mathematics, science, and social studies. Data were not provided to assess the objectives for Hispanic students in mathematics. Hispanic students failed to meet objectives in native language achievement. (KH)

Identifiers—Education Consolidation Improvement Act Chapter 1, Elementary Secondary Education Act Title VII, New York City Board of Education

The Vocational and High School Equivalency Bilingual Program is a basic bilingual secondary education program conducted at Park West High school in New York, New York. The program helps limited English proficiency (LEP) students develop their English language skills so that they can participate effectively in mainstream classes and prepare to take a meaningful part in the labor market. This is done by providing English as a second language (ESL) and bilingual instruction, and then gradually increasing English usage in content area instruction until the student can be mainstreamed. During 1983-84, the first year of funding, the program provided instruction and support services to 145 Hispanic LEP students in Grades 9-11. Because of entry criteria (extremely low or non-existent English proficiency), most program students were recent immigrants with diverse cultural and immigration histories. An evaluation of the first year found that the program appears to be fulfilling its objectives. Student achievement objectives were met in English language development, in native language performance, in the fall semester mathematics classes (but not in the spring classes), and in attendance. In 1984-85, the Computer Literacy and Word Processing Program for Bilingual Students at Evander Childs High School (Bronx, New York) was in the first year of a two-year, Title VII funding cycle. The major goal of the program is to improve the educational achievement and employability skills of 100 Hispanic, limited English proficient (LEP) student through elective courses in keyboarding, computer literacy, word processing, and automated accounting. Another group of about 50 English proficient students (who had participated previously in the school's tax-levy bilingual program) also participated on a volunteer basis. In addition to instruction, a number of supportive services were offered to program participants, including academic counseling, referral services, career and vocational guidance, individualized tutoring, and family contacts. In 1984-85, the project developed curriculum materials in Spanish and English, as well as materials for related work-study/work-readiness skills. Staff development and parent participation activities were also conducted. An evaluation of the 1984-85 year found that program objectives for student achievement and attendance were met and that the program is making satisfactory progress. Staff development activities to help teachers who experience difficulty in presenting business education content to Spanish-dominant students and in replicating the program to serve the school as a whole are recommended. **Bilingual Materials Development Project 1983-84.**
New York City Board of Education, Brooklyn. Office of Educational Assessment.
Pub Date—86
Note—18p.; Prepared by the Bilingual Education Evaluation Unit.
Pub Type— Reports - Evaluative (142)
**EDRS Price - MF01/PC01 Plus Postage.**
Descriptors—Bilingual Education, *Bilingual Instructional Materials, Chinese Americans, *Curriculum Development, Haitians, Korean Americans, Limited English Speaking, *Material Development, Needs Assessment, Primary Education, *Program Effectiveness, *Screening Tests, *Test Construction
Identifiers—Elementary Secondary Education Act Title VII, *New York City Board of Education

The aim of the New York City Board of Education's Bilingual Materials Development Project was to design and implement a process to produce culturally and linguistically relevant curricula and screening instruments for use with Chinese, Haitian, and Korean students of limited English proficiency (LEP) enrolled in Kindergarten through Grade 2. The project was centrally administered under the jurisdiction of the Office of Bilingual Education. Title VII funds supported a full-time project coordinator, resource specialist, secretary, and hourly consultants and teachers. In 1983-84, the project was able to: (1) conduct an extensive needs assessment to determine the need for, and availability and appropriateness of, curriculum materials at the Kindergarten level, for use with the targeted language groups; (2) develop a resource Kindergarten curriculum handbook in each target language; (3) develop a screening instrument for new entrants into Kindergarten through Grade 2 in Cantonese, Mandarin, Korean, and Haitian Creole; and (4) begin identifying sites and classroom teachers to pilot test the developed materials. In one year, the project was successful in meeting its objectives even though some objectives were based on a projected time schedule of three years. (KH)

# Subject Index

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the *Thesaurus of ERIC Descriptors* and the *Identifier Authority List*, are in word-by-word alphabetical order.

As shown in the examples below, the accession number is displayed below and to the right of the document title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

Facts about Newspapers '86: A Statistical Summary of the Newspaper Business.
ED 268 539
Mass Communication: Abstracts of Doctoral Dissertations Published in "Dissertation Abstracts International," July through December 1985 (Vol. 46 Nos. 1 through 6).
ED 268 611

**Aesthetic Education**
New Mexico Dance Education Competencies for Grades 3, 5, 8 and School Exit Level.
ED 269 360

**Affection**
Sibling Interaction in Adulthood.
ED 268 408

**Affective Behavior**
Elementary Levels Curriculum Handbook: Program for Emotionally Handicapped Students.
ED 268 762
Relationships between a Typology of Teacher Educational Beliefs and Three Domains of the Elementary Classroom Curriculum. A Study of Schooling Technical Report No. 34.
ED 269 346
Relationships between Cognition and Affect in Depressed Outpatients.
ED 268 459
Teacher Affect in the Classroom: Implications and Directions for Future Research.
ED 268 604

**Affective Measures**
A Multidimensional Scaling (INDSCAL) Approach to Pain: Comparison of Cancer Patients and Healthy Volunteers.
ED 268 455

**Africa (East)**
Librarianship and Documentation Studies. A Handbook of Teaching and Learning Materials. Volume 1.
ED 269 039

**Africa (South)**
Librarianship and Documentation Studies. A Handbook of Teaching and Learning Materials. Volume 1.
ED 269 039

**African Culture**
Teaching about Francophone Africa.
ED 269 295
Western Africa to c/1860 A.D.: A Provisional Historical Schema Based on Climate Periods. Indiana University African Studies Program Working Papers Series, No. 1.
ED 269 294

**African History**
Teaching about Francophone Africa.
ED 269 295
Western Africa to c/1860 A.D.: A Provisional Historical Schema Based on Climate Periods. Indiana University African Studies Program Working Papers Series, No. 1.
ED 269 294

**African Languages**
Teaching about Francophone Africa.
ED 269 295

**African Literature**
Teaching about Francophone Africa.
ED 269 295

**Age Differences**
Beliefs about the Realism of Television Programs Featuring Families.
ED 268 471
Degree of Stereotypic Responding by Hyperactive, Learning Disabled, and Unselected Children in a Computer-Controlled Task.
ED 269 156
The Development of Children's Concepts of Peers' Attributes.
ED 269 140
Mapping the Gap: A Study of Intergenerational Perceptions.
ED 268 452
The Quality of Life over the Family Life Cycle.
ED 268 425
A Re-Examination of Age Preferences in Relationships Important to Life Satisfaction: Comparisons of American and English Older Adults.
ED 268 423
Self-Help Groups--Implications for the Elderly.
ED 268 394
Teaching the Psychology of Aging: A Life-Span Perspective.
ED 268 446

**Age Discrimination**
Older Workers: Prospects, Problems and Policies. 9th Annual Report. Report No. 17.
ED 268 352

**Age Grade Placement**
Grade Repetition Study. School District #72, Campbell River, B.C. A Study of Retention/Promotion Practices and an Examination of Attitudes and Opinions towards Retention in School District #72 (Campbell River) with a View to Recommending a Retention/Promotion Policy at the Elementary Level.
ED 269 413

**Agency Cooperation**
The Past, Present and Future of the Florida Juvenile Justice System: A Multiagency Policy Analysis.
ED 268 469
Unrealized Potential: Case Management in the U.S. Refugee Program. Final Report.
ED 269 531

**Agency for Instructional Television**
A Climate for Learning Science. Concept Paper. SEL (The Skills Essential to Learning Project) Phase II.
ED 269 000

**Aggression**
Fantasy and Reality in Mark Twain's Aggression.
ED 268 428

**Aging (Individuals)**
Aging Veterans and Health Care Issues. Hearing before the Subcommittee on Retirement Income and Employment of the Select Committee on Aging. House of Representatives, Ninety-Ninth Congress, First Session (Toms River, NJ).
ED 268 401
Developing Successful Learning Experiences for Older Adults.
ED 268 293
Memory and Aging in a Cross Sectional Analysis.
ED 268 442
Religion and Aging.
ED 268 475
Teaching the Psychology of Aging: A Life-Span Perspective.
ED 268 446

**Agoraphobia**
Fear of Fear and the Anxiety Disorders.
ED 268 456
Follow-Up Research on Agoraphobics.
ED 268 454

**Agricultural Education**
Agricultural Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 346
Determining Perceptions of Vocational Agriculture Teachers toward Supervised Occupational Experience Programs in Tennessee. Research Report Series No. 9.
ED 268 279
Development of Competency-Based Vocational Agricultural Instructional Materials for Handicapped Students Enrolled in Regular Agriculture

Programs Other Than Horticulture. Final Report.
ED 268 287
Summaries of Research and Development Activities in Agricultural Education in the United States of America, 1984-1985.
ED 268 359
Vocational Agriculture Computer Handbook.
ED 268 296

**Agricultural Engineering**
Development of Competency-Based Vocational Agricultural Instructional Materials for Handicapped Students Enrolled in Regular Agriculture Programs Other Than Horticulture. Final Report.
ED 268 287

**Agricultural Production**
Agricultural Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 346

**Agriculture**
Agriculture: Japan and the U.S. Compared.
ED 269 342
Vocational Agriculture Computer Handbook.
ED 268 296

**Aguilar v Felton**
After "Aguilar v. Felton": Chapter 1 Services to Nonpublic Schoolchildren. A Report Prepared for the Subcommittee on Elementary, Secondary, and Vocational Education of the Committee on Education and Labor, U.S. House of Representatives, Ninety-ninth Congress, Second Session (March 1986).
ED 269 503

**Air Conditioning**
Environmental Control System Installer/Servicer (Residential Air Conditioning Mechanic). V-TECS Guide.
ED 268 294

**Alaska**
Computer Education. Alaska Elementary Curriculum Guide. First Edition [and] Computer Education. Alaska Secondary Curriculum Guide. First Edition.
ED 268 960
Legislative Telecommunication Services: Services, Facilities and Options. One in a Series of Papers on Alaskan Telecommunications.
ED 268 971
State Sponsored Television in Alaska: Alternatives for Delivery and Distribution. One in a Series of Papers on Alaskan Telecommunications.
ED 268 972

**Alaska Natives**
Characteristics of Successful Native Leaders.
ED 269 208
The Revitalization of the Qargi, the Traditional Community House, as an Educational Unit of the Inupiat Community.
ED 268 812

**Alberta**
Elementary Mathematics Curriculum Guide 1982. (Revised 1977 Program of Studies).
ED 269 223
Guidelines for the Use of Calculators, Grades 1-12.
ED 269 224
Microcomputer Learning Project. Willow Creek School Division No. 28.
ED 268 985
Native Education in Alberta. Committee on Tolerance and Understanding Discussion Paper #2.
ED 269 176

**Alcoholism**
Alcohol and Drug Abuse Curriculum Guides for Pediatrics Faculty: Health Professions Education Curriculum Resources Series, Medicine 4.
ED 268 434
Fetal Alcohol Syndrome.
ED 268 707
Locus of Control in Alcoholics Undergoing Treatment.
ED 268 393
Word Fluency: A Task Analysis.
ED 268 790

**All News Radio**
Listening to Monotony: All-News Radio.
ED 268 615

**Allied Health Occupations**
Feasibility Study for Establishing Three Medical Record Related Programs. Research Report Series Volume XIV, No. 12.
ED 269 099

**Allied Health Occupations Education**
Dental Assistant Specialist. (AFSC 98150).
ED 268 338
Feasibility Study for Establishing Three Medical Record Related Programs. Research Report Series Volume XIV, No. 12.
ED 269 099
Guidelines for Writing a News Release.
ED 268 355
Health Occupations Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 349
Implementation of Advanced Health Care Technology into Existing Competency-Based Health Care Program. Final Report.
ED 268 288
Medical Laboratory Technician–Hematology, Serology, Blood Banking, and Immunohematology (AFSC 90470).
ED 268 334
Medical Laboratory Technician–Microbiology (AFSC 90470).
ED 268 336
Optometry Specialist (AFSC 91255).
ED 268 337
Radiology Technician (AFSC 90370).
ED 268 335
Supervisory Skills and Challenges: A Handbook for Physician Assistants.
ED 268 937

**Allied Health Personnel**
Health Occupations Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 349

**Alternate Choice Questions**
A Comparison of Alternate-Choice and True-False Item Forms Used in Classroom Examinations.
ED 269 411

**Alumni Associations**
Operation Alumni: Finding Them, Organizing Them, Making the PAACE Connection.
ED 268 354

**Alzheimers Disease**
Language Impairment in Alzheimer's Disease and Vascular Dementia.
ED 268 792

**American Camping Association**
The ACA Standards Organizer. A Tool for the Preparation of Camps for Visitation for American Camping Association Camp Accreditation and Site Approval.
ED 269 195

**American Indian Culture**
American Indian Cultural Resources: A Preservation Handbook.
ED 269 198
Chautauqua County: Past and Present. Research Guide No. 53.
ED 269 334

**American Indian Education**
American Indian and Alaska Native Education for High Technology: A Research Strategy for Creating Culturally Based Physical Science and Mathematics Education.
ED 269 218
Characteristics of Successful Native Leaders.
ED 269 208
Cognitive Education and Native Adolescents: A Pilot Study.
ED 268 989
Native American and Non-Native American Performance Differences on the WISC-R and K-ABC.
ED 269 481
Native Education in Alberta. Committee on Tolerance and Understanding Discussion Paper #2.
ED 269 176
New Mexico Indian Education Directory, 1986-1987.
ED 269 196
Socio-Psychological and Background Variables of Native Indian University Students and Persistence in a Teacher Preparation Program.
ED 269 209

**American Indian History**
Chautauqua County: Past and Present. Research Guide No. 53.
ED 269 334

**American Indian Literature**
The Image of the Native American in Young Adult Fiction (1960-1985).
ED 269 216

**American Indian Reservations**
An American Indian Development Finance Institution. A Compendium of Papers Submitted to the Select Committee on Indian Affairs of the United States Senate (April, 1986).
ED 269 212

**American Indian Studies**
Chautauqua County: Past and Present. Research Guide No. 53.
ED 269 334

**American Indians**
The Image of the Native American in Young Adult Fiction (1960-1985).
ED 269 216
Indian Health: Budgetary Effects of Indigent Indians' Medical Costs on Two Montana Counties. Fact Sheet for Congressional Requesters.
ED 269 215

**American Psychological Association**
Testing in the Schools: Scientific Challenges to Practice and Policy Implications.
ED 269 468

**Americans (United States)**
Understanding Mexicans and Americans: A Mexican-U.S. Communication Lexicon of Images, Meanings, and Cultural Frames of Reference.
ED 269 181

**Analysis of Variance**
An Empirical Comparison of Size and Power of Seven Methods for Analyzing Multivariate Data in the Two-Sample Case.
ED 269 480

**Ancillary School Services**
How to Choose a College: Guide for the Student with a Disability.
ED 268 852

**Angoff Methods**
How Well Do the Angoff Design V Linear Equating Methods Stack Up against the Tucker and Levine Methods?
ED 269 461

**Animal Behavior**
Honeybees.
ED 269 237

**Animal Husbandry**
Development of Competency-Based Vocational Agricultural Instructional Materials for Handicapped Students Enrolled in Regular Agriculture Programs Other Than Horticulture. Final Report.
ED 268 287

**Animals**
Interdependence of Living Things: A Teacher's Manual for General Level Program Development–Grades 7 and 8. Science and Society Teaching Units. Informal Series/61.
ED 269 239//

**Annotated Bibliographies**
Job Sharing for Teachers. Bibliographies in Education. No. 79.
ED 269 378

**Anorexia Nervosa**
Anorexia and Bulimia: An Inventory of Public Awareness and Popular Questions.
ED 268 472
Multimodal Therapy for Anorexia Nervosa: An Holistic Approach to Treatment.
ED 268 413

**Anti Semitism**
The Holocaust: An Annotated Bibliography. Second Edition.
ED 269 301//

**Anxiety**

Fear of Fear and the Anxiety Disorders.
ED 268 456
Follow-Up Research on Agoraphobics.
ED 268 454

**Aphasia**
Aphasia Syndromes and Their Recovery.
ED 268 797
Aphasic Speech Errors and Their Linguistic Interpretation.
ED 268 789
Communication Strategies in Aphasia.
ED 268 785
L. S. Tsvetkova's Individual Aphasia Rehabilitation Method and Its Applications.
ED 268 787
Neurolinguistic Aspects of Finnish Posterior Aphasia.
ED 268 793
Semantic Aphasia and Luria's Neurolinguistic Model.
ED 268 788

**Apple II**
APPLE In-Service Programming for Teachers.
ED 268 959

**Apprenticeships**
Apprenticeship Lessons from Abroad. Information Series No. 305.
ED 268 374

**Aptitude Tests**
Measuring Up in an Individualized Way with CAT-ASVAB: Considerations in the Development of Adaptive Item Pools.
ED 269 463
The Psychometric Characteristics of the SAT for Nine Handicapped Groups. Studies of Admissions Testing and Handicapped People. Report No. 3.
ED 269 418
The Use of the Language Usage Section of the Differential Aptitude Test as a Predictor of Success in Freshman Level English Courses.
ED 269 098

**Arabic**
How to Speak English without a Foreign Accent. Arabic Edition.
ED 268 844

**Arabic Picture Vocabulary Test**
A Pictorial Test Assessing Aural-Vocabulary of Arabic-Speaking Children at Kindergarten and Early Primary Levels.
ED 269 434

**Arabs**
Achievement of Jewish and Arab Students Who Studied Inquiry Oriented Curriculum for Several Years.
ED 269 241
How to Speak English without a Foreign Accent. Arabic Edition.
ED 268 844
A Pictorial Test Assessing Aural-Vocabulary of Arabic-Speaking Children at Kindergarten and Early Primary Levels.
ED 269 434

**Arbitration**
Industrial Relations in Action. Supervising: Industrial Relations. The Choice Series #85. A Self Learning Opportunity.
ED 268 260

**Archaeology**
American Indian Cultural Resources: A Preservation Handbook.
ED 269 198

**Archives**
Committee on the Records of Government. Report.
ED 269 018

**Area Studies**
Increasing Career Opportunities through Foreign Languages: A Certificate in Foreign Language and Area Study.
ED 268 847
Social Studies Curriculum Guide: Grade 4.
ED 269 320
Social Studies Curriculum Guide: Grade 6.
ED 269 322
Social Studies Curriculum Guide: Grade 7.
ED 269 323
Social Studies Curriculum Guide: World Regions/Cultures.
ED 269 325

**Arkansas**
Annual Enrollment, Auditing, Nonstandard Instruction and Credit-Awarding Activities in Arkansas Institutions of Higher Education. Report 83-1.
ED 268 856
Degrees Granted and Program Production by Arkansas Institutions of Higher Education, 1982-83. Report 83-3.
ED 268 858
Degrees Granted and Program Production by Arkansas Institutions of Higher Education, 1983-84. Report 84-3.
ED 268 857
Funding and Legislation Relating to State-Supported Colleges and Universities, 1985 General Assembly and 1985 First Extraordinary Session. Legislative Summary.
ED 268 860
Geographic and Institutional Origin of Arkansas College Students, Fall 1983. Report 83-6.
ED 268 862
Geographic and Institutional Origin of Arkansas College Students, Fall 1984. Report 84-6.
ED 268 861
On-Campus Enrollment in Arkansas Higher Education Institutions, Fall 1983. Report 83-2.
ED 268 863
Quality Development in Higher Education to Meet the Future Needs of Arkansas. Report of the Quality Higher Education Study Committee.
ED 268 859

**Armed Forces**
Evaluation of the CMI Instructor Role Training Program in the Navy and Air Force. Final Report.
ED 268 982

**Armed Services Vocational Aptitude Battery**
Measuring Up in an Individualized Way with CAT-ASVAB: Considerations in the Development of Adaptive Item Pools.
ED 269 463

**Army**
Computer-Assisted Scheduling of Army Unit Training: An Application of Simulated Annealing.
ED 268 979
Demographic Projections to the Year 2000 of Limited English Proficient Hispanic Accessions in the U.S. Army. ARI Research Report 1349 Revised.
ED 269 516

**Art**
An Analysis of the Foundations of Art Criticism Instruction: Sociopolitical Consequences of Theoretical and Research Deficits.
ED 269 332

**Art Activities**
The Arts and 504: A 504 Handbook for Accessible Arts Programming.
ED 269 309
National Endowment for the Arts: 1965-1985. A Brief Chronology of Federal Involvement in the Arts.
ED 269 297
Therapeutic Ceramic Program for Special Students: Staff Development Manual.
ED 268 741

**Art Appreciation**
National Endowment for the Arts: 1965-1985. A Brief Chronology of Federal Involvement in the Arts.
ED 269 297

**Art Education**
An Analysis of the Foundations of Art Criticism Instruction: Sociopolitical Consequences of Theoretical and Research Deficits.
ED 269 332
Building Bridges between Schools & Communities: Using the Arts in Education. Participant Planning Packet.
ED 269 285
Fine Arts in the Curriculum.
ED 269 296
Multi-Arts Service Program, E.C.I.A. Chapter 2. Final Evaluation Report, 1984-85.
ED 269 311

**Art Teachers**
An Analysis of the Foundations of Art Criticism Instruction: Sociopolitical Consequences of Theoretical and Research Deficits.
ED 269 332

**Articulation (Education)**
Articulation in Secondary and Postsecondary Occupational Education: Final Report.
ED 269 067
Enriching the Transfer Effort: The Santa Monica College Scholars Program.
ED 269 069
The P.A.S.S. Program. A Report by the Interstate P.A.S.S. Committee. Revised.
ED 269 193
Pre-Freshman Summer Program: Evaluation Report.
ED 269 107
Shaping the Environment.
ED 269 070

**Articulation (Speech)**
Clinical Logopedics: A Diagnostical Review of Speech and Language Disorders in a Group of High-Risk Children.
ED 268 796

**Articulation Impairments**
Three Subgroups of Preschool Children with Speech Intelligibility Disorders.
ED 268 739

**Asbestos**
Legal Aspects of Asbestos Abatement. Responses to the Threat of Asbestos-Containing Materials in School Buildings.
ED 268 636

**ASCAL Computer Program**
A Comparison of ASCAL and LOGIST Parameter Estimation Programs.
ED 269 457

**ASHE Annual Meeting**
Aging and Faculty Distribution of Their Work Effort. ASHE 1986 Annual Meeting Paper.
ED 268 903
Boundaries of the Top-Level Two-Year College Administrative Labor Market: Implications for Leadership and Cooperation. ASHE 1986 Annual Meeting Paper.
ED 268 885
Career Lines of Top-Level Two-Year College Administrators: Implications for Leadership in a New Era. ASHE 1986 Annual Meeting Paper.
ED 268 884
Changes in Program Review: A Case Study. ASHE 1986 Annual Meeting Paper.
ED 268 897
Changes in the Professoriate, the Curriculum, and the Aim of Higher Education from the Middle Ages to the Modern Era. ASHE 1986 Annual Meeting Paper.
ED 268 888
College Contexts, Student Integration, and Educational Attainment. ASHE 1986 Annual Meeting Paper.
ED 268 874
Critical Choices: From Adolescence to Maturity in Higher Education Research. ASHE 1986 Annual Meeting Paper.
ED 268 904
A Discriminant Analytic Test of Biglan's Theoretical Distinction between Biology and English Department Chairpersons. 1986 Annual Meeting Paper.
ED 268 899
Gender Differences among Mid-Level Administrators. ASHE 1986 Annual Meeting Paper.
ED 268 877
Getting in: Mexican American Students' Perceptions of Their College-Going Behavior with Implications for Their Freshman Year Persistence in the University. ASHE 1986 Annual Meeting Paper.
ED 268 869
Head Counting, Hill Climbing, and Beyond: The Status and Future Directions for Research on Mid-Level Administrators' Careers. ASHE 1986 Annual Meeting Paper.
ED 268 891
Higher Education as a Field of Study: Some Future Prospects. ASHE 1986 Annual Meeting Paper.
ED 268 905

Higher Education under Study: A Comparative Analysis of Six Statewide Reports. ASHE 1986 Annual Meeting Paper.
ED 268 894

Impact of the Advanced Institutional Development Program on the Institutional Viability of Seven Black 1890 Land Grant Institutions. ASHE 1986 Annual Meeting Paper.
ED 268 873

Indigenous Efforts at Individualizing Program Review: A Case Study. ASHE 1986 Annual Meeting Paper.
ED 268 892

Institutional Responses to Enrollment Decline: The Role of Perceptions. ASHE 1986 Annual Meeting Paper.
ED 268 866

Interdisciplinary General Education: A Method of Faculty Development. ASHE 1986 Annual Meeting Paper.
ED 268 878

Leadership and Learning: The College President as Intuitive Scientist. Presidential Address: ASHE 1986 Annual Meeting Paper.
ED 268 890

Long-Term Persistence of Two-Year College Students. ASHE 1986 Annual Meeting Paper.
ED 268 900

Managing Academic Deficiency: A Microanalysis of 19th Century Image Making in American Higher Education. ASHE 1986 Annual Meeting Paper.
ED 268 871

MISAA, The Fall of Saigon, and College Choice, 1972 to 1980. ASHE 1986 Annual Meeting Paper.
ED 268 867

Negotiating Politics in Organizational Cultures: Some Considerations for Effective Program Evaluation. ASHE 1986 Annual Meeting Paper.
ED 268 893

Organizational Models and Mythologies of the American Research University. ASHE 1986 Annual Meeting Paper.

Values and the Structure of Decisionmaking: Finding the Connection in Higher Education. ASHE 1986 Annual Meeting Paper.
ED 268 880

A View from the Portico: Lessons from the Greeks. ASHE 1986 Annual Meeting Paper.
ED 268 889

**Asia**
Distance Education in Asia and the Pacific.
ED 269 200

Distance Education in Higher Education. Inter-Country Study Visit-cum-Mobile Workshop (Sukhothai Thammathirat Open University, Bangkok, Thailand, and Darling Downs Institute of Advanced Education, Toowoomba, Queensland, Australia, September 6-16, 1983).
ED 268 947

**Asia Pacific Region**
Education in Asia and the Pacific: Reviews, Reports and Notes. Number 22.
ED 269 340

**Asian Americans**
Health Service Utilization Patterns of Southeast Asian Refugees: Rhode Island Medicaid/Refugee Medical Assistance Data Analysis, October 1979 to December 1982.
ED 269 487

Labor Force Participation and Employment of Southeast Asian Refugees in the United States.
ED 269 488

**Asian Studies**
Education (General, All Levels) in the People's Republic of China; Past and Present: Annotated Bibliography.
ED 269 305

An Inquiry Unit on the Economic Geography of Japan for Junior High Geography.
ED 269 300

Secondary Education in the People's Republic of China: Annotated Bibliography.
ED 269 308

**Asians**
Cohesion in Interlanguage: A Study of Conjunction.
ED 268 806

How to Speak English without a Foreign Accent. Oriental Edition.
ED 268 843

**Assessment Centers (Personnel)**
Assessment and Administrator Quality.
ED 269 456

**Assignments**
What Does Your Course Syllabus Communicate?
ED 268 911

**Assistant Principals**
The Assistant Principal. The Best of ERIC on Educational Management, Number 82.
ED 268 665

**Associate Degrees**
Associate Degree Nursing Program Guide. Final Report from February 19, 1985 to August 31, 1985.
ED 268 227

Measuring Student Outcomes through the Associate Degree. ERIC Digest.
ED 269 116

Strategies for Maintaining Associate Degree Nursing Programs.
ED 269 088

**Association for Institutional Research**
Promoting Excellence through Information and Technology. General Session Presentations of the Anniversary Forum of the Association for Institutional Research (25th, Portland, Oregon, April 28-May 1, 1985).
ED 268 936

**Association of Research Libraries**
Bibliographic Instruction in ARL Libraries. SPEC Kit 121.
ED 269 015

**Associative Learning**
Mnemonic Versus Nonmnemonic Vocabulary-Learning Strategies: Putting "Depth" to Rest. Report from the Project on Studies in Language: Reading and Communication. Working Paper No. 312.
ED 268 517

**Astronomy**
Astronomy Demonstrations and Models.
ED 269 234

**Atlanta Public Schools GA**
Evaluation of Project ALERT (Atlantans Learning Employment Responsibilities Together). Summer Youth Employment Program 1985.
ED 269 502

**Attendance Patterns**
The Class of 1984 Research Project.
ED 269 096

What Ever Happened to the Class of 1983?
ED 269 081

**Attitude Change**
Attitude Changes of Teachers Involved in a Project for the Improvement of Physical Science Instruction in Rural Elementary Schools.
ED 269 197

Career Role Models in Two Media: Effects on Student Attitudes towards Non-Traditional Careers.
ED 268 362

Influencing Vocational Teachers' Attitudes toward Special Needs/Handicapped Children through Needs-Assessment-Driven Inservice Training.
ED 268 278

Relationships between Student Characteristics and Changes in Attitudes, Concerns, Anxieties and Confidence about Teaching During Teacher Preparation.
ED 269 399

U.S.–American Value Orientations. Cultural Monograph No. 4. Bilingual Multicultural Education Training Project for School Psychologists and Guidance Counselors.

**Comparative Testing**
A Comparison of Alternate-Choice and True-False Item Forms Used in Classroom Examinations.
ED 269 411
The Inadequacy of MLU as a Matching Criteria for Normally Developing and Handicapped Subjects.
ED 269 145

**Compensation (Remuneration)**
Fringe Benefits Available to Public School Teachers in the Southeast. Executive Summary. Occasional Papers in Educational Policy Analysis.
ED 269 395
The Recognition and Reward of Employee Performance.
ED 268 376
The Recognition and Reward of Employee Performance: Implications for Education and Training Policy.
ED 268 377

**Compensatory Education**
Evaluation of an "Effective Schools" Intervention. The Knoxville City Schools (KCS) Proficiency Test Project in Selected Ninth Grades, 1984-1985.
ED 269 419
A Four-Year Longitudinal Study of the Sustained Effects of Promotion/Retention and Skill-Specific Intervention Relative to Identified Deficiencies on the Performance of Elementary Students.
ED 269 167
Remedial and Compensatory Reading Instruction: Abstracts of Doctoral Dissertations Published in "Dissertation Abstracts International," July through December 1985 (Vol. 46 Nos. 1 through 6).
ED 268 494

**Competence**
Commercial Fishing.
ED 268 298
Competencies Developed in Industrial Arts That Are Relevant to Post-Secondary Programs.
ED 268 315
Develop and Field Test Written and Performance Student Achievement Measures for Gardening-Groundskeeping and Landscape Operations. Final Report.
ED 268 297
Program Guide for Basic Automotive Body Repair and Refinishing 8709000 (IN47.062300) and Automotive Body Repair and Refinishing ARR0900 (IN47.060300).
ED 268 271
Program Guide for Basic Marine Mechanics 8751000 (IN49.032600) and Marine Mechanics MTE0991 (IN47.030600).
ED 268 269
Program Guide for Basic Precision Machining 8754000 (IN48.052300) and Precision Machining MTR0470 (IN48.050300).
ED 268 270
Program Guide for Brick and Block Laying 8721200 (IN46.011200) and Masonry BCT0400 (IN46.010200).
ED 268 266
Program Guide for Diesel Engine Mechanics 8742000 (IN47.060500) and Heavy Duty Truck and Bus Mechanics DIM0991 (IN47.060501).
ED 268 299
Program Guide for Electronics 8730000 (IN47.012500) and Industrial Electronics EST0100 (IN47.010500) and Electronic Technology EET0001 (IN15.030300).
ED 268 267
Program Guide for Industrial Electricity 8727000 (IN47.013902) and Commercial and Industrial Electricity ETI0810 (IN47.019902).
ED 268 268
Program Guide for Residential Plumbing 8721700 (IN46.052300) and Residential and Commercial Plumbing BCT0580 (IN46.050300).
ED 268 265
Rural Education Curriculum Resource Booklet. Faculty Guide to Rural Education Resources Available at the College of Saint Rose.
ED 269 205
Social Adjustment and Academic Competency of Children with Conduct Disorders.
ED 268 770
Those Standardized Competency Examinations: What Do They Really Tell Us about Our Student Bodies? ASHE 1986 Annual Meeting Paper.
ED 268 872
Training Gaze Direction in Blind Children: Attitude Effects on the Sighted.
ED 268 756

**Competency Based Education**
Agricultural Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 346
Business and Office Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 348
Computerized Data Management System for Competency Based Vocational Education. Final Report from August 20, 1984 to June 30, 1985.
ED 268 228
Development and Field-Test of an Instrument to Assess the Extent to Which a Vocational Educational Program Is Either Competency-Based or Conventional. Final Report from September 1, 1984 to August 31, 1985.
ED 268 231
Health Occupations Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 349
Home Economics Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 344
Identification and Description of Barriers to the Implementation of Competency-based Vocational Education in Secondary Schools. Final Report from September 1, 1984 to August 31, 1985.
ED 268 273
Industrial Arts Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 345
Marketing Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 343
Prevocational Program. Teacher Handbook. Vocational Education. Grades 7-9. North Carolina Competency-Based Curriculum.
ED 268 350
Teacher Handbook, Communication Skills, Grades K-12. North Carolina Competency-Based Curriculum, Subject-by-Subject.
ED 268 553
Trade and Industrial Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 347

**Competency Based Teacher Education**
Kindergarten Excellence: Knowledge and Competencies of Kindergarten Teachers.
ED 269 135

**Competition**
Debate as an Elitist Activity [and] A Response.
ED 268 607
The High School Science Competition Sponsored by Itawamba Junior College.
ED 269 227

**Complexity Index**
Complexity Survey.
ED 269 141

**Compliance (Legal)**
After "Aguilar v. Felton": Chapter 1 Services to Nonpublic Schoolchildren. A Report Prepared for the Subcommittee on Elementary, Secondary, and Vocational Education of the Committee on Education and Labor, U.S. House of Representatives, Ninety-ninth Congress, Second Session (March 1986).
ED 269 503
The Arts and 504: A 504 Handbook for Accessible Arts Programming.
ED 269 309
An Instrument for a Legal Review of Public School Curriculum Policies and Procedures.
ED 268 676
Medicare: Documenting Teaching Physician Services Still a Problem. Report to Congressional Committees by the United State General Accounting Office.
ED 268 922

**Comprehension**
Comprehending Psychological Defenses: Developmental Differences between Normal and Disturbed Children and Adolescents.
ED 269 166
Conceptions of Light and Vision: From the Naive to the Expert.

ED 269 242
Semantic Aphasia and Luria's Neurolinguistic Model.
ED 268 788
Student Conceptions of Natural Selection and Its Role in Evolution, Research Series No. 165.
ED 269 254

**Comprehensive Examinations**
Using Locally Developed Comprehensive Exams for Majors to Assess and Improve Academic Program Quality.
ED 269 472

**Computation**
Early Developments in Children's Use of Counting to Solve Quantitative Problems.
ED 269 276

**Computer Assisted Counseling**
Guide to Developing a Computer Enhanced Counseling Program.
ED 268 451

**Computer Assisted Instruction**

ED 268 328

Howard Community College 1986-87 Institutional Indicators for Proposed Operating Budget.
ED 269 080

The University College at Age Twenty-Five.
ED 269 046

**Institutional Cooperation**
International Co-Production of Distance-Teaching Courses.
ED 268 976

**Institutional Evaluation**
Development of the Two-Year Version of the Institutional Performance Survey.
ED 269 086

**Institutional Mission**
Higher Education and the State in Latin America: Private Challenges to Public Dominance.
ED 268 941//

**Institutional Performance Survey (NCHEMS)**
Development of the Two-Year Version of the Institutional Performance Survey.
ED 269 086

**Institutional Research**
Community College Journal for Research and Planning; Volume 4, Numbers 1-2.
ED 269 090

Development of the Two-Year Version of the Institutional Performance Survey.
ED 269 086

Placement and Follow-Up Summary Manual: Miami-Dade Community College.
ED 269 110

Promoting Excellence through Information and Technology. General Session Presentations of the Anniversary Forum of the Association for Institutional Research (25th, Portland, Oregon, April 28-May 1, 1985).
ED 268 936

**Institutionalized Persons**
Annual Report on LSCA Special Activities, FY 1984.
ED 269 013

**Institutions**
Directory of Organizations Related to Teacher Education.
ED 269 404

**Instructional Design**
A Climate for Learning Science. Concept Paper. SEL (The Skills Essential to Learning Project) Phase II.
ED 269 000

**Instructional Development**
The Development and Implementation of a Modified Language Experience Approach to a Reading Program for the Pre-Operational Child.
ED 269 132

The Development of Systematic Instruction in the Open University.
ED 268 975

**Instructional Effectiveness**
The Applications of Computers in Education in Developing Countries--with Specific Reference to the Cost-Effectiveness of Computer-Assisted Instruction.
ED 268 978

Formative Evaluation of "Measurement: The Difference between Perimeter and Area" and "Measurement: Dividing Regions into Subregions for Finding Area" from Math Works. Research Report 94.
ED 268 997

Is Computer-Based Instruction Ready to Move into the Home?
ED 268 950

Microcomputer Learning Project. Willow Creek School Division No. 28.
ED 268 985

What the Research Is Saying. Give and Take Series. Research Report 95.
ED 268 998

**Instructional Films**
The Challenge of the Unknown. Teaching Guide.
ED 269 226

**Instructional Improvement**
Educational Technology. E.C.I.A. Chapter 2. Final Evaluation Report.
ED 268 948

Improving Teaching and Learning in Large Classes: A Practical Manual.
ED 268 921

Instructional Problem Solving in Staff Development: The Principal's Role as an Instructional Leader.
ED 268 689

A System for Measuring School Effectiveness: The Profile of School Excellence (PRO-S/E).
ED 269 471

Taking Teaching Seriously.
ED 268 849

**Instructional Innovation**
Achievement Gains of Fifth Grade Pupils Taught by Teachers Using the Essentials of Instruction: A Pilot Study.
ED 269 415

**Instructional Leadership**
Achievement Directed Leadership: Final Report of the Basic Skills Component.
ED 268 650

Increasing School Productivity through the Assessment of School Leadership.
ED 268 641

Instructional Problem Solving in Staff Development: The Principal's Role as an Instructional Leader.
ED 268 689

Principal Roles, Other In-School Variables, and Academic Achievement by Ethnicity and SES.
ED 268 664

**Instructional Material Evaluation**
Foreign Language CAI: Confusion or Consensus?
ED 268 777

A Qualitative Study of How One Teacher Selects Instructional Materials.
ED 269 381

A Search for and Evaluation of Computer-Assisted Instructional Programs in Music for Use at Liberty Baptist College: Societal Factors Affecting Education.
ED 268 924

What the Research Is Saying. Give and Take Series. Research Report 95.
ED 268 998

**Instructional Materials**
Activities and Games for Foreign-Language Learning.
ED 268 807

A Comparison Study of Five Music Appreciation Textbooks. Curriculum and Program Planning.
ED 268 926

Complexity Survey.
ED 269 141

The Effect of Overt Verbalization on the Learning and Retention of Geometry Concepts. Working Paper No. 189.
ED 269 263

End-User Searching Services. SPEC Kit 122.
ED 269 022

A Helpful Guide for Teaching Oral Communication: A Bibliography.
ED 268 602

Instructional Materials for Elementary Mathematics, Final Report of the Regional Training Workshop for the Development of Materials for Mathematics Education in Asia and the Pacific.
ED 269 240

Multiculturalism in the Classroom. Final Report of the Manitoba Conference (Winnipeg, Manitoba, Canada, May 25-26, 1984).
ED 269 508

Non-Commercial Audiovisual Instructional Materials in Japan. AVE in Japan No. 24.
ED 269 001

A Project to Design a System for Evaluating R&D Products and Providing Feedback to Production and Dissemination Personnel.
ED 268 272

Selecting Educational Equipment and Materials for School and Home.
ED 269 171

Teacher's Autonomy in a Centrally Developed and Controlled Curriculum.
ED 269 386

The Teaching of Literature.
ED 268 838

Think Texas! Suggested Activities to Help Celebrate Our Sesquicentennial.
ED 269 331

**Instructional Program Divisions**
Effects of Training, Grade Level, and Subject Taught on the Types of Tests and Test Items Used by Teachers.
ED 269 430

**Instructional Systems**
The Development of Systematic Instruction in the Open University.

Video-Teleconferencing Handbook for Public Broadcasting Facilities.
ED 268 956

**Marriage Counseling**
Follow-Up Research on Agoraphobics.
ED 258 454

**Marxian Analysis**
Historiography in the People's Republic of China: Annotated Bibliography (Historians, History Teaching, History Writing).
ED 269 307

**Maryland**
Enrollment by Place of Residence in Maryland Institutions of Higher Education, Fall 1985. Postsecondary Education Data Reports.
ED 268 917
Maryland Community Colleges 1985 Program Evaluations.
ED 269 094
Maryland Statewide Plan for Postsecondary Education.
ED 268 943

**Maryland Functional Testing Program**
Building a User-Oriented Statewide Score Reporting System.
ED 269 475

**Maryland State Department of Education**
Building a User-Oriented Statewide Score Reporting System.
ED 269 475

**Masonry**
Program Guide for Brick and Block Laying 8721200 (IN46.011200) and Masonry BCT0400 (IN46.010200).
ED 268 266

**Mass Media**
Private Sector Initiatives Regarding Missing Children. Hearing before the Subcommittee on Juvenile Justice of the Committee on the Judiciary. United States Senate, Ninety-Ninth Congress, First Session on the Issue of Missing Children: Runaways, Parental Abduction, and Kidnaping; and the Responses of the Private Sector to This Problem (May 22, 1985).
ED 268 438
Teaching about Women and Violence.
ED 268 528
A World of Difference. The International Distribution of Information: The Media and Developing Countries. Communication and Society No. 15.
ED 269 006

**Mass Media Effects**
Historical Perspectives on Black Families.
ED 269 482
The Impact of the Cable Television Industry on Public Television.
ED 268 958
The Role of the Entertainment Industry in Deglamorizing Drug Use. Hearing before the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs. United States Senate, Ninety-Ninth Congress, First Session.
ED 268 426

**Massachusetts**
Mainstreaming in Massachusetts: How Special Education Became Ordinary in One State in America.
ED 268 737
Project Access V: An Investigation of the Impact of P.L. 89-313 Funds on Early Intervention Programs: Summative Evaluation Reports 1984 and 1985.
ED 268 757

**Masters Degrees**
Decade +
ED 269 368

**Mastery Learning**
Defining the Critical Elements of a Mastery Learning Program.
ED 269 397

**Mastery Tests**
An Investigation of the Validity of the Sequential Probability Ratio Test for Mastery Decisions in Criterion-Referenced Testing.
ED 269 462

**Matched Groups**
The Inadequacy of MLU as a Matching Criteria for Normally Developing and Handicapped Subjects.
ED 269 145

**Material Development**
Bilingual Materials Development Project 1983-84.
ED 269 549
Facing the Challenge of New Technologies: Interactive Video and the AUTOTUTOR Project.
ED 268 827
International Co-Production of Distance-Teaching Courses.
ED 268 976
Multiculturalism in the Classroom. Final Report of the Manitoba Conference (Winnipeg, Manitoba, Canada, May 25-26, 1984).
ED 269 508
Telecourse: Family Day Care Provider Training. "Spoonful of Lovin."" Final Report.
ED 268 285

**Materials Processing**
Industrial Arts Education. Teacher Handbook. Vocational Education. Grades 9-12. North Carolina Competency-Based Curriculum.
ED 268 345

**Mathematical Applications**
The Challenge of the Unknown. Teaching Guide.
ED 269 226

**Mathematical Aptitude**
Cognitive Style Correlates of Mathematical Ability among College Students.
ED 268 474
Mathematical Ability in College Students: A Causal Analysis.
ED 268 473

**Mathematical Logic**
Processing Mathematics in a Second Language: Problems for LEP Children.
ED 268 821

**Mathematical Models**
How Well Do the Angoff Design V Linear Equat-

ing Methods Stack Up against the Tucker and Levine Methods?
ED 269 461
On Comparing Transition Rate Gains.
ED 269 414

**Mathematics Achievement**
Appraising Student Achievement in Mathematics.
ED 269 425
Comparison Study of Vocational and Traditional Students on Mathematics and Science Achievement. Technical Report.
ED 268 329
Errors in Processing Mathematical Information: A Cross-Sectional and Longitudinal Study of Individual and Sex Differences. Final Report.
ED 269 244

**Mathematics Curriculum**
Mathematics Framework for California Public Schools, Kindergarten through Grade Twelve.
ED 269 250
Mathematics K-12. Teacher Handbook. North Carolina Competency-Based Curriculum Subject-by-Subject.
ED 269 247

**Mathematics Education**
The Challenge of the Unknown. Teaching Guide.
ED 269 226
Mathematical Ability in College Students: A Causal Analysis.
ED 268 473
Mathematics Framework for California Public Schools, Kindergarten through Grade Twelve.
ED 269 250
Metric Practice Guide for Teachers. Based on Accepted Canadian Standards.
ED 269 225
Report on the Work of the Committee on Indicators of Precollege Education in Science and Mathematics.
ED 269 253
Teacher Quality in Science and Mathematics Education: Recommendations for Research from a National Research Council Conference.
ED 269 252
Using Research in the Professional Life of Mathematics Teachers. International Congress on Mathematical Education (5th, Adelaide, Australia, August 24-30, 1984).
ED 269 273

**Mathematics Education Research**
Classroom Learning: Results from Observations - Sandy Bay Study. Working Paper No. 326.
ED 269 272
Coordinated Study Individual Interview Procedures. Working Paper No. 290.
ED 269 267
Early Developments in Children's Use of Counting to Solve Quantitative Problems.
ED 269 276
The Effect of Overt Verbalization on the Learning and Retention of Geometry Concepts. Working Paper No. 189.
ED 269 263
Errors in Processing Mathematical Information: A Cross-Sectional and Longitudinal Study of Individual and Sex Differences. Final Report.
ED 269 244
Gender and Race Differences in Mathematics: A Case Study of a Seventh-Grade Classroom.
ED 269 261
Mathematics Instruction in Tokyo's and Hawaii's Junior High Schools. Final Report.
ED 269 251
Results from Eighth Individual Interview (January 1981), Coordinated Study No. 1. Working Paper No. 313.
ED 269 271
Results from Fifth Individual Interview (January 1980), Coordinated Study No. 1. Working Paper No. 293.
ED 269 269
Results from First and Second Individual Interviews (February and May 1980) of the Second Phase of the Longitudinal Study. Working Paper No. 310.
ED 269 270
Results from First Individual Interview (October 1978), Coordinated Study No. 1. Working Paper No. 281.
ED 269 264
Results from Fourth Individual Interview (September 1979), Coordinated Study No. 1. Working Paper No. 292.
ED 269 268
Results from Second Individual Interview (January 1979), Coordinated Study No. 1. Working Paper No. 285.
ED 269 265
Results from Third Individual Interview (May 1979), Coordinated Study No. 1. Working Paper No. 289.
ED 269 266
Using Research in the Professional Life of Mathematics Teachers. International Congress on Mathematical Education (5th, Adelaide, Australia, August 24-30, 1984).
ED 269 273

**Mathematics Instruction**
Classroom Learning: Results from Observations - Sandy Bay Study. Working Paper No. 326.
ED 269 272
Coordinated Study Individual Interview Procedures. Working Paper No. 290.
ED 269 267
Early Developments in Children's Use of Counting to Solve Quantitative Problems.
ED 269 276
The Effect of Overt Verbalization on the Learning and Retention of Geometry Concepts. Working Paper No. 189.
ED 269 263
Formative Evaluation of "Measurement: The Difference between Perimeter and Area" and "Measurement: Dividing Regions into Subregions for Finding Area" from Math Works. Research Report 94.
ED 268 997
Gender and Race Differences in Mathematics: A Case Study of a Seventh-Grade Classroom.
ED 269 261
Guidelines for the Use of Calculators, Grades 1-12.
ED 269 224
IDEAS from the Arithmetic Teacher, Grades 4-6 Intermediate School.
ED 269 246//
Instructional Materials for Elementary Mathematics, Final Report of the Regional Training Workshop for the Development of Materials for Mathematics Education in Asia and the Pacific.
ED 269 240
Mathematics Instruction in Tokyo's and Hawaii's Junior High Schools. Final Report.
ED 269 251
Processing Mathematics in a Second Language: Problems for LEP Children.
ED 268 821
Results from Eighth Individual Interview (January 1981), Coordinated Study No. 1. Working Paper No. 313.
ED 269 271
Results from Fifth Individual Interview (January 1980), Coordinated Study No. 1. Working Paper No. 293.
ED 269 269
Results from First and Second Individual Interviews (February and May 1980) of the Second Phase of the Longitudinal Study. Working Paper No. 310.
ED 269 270
Results from First Individual Interview (October 1978), Coordinated Study No. 1. Working Paper No. 281.
ED 269 264
Results from Fourth Individual Interview (September 1979), Coordinated Study No. 1. Working Paper No. 292.
ED 269 268
Results from Second Individual Interview (January 1979), Coordinated Study No. 1. Working Paper No. 285.
ED 269 265
Results from Third Individual Interview (May 1979), Coordinated Study No. 1. Working Paper No. 289.
ED 269 266
Science and Mathematics Education for the Year 2000 and Beyond. Topics for Teachers Series Number 4.
ED 269 262//
Using Research in the Professional Life of Mathematics Teachers. International Congress on Mathematical Education (5th, Adelaide, Australia, August 24-30, 1984).
ED 269 273

**Mathematics Skills**
Cognitive Style Correlates of Mathematical Ability among College Students.
ED 268 474
Math Basic Skills Module for Disadvantaged Electronic Students. Final Report.
ED 268 282
Mathematical Ability in College Students: A Causal Analysis.
ED 268 473
Student Performance Standards of Excellence for Florida Schools in Mathematics, Science, Social Studies and Writing. Grades Three, Five, Eight, and Twelve. 1984-85 through 1988-89.
ED 269 444

**Mathematics Teachers**
Using Research in the Professional Life of Mathematics Teachers. International Congress on Mathematical Education (5th, Adelaide, Australia, August 24-30, 1984).
ED 269 273

**Mathematics Tests**
Appraising Student Achievement in Mathematics.
ED 269 425
The Effect of Sex-Dependent Norms on Aggregated Reading and Mathematics Test Scores.
ED 269 439
Elementary/Middle School Reading Comprehension vs. High School Mathematics: Two Different Approaches to CRT Development.
ED 269 479
The Entry Level Mathematics (ELM) Examination in the California State University. A Report of the First Year: 1983-84.
ED 269 416

**Maturity (Individuals)**
Social Adjustment and Academic Competency of Children with Conduct Disorders.
ED 268 770

**Maximum Likelihood Statistics**
A Comparison of ASCAL and LOGIST Parameter Estimation Programs.
ED 269 457

**Mean Length of Utterance**
The Inadequacy of MLU as a Matching Criteria for Normally Developing and Handicapped Subjects.
ED 269 145

**Measurement**
Metric Practice Guide for Teachers. Based on Accepted Canadian Standards.
ED 269 225

**Measurement Techniques**
Concepts of Cost and Cost Analysis for Higher Education.
ED 268 928
Development and Field-Test of an Instrument to Assess the Extent to Which a Vocational Educational Program Is Either Competency-Based or Conventional. Final Report from September 1, 1984 to August 31, 1985.
ED 268 231
Effects of Training, Grade Level, and Subject Taught on the Types of Tests and Test Items Used by Teachers.
ED 269 430
Measuring Speech Communication Skills.
ED 268 599
Sampling Procedures Used for National Surveys of Public School Teachers--Problems and Possible Solutions.
ED 269 443
Sex as a Moderator of the Beauty-Good Relationship.
ED 268 445
Validation of a Communication Process Measure for Coding Control in Counseling.
ED 268 460

**Measures (Individuals)**
The Shared Knowledge of Reading and Writing.
ED 268 477

**Mechanics (Process)**
Program Guide for Basic Marine Mechanics 8751000 (IN49.032600) and Marine Mechanics MTE0991 (IN47.030600).

ED 268 269
Program Guide for Diesel Engine Mechanics 8742000 (IN47.060500) and Heavy Duty Truck and Bus Mechanics DIM0991 (IN47.060501).
ED 268 299

**Media Research**
Listening to Monotony: All-News Radio.
ED 268 615
Mass Communication: Abstracts of Doctoral Dissertations Published in "Dissertation Abstracts International," July through December 1985 (Vol. 46 Nos. 1 through 6).
ED 268 611
A Model of International Communication Media Appraisal: Phase IV, Generalizing the Model to Film.
ED 268 594
Reader Perception of Newspaper Mug Shot Subjects in Photos and in Stories.
ED 268 576

**Media Role**
The Role of the Entertainment Industry in Deglamorizing Drug Use. Hearing before the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs. United States Senate, Ninety-Ninth Congress, First Session.
ED 268 426

**Media Selection**
A Comparison Study of Five Music Appreciation Textbooks. Curriculum and Program Planning.
ED 268 926
Microcomputer Programs for Educational Statistics: A Review of Popular Programs. TME Report 89.
ED 269 442
A Qualitative Study of How One Teacher Selects Instructional Materials.
ED 269 381
A Search for and Evaluation of Computer-Assisted Instructional Programs in Music for Use at Liberty Baptist College: Societal Factors Affecting Education.
ED 268 924
Silent Film in the German Classroom.
ED 268 815
Teacher's Autonomy in a Centrally Developed and Controlled Curriculum.
ED 269 386

**Medical Case Histories**
Text Comprehension and Expertise in the Domain of Medicine.
ED 268 935

**Medical Evaluation**
Medical Laboratory Technician–Hematology, Serology, Blood Banking, and Immunohematology (AFSC 90470).
ED 268 334
Medical Laboratory Technician–Microbiology (AFSC 90470).
ED 268 336
Radiology Technician (AFSC 90370).
ED 268 335

**Medical Libraries**
Comparative Analysis of Monographic Collections in Nursing.
ED 269 019

**Medical Record Technicians**
Feasibility Study for Establishing Three Medical Record Related Programs. Research Report Series Volume XIV, No. 12.

ED 268 703

Speech Planning in the Light of Stuttering.
ED 268 786

**Strategic Behavior**

Single Subject and Group Data: Choosing the Middle Path.
ED 269 146

**Strategic Planning**

Process and Consequence: A Study of Strategic Planning in a Multicampus Setting (Phase I). ASHE 1986 Annual Meeting Paper.
ED 268 865

Strategic Planning in an Organized Anarchy: The Emperor's New Clothes? ASHE 1986 Annual Meeting Paper.
ED 268 902

Useful Access to Planning Systems for Community Colleges.
ED 269 061

**Stress Management**

Stress in Decision-Making: Three Causes, Three Cures.
ED 268 642

A Stress Management Curriculum for Head Start Parents.
ED 269 148

**Stress Variables**

Acquired Immune Deficiency Syndrome (AIDS): Psychological Impact on Health Personnel.
ED 268 396

Marital Influence Levels and Psychological Symptomatology: Are There Psychic Costs to Inequity?
ED 268 450

Personality Measurement in Fathers of Mentally Retarded and Emotionally Disturbed Children.
ED 268 705

Students' Stress, Social Support, and Achievement in an Urban Middle School.
ED 269 510

A Video-Simulated Stress Procedure for Abusive Parents: Multi-Modal Assessment of Parental Tolerance, Arousal, and Coping.
ED 268 398

**Student Adjustment**

College Contexts, Student Integration, and Educational Attainment. ASHE 1986 Annual Meeting Paper.
ED 268 874

Gender and Campus Race Differences in Black Student Academic Performance, Racial Attitudes and College Satisfaction.
ED 268 855

Long-Term Persistence of Two-Year College Students. ASHE 1986 Annual Meeting Paper.
ED 268 900

Retention of Culturally Diverse Students: A Successful Teaching Strategy.
ED 268 944

**Student Attitudes**

Achievement Attitudes in Mathematics and Science: Relationships between Self-Perceptions, Aspirations, and Extra-Curricular Activities.
ED 269 231

Adult Students in Community College: Learning to Manage the Learning Process.
ED 269 113

Are Teacher Perceptions of School Effectiveness Variables Correlated with Student Achievement and Student Attitudes?
ED 269 474

Attitudes, Behavior, and Employability.
ED 268 466

Attitudes toward School Subjects of Academically Unpredictable Elementary School Children.
ED 269 168

Black Students' Responses to Oral Instructions Presented in Black English Versus Standard English.
ED 268 813

Career Role Models in Two Media: Effects on Student Attitudes towards Non-Traditional Careers.
ED 268 362

Catholic High Schools: Their Impact on Low-Income Students.
ED 269 509

Computers, Children and Classrooms: A Multisite Evaluation of the Creative Use of Microcomputers by Elementary School Children. Final Report.
ED 268 994

Determination of Student Willingness to Take Afternoon Classes and Class Time Preference.
ED 269 047

Educational Strategies to Increase Racial Toler-

ance.
ED 269 501
Effects of Classroom Environment on Science Attitudes: A Crosscultural Replication in Indonesia.
ED 269 230
Formative Evaluation of "Measurement: The Difference between Perimeter and Area" and "Measurement: Dividing Regions into Subregions for Finding Area" from Math Works. Research Report 94.

Vocational Guidance for Special Needs Students: A Handbook for Helping Counselors Do a Better Job. Teacher Education Series, Vol. 26, No. 1.
ED 268 286

**Vocational Followup**
Comments on Possible Policy Research Uses of Four Major Longitudinal Data Bases.
ED 268 908
The Development and Coordination of Placement and Follow-up for Vocational Guidance. Final Report from September 1, 1984 to August 31, 1985.
ED 268 232
Improving Follow-up Response Rate at Brevard Community College. Final Report from September 24, 1984 to August 31, 1985.
ED 268 229
Placement and Follow-Up Summary Manual: Miami-Dade Community College.
ED 269 110

**Vocational Rehabilitation**
Analysis of Costs and Benefits in Rehabilitation. Final Report.
ED 268 326
De La Salle Vocational Supportive Life Skills Learning Program Off Campus. Operational Manual.
ED 269 173
Experiential Education as an Integral Part of Day Treatment for Adjudicated Delinquent Youth.
ED 269 210
Fees for Services: Principles and Practices among State Vocational Rehabilitation Agencies and Facilities. Research Report.
ED 268 360

**Vocational Schools**
Research Factors That Affect Skills Center Enrollment. Final Report.
ED 268 283

**Vocational Technical Education Consortium States**
Environmental Control System Installer/Servicer (Residential Air Conditioning Mechanic). V-TECS Guide.
ED 268 294

**Volunteer Training**
Adult Literacy Programs: Services, Persons Served, and Volunteers. OERI Bulletin.
ED 268 387

**Volunteers**
Adult Literacy Programs: Services, Persons Served, and Volunteers. OERI Bulletin.
ED 268 387
Adult Literacy Volunteers. Overview. ERIC Digest No. 48.
ED 268 301
Guidelines for Effective Adult Literacy Programs.
ED 268 332

**Wages**
Wage Payment Systems. Supervising: Economic and Financial Aspects. The Choice Series #73. A Self Learning Opportunity.
ED 268 254

**War on Poverty**
War on Poverty–Victory or Defeat? Hearing before the Subcommittee on Monetary and Fiscal Policy of the Joint Economic Committee, Congress of the United States, Ninety-Ninth Congress, First Session (June 20, 1985).
ED 269 505

**Washington**
Academic Year Report, 1984-85. Washington Community Colleges.
ED 269 082
Adult Illiteracy: An Alarming Problem. A Position Paper on Increasing Literacy in Washington.
ED 269 052
Basic Skills Education in Washington Community Colleges: FTE's, Ratios, Student Characteristics.
ED 269 050
Basic Skills Education in Washington Community Colleges: FTE's, Ratios, Student Characteristics, Course Characteristics, Course Codes. Report II: 1984-1985 Data. Revised.
ED 269 051
Change and the Future of Vocational Education. Final Report.
ED 268 284
Fall Quarter Report, 1985. Washington Community Colleges.
ED 269 083
Washington State Student Services Commission. Student Assessment Task Force Report.
ED 269 049

**Ways to Improve Schools and Education Project**
Ways to Improve Schools and Education Project. Final Report (December 1, 1984 - November 30, 1985).
ED 269 383
Ways to Improve Schools and Education through Education-Community Partnerships. Executive Summary of the Final Report.
ED 269 388

**Weather**
Weather: A Multi-Age, Integrated Subjects Curriculum Unit.
ED 269 182

**Wechsler Intelligence Scale for Children (Revised)**
Native American and Non-Native American Performance Differences on the WISC-R and K-ABC.
ED 269 481

Job Training under the New Federalism. JTPA in the Industrial Heartland. Report to the Subcommittee on Employment, Committee on Education and Labor, U.S. House of Representatives.
ED 269 539
Multi-Dimensional Therapeutic Intervention for Problemed Youth.
ED 268 443
Program Design and Implementation Issues. Urban Conservation and Service Corps Program. A Series of Resource Reports. Report #3.
ED 269 541

**Yugoslavia**
English Teaching Profile: Yugoslavia.
ED 268 801

**Zoology**
Guide to Common Tidal Marsh Invertebrates of the Northeastern Gulf of Mexico.
ED 269 260
Marine Maladies? Worms, Germs, and Other Symbionts from the Northern Gulf of Mexico.
ED 269 258

**1984 (Title)**
George Orwell & "Nineteen Eighty-Four": The Man and the Book. A Conference at the Library of Congress, April 30 and May 1, 1984.
ED 268 549

# Author Index

This index lists documents under the name(s) of their author(s). The index is arranged in alphabetical order by the person's last name.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

Author ——— **Norberg, Kenneth D.**

Title ——— Iconic Signs and Symbols in Audiovisual Communication. An Analytical Survey of Selected Writing and Research Findings. Final Report.

**ED 013 371** ——— **Accession Number**

**Abbott, Douglas A.**
Minority Families: Strengths of Four Ethnic Groups.
ED 268 424

**Abendroth, Ruth B.**
Research Factors That Affect Skills Center Enrollment. Final Report.
ED 268 283

**Abram, James K.**
Blueprint for Curriculum Design.
ED 269 128

**Achilles, C. M.**
Evaluation of an "Effective Schools" Intervention. The Knoxville City Schools (KCS) Proficiency Test Project in Selected Ninth Grades, 1984-1985.
ED 269 419

**Adam, Heidemarie**
Ways to Communicate with Children Who Are Profoundly Mentally Retarded and Cannot Speak.
ED 268 738

**Adams-Price, Carolyn E.**
An "Emic" Study of Children's Memory in the Nursery School.
ED 269 143

**Adams, Edgar H., Ed.**
Cocaine Use in America: Epidemiologic and Clinical Perspectives. National Institute on Drug Abuse (NIDA) Research Monograph Series 61.
ED 268 463

**Ahlsen, Elisabeth**
Communication Strategies in Aphasia.
ED 268 785

**Ahmad, Carol F.**
Bibliographic Instruction in ARL Libraries. SPEC Kit 121.
ED 269 015

**Albrecht, Don E.**
Factors Associated with the Fulfillment of Residential Preferences.
ED 269 202

**Albrect, Stan**
Boomtowns and Lifeworld Disruption.
ED 269 204

**Aldous, Joan**
The Quality of Life over the Family Life Cycle.
ED 268 425

**Alfred, Richard L.**
Measuring Student Outcomes through the Associate Degree. ERIC Digest.
ED 269 116

**Algina, James**
A Comparison of Item Parameter Estimates and Ability Parameter Estimates Obtained by Different Methods Implemented by BILOG.
ED 269 476

**Allen, Richard H.**
Concepts of Cost and Cost Analysis for Higher Education.
ED 268 928

**Allen, Walter**
Gender and Campus Race Differences in Black Student Academic Performance, Racial Attitudes and College Satisfaction.
ED 268 855

**Allerup, Peter**
Why I Like to Read-Statistical Analysis of Questionnaire Data.
ED 269 450

**Allison, Ursula**
Child Health Guidelines: Health, Nutrition, Infants and Toddlers. Revised Edition.
ED 269 126

**Alme, Ann-Marie**
Speech Planning in the Light of Stuttering.
ED 268 786

**Alpert, Daniel**
Organizational Models and Mythologies of the American Research University. ASHE 1986 Annual Meeting Paper.
ED 268 870

**Amburgey, Valeria, Ed.**
Proceedings for the 4th Annual Micros on Parade Conference (4th, Houston, Texas, June 7-8, 1985).
ED 268 964

**Amos, Arthur K., Jr.**
Persistence and Graduation of UC Davis Undergraduates: 1971-1983.
ED 268 930

**Anastasio, Ernest J.**
Is Computer-Based Instruction Ready to Move into the Home?
ED 268 950

**Anderman, Robert C.**
Teaching Test-Taking and Note-Taking Skills to Learning Disabled High School Students.
ED 268 772

**Andersen, Blake**
Counselor Self-Disclosure.
ED 268 411

**Anderson, Beth C.**
Complexity Survey.
ED 269 141

**Anderson, Charles W.**
Student Conceptions of Natural Selection and Its Role in Evolution, Research Series No. 165.
ED 269 254

**Anderson, Kristine L.**
College Contexts, Student Integration, and Educational Attainment. ASHE 1986 Annual Meeting Paper.
ED 268 874

**Anderson, Robert H.**
Toward an Ethics and Etiquette for Electronic Mail.
ED 269 003

**Anderson, Scarvia B.**
On the ERS Standards.
ED 269 412

**Anderson, Wayne**
Counselor Self-Disclosure.
ED 268 411

**Andrew, Loyd D.**
Administrator's Handbook for Improving Faculty Morale.
ED 268 663

**Andrews, Hans A.**
Assuring Future Quality: Removing Incompetent Faculty.
ED 269 057

**Andrews, Ian H.**
An Investigation of the Academic Paradigms Underlying Induction Programmes in Five Countries.
ED 269 400

**Andrews, Richard L.**
Principal Roles, Other In-School Variables, and Academic Achievement by Ethnicity and SES.
ED 268 664

**Anick, Constance M.**
Results from Eighth Individual Interview (January 1981), Coordinated Study No. 1. Working Paper No. 313.
ED 269 271

Results from First and Second Individual Interviews (February and May 1980) of the Second Phase of the Longitudinal Study. Working Paper

No. 310.
ED 269 270

**Anisef, Paul**
Models and Methodologies Appropriate to the Study of Outcomes of Schooling in Ontario's Multicultural Society.
ED 269 341

# Institution Index

This index lists the titles of documents under the institution responsible for them and/or the agency sponsoring them. The index is arranged in alphabetical sequence by the name of the university, agency, association, etc. Names beginning with the word "University" have generally been inverted in order to provide a more distinctive entry, e.g. Wisconsin University (for the University of Wisconsin).

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

ED 269 005

This index lists documents under the Publication Type that has been assigned to them to characterize their form or organization, as contrasted to their subject matter.

As shown in the example below, the accession number is displayed below and to the right of the document title. Additional information about the document can be found under that number in the resume section. The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

The Publication Types are displayed in a classified index arrangement, according to the outline below.

**PUBLICATION TYPE CATEGORIES**

| CODE | CATEGORY |
|---|---|
| 010 | BOOKS |
| | COLLECTED WORKS |
| 020 | – General |
| 021 | – Conference Proceedings |
| 022 | – Serials |
| 030 | CREATIVE WORKS (Literature, Drama, Fine Arts) |

The Use of Satellite Teleconferencing for the Delivery of Staff Development Programs.
ED 268 967
Using Data and Information Systems to Support School Improvement and Accountability. Conference Proceedings (Portland, Oregon, October 31-November 1, 1985).
ED 268 625
Using Learning Groups in Introductory Psychology.
ED 268 913
Using Locally Developed Comprehensive Exams for Majors to Assess and Improve Academic Program Quality.
ED 269 472
Using Natural Channels for School Improvement: A Report on Four Years of Urban Development Program.
ED 269 491
Using the Computer to Improve Basic Skills.
ED 269 068
Video-Teleconferencing Handbook for Public Broadcasting Facilities.
ED 268 956
Wellness: A Balanced Lifestyle. ERIC Digest 3.
ED 269 376
Wellness Programs Promote Health in Jefferson County and Centennial School Districts.
ED 268 695
Western Michigan University's Black College Program, Swelling the Black Faculty Cohort.
ED 268 938
The West Virginia Dropout Study 1984-85.
ED 269 506
What Research Says about Science Textbooks, Science Reading and Science Reading Instruction: A Research Agenda.
ED 269 243
Work and Family in the United States: A Policy Initiative. A Report of the Family Policy Panel of the Economic Policy Council of UNA-USA.
ED 269 131
Writing, Grades Six and Eight. Report of Student Performance, 1985-86. North Carolina Annual Testing Program, Basic Skills.
ED 269 467
55+ Drivers: Needs and Problems of Older Drivers: Survey Results and Recommendations. Proceedings of the Older Driver Colloquium (Orlando, Florida, February 4-7, 1985).
ED 268 324

## (142) Reports - Evaluative

Accommodating Handicapped Students in Occupational Programs: Instructional Strategies for Two-Year College Staff.
ED 268 724
Achievement Directed Leadership: Final Report of the Basic Skills Component.
ED 268 650
Alternative Methods for Funding Community College Capital Outlay. A Report to the Legislature in Response to Supplemental Language in the 1985-86 Budget Act.
ED 269 087
Anything Goes: A Summary Report on Chapter 2, the Education Block Grant. NCCE Special Report.
ED 268 638
Bilingual Materials Development Project 1983-84.
ED 269 549
Caffeine. Courseware Evaluation for Vocational and Technical Education.
ED 268 318
Comments on Possible Policy Research Uses of Four Major Longitudinal Data Bases.
ED 268 908
A Comparison Study of Five Music Appreciation Textbooks. Curriculum and Program Planning.
ED 268 926
Comprehensive Instructional Management Systems, Communication Arts, 1984-85. Final Evaluation Report.
ED 268 482
Computer-Assisted Scheduling of Army Unit Training: An Application of Simulated Annealing.
ED 268 979
A Conceptual Framework for the Mission of the NIE Research and Development Center for Teacher Quality and Effectiveness: Final Report.
ED 269 380
A Co-Operative Provincial-Local Project to Evaluate Components of a Local System with a View to Initiating Change.
ED 269 438
Diversity in Program Improvement Approaches: Implications for Technical Assistance.
ED 269 478
Educational Technology. E.C.I.A. Chapter 2. Final Evaluation Report.
ED 268 948
The Embassy Adoption Program. E.C.I.A. Chapter 2. Final Evaluation Report. 1984-85.
ED 269 310
Employment Trends from 1984 to 1995 and Their Implications for Napa Valley College. Planning Report Number 1.
ED 269 066
Evaluation of a Curriculum to Support Literacy Growth in Young Children.
ED 269 134
Evaluation of Project ALERT (Atlantans Learning Employment Responsibilities Together). Summer Youth Employment Program 1985.
ED 269 502
Evaluation of the CMI Instructor Role Training Program in the Navy and Air Force. Final Report.
ED 268 982
An Evaluation of the Gifted Program at Mellon Junior High School.
ED 269 423
An Evaluation of the SEEK Prefreshman Summer Program at Baruch College, 1984.
ED 269 498
Evaluation of Tutoring Services Offered at Harper College. Research Report Series Volume XIV, No. 13.
ED 269 100
Evaluative Study of Cross-Crediting Arrangements between Distance Education Universities.
ED 268 949
Evander Childs High School Computer Literacy and Word Processing Skills for Bilingual Students 1984-1985.
ED 269 548
Faculty Dismissal: Comparison of Public and Private Higher Education.
ED 268 678
Feasibility Study for Establishing Three Medical Record Related Programs. Research Report Series Volume XIV, No. 12.
ED 269 099
FloorPlan. Courseware Evaluation for Vocational and Technical Education.
ED 268 280
Formative Evaluation of "Measurement: The Difference between Perimeter and Area" and "Measurement: Dividing Regions into Subregions for Finding Area" from Math Works. Research Report 94.
ED 268 997
Generic Evaluation--An Approach to Surviving Multi-Project Evaluations.
ED 269 441
George Washington High School Biliteracy Skills Development Program 1983-1984. O.E.A. Evaluation Report.
ED 269 523
Gifted and Talented Program. Final Evaluation Report, 1984-1985. E.C.I.A. Chapter 2.
ED 268 715
Grab a Byte. Courseware Evaluation for Vocational and Technical Education.
ED 268 291
Helping Minority Students Succeed. A Report of the Association of American Colleges Minority Achievement Program, 1981-1985.
ED 268 933
Hispanic Youth Employment Guidebook: Local Government Approaches Using Public-Private Partnerships.
ED 269 497
Implementation of Nursing Process: An Evaluation of an Inservice Educational Program in an HMO Acute Care Hospital.
ED 268 314
Is Computer-Based Instruction Ready to Move into the Home?
ED 268 950
The Management of Discretion: Implementing and Monitoring a Discretionary Grant Program.
ED 268 912
Maryland Community Colleges 1985 Program Evaluations.
ED 269 094
Medicare: Documenting Teaching Physician Services Still a Problem. Report to Congressional Committees by the United State General Accounting Office.
ED 268 922
Microcomputer Applications in Vocational Education: Home Economics. Courseware Evaluation for Vocational and Technical Education.
ED 268 235
Microcomputer Programs for Educational Statistics: A Review of Popular Programs. TME Report 89.
ED 269 442
Multi-Arts Service Program, E.C.I.A. Chapter 2. Final Evaluation Report, 1984-85.
ED 269 311
Multilingual Survival Skills Program. George W. Wingate High School, 1983-1984. OEA Evaluation Report.
ED 269 526
Native Education in Alberta. Committee on Tolerance and Understanding Discussion Paper #2.
ED 269 176
Nature-Computer Camp. Final Evaluation Report 1984-1985. E.C.I.A. Chapter 2.
ED 269 219
The New GI Bill. Potential Impact of Ending It Early. Briefing Report to the Chairman, Veter-

ans' Affairs Committee, House of Representatives.

ED 268 322
Oversight Hearing on the Job Training Partnership Act (Part 1). Hearing before the Subcommittee on Employment Opportunities of the Committee on Education and Labor, House of Representatives, Ninety-Ninth Congress, First Session (Washington, DC, May 2, 1985).

ED 269 511
Oversight Hearing on the Job Training Partnership Act (Part 2). Hearing before the Subcommittee on Employment Opportunities of the Committee on Education and Labor, House of Representatives, Ninety-Ninth Congress, First Session (Montebello, CA, June 28, 1985).

ED 269 512
Park West High School Bilingual and High School Equivalency Program 1983-1984.

ED 269 547
The P.A.S.S. Program. A Report by the Interstate P.A.S.S. Committee. Revised.

ED 269 193
Personal Consumerism. Courseware Evaluation for Vocational and Technical Education.

ED 268 234
Pre-Freshman Summer Program: Evaluation Report.

ED 269 107
Process and Consequence: A Study of Strategic Planning in a Multicampus Setting (Phase I). ASHE 1986 Annual Meeting Paper.

ED 268 865
Procurement: National Institute of Education's Procurement Practices. Report to the Chairman, Subcommittee on Intergovernmental Relations and Human Resources, Committee on Government Operations, House of Representatives.

ED 268 647
Project Access V: An Investigation of the Impact of P.L. 89-313 Funds on Early Intervention Programs: Summative Evaluation Reports 1984 and 1985.

ED 268 757
Project BABS: Bilingual Academic and Business Skills 1983-1984. OEA Evaluation Report.

ED 269 522
Project BEAM UP. Sarah J. Hale High School, 1983-1984. OEA Evaluation Report.

ED 269 525
Project BECA. Adlai E. Stevenson High School, 1983-1984. OEA Evaluation Report.

ED 269 521
Project BITEC 1983-84. New Utrecht High School. OEA Evaluation Report.

ED 269 524
Recent Trends in Subsidies to Higher Education in Europe.

ED 268 909
Report of Ad Hoc Districtwide Shared Governance Committee to Study Criteria for Participation in Extra-Curricular Activities in the Secondary Schools.

ED 268 651
Report on the Rhode Island Project to Evaluate Special Education Resource Programs.

ED 268 734
Review of the Scoring Procedures for the Occupational Competency Assessment Program in Pennsylvania. Final Report. Vocational-Technical Education Research Report.

ED 268 289
The SEEK Prefreshman Summer Program at Baruch College, 1984: A Followup Study.

ED 269 499
Seward Park High School Project CABES 1983-1984.

ED 269 543
State Action and the Public Spheres Doctrines: Constitutional Inroads into the Private Sector.

ED 268 673
State-Funded Compensatory/Remedial Program Final Evaluation, 1984-85. Longitudinal Effects.

ED 269 446
The Status of Handicapped Children in Head Start Programs. Twelfth Annual Report of the U.S. Department of Health and Human Services Provided to the Congress of the United States on Services Provided to Handicapped Children in Project Head Start.

ED 268 750
Strategies for Improving Evaluation Implementation.

ED 269 435
Student Placement Study: 1985-86 State-Funded Compensatory/Remedial Program Evaluation. Placement Report. Bulletin 1765.

ED 269 445
Study of the Office of County Superintendent.

ED 269 203
Testing in the Schools: Scientific Challenges to Practice and Policy Implications.

ED 269 468
Theodore Roosevelt High School Project CHASP 1983-1984.

ED 269 546
The Transition Program for Refugee Children 1984-1985.

ED 269 545
University Funding: Assessing Federal Funding Mechanisms for University Research. Report to the Chairman, Committee on Science and Technology, House of Representatives.

ED 269 278
Unrealized Potential: Case Management in the U.S. Refugee Program. Final Report.

ED 269 531
War on Poverty–Victory or Defeat? Hearing before the Subcommittee on Monetary and Fiscal Policy of the Joint Economic Committee, Congress of the United States, Ninety-Ninth Congress, First Session (June 20, 1985).

ED 269 505
What the Research Is Saying. Give and Take Series. Research Report 95.

ED 268 998

## (143) Reports - Research

Academic Consultation: Differences in Doctoral and Nondoctoral Training and Practice.

ED 268 453
Academic Tasks in High School Biology: A Genetics Unit. R&D Rep. 6197.

ED 269 277
Achievement Attitudes in Mathematics and Science: Relationships between Self-Perceptions, Aspirations, and Extra-Curricular Activities.

ED 269 231
Achievement Gains of Fifth Grade Pupils Taught by Teachers Using the Essentials of Instruction: A Pilot Study.

ED 269 415
Achievement of Jewish and Arab Students Who Studied Inquiry Oriented Curriculum for Several Years.

ED 269 241
Acquired Immune Deficiency Syndrome (AIDS): Psychological Impact on Health Personnel.

ED 268 396
The Acquisition of the Present Perfect: Explaining Differences in the Speech of Scottish and American Children. Frequency of Input.

ED 269 119
Addressing and Measuring Reading and Language Arts in the Content Areas.

ED 268 499
Administration of University Athletic Programs: Internal Control and Excellence. An Executive Summary.

ED 268 923
Administrator's Handbook for Improving Faculty Morale.

ED 268 663
Adult Literacy Programs: Services, Persons Served, and Volunteers. OERI Bulletin.

ED 268 387
Adult Students in Community College: Learning to Manage the Learning Process.

ED 269 113
Advance Organizer Strategy for Educable Mentally Retarded and Regular Children.

ED 268 718
Aging and Faculty Distribution of Their Work Effort. ASHE 1986 Annual Meeting Paper.

ED 268 903
Alternative Environments: Diversity among Liberal Arts Colleges.

ED 268 931
American Indian and Alaska Native Education for High Technology: A Research Strategy for Creating Culturally Based Physical Science and Mathematics Education.

ED 269 218
An Analysis of Competitive Salary Levels for Teachers in the Public Schools of the Southeast. Occasional Papers in Educational Policy Analysis. Paper No. 418.

ED 269 402
Analysis of Costs and Benefits in Rehabilitation. Final Report.

ED 268 326
An Analysis of the Uniform Student Evaluation Survey (USES).

ED 269 473
Analysis of 1984-1985 Cleveland School District Student Data with Policy and Planning Implications for Student Reading Discrepancies.

ED 269 486
Annual Report on LSCA Special Activities, FY 1984.

ED 269 013
Anorexia and Bulimia: An Inventory of Public Awareness and Popular Questions.

ED 268 472
Aphasia Syndromes and Their Recovery.

ED 268 797
Aphasic Speech Errors and Their Linguistic Interpretation.

ED 268 789
The Application of the Gestalt Theory of Learning to the Classical Music Style Periods. Learning Theories and Application.

ED 268 925
Applying L1 Theories to L2 Data: How Far Can We Go?

ED 268 798
Are Methods of Enhancing Creativity Being Taught in Teacher Education Programs as Perceived by Teacher Educators and Student Teachers?

ED 269 349
Are Teacher Perceptions of School Effectiveness Variables Correlated with Student Achievement and Student Attitudes?

ED 269 474
Articulation in Secondary and Postsecondary Occupational Education: Final Report.

ED 269 067
An Assessment of Competencies Needed by Vocational Education Administrators in Alabama with Implications for Professional Development Programs.

ED 268 312
Assessment of Teachers' Perceptions of School-Level Environment.

ED 269 229
Assessment of the Dimensionality of NAEP Year 15 Reading Data.

ED 269 420
Attitude Changes of Teachers Involved in a Project for the Improvement of Physical Science Instruction in Rural Elementary Schools.

ED 269 197
Attitudes, Behavior, and Employability.

ED 268 466
Attitudes toward School Subjects of Academically Unpredictable Elementary School Children.

ED 269 168
Audiovisual Media and the Disabled. AV in Action 1.

ED 269 007
Audiovisual Media in the Dutch Public Library. AV in Action 2.

Community College Journal for Research and Planning; Volume 4, Numbers 1-2.
ED 269 090
Comparative Analysis of Monographic Collections in Nursing.
ED 269 019
Comparing Job Placement of Vocationally Trained and Untrained Inmates While Residing at a Community Correctional Center in Florida.
ED 268 388
A Comparison of Academic Status Statistics, Fall 1981 to Fall 1983. Report 83-3.
ED 269 075
A Comparison of Alternate-Choice and True-False Item Forms Used in Classroom Examinations.
ED 269 411
A Comparison of ASCAL and LOGIST Parameter Estimation Programs.
ED 269 457
A Comparison of Item Parameter Estimates and Ability Parameter Estimates Obtained by Different Methods Implemented by BILOG.
ED 269 476
Comparison of Question-Response Feedback Interactions of Gifted Students, during the Texas Future Problem Solving Program, as an Effective Delivery System.
ED 268 714
A Comparison of the Oral Narrative Abilities between Normal and Learning-Disabled Middle School Children.
ED 268 703
A Comparison of the Receptive Discrimination Skills of Hearing Impaired and Normal Hearing College Students for English and Foreign Languages.
ED 268 717
Comparison Study of Vocational and Traditional Students on Mathematics and Science Achievement. Technical Report.
ED 268 329
Competencies Developed in Industrial Arts That Are Relevant to Post-Secondary Programs.
ED 268 315
Comprehending Psychological Defenses: Developmental Differences between Normal and Disturbed Children and Adolescents.
ED 269 166
Comprehension Strategy Importance: Effects on Remedial Readers.
ED 268 491
Computer Competencies for MLS Graduates: A Study of the UH Graduate School of Library Studies.
ED 269 033
A Computerized Implementation of a Flexilevel Test and Its Comparison with a Bayesian Computerized Adaptive Test.
ED 269 437
Computers and Language: A Look to the Future. Technical Report No. 371.
ED 268 583
Computers, Children and Classrooms: A Multisite Evaluation of the Creative Use of Microcomputers by Elementary School Children. Final Report.
ED 268 994
Computers in Schools of Southeast Texas.
ED 269 373
Conceptions of Light and Vision: From the Naive to the Expert.
ED 269 242
Congruence, Locus of Control, and Readings of English College Students--An Application of John Holland's Theory of Vocational Choice.
ED 268 357
Consequences of Public Service Budget Constraints: The Perspective of County Officials.
ED 269 186
Consulting Psychologists Perceptions of Role Boundaries and Ethical Issues.
ED 268 467
Context Variables That Affect Measures of Teacher Efficacy.
ED 269 398
Coordinated Study Individual Interview Procedures. Working Paper No. 290.
ED 269 267
Correlates of Cognitive Student Outcomes.
ED 269 458
Correlation of Social Science Students' Grade Outcome with Reading and Writing Scores.
ED 269 073
Cross Currents, A Journal of Language Teaching and Cross-Cultural Communication, Volume XII, Number 2, Spring/Summer 1986.
ED 268 802
Cross-National Study of the Structure and Level of Multidimensional Self-Concepts: An Application of Confirmatory Factor Analysis.
ED 269 429
Cultural Mistrust and Black Nationalism: Evidence of Positive Relationship.
ED 269 493
The Decline and Fall of School Finance Reform in Illinois. A Study of the Politics of School Finance: 1973-1986.
ED 268 632
Decreasing Pica by Targeting Antecedent Scavenging Behaviors.
ED 268 745
Degree of Stereotypic Responding by Hyperactive, Learning Disabled, and Unselected Children in a Computer-Controlled Task.
ED 269 156
Demographic Projections to the Year 2000 of Limited English Proficient Hispanic Accessions in the U.S. Army. ARI Research Report 1349 Revised.
ED 269 516
Demystifying the Dissertation.
ED 268 529
A Description of Teacher Decision-Making While Tutoring Fifth Grade Students Engaged in Problem Solving Using a Computer Simulation.
ED 269 390
Determination of Student Willingness to Take Afternoon Classes and Class Time Preference.
ED 269 047
Determining Perceptions of Vocational Agriculture Teachers toward Supervised Occupational Experience Programs in Tennessee. Research Report Series No. 9.
ED 268 279
A Developmental Comparison of Three Theoretical Models of the Reading-Writing Relationship.
ED 268 515
Developmental Differences in Sentence Constructivity among School Age Children.
ED 268 514
The Developmental Reading and Writing Student: A Snapshot.
ED 269 045
The Development and Coordination of Placement and Follow-up for Vocational Guidance. Final Report from September 1, 1984 to August 31, 1985.
ED 268 232
Development and Field-Test of an Instrument to Assess the Extent to Which a Vocational Educational Program Is Either Competency-Based or Conventional. Final Report from September 1, 1984 to August 31, 1985.
ED 268 231
The Development and Implementation of a Modified Language Experience Approach to a Reading Program for the Pre-Operational Child.
ED 269 132
Development of Anticipatory Visual Search in One-Year-Olds.

A Comparison of Alternate-Choice and True-False Item Forms Used in Classroom Examinations.

ED 269 411
A Comparison Study of Five Music Appreciation Textbooks. Curriculum and Program Planning.

ED 268 926
Computer Competencies for MLS Graduates: A Study of the UH Graduate School of Library Studies.

ED 269 033
A Curriculum on Obedience to Authority.

ED 268 427
Determination of Student Willingness to Take Afternoon Classes and Class Time Preference.

ED 269 047
Determining Perceptions of Vocational Agriculture Teachers toward Supervised Occupational Experience Programs in Tennessee. Research Report Series No. 9.

ED 268 279
Develop and Field Test Written and Performance Student Achievement Measures for Gardening-Groundskeeping and Landscape Operations. Final Report.

ED 268 297
Development and Field-Test of an Instrument to Assess the Extent to Which a Vocational Educational Program Is Either Competency-Based or Conventional. Final Report from September 1, 1984 to August 31, 1985.

ED 268 231
Development of the Two-Year Version of the Institutional Performance Survey.

ED 269 086
Dewey Decimal Classification Online Project: Evaluation of a Library Schedule and Index Integrated into the Subject Searching Capabilities of an Online Catalog. Final Report.

ED 269 021
Doctoral Education in Nursing: An Assessment of Quality, 1979-1984.

ED 268 942
Educational Technology. E.C.I.A. Chapter 2. Final Evaluation Report.

ED 268 948
Employment Success of Handicapped Individuals via Three Transition Strategies. Final Project Report, September 1, 1984-August 30, 1985.

ED 268 230
End-User Searching Services. SPEC Kit 122.

ED 269 022
ERIC: Online, Offline & Without Line. A Summary and a Report on the Staff Interaction Seminar [at the Institute of Education Library] (Singapore, January 18, 1986).

ED 269 035
Evaluation of the CMI Instructor Role Training Program in the Navy and Air Force. Final Report.

ED 268 982
An Evaluation of the Gifted Program at Mellon Junior High School.

ED 269 423
Faculty Articulation with Feeder High Schools and Local Employers.

ED 269 071
Fast Food Jobs. National Study of Fast Food Employment.

ED 268 368
Feasibility Study for Establishing Three Medical Record Related Programs. Research Report Series Volume XIV, No. 12.

ED 269 099
The First Six Months of a Pilot Teletext Service. The Last Five Months of a Pilot Teletext Service. Interim Results on Utilization and Attitudes. [Two Reports.]

ED 268 955
Follow-Up of 1984 Graduates. Research Report Number 44.

ED 269 079
Follow-Up Survey of Students Who Received a Degree or Certificate from Napa Valley College in the 1984-85 Academic Year.

ED 269 118
Follow-Up Survey of the Graduates of the Classes of 1979, 1981 and 1983 Conducted Spring, 1984.

ED 269 095
Formative Evaluation of "Measurement: The Difference between Perimeter and Area" and "Measurement: Dividing Regions into Subregions for Finding Area" from Math Works. Research Report 94.

ED 268 997
Freshmen Survey. Fall 1985.

ED 269 078
Generic Evaluation–An Approach to Surviving Multi-Project Evaluations.

ED 269 441
Gifted and Talented Program. Final Evaluation Report, 1984-1985. E.C.I.A. Chapter 2.

ED 268 715
Grade Repetition Study. School District #72, Campbell River, B.C. A Study of Retention/Promotion Practices and an Examination of Attitudes and Opinions towards Retention in School District #72 (Campbell River) with a View to Recommending a Retention/Promotion Policy at the Elementary Level.

ED 269 413
The Graduates of 1983 and 1973: Their Postgraduate Studies, Occupations, and Impressions of UC Davis.

ED 268 932
Home Economics Education Computer Research and Exemplary Projects: State of the Art and Supplements.

ED 268 224
Identification and Description of Barriers to the Implementation of Competency-based Vocational Education in Secondary Schools. Final Report from September 1, 1984 to August 31, 1985.

ED 268 273
Library Statistics of Colleges and Universities in the Pacific Northwest, 1984-85.

ED 269 040
Mathematics Instruction in Tokyo's and Hawaii's Junior High Schools. Final Report.

ED 269 251
Microcomputer Learning Project. Willow Creek School Division No. 28.

ED 268 985
Moonlighting, Salary, and Morale: The Texas Teachers' Story.

ED 269 374
The Oral Language Proficiency of Teachers in the United States in the 1980's–An Empirical Study. Self-Assessment of Oral Language Proficiency. Final Report.

ED 269 426
Pennsylvania School District Testing Programs.

Professor-Physically Disabled College Student Interaction: Scoring Manual.

ED 268 709
A Profile of Standardized Testing.

ED 269 410
Research Factors That Affect Skills Center Enrollment. Final Report.

ED 268 283
A Search for and Evaluation of Computer-Assisted Instructional Programs in Music for Use at Liberty Baptist College: Societal Factors Affecting Education.

ED 268 924
Strengthening Head Start Families: Reducing High Risk through Mental Health Prevention/Intervention (MHP/IP). Overview and Final Report.

ED 269 122
Student Loan Payers and Defaulters. ASHE 1986 Annual Meeting Paper.

ED 268 876
Studying Faculty Behavior: An Activity-Driven Typology. ASHE 1986 Annual Meeting Paper.

ED 268 879
A Study of Professional Development Practices of Part-Time Instructors at Selected League for Innovation Community Colleges. A League Report.

ED 269 093
Survey of Instructional Goals, Course Content and Pedagogy: A Case Study Conducted at Santa Monica College (Santa Monica, California), Spring, 1986.

ED 269 104
The Take-Up and Use of the Channel Four Television Series "A Question of Economics" by Schools and Further Education Colleges.

ED 269 289
Validity and Use of a Classroom Environment Instrument for Higher Education.

ED 269 228
Vocational Students' and Instructors' Perceptions and Usage of COS Library Services.

ED 269 074
Why I Like to Read–Statistical Analysis of Questionnaire Data.

ED 269 450

## (171) Multilingual/Bilingual Materials

Nosotros..Los mexicoamericanos, les puertorriquenos, los cubanos, y los hispanos del Caribe, Centro y Suramerica, y Espana = We...the Mexican Americans, the Puerto Ricans, the Cubans, and the Hispanos from Other Countries in the Caribbean, Central and South America, and from Spain...

ED 269 211

# Clearinghouse Number/ED Number Cross-Reference Index

This index cross-references the temporary ERIC Clearinghouse accession number to the permanent ERIC Document (ED) accession numbers by which resumes are arranged in *Resources in Education* ***(RIE)***. Readers who have only Clearinghouse numbers for a given document may use this index to trace the item to its ED number and hence to its location in ***RIE***.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.

The following Clearinghouse prefixes are used in this index:

**AA** —ERIC Processing and Reference Facility
**CE** —Adult, Career, and Vocational Education
**CG** —Counseling and Personnel Services
**CS** —Reading and Communication Skills
**EA** —Educational Management
**EC** —Handicapped and Gifted Children
**FL** —Languages and Linguistics
**HE** —Higher Education
**IR** —Information Resources
**JC** —Junior Colleges
**PS** —Elementary and Early Childhood Education
**RC** —Rural Education and Small Schools
**SE** —Science, Mathematics, and Environmental Education
**SO** —Social Studies/Social Science Education
**SP** —Teacher Education
**TM** —Tests, Measurement, and Evaluation
**UD** —Urban Education

# THESAURUS ADDITIONS AND CHANGES

The following additions and modifications have been made to the ERIC controlled vocabulary since October 1983. They are, therefore, not included in the 10th (1984) edition of the *Thesaurus of ERIC Descriptors.*

**ADAPTIVE TESTING** *Feb. 1984*
SN Testing that involves selecting test items according to the examinee's ability as shown by responses to earlier test items
UF Flexilevel Testing
Response Contingent Testing
Stradaptive Testing
Tailored Testing

**Aerobic Dance**
USE AEROBICS; DANCE

**AEROBICS** *Jun. 1984*
SN Method of achieving physical conditioning and fitness by stimulating heart (pulse rate) and lung (oxygen intake) activity through successively longer periods of vigorous exercise, thereby gradually expanding the capacity of the cardiovascular and respiratory systems

**AIR TRAFFIC CONTROL** *Jan. 1985*
SN Scheduling and monitoring the flow of air traffic at airports, during approaches, and en route

**ALTERNATIVE ENERGY SOURCES** *Oct. 1984*
SN Sources of energy other than conventional fossil fuels (petroleum, coal, natural gas) or nuclear fission/fusion (note: see also related Identifiers such as "Renewable Resources" and "Synthetic Fuels")

**ANDRAGOGY** *Mar. 1984*
SN The art and science of the facilitation of adult learning, distinguished from child-oriented "Pedagogy" in terms of learner self-direction, application of knowledge and experience, learning readiness, orientation to the present, and problem-centeredness
UF Androgogy

**AQUATIC SPORTS** *Jan. 1985*
UF Water Sports

**Arithmetic Tests**
USE ARITHMETIC; MATHEMATICS TESTS

**ASSISTIVE DEVICES (FOR DISABLED)** *Apr. 1986*
SN Devices to aid the disabled to perform normal living or vocational tasks
UF Adaptive Equipment (Disabled)
Self Help Devices (Disabled)

**BADMINTON** *Jun. 1984*

**BIBLIOGRAPHIC UTILITIES** *Apr. 1986*
SN Online library networking organizations with large bibliographic databases that are shared by participating libraries for a variety of technical purposes, including cataloging, interlibrary loans, acquisitions, and authority file control (note: see also such Identifiers as "OCLC," "Research Libraries Information Network," "Washington Library Network," and "University of Toronto Library Automation Systems")

**BIOETHICS** *Jan. 1985*
SN Discipline dealing with the moral and social implications of practices and developments in the biological sciences and medicine

**BOWLING** *Apr. 1985*
SN (note: do not confuse with the Identifiers "Lawn Bowling" and "Cricket (Sport)")
UF Tenpins

**BRAINSTORMING** *Dec. 1985*
SN Activity or technique to encourage the creative generation of ideas—usually a group process, in which group members contribute suggestions in a spontaneous, noncritical manner

**BREASTFEEDING** *Apr. 1986*

**BRITISH INFANT SCHOOLS** *Dec. 1985*
SN Lower-division schools of the British primary system for children 5 to 7 or 8, often associated with an informal, open approach to teaching and student-selected learning activities (note: coordinate non-U.S., including British, applications with geographic Identifiers)
UF Infant Schools (British Primary System)

**Budget Cuts**
USE BUDGETING; RETRENCHMENT

**BULIMIA** *Apr. 1986*
SN Disorder characterized by recurrent binge eating, usually followed by self-induced purging—attended by depressed moods and self-deprecating thoughts
UF Bulimarexia

**CARDIOPULMONARY RESUSCITATION** *Apr. 1986*
SN Procedure to restore normal breathing and heartbeat following cardiac arrest—may include mouth-to-mouth ventilation, external chest compression, and use of drugs
UF CPR (Medicine)

**Church State Separation**
USE STATE CHURCH SEPARATION

**CLIENT CHARACTERISTICS (HUMAN SERVICES)** *Oct. 1984*
SN Distinguishing traits or qualities of persons who engage the assistance of human service workers (counselors, psychologists, physicians, nurses, social workers, etc.)
UF Client Background (Human Services)

**COGNITIVE PSYCHOLOGY** *Dec. 1985*
SN Branch of psychology concerned with the nature and structure of complex "knowledge processes" (e.g., recognizing, conceiving, judging, and reasoning) and their effects on, or interactions with, behavior—particularly identified with "information processing" models of human cognition, usually simulated on computers

**COMMUNITY PSYCHOLOGY** *Apr. 1986*
SN The application of psychological methods (in collaboration with psychiatry, sociology, social work, etc.) to problems arising in a community and soluble only through a community-wide approach—attention is given to problems of mental health, social welfare, group relationships, education, social action, etc., involving the well-being of all community members

**COMPARABLE WORTH** *Jan. 1986*
SN Principle of equal pay for work of comparable value, i.e., equal pay for jobs that may have different duties but that require similar levels of skill, effort, and responsibility under similar working conditions—frequently advocated to redress sex-based pay inequities, i.e., between comparable female- and male-dominated jobs (some analyses consider race/ethnicity among job types as well)
UF Pay Equity

**Computer Programs (Del Jun84)**
USE COMPUTER SOFTWARE

**COMPUTER SOFTWARE** *Jun. 1984*
SN Logical sequences of instructions used to direct the actions of a computer system, and accompanying documentation (note: corresponds to Pubtype code 101 and should not be used except as the subject of a document—this restriction was not carried prior to Jun84 under the former term "Computer Programs"—if appropriate, use the more specific term "Courseware")
UF Computer Program Documentation
Software (Computers)

**Computerized Adaptive Testing**
USE ADAPTIVE TESTING; COMPUTER ASSISTED TESTING (Replaces "Computer Adaptive Testing" as USE Reference)

**Computerized Tailored Testing**
USE ADAPTIVE TESTING; COMPUTER ASSISTED TESTING (Replaces "Computer Tailored Testing" as USE Reference)

**Conference Skills (Communication)**
USE COMMUNICATION SKILLS

**CONSERVATISM** *Jan. 1985*
SN Philosophy or disposition that generally supports the preservation or reinstatement of traditional values and statuses in social or political affairs

**COURSEWARE** *Jun. 1984*
SN Computer software and accompanying documentation written for instructional applications (note: prior to Jun84, this concept was indexed by "Computer Programs," postings of which have since been merged to "Computer Software")
UF Instructional Software

**DATA ANALYSIS** *Jul. 1966*
SN (Scope Note Changed) Preparation of factual information items for dissemination or further treatment (includes compiling, verifying, ordering, classifying, and interpreting)

**DATA INTERPRETATION** *Jan. 1985*
SN Explanation of the meaning, implications, or limitations of factual information

**DATABASE MANAGEMENT SYSTEMS** *Apr. 1986*
SN Software used to create, organize, secure, access, and update databases
UF DBMS
File Management Systems

**DATABASE PRODUCERS** *Apr. 1986*
SN Publishers, businesses, government agencies, or other organizations that create computer-readable information files, often for public access

**DISLOCATED WORKERS** *Mar. 1984*
SN Workers who have lost their jobs because of economic and technological changes in a business or industry, e.g., plant closings or relocation, increased competition, automation, or market fluctuations
UF Disemployment
Displaced Workers

**DIVING** *Jan. 1985*
SN Plunging into water in a prescribed manner (note: do not confuse with "Underwater Diving")
UF Platform Diving
Springboard Diving
Tower Diving

**DOCUMENTATION** *Jul. 1966*
SN (Scope Note Changed) Techniques used to collect, process, organize, store, and retrieve documents (note: use "Computer Software" for computer program documentation)

**Drawing (Computerized)**
USE COMPUTER GRAPHICS

**Drawing (Freehand)**
USE FREEHAND DRAWING

**Drawing (Precision Draft)**
USE DRAFTING

**EARLY RETIREMENT** *Mar. 1984*
SN Withdrawal from one's occupation or career at an earlier age or time than is mandatory or customary

**EDUCATIONAL ASSESSMENT** *Jan. 1974*
SN (Scope Note Changed) Determining and interpreting the attainment of educational objectives (nationwide, statewide, or locally) for use in educational planning, development, policy formation, and resource allocation (note: do not confuse with "Educational Diagnosis" or "Testing")

**ELECTRONIC MAIL** *Apr. 1986*
SN The processing and delivery of printed messages (text or graphics) via telecommunications terminals
UF Computer Based Message Systems
Electronic Bulletin Boards

**ELECTRONIC PUBLISHING** *Apr. 1986*
SN Use of computers, instead of traditional print media, to produce and distribute information

**Employed Mothers**
USE EMPLOYED PARENTS; MOTHERS

**ENDANGERED SPECIES** *Oct. 1984*
SN Plants or animals in danger of extinction

**ENERGY EDUCATION** *Jan. 1985*
("Energy Education (Conservation)" deleted as USE Reference)
SN Learning/teaching activities, often interdisciplinary in nature, that focus on such topics as energy resources, conversions, conservation, forms, uses, and issues—includes both general and technical educational programs

**ENERGY MANAGEMENT** *Jan. 1986*
SN Planning, operating, and maintaining facilities and equipment for maximum energy efficiency—includes conserving energy and procuring more economical fuels

**ENGLISH FOR ACADEMIC PURPOSES** *Dec. 1985*
SN English for non-English speakers who require specialized skills in the language in order to pursue studies at the college or college-preparatory level

**ENGLISH FOR SCIENCE AND TECHNOLOGY** *Dec. 1985*
SN Specialized English for non-English speakers who are studying or working in scientific and technological fields

**ESTUARIES** *Apr. 1985*
SN Mouths of rivers, and other semi-enclosed bodies of water, that are open to the sea and within which fresh and salt water are mixed by runoff and tides

**EVALUATION PROBLEMS** *Jan. 1986*
SN Difficulties associated with the methodology, interpretation, or use of appraisals of persons, organizations, or things (note: do not confuse with "Testing Problems" and "Research Problems")

**EYE CONTACT** *Apr. 1985*
SN Direct eye-to-eye contact between individuals

**FACIAL EXPRESSIONS** *Apr. 1986*

**FAILURE TO THRIVE** *Apr. 1986*
SN Growth disorder of infants and children associated with nutritional and/or emotional deprivation—characterized by low weight gain and psychosocial retardation
UF Nonorganic Failure to Thrive

**FAMILY HISTORY** *Jan. 1985*
SN History that identifies or traces the structure, size, membership, customs, ethnicity, migration, socioeconomic status, biological characteristics, or lineal descent of a family or families

**FAMILY VIOLENCE** *Oct. 1984*
SN Injurious or abusive physical force among members of a family or household
UF Domestic Violence (Family)

**FENCING (SPORT)** *Jun. 1984*
UF Epee Fencing

**Fulfulde**
USE FULANI

**GENEALOGY** *Jan. 1985*
SN History or account of lineal descent from an ancestor or ancestors
UF Ancestral Lineage
Family Trees

**GEOTHERMAL ENERGY** *Oct. 1984*
SN Power derived from the earth's heat

**GESTALT THERAPY** *Jan. 1985*
SN Form of psychotherapy focusing on the totality of the individual's current functioning and relationships rather than on past experiences or developmental history—individual or group techniques are designed to elicit spontaneous feelings and self-awareness

**HABITUATION** *Oct. 1984*
SN Progressive decrease in responsiveness to repetitive stimuli (note: for drug habituation, use "Drug Abuse" or "Drug Addiction")

**HANDBALL** *Apr. 1985*
SN Singles or doubles game played by striking a small rubber ball against a wall or walls with the hands (note: do not confuse with "Team Handball")

**HANDICAP DISCRIMINATION** *Jun. 1984*
SN Restriction of denial of rights, privileges, and choice because of physical, mental, or sensory impairment

**HAZARDOUS MATERIALS** *Oct. 1984*
SN Ignitable, corrosive, infectious, reactive, or toxic materials that pose a present or potential threat to living things
UF Dangerous Materials

**Hazardous Wastes**
USE HAZARDOUS MATERIALS; WASTES

**HELPING RELATIONSHIP** *Nov. 1970*
SN (Scope Note Changed) Relationship characterized by the provision of assistance—helping behavior may be one-sided or reciprocal

**High Technology**
USE TECHNOLOGICAL ADVANCEMENT

**HOLIDAYS** *Oct. 1984*
SN Days set aside for commemorating historical, cultural, religious, or other special events—often marked by cessation of ordinary work or school activity (note: if appropriate, use the more specific term "Religious Holidays")

**HOME HEALTH AIDES** *May 1971*
SN (Scope Note Added) Workers who, under professional supervision, provide routine health/personal care and housekeeping services in homes of disabled, ill, or elderly clients

**HOMELESS PEOPLE** *Jan. 1986*
SN Individuals or families without permanent or fixed residences, typically living in abandoned buildings, public places, or the streets and, at times, seeking temporary shelter with public or private charities
UF Homelessness
Street People

**ICE HOCKEY** *Apr. 1985*

**Illegal Immigrants (Del Feb84)**
USE UNDOCUMENTED IMMIGRANTS

**INFERENCES** *Jan. 1985*
SN Judgments or conclusions derived from premises or evidence (note: see also such Identifiers as "Causal Inferences," "Transitive Inferences," and "Social Inferences")

**Inhalation Therapists (Del Jan85)**
USE RESPIRATORY THERAPY; THERAPISTS

**INSTRUCTIONAL MATERIAL EVALUATION** *Jun. 1984*
SN Determining the efficacy, value, etc. of any type of instructional material with respect to stated objectives, standards, or criteria (note: use as a minor Descriptor for examples of this kind of evaluation—use as a major Descriptor only as the subject of a document)

**INTERACTIVE VIDEO** *Apr. 1986*
SN Online video computing systems capable of rapid, accept-and-react communications with human operators
UF Intelligent Video

**INTERGENERATIONAL PROGRAMS** *Apr. 1986*
SN Programs that provide interaction among generational age groups, usually between older adults and younger persons

**Khmer (People)**
USE CAMBODIANS

**LANGUAGE SKILL ATTRITION** *Jan. 1985*
SN The loss of native or second language skills due to discontinued use (note: do not confuse with "Language Handicaps")
UF Language Attrition (Skills)
Language Loss (Skills)

**LATCHKEY CHILDREN** *Apr. 1986*
SN Children left alone or unsupervised before or after the school day

**LIBERALISM** *Jan. 1985*
SN Philosophy or disposition that seeks to use social and political institutions to foster human development and well-being—originally advocated freedom from government encroachment, but currently endorses government intervention when necessary to ensure individual welfare

**LIBRARY COLLECTION DEVELOPMENT** *Apr. 1985*
SN Activities related to building, maintaining, evaluating, and expanding library collections—includes user needs assessment, budget management, selection policy formation, resource sharing, and weeding (note: prior to Apr85, the instruction "Collection Development (Libraries), use Library Acquisition" was carried in the Thesaurus)
UF Collection Development (Libraries)

**LIBRARY STATISTICS** *Apr. 1985*

**LOGARITHMS** *Oct. 1984*
SN Exponents that indicate the power to which base numbers are raised to produce given numbers

**MARITIME EDUCATION** *Feb. 1984*
SN Learning/teaching activities concerned with building, operating, and navigating boats, ships, and other floating structures, as well as related harbor and dock technology

**MARXIAN ANALYSIS** *Mar. 1984*
SN Application of Marxist concepts, principles, and models in any field (e.g., educational or historical or literary criticism)
UF Marxist Criticism

**MARXISM** *Mar. 1984*
SN Body of social, economic, and political thought originating with Karl Marx and Friedrich Engels—distinguished by the labor theory of value, the principles of dialectical materialism and economic determinism, and the doctrine of revolutionary change leading to a classless society
UF Dialectical Materialism

**MATHEMATICS TESTS** *Dec. 1985*
SN Tests of ability, achievement, or aptitude in arithmetic or other aspects of mathematics
UF Number Skills Tests

**MEDIA ADAPTATION** *Jan. 1985*
SN Modification of existing information and materials to meet alternative needs
UF Educational Media Adaptation
Instructional Material Adaptation
Material Adaptation

**MENU DRIVEN SOFTWARE** *Apr. 1986*
SN User-friendly software that presents lists of options at various stages of a program sequence—from each list, a selection is made to initiate subsequent actions

**MINERALOGY** *Oct. 1984*
SN Science dealing with minerals, including their distribution, identification, and properties

**MINERALS** *Oct. 1984*
SN Solid homogeneous chemical elements or compounds, usually with characteristic crystalline properties, that result from inorganic processes of nature

**MONTE CARLO METHODS** *Mar. 1984*
SN Statistical simulation techniques using random numbers to derive probabilistic approximations to the solutions of problems—used especially for complex problems with many variables or interrelationships

**MONTESSORI METHOD** *Dec. 1985*
SN Child-centered approach to teaching, developed by Maria Montessori and most often used in the early childhood years, that features a wide range of graded, self-motivational techniques and materials specially designed to provide sensorimotor pathways to higher learning

**MULTITRAIT MULTIMETHOD TECHNIQUES** *Apr. 1985*
SN Experimental validation designs requiring the assessment of two or more traits, each by two or more methods
UF MTMM Methodology

**NATURALISTIC OBSERVATION** *Oct. 1984*
SN Observation of behaviors and events in natural settings without experimental manipulation or other interference

**NONTENURED FACULTY** *Feb. 1984*
SN Academic staff who have not received tenure (permanence of position) at their school or institution—includes those awaiting tenured appointments and those who are ineligible for tenure
UF Nontenured Teachers
Untenured Faculty

**OCEANOGRAPHY** *Mar. 1980*
SN (Scope Note Changed) Science that deals with the oceans and other large bodies of water, including their exploration, preservation, use, and interactions with air, dry land, and all life forms

**ONLINE SEARCHING** *Apr. 1985*
SN Use of an interactive communications terminal to access and retrieve information stored in a computer (note: prior to Apr85, this concept was indexed under "Online Systems" and "Information Retrieval")
UF Interactive Searching (Online)
Online Information Retrieval

**ONLINE VENDORS** *Apr. 1986*
SN Organizations that maintain databases and related software on their computer systems and sell online retrieval time to clients at multiple remote locations (note: see also such Identifiers as "DIALOG," "Bibliographic Retrieval Services," and "System Development Corporation")
UF Commercial Search Services (Online)
Database Hosts
Database Vendors
Information Utilities (Online)

**OUTLINING (DISCOURSE)** *Jan. 1985*
SN The sequential enumeration in condensed form of the main ideas and supporting details of written or spoken material

**Parenting**
USE CHILD REARING

**PARENTING SKILLS** *Oct. 1984*
SN Child rearing skills used by parents or other primary caregivers
UF Parent Skills

**PARTICIPANT OBSERVATION** *Oct. 1984*
SN Observation in which the investigator participates in the situation being studied

**PHENOMENOLOGY** *Oct. 1984*
SN Study of reality in terms of individual perceptions or conscious experiences at any moment, without external interpretation and judgment

**PHOTOJOURNALISM** *Dec. 1985*
SN The art or profession of using still photography or other pictorial copy as the primary means of presenting information on current affairs
UF Pictorial Journalism

**PIAGETIAN THEORY** *Apr. 1986*
SN Theory of children's intellectual development (postulated by Swiss developmental psychologist Jean Piaget) that describes a universal sequence of four distinct mental stages—sensorimotor, preoperational thought, concrete operations, and formal operations—through which children progress from birth to maturity

**PLATE TECTONICS** *Oct. 1984*
SN Branch of geophysics and seismology concerned with continental movements, based on the theory that the earth's surface is comprised of vast crustal blocks that float across the mantle, with seismic activity and volcanism occurring primarily along the periphery of these blocks

**POLITICAL CAMPAIGNS** *Dec. 1985*
SN Competitive efforts to win support of the voting public for candidates or ballot propositions
UF Election Campaigns

**POLITICAL CANDIDATES** *Dec. 1985*
SN Persons seeking election or appointment to public office
UF Political Nominees

**PREPOSITIONS** *Jan. 1985*

**PRESIDENTIAL CAMPAIGNS (UNITED STATES)** *Dec. 1985*
SN Competitive efforts of rival candidates for the Office of the President of the United States

**Presidential Candidates (United States)**
USE POLITICAL CANDIDATES; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

**Presidential Debates (United States)**
USE DEBATE; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

**Presidential Elections (United States)**
USE ELECTIONS; PRESIDENTIAL CAMPAIGNS (UNITED STATES)

**PROTOCOL ANALYSIS** *Dec. 1985*
SN Procedure for determining and examining sequences of activities (protocols) used to perform a task, in order to characterize the cognitive/psychological processes involved—protocols may list motor behaviors, eye movements, subjects' self-reports of their thoughts, etc.
UF Thinking Aloud Protocols

**PSYCHIATRIC AIDES** *Jan. 1969*
SN (Scope Note Added) Persons who assist in the care and treatment of mentally ill patients in psychiatric facilities, working under the direction of nursing and medical staff

**QUALITATIVE RESEARCH** *Dec. 1985*
SN Research providing detailed narrative descriptions and explanations of phenomena investigated, with lesser emphasis given to numerical quantifications—methods used to collect qualitative data include ethnographic practices such as observing and interviewing (note: use as a minor Descriptor for examples of this kind of research—use as a major Descriptor only as the subject of a document)

**QUALITY CIRCLES** *Apr. 1986*
SN Voluntary groups of individuals within an organization who meet regularly to identify, analyze, and solve work-related problems, with the goal of improving quality and productivity

**QUALITY OF WORKING LIFE** *Apr. 1986*
SN Phenomenological construct of working environments including such extrinsic aspects as pay, benefits, security, safety, production, and efficiency, and such intrinsic aspects as variety and challenge, responsibility, meaningful contribution, and recognition

**Quantitative Research (Statistics)**
USE STATISTICAL ANALYSIS

**Quantitative Tests (Del Dec85) (Mathematics)**
USE MATHEMATICS TESTS

**RACQUET SPORTS** *Jun. 1984*
UF Racket Sports

**RACQUETBALL** *Jun. 1984*

**READER TEXT RELATIONSHIP** *Dec. 1985*
SN The character or quality of the reader's involvement or connection with the material being read

**READING WRITING RELATIONSHIP** *Dec. 1985*
SN The inherent interaction between the skills or processes of reading and writing

**RELATIONSHIP** *Jul. 1966*
SN (Scope Note Changed) Type or mode of association between or among physical or conceptual entities, e.g., people, institutions, objects, ideas, processes (note: use a more specific term if possible—do not confuse with "Correlation"—prior to Mar80, the use of this term was not restricted by a Scope Note)

**RELIGIOUS HOLIDAYS** *Oct. 1984*
UF Holy Days

**RESEARCH PAPERS (STUDENTS)** *Jan. 1985*
SN Extended written exercises required of students, usually involving collection of primary or secondary data through research, and careful documentation and organization (note: do not confuse with "Theses" or "Practicum Papers")
UF Term Papers

**Research Practice Relationship**
USE RESEARCH AND DEVELOPMENT; THEORY PRACTICE RELATIONSHIP

**RESPIRATORY THERAPY** *Jan. 1985*
SN Diagnosis and treatment of cardiopulmonary deficiencies or abnormalities through the use of breathing methods and apparatus, and the administration of gases and aerosols
UF Oxygen Inhalation Therapy

**RESUMES (PERSONAL)** *Jan. 1985*
SN Summaries of individual experience and qualifications, typically submitted as part of the job application process
UF Curriculum Vitae
Vitae

**RHETORICAL INVENTION** *Dec. 1985*
SN Creativity or originality in speaking or writing—also, the process of choosing ideas appropriate to the subject, audience, and occasion for either oral or written presentation

**ROBOTICS** *Mar. 1984*
SN Study, design, and use of robots, mechanical devices that can be programed to perform tasks of manipulation and locomotion under automatic control
UF Industrial Robotics
Robots

**ROLE OF EDUCATION** *Jan. 1985*
SN Functions of education, real or expected, in regard to the individual and the society at large (note: use a more precise term if possible)
UF Education Role
(Former USE Reference "Educational Role" was deleted)

**SAILING** *Jan. 1985*

**SCIENTIFIC AND TECHNICAL INFORMATION** *Apr. 1985*
SN The body of information resulting from the study and technological application of natural scientific phenomena (note: use only when such information is the subject—do not use to classify items as scientific and/or technical)
UF Science Information

Scientific Information
Technical Information
Technological Information

**SMALL ENGINE MECHANICS** *Mar. 1984*
SN Assembly, operation, and repair of reciprocating internal-combustion engines used on lawnmowers, garden tractors, chain saws, and other portable power equipment—small engines are generally air-cooled and under 20 horsepower

**STATISTICAL INFERENCE** *Jan. 1986*
SN The computation or prediction of statistics for a collective or whole (population) on the basis of a sample

**STUDENT TEACHER ATTITUDES** *Jun. 1984*
SN Attitudes of, not toward, student teachers

**STUDENT TEACHER EVALUATION** *Dec. 1985*
SN Judging performances of student teachers based on established criteria

**Student Teacher Ratio (Del Dec84)**
USE TEACHER STUDENT RATIO

**Student Teacher Relationship (Del Dec84)**
USE TEACHER STUDENT RELATIONSHIP

**SUGGESTOPEDIA** *Jan. 1985*
SN Method of teaching, developed by Georgi Lozanov, in which relaxed concentration is combined with synchronized music and rhythmic presentation to tap the unconscious reserves of the mind and thereby accelerate learning—originally applied in language courses, but since expanded to a variety of learning tasks
UF Lozanov Method

**Supervised Occupational Experience (Agriculture)**
USE SUPERVISED FARM PRACTICE

**SURFING** *Jan. 1985*

**SURGICAL TECHNICIANS** *Jul. 1966*
SN (Scope Note Added) Technical assistants on a surgical team who arrange supplies and instruments in the operating room, maintain antiseptic conditions, prepare patients for surgery, and assist surgeons during the operation

**TABLE TENNIS** *Apr. 1985*
UF Ping Pong

**TEACHER STUDENT RATIO** *Dec. 1984*

**TEACHER STUDENT RELATIONSHIP** *Dec. 1984*
UF Student Teacher Interaction
Teacher Student Interaction

**TEAM HANDBALL** *Apr. 1985*
SN Team sport played on a rectangular floor (court) whose object is to dribble and pass an inflated ball with the hands so as to throw it into a netted, floor-level end goal

**TEAM SPORTS** *Jun. 1984*

**TERRORISM** *Oct. 1984*
SN Threat or use of violence against a population or government to achieve social or political ends

**THEMATIC APPROACH** *Dec. 1969*
SN (Scope Note Changed) Teaching approach that organizes subject matter around unifying themes

**THEORY PRACTICE RELATIONSHIP** *Dec. 1985*
SN The association between knowledge/understanding and action/application

**TODDLERS** *Oct. 1984*
SN Approximately 1–3 years of age

**TRUST (PSYCHOLOGY)** *Dec. 1985*
SN Assured reliance in the character, ability, strength, or truth of some person, group, institution, idea, or thing

**UNDERWATER DIVING** *Jan. 1985*
UF Deep Sea Diving
Scuba Diving
Skin Diving

**UNDOCUMENTED IMMIGRANTS** *Feb. 1984*
SN Persons residing in a foreign country without proper authorization, having entered that country by unlawful means or having violated the provisions of their visas
UF Alien Illegality
Illegal Aliens
Immigrant Illegality

**Undocumented Workers**
USE FOREIGN WORKERS; UNDOCUMENTED IMMIGRANTS

**VIDEODISC RECORDINGS** *Jan. 1979*
SN (Scope Note Changed) Magnetic, capacitive, or optical (laser) discs on which are recorded video signals (with or without accompanying sound) for play back on a television monitor or screen

**VOCATIONAL ENGLISH (SECOND LANGUAGE)** *Dec. 1985*
SN Specialized English for non-English speakers preparing for or working in skilled, semiskilled, paraprofessional, or technical occupations

**WATER POLO** *Jan. 1985*

**WORD PROBLEMS (MATHEMATICS)** *Jan. 1986*
SN Mathematical problems expressed in narrative form—answered by conversion of the circumstances to equivalent computations or equations, which can be solved arithmetically, algebraically, or with symbolic logic
UF Story Problems (Mathematics)

**WRITING LABORATORIES** *Dec. 1985*
SN Facilities specifically designed for developing and improving writing/composition skills, ranging from areas within classrooms to separate, specially staffed centers
UF Writing Centers

Revised April 1986

# GENERAL INFORMATION

**1. PRICE LIST**
The prices set forth herein may be changed without notice; however, any price change will be subject to the approval of the Contracting Officer/USED/Office of Educational Research & Improvement/Contracts and Grants Management Division.

**2. PAYMENT**
The prices set forth herein do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to CMC.

**3. REPRODUCTION**
Express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

**4. CONTINGENCIES**
CMC shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure of delay (a) is due to events beyond the control of CMC including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments; (b) is due to failures of performances of subcontractors beyond CMC's control and without negligence on the part of CMC; or (c) is due to erroneous or incomplete information furnished by Customer.

**5. LIABILITY**
CMC's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall CMC be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

**6. WARRANTY**
CMC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

**7. QUALITY**
CMC will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of CMC. Best available copy will be supplied.

**8. CHANGES**
No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of CMC.

**9. DEFAULT AND WAIVER**
a. If Customer fails with respect to this or any other agreement with CMC to pay any invoice when due or to accept any shipment as ordered, CMC may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of CMC in exercising any right hereunder shall waive any rights of CMC or modify this Agreement.

**10. GOVERNING LAW**
This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

**11. DEPOSIT ACCOUNTS**
Customers who have a continuing need for ERIC documents may open a Deposit account by depositing a minimum of $250.00. Once a deposit accounts is opened, ERIC documents will be sent upon request, and the account charged for the actual cost and postage. A monthly statement of the account will be furnished.

**12. STANDING ORDER ACCOUNTS**
Customers who desire to receive microfiche copies of all ERIC reports announced in each issue of **Resources in Education** may do so by depositing $1,600.00 or submitting an executed purchase order. The cost of each issue and postage will be charged against the account. A monthly statement of the account will be furnished.

**13. PAPER COPY (PC)**
A paper copy (PC) is a xerographic reproduction, on paper, of the original document. Each paper copy has a Vellum Bristol cover to identify and protect the document.

**14. FOREIGN POSTAGE**
Postage for all countries other than the United States is based on the international Postage Rates in effect at the time the order is shipped. To determine postage allow 160 microfiche or 75 (PC) pages per pound. Customers must specify the exact classification of mail desired, and include the postage for that classification with their order. Payment must be in United States funds.

## OTHER ERIC COLLECTIONS AVAILABLE FROM EDRS

### STANDING ORDERS

Subscription orders for microfiche copies of all ERIC reports announced in each issue of **Resources in Education** average $130.00 per month.

### BACK COLLECTIONS (Postage extra) 0.075/fiche

# Dialog Information Services, Inc.

# DIALORDER℠ SERVICE

## SCOPE OF SERVICE

EDRS supplies only the ED-numbered items in the ERIC database. ERIC ED-numbered documents have three levels of availability: 1) Document available in **both** microfiche (MF) and paper copy (PC) form, 2) Document available only in MF form, or 3) Document not available from EDRS. The prices and level are shown with each ED record in the ERIC database.

.ORDER ERIC **must** include document form desired (MF or PC) as special instructions.

The "ship to" and "bill to" address will be supplied by DIALOG. Requests for an address other than those with your DIALOG account must be supplied as special instructions. EDRS service is worldwide.

## OPTIONS AVAILABLE

Order is shipped 48 hours after receipt of order. Type of delivery should be requested, e.g., airmail, United Parcel Service, Federal Express, etc. All shipments are F.O.B. Alexandria, Virginia.

## CHARGES AND TERMS

Cost of document either in MF or PC is contained in ED record abstract data. Add $.50 per document ordered plus postage. Payment upon receipt of invoice in U.S. funds only.

Deposit accounts desired.

All postage charges are F.O.B. Alexandria, Virginia, and will be billed on invoice.

## MISCELLANEOUS

Supplier will retrieve orders daily from the DIALOG DIALORDER Service. No payments necessary to CCC.

## CONTACT

Once an order has been retrieved by EDRS and a date and time appear in the .LIST TRANSMITTED column, all questions concerning the order should be directed to:

EDRS
3900 Wheeler Avenue
Alexandria, VA 22304

Telephone: 1-800-227-3742
703-823-0500 (in Virginia)

— see ordering procedures on verso —

Only ERIC report documents (i.e., ED numbered items only) are supplied by the ERIC Document Reproduction Service. To be sure that you are requesting only publications that are available from EDRS, the following procedures are recommended:

```
1——→ ? BEGIN 1
                1nov79 20:12:12 User3476

    LOGOFF 20:16:21
```

1. BEGIN I in the ERIC file.

2. Enter accession numbers for which full document copies are requested; or perform search according to normal DIALOG procedures, KEEPing records in set 99 (DIALOG 1) or set 0 (DIALOG 2) for order. Be sure to check first whether the document is available from EDRS. (This information is given in each ERIC ED-numbered record.)

3. TYPE set 99 in a short format to view for accuracy. Delete unwanted items using KEEP-EDnnnnnn if necessary. (When using DIALOG Version 2, the KEEP set is 0. TYPE 0/611-4.)

4. Enter .ORDER ERIC (MF or PC) (number of copies) (special shipping instructions, if any). **All ERIC orders must include an indication of MF or PC.** The period (.) preceding the ORDER command is optional on DIALOG Version 2.)

# System Development Corporation (SDC)

## ORDER ERIC

Reports from the *Resources in Education (RIE)* portion of the ERIC database, available from the ERIC Document Reproduction Service (EDRS), are available through the ORBDOC[tm] Online Ordering Service. The ONLINE ERIC Command can be used to order these documents. (Documents indexed in *Current Index to Journals in Education (CIJE)* can be ordered through University Microfilms. See ORDER UMI.)

Here are important details for using ORDER ERIC:

- **Deposit Account.** A deposit account is not required but users may establish one through EDRS at the address given below.

- **Ordering and Shipping Information.** Include the following:
  - Deposit Account Number (if established) or
  - Billing information (if deposit account is not used): name, organization and complete address.
  - Ship to: same as billing information, or name, organization, and complete address. ERIC EDRS ships microfiche documents via airmail. Paper copies are shipped via United Parcel Service. If special shipping is required, indicate on one line, e.g. SHIP VIA: UPS BLUE LABEL.
  - Purchase Order Number (optional). Enter MY P.O. NUMBER IS: and the number.

- **Document Information.** Include the following on one line:
  - Accession Number (ED Number) (See Order UMI for articles [EJ Number] from CIJE).
  - Document form, i.e. MF for microfiche, HC for hard copy.
  - Number of copies.

- **Rates.** Prices of documents are indicated in the Availability (AV) field of ERIC citations or unit records.

EDRS checks its ORBDOC Online Ordering Service for ORDER ERIC each day and most orders are filled within 48 hours of receipt.

The key contact for this service at ERIC is:

# ERICTAPES ERICTOOLS

## HAVE A COMPUTER?

## LOOK AT ERICTAPES!

The Educational Resources Information Center (ERIC) data base is available on magnetic tape in a variety of options from ORI, Inc. Under special authorization from the U.S. Department of Education, these tapes are offered at unusually low cost to encourage the widest possible dissemination.

The ERIC data base provides coverage of the significant literature in the field of educational resources. Report literature (announced in *Resources in Education*) is covered from 1966 to date, and journal article literature (announced in *Current Index to Journals in Education*) is covered from 1969. Monthly, quarterly, and annual updates are available for both *RIE* and *CIJE*, so that the files may be kept current.

The basic files are available in the ERIC (IBM 360 OS) Format. These files include the complete resume, (document description, indexing, and abstract or annotation) of each document announced in the respective journal, in accession number order. A variety of peripheral files, including Postings Files (inverted subject and source indexes) and the Thesaurus (controlled indexing vocabulary) are also available on magnetic tape, and almost any segment of the master files is obtainable on Special Order.

The files may be purchased individually or as a collection, and substantial discounts are available on annual subscriptions for updates. The files are written on new, high-quality, 9-track tapes (600-1200, or 2400-ft., as appropriate) at either 1600 or 800 BPI and are guaranteed. Prices per tape reel start as low as $75.

## NO COMPUTER?

## LOOK AT ERICTOOLS!

For organizations without access to a computer,* ERICTOOLS provide manual multi-viewpoint access to the ERIC document collection. ERICTOOLS are a series of printed indexes, directories, and cross-reference lists, distributed internally to components of the ERIC network. The *Title Index* provides access by document title. The *Source Directory* provides access to all organizational names used in the system, i.e., corporate authors and sponsoring agencies. Cross-reference lists lead the inquirer to the accession number (ED number) from: Report Number; Contract Number; and Clearinghouse Accession Number.

The documents are available individually and on annual subscription at a discounted price. Prices start from as low as $20 for some individual documents.

*Many of these documents are also valuable tools for computer searchers.

**REPRODUCTION RELEASE** (Specific Document)

## I. DOCUMENT IDENTIFICATION

Title: _____

_____

Author(s): _____

Corporate Source (if appropriate): _____

_____ Publication Date: _____

## II. REPRODUCTION RELEASE

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche and paper copy (or microfiche only) and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce the identified document, please CHECK ONE of the options and sign the release below.

CHECK HERE ➧ ☐ Microfiche (4" x 6" film) and paper copy (8½" x 11") reproduction

"PERMISSION TO REPRODUCE THIS MATERIAL HAS BEEN GRANTED BY

[PERSONAL NAME OR ORGANIZATION.

AS APPROPRIATE]

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)."

OR ☐ Microfiche (4" x 6" film) reproduction only

"PERMISSION TO REPRODUCE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

[PERSONAL NAME OR ORGANIZATION.

AS APPROPRIATE]

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)."

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed in both microfiche and paper copy.

SIGN HERE ➧

"I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce this document as indicated above. Reproduction from the ERIC microfiche by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction of microfiche by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries."

Signature: _____ Printed Name: _____

Organization: _____

Address: _____ Tel. No.: _____

_____ Zip Code: _____ Date: _____

## III. DOCUMENT AVAILABILITY INFORMATION (Non-ERIC Source)

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents which cannot be made available through EDRS.)

Publisher/Distributor: _____

Address: _____

_____

Price Per Copy: _____ Quantity Price: _____

## IV. REFERRAL TO COPYRIGHT/REPRODUCTION RIGHTS HOLDER

If the right to grant reproduction release is held by someone other than the addressee, please provide the appropriate name and address:

# ERIC Network Components

There are currently sixteen (16) ERIC Clearinghouses, each responsible for a major area of the field of education. Clearinghouses acquire, select, catalog, abstract, and index the documents announced in *Resources in Education (RIE)*. They also prepare interpretive summaries and annotated bibliographies dealing with high interest topics and based on the documents analyzed for *RIE;* these information analysis products are also announced in *Resources in Education.*
